CAPACITY, UTILIZATION  
& BUILDING AGE

CLOSING & QUESTIONS

# Master Plan Team

## **Chief Operations Officer (Interim)**

Michael McNamara

## **Director of Facilities**

Stephen Connell

## **Assistant Director of Facilities, Design and Planning**

Damian Link

# Master Plan Goals

- Provide 21<sup>st</sup> Century Learning Environments
- Provide air conditioning in every building
- Eliminate demountable structures
- Optimize building utilization
- Remove hazardous materials
- Increase efficiency through energy savings projects
- Bring all buildings up to condition standards and educational adequacy
- Maximize capital spending

# Master Plan Components

# Master Plan Components

---

**Facilities Master Plan:** A compilation of facility assessments that include the Facilities Condition Index (FCI), and Education Adequacy Index (EAI), Building Capacity and Utilization data, Building Information, and historical Capital Construction, Facility Maintenance, and Operational cost data that inform a Facilities Master Plan with the goal of long-term infrastructure improvement recommendations in a 10-year budget plan .

## Building Assessments:

- **Facilities Condition Index:** The Facility Condition Index (FCI) is a standard facility management benchmark that is used to objectively assess the current and projected physical condition of a building asset.
- **Educational Adequacy Index:** The Educational Adequacy Index (EAI) is an evaluation of how well each school building meets the requirements of the current instructional curriculum.

# Master Plan Components

## Building Analysis:

- **Capacity:** Capacity is the number of students a school building can accommodate.
- **Enrollment:** Number of students attending the school
- **Utilization = Enrollment/Capacity:** Utilization is a measure of the school enrollment compared to the overall capacity of the school.

## Building Information:

- **Building Age:** The age of the school buildings since their original construction.
- **Functional Age:** A measure of the time since the school buildings most recent major renovation.
- **Building Size:** Total building square footage, number of stories, and site area

# Master Plan Components

## Building Cost Data:

- **Cost Data:** Building facility costs include operational costs (utilities etc.), maintenance and repair costs, and capital improvement costs including major maintenance items (roofs, windows, HVAC, etc.)

## Master Plan Budget:

- **10-Year Facilities Master Plan Budget:** The 10-Year Facilities Master Plan Budget is a document that contains all of the recommended Facilities Capital Improvement Projects, separated by building, over the next 10 years that bring the buildings up to an acceptable FCI and EAI score.

# Facilities Condition Index (FCI)

# Data Driven Analysis of District Facilities: FCI

- Use a data driven analysis of the facilities throughout the District
  - Using industry standards - develop a Facility Condition Index (FCI) for each facility
    - ***The Facility Condition Index is a standard measure for evaluating the condition of facility-related assets. This index provides a method to evaluate the cost of necessary maintenance, repairs, and/or replacement of various building systems against the current replacement cost of the facility.***
    - With this method, each facility and its assets within the School District can be evaluated and compared against one another regardless of their size or complexity.
- Using FCI methodology, complete the following:
  - ☐ View each facility as a “sum of parts”
  - ☐ Rate the existing condition of each part of the facility
  - ☐ By system, evaluate the “cost of necessary maintenance, repairs, and/or replacement” as a function of the current replacement cost of the facility

# Rating each System

| Rating | Rating Description   |
|--------|--|
| 1      | <b><u>Item is Failing</u></b> ; broken; at the end of its useful life; it's outdated and requires complete replacement             |
| 2      | <b><u>Poor Condition</u></b> ; deficiencies are widespread and major in nature; capital investment is needed in the very near term |
| 3      | <b><u>Fair Condition</u></b> ; deficiencies are moderate in nature; capital investment in the near term may be needed              |
| 4      | <b><u>Good Condition</u></b> ; deficiencies are localized and minor in nature; no immediate capital investment needed              |
| 5      | <b><u>Like New Condition</u></b> ; item requires general maintenance only; no immediate capital investment needed                  |

