

# TOOLS WITHIN ARTICLES

When reading articles within your classes, there are tools available to help you understand your reading.

They include:

- **Look up a word:** Highlight a word then click the book button. This will provide you the definition
- **Take a Note:** While reading you can insert a virtual post-it note into the text
- **Highlighter:** Highlight what you want to mark then click the pen button
- **Text to Speech Reader:** Clicking the headphones will read the text to you.
