May 17, 2016

Dear Parents/Guardians,

New York State Law Section 2164 requires students entering 12<sup>th</sup> grade to receive an adequate dose or doses of vaccine against meningococcal disease.

A meningococcal vaccine or booster is **required for all** students' ages **16-18 years** prior to the first day of school in September 2016 in order to attend school.

Please see your health care provider as soon as possible to ensure your child has all the required immunizations as required by New York State. Immunization clinics can be utilized to obtain this vaccine. The Orange County Health Department can be contacted for assistance at (845) 291-2330. A listing of the clinic dates are enclosed for your convenience.

Medical documentation can be faxed to the Chester Academy Health Office at (845) 469-6634. Proof of immunizations **must** be provided **before** the first day of school on September 6, 2016.

Thank you for your attention to these new immunization requirements.

Sincerely,

Denis Petrilak