(Building Analysis FCI %) + (Additional Factors FCI %) = **FACILITY CONDITION INDEX (FCI): 7.76%**

## Facility Condition

### Facility Condition % Scale

FCI =  $\frac{\text{Cost to Maintain and Upgrade the Facility to Good Condition}}{\text{Cost to Tear Down and Replace the Facility}}$

| FCI Range  | Category             | Description  |
|------------|----------------------|--|
| 0% to 15%  | General Maintenance  | Is the ongoing maintenance and upkeep of a building extending its useful life  |
| 16% to 30% | Minor Renovations    | Includes selective upgrades of some systems or building components. It may also include some minor reconfiguration of interior spaces  |
| 31% to 60% | Moderate Renovations | This <u>could</u> include replacement or upgrades to building components and some interior reconfiguration of space to support educational programs  |
| 61% to 80% | Major Renovations    | This <u>would</u> include replacement or upgrades to building components and interior reconfiguration of space to support educational programs. Having undergone a major renovation, an existing building would be comparable to a new building. |
| 81% and Up | Replace Building     | Entails building a new facility either on the same site or at a new location   |

Expect great things.

# Facilities Condition Index (FCI)

| FCI Range  | Category             | Description  |
|------------|----------------------|--|
| 0% to 15%  | General Maintenance  | Is the ongoing maintainance and upkeep of a building extending its useful life   |
| 16% to 30% | Minor Renovations    | Includes selective upgrades of some systems or building components. It may also include some minor reconfiguration of interior spaces  |
| 31% to 60% | Moderate Renovations | This <u>could</u> include replacement or upgrades to building components and some interior reconfiguration of space to support educational programs  |
| 61% to 80% | Major Renovations    | This <u>would</u> include replacement or upgrades to building components and interior reconfiguration of space to support educational programs. Having undergone a major renovation, an existing building would be comparable to a new building. |
| 81% and Up | Replace Building     | Entails building a new facility either on the same site or at a new location   |

