AGENDA

POLICY

- Policy 237 - [Electronic Devices](#)
 - To keep pace with technology used in educational settings, revisions to this policy provide an updated definition and additional options for school entities that allow students to use electronic devices during the school day in approved locations for educational purposes.
 - The off-campus activities section of this policy was removed. (School administrators are directed to Policy 218 Student Discipline when considering consequences for a student's conduct).
 - Language and references to telephone paging devices were removed from this policy since the section of the PA School Code that prohibited such devices specifically was repealed (24 P.S. Sec. 1317.1), and the policy more broadly addresses all types of electronic devices.
 - This policy is recommended for legal liability purposes.

*Committee Meetings for 2023 will be determined
at the Reorganization Meeting of the School Board in December*
