

Little Medical School STEM Class Wilderness Medicine School!

LMS offers STEM activity-based classes where we strive to inspire the next generation of Healthcare Heroes!
We are offering a new 6-week class beginning in September.

Students will explore some of the dangers in the wild such as bug bites, snake bites, and poisonous plants. These future emergency medics will learn how to splint a broken leg, tie a tourniquet, filter dirty water, the effects of hypothermia and 20 ways to use a bandana in emergencies.