**Facility Condition % Scale**

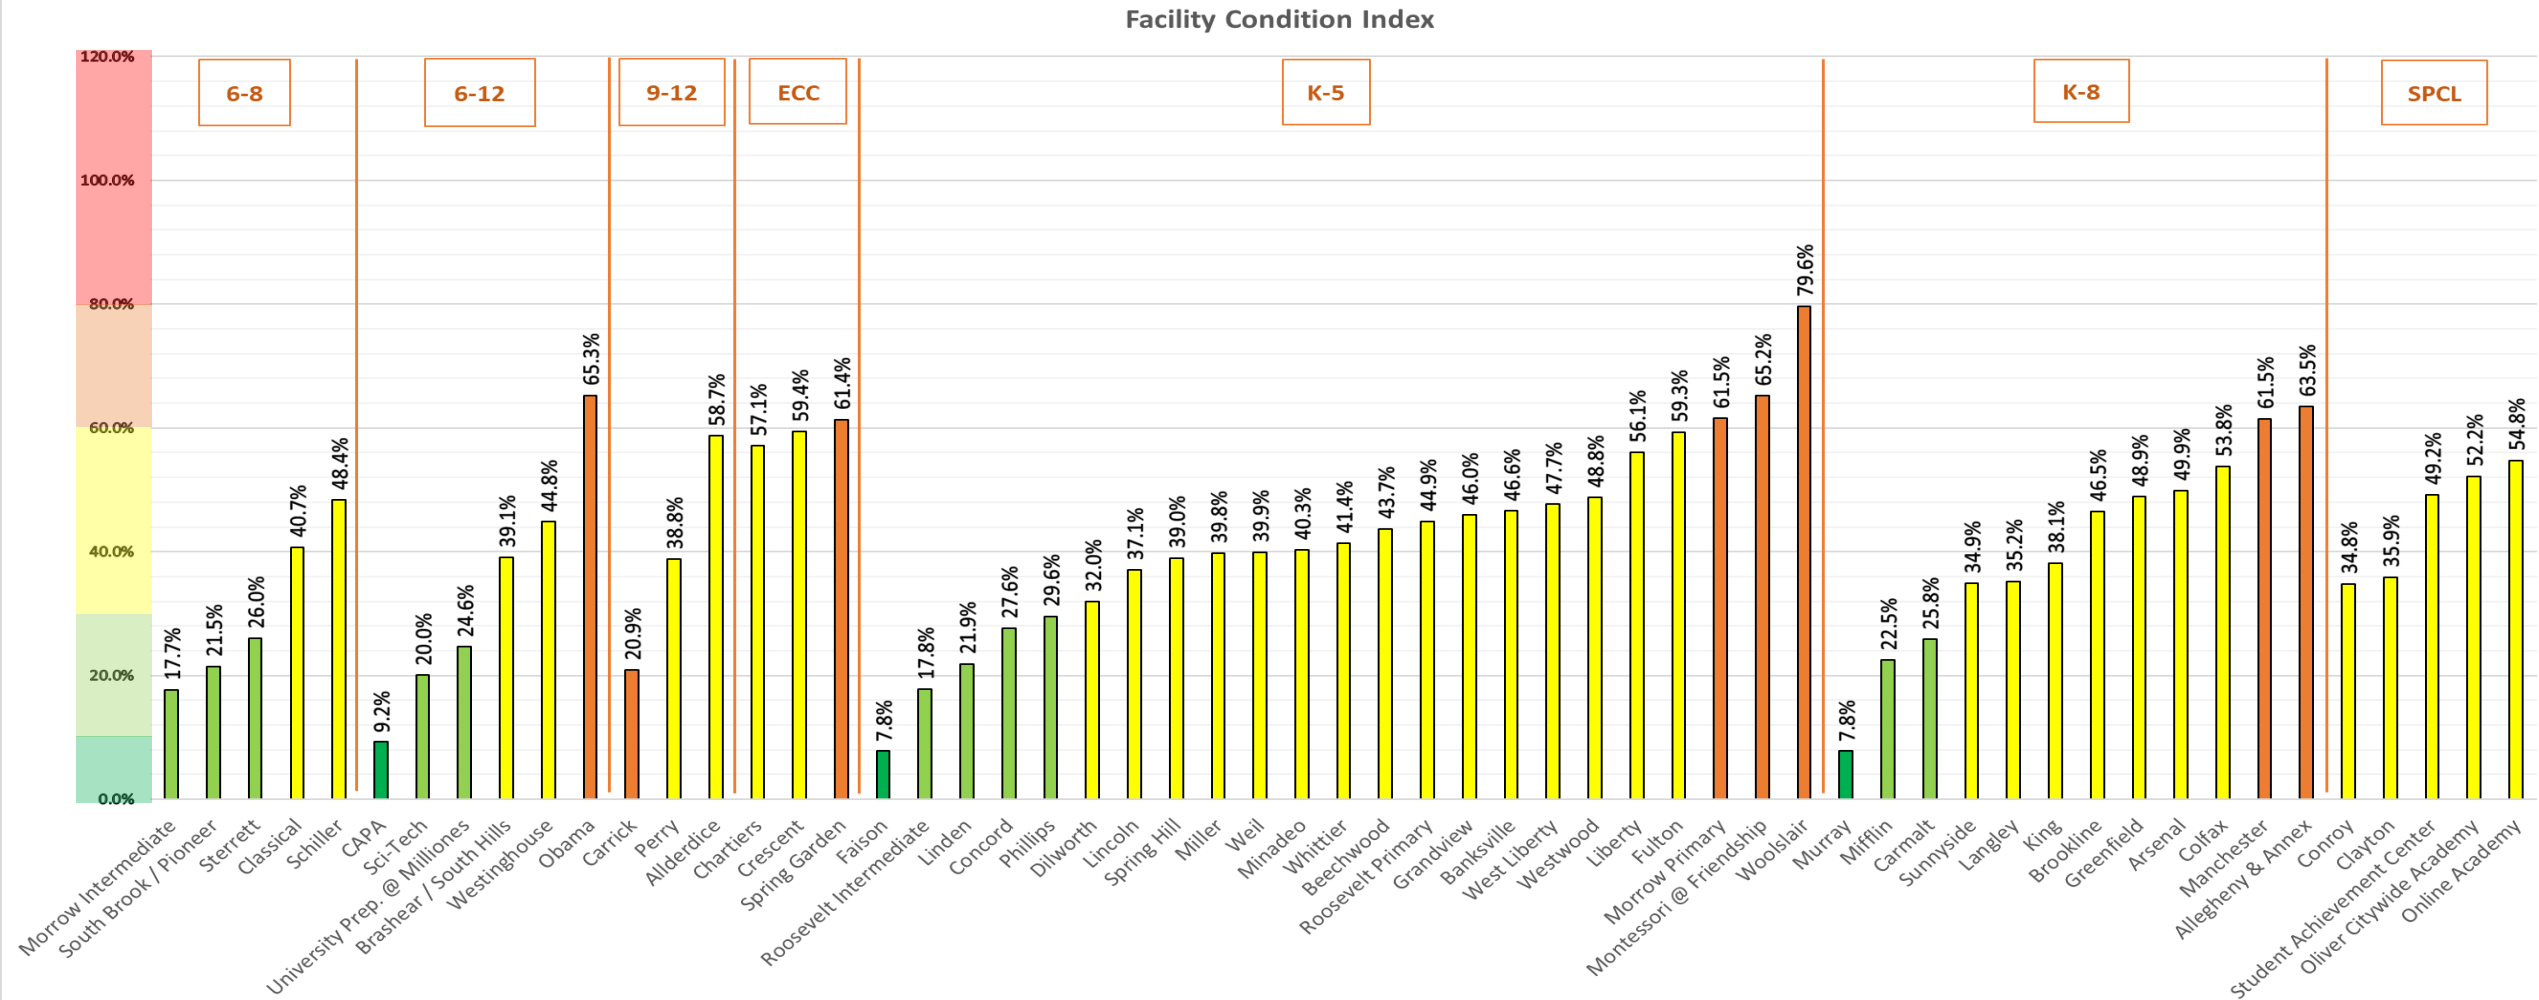

$$(\text{Building Analysis FCI \%}) + (\text{Additional Factors FCI \%}) = \text{FACILITY CONDITION INDEX (FCI): } \boxed{7.76\%}$$

# FCI District Overview (End of 2017)

| Grade Level ▼ | Max ▼ | Average ▼ | Min ▼ |
|---------------|-------|-----------|-------|
| District      | 79.6% | 41.1%     | 7.8%  |
| K-5           | 79.6% | 42.3%     | 7.8%  |
| K-8           | 63.5% | 39.9%     | 7.8%  |
| 6-8           | 49.9% | 34.0%     | 17.7% |
| 6-12          | 65.3% | 33.8%     | 9.2%  |
| 9-12          | 58.7% | 39.5%     | 20.9% |
| ECC           | 61.4% | 59.3%     | 57.1% |
| SPCL          | 54.8% | 45.4%     | 34.8% |

