Words Of Encouragement!!

If you don't come to school it's on you.

If you don't want to get your education and succeed in life then that's your choice.

Student Quotes!!

" I think I laugh more than I work!"

" The wonderful teachers motivated me to strive for success!"

" I learned to have more faith in myself!"

" You really teach in this class!"

Welcome To Oriskany Alternative High School!!

Teachers:

Mrs. Mazza
Ms. Donino
Ms. Buono
Mrs. Lowell

PROGRAM DESCRIPTION

Go to school and get your education! Oriskany Alternative High School is a very successful program if you put the effort in it to succeed. Being here in this situation is not what you or anyone wants but you can make something out of the "Negative" and turn it to something "Positive" by coming to school and getting your diploma. The class has the same subject as a regular school: ELA, Math, Social Studies, and Science. You have to follow all the class room rules if you want to come to school. Always be professional when you're in class, and don't talk about anything that is not school related. In class we work as a team, problem solve and over come challenges.

What Do We Do!!

We are very innovative in the Oriskany Alternative High School!! We cover all the subjects as in a regular school. In this school we do things such as research careers and share the research in a career spotlight, and make help wanted ads on our career.

The subjects are English Language Arts, Mathematics, Social Studies, and Science. We play educational games such as Kahoot in math. We watch videos on discovery education to investigate science topics. We watch educational videos on teacher tube in social studies. In English Language Arts we read a book and at the end of each entry or chapter we pick out positive character traits and relate it to the text.

WHAT YOU GET

- You get your HSED when you pass the TASC.

- You get to learn about the job/careers that you want.

- When getting your HSED you can go home and go to college, vocational classes and programs