# FCI District Overview (End of 2017)

# Educational Adequacy Index (EAI)

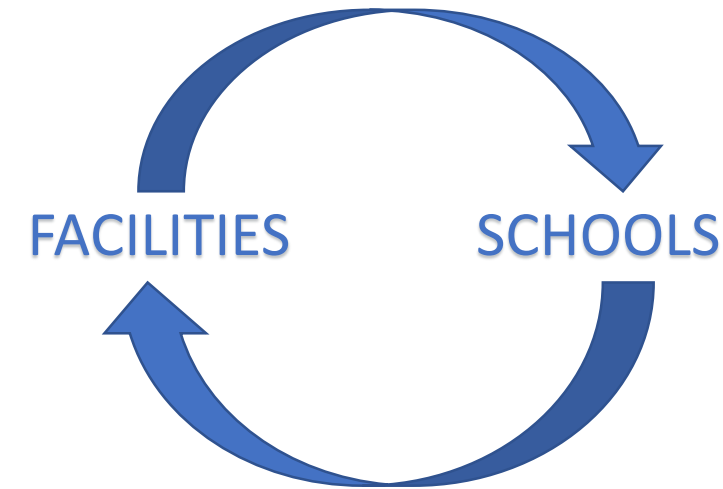

# Data Driven Analysis of District Facilities: EAI

- Develop a data driven analysis of the facilities throughout the District
  - Measure how well the school buildings accommodate a 21<sup>st</sup> century educational program
    - ***Educational Adequacy Index: The Educational Adequacy Index (EAI) is an evaluation of how well each school building is able to meet the requirements of the current instructional curriculum. The Index measures whether or not the school building contains the appropriate grade-level educational, administrative, support and other spaces as compared to an established standard program of school spaces, and how well the existing spaces meet the instructional needs with regards to size, service areas, technology and equipment.***
    - With this method, each facility and its assets within the School District are evaluated and compared against an 'ideal school facility'.

# EAI Process

## Process Steps

- Facilities proposed draft standard school programs of each grade-level configuration
- EAI concepts reviewed at network meeting & solicited input and participation
- School standards finalized with grade-level focus groups and program specialists
- Created and distributed building survey to principals for ratings of their schools
- Developed scoring system to compare buildings with the standard to define individual school Educational Adequacy Index
- Reviewed scoring system and individual building ratings with principals at the network meetings to verify scoring & weighting of points
- Facilities department verification and updating of information received in surveys
- EAI ratings incorporated into building assessment for Master Planning

# EAI Process

## Establish Standards

- Develop standards for an “ideal school facility” for the main school types
  1. Early Childhood, EC: Pre-Kindergarten
  2. Primary, P: Elementary school grades Kindergarten to 5
  3. Intermediate, I: Middle school grades 6 to 8
  4. Secondary, S: High School grades 9 to 12
  5. Special, SPCL: Unique programs and schools are evaluated on an individual basis
- School program was developed and reviewed with focus groups of principals from each school type as well as the directors for programs such as art, science, and athletics. A standard room schedule was developed from the information received in these sessions

# EAI Process

## Room Schedule

- Room schedule lists the types and numbers of rooms and spaces in a school necessary to deliver the grade level specific educational program and can be developed into the educational specifications for construction of a school facility.

## Major School Program Areas

- General Educational (EC,P,I,S)
- Special Educational (P,I,S)
- Library/Media Center (P,I,S)
- Physical Education (P,I,S)
- Theater/Performing Arts (I,S)
- Food Service (EC,P,I,S)
- Student Services (EC,P,I,S)
- Instructional Support (EC,P,I,S)
- Administrative (EC,P,I,S)
- Custodial (EC,P,I,S)
- Building Services (EC,P,I,S)
- Outdoor Spaces (EC,P,I,S)

Room/Space List

### II. PRIMARY SCHOOLS:

#### 1. Room/Space List

##### Educational Spaces

Pre-K See EC for space requirements  
P-ES1 Kindergarten Room  
P-ES1.1 Toilet  
P-ES1.2 Storage room  
P-ES2 Elementary Classroom  
P-ES3 Science Classroom  
P-ES3.1 Storage  
P-ES4 Art Classroom  
P-ES4.1 Storage  
P-ES4.2 Kiln room  
P-ES5 General Music Classroom, Vocal & Instrumental  
P-ES6 Specialized Music Instruction, Instrumental  
P-ES6.1 Instrument Storage  
P-ES7 Computer Lab  
P-ES8 STEM Lab  
P-ES9 Small Group Instruction  
P-ES10 Activity Room  
P-ES11 Project Room

##### Special Education Spaces

P-SE1 Standard Special Education Classroom  
P-SE2 Small Special Education Classroom  
P-SE3 Workroom/Conference  
P-SE4 Restroom/Shower  
P-SE5 Life Skills  
P-SE6 Resource Room

Facility Standards  
School District of Pittsburgh  
DRAFT  
Room/Space List

##### Media Center

P-MC1 Library  
P-MC2 Workroom/Storage

##### Physical Education/Multi-Purpose Space

P-PE1 Gymnasium/Auditorium  
P-PE1.1 Stage  
P-PE1.2 Stage Storage  
P-PE2 Physical Education Instructor  
P-PE3 Gym Storage

##### Food Service

P-FS1 Student Dining  
P-FS1.1 Stage  
P-FS1.2 Stage Storage  
P-FS2 Food Preparation  
P-FS3 Serving Area  
P-FS4 Dry Food Storage  
P-FS5 Cooler/Freezer  
P-FS6 Office  
P-FS7 Restroom/Locker Room  
P-FS8 Receiving

##### Student Services

P-SS1 Nurse's Suite  
P-SS1.1 Office  
P-SS1.2 Exam  
P-SS1.3 Toilet  
P-SS2 Social Worker Office  
P-SS3 Student Support Office  
P-SS4 "Cool-down" Room

##### Instructional Support

P-IS1 Teacher Planning/Workroom  
P-IS2 Instructional Material & Supply storage  
P-IS3 Instructional Coach  
P-IS4 Teacher Lounge

Facility Standards  
School District of Pittsburgh  
DRAFT  
Room/Space List

##### Administrative Spaces

P-AS1 Security Vestibule  
P-AS2 Security Office  
P-AS3 Reception  
P-AS4 Secretary  
P-AS5 Principal  
P-AS6 Vice Principal  
P-AS7 Conference Room  
P-AS8 Consultation Room  
P-AS9 Mail/Work/Copy room  
P-AS10 Storage  
P-AS11 Vault/Records  
P-AS12 In-school suspension  
P-AS13 Restroom(s)

##### Custodial Spaces

P-CS1 Custodian's Office  
P-CS1.2 Restroom/Shower  
P-CS2 Storage/Supplies  
P-CS3 Custodial Closet

##### Building Services

P-BS1 Corridors  
P-BS2 Stairwells  
P-BS3 Elevator  
P-BS4 Student Restrooms  
P-BS5 Family Restroom  
P-BS6 Staff Restrooms  
P-BS7 Telecom Room  
P-BS8 Electrical Service/Switchgear  
P-BS9 Mechanical Room  
P-BS10 Loading/Receiving  
P-BS11 Storage  
P-BS12 Trash/Recycling

##### Outdoor Spaces

P-OS1 Play yard  
P-OS2 Play field  
P-OS3 Playground  
P-OS4 Outdoor Classroom  
P-OS5 Instructional Garden

# EAI Process

## Principal Survey

- Principal survey created for each grade configuration
  1. ECC
  2. (pre)K-5
  3. (pre)K-8
  4. 6-12
  5. 9-12
- Surveys for schools with multiple grade levels included all rooms. For instance, a K-8 survey included both elementary and intermediate school requirements.
- The survey was distributed to the principals to collect the information on the school buildings. Each principal graded their own building.
- Surveys asked for the number of rooms/spaces in each school and how well they met the requirements for the educational program.

# EAI Process

## Principal Survey

| K-5 Principal's Building Survey |   |            | How well do the rooms or spaces meet the educational and other needs of the educational program, staff, teachers and students? |      |      |          |      |           | School Building:                         |
|---------------------------------|---|------------|--|------|------|----------|------|-----------|--|
|                                 |   |            | X  | F    | D    | C        | B    | A         |  |
| Space(s)                        | Does your school building have...                         | How Many ? | NA   | Poor | Fair | Moderate | Good | Excellent | Reason for rating or additional comments |
| <b>General Education</b>        |   |            |  |      |      |          |      |           |  |
| Kindergarten                    | Kindergarten classroom(s)?                                |            |  |      |      |          |      |           |  |
|                                 | Cubbies or storage lockers for the Kindergarten students? |            |  |      |      |          |      |           |  |
|                                 | child toilet rooms for the Kindergarten rooms             |            |  |      |      |          |      |           |  |
|                                 | a storage room for Kindergarten instructional materials?  |            |  |      |      |          |      |           |  |
| General Education               | General education classrooms for each grade level         |            |  |      |      |          |      |           |  |
|                                 | a small group instruction room?                           |            |  |      |      |          |      |           |  |
| Science                         | a Science Classroom?                                      |            |  |      |      |          |      |           |  |

# EAI Process

## Survey Scoring

- School buildings are rated based on the presence or absence of the specified spaces and on how well the spaces meet the needs of the educational program.
- The survey information for the individual spaces are given a point based score.
- A base value is assigned to each space and then additional points are added to account for the adequacy rating of the space.
- Scores are assigned to individual spaces and totaled for each major program area.
- Points are totaled and compared to the maximum available points to define the Educational Adequacy Index of the school.
- Notes:
  - A building with all the standard spaces with good ratings will score 90%, all moderate scores 80%
  - Shared and multi-use spaces are accounted for with a lower grade. For instance, a building with separate gym, cafeteria, and auditorium will score highest.
  - Missing spaces affect the final score to the greatest extent

## K-5, Educational Adequacy Index (EAI)

The **Educational Adequacy Index (EAI)** is an evaluation of how well each space is equipped to handle the building's current instructional curriculum.

Educational Adequacy % Scale

| EAI Range        | Grade | Grade Description   |
|------------------|-------|---|
| EAI > 90%        | A     | This building has all the necessary spaces; all existing spaces are adequate for the instructional curriculum         |
| 90% > EAI >= 80% | B     | The building has most the necessary spaces; some existing spaces are inadequate for the instructional curriculum      |
| 80% > EAI >= 70% | C     | The building has most the necessary spaces; many existing spaces are inadequate for the instructional curriculum      |
| 70% > EAI >= 60% | D     | The building lacks some of the necessary spaces; some existing spaces are inadequate for the instructional curriculum |
| 60% > EAI >= 50% | E     | The building lacks some of the necessary spaces; many existing spaces are inadequate for the instructional curriculum |
| 50% > EAI >= 0%  | F     | The building lacks many of the necessary spaces; many existing spaces are inadequate for the instructional curriculum |

EDUCATIONAL ADEQUACY INDEX (EAI): **79.70%** **C+**

# EAI District Overview

# Additional Facility Considerations

**District facility priorities to be considered in addition to the FCI and EAI assessments**

- Accessibility
- Administration and Support
- Air Conditioning
- Below Grade Classrooms
- Cafeteria/Auditorium/  
Gymnasium
- Demountable Classrooms
- Environmental/Hazardous  
Materials
- Food Service
- Outdoor Space
- Parking
- Security

# Capacity, Utilization & Building Age

# Capacity Definition

## **Districtwide Standard for Functional Capacity:**

- Functional Capacity is number of students, allocated by classroom designation, that the building can hold. The classroom designation is based on the purpose for which the room was designed and meets the PA State School Codes.
- Functional Capacity counts Standard ( $\geq 660$  square feet) and Small ( $< 660$  square feet) Classrooms only. Although, full labs (science, art, music, CTE) could be utilized as classrooms, they are not designated Standard Classrooms and are not counted in the Capacity calculation.
- The Districtwide Standards for allocation of students for Standard Classrooms:  
ECC = 20, K-5 = 25, K-8 = 26, 6-8 = 28, 6-12 = 29, 9-12 = 30, Small Classroom = 12
- For Special Education:  
Standard Classroom = 12, Small Classroom = 6, Autistic Support and Multiple Disability = 8

# Capacity Summary

| Utilization (UF)       | Rule            | # Schools | Notes   |
|------------------------|-----------------|-----------|---|
| Over-utilized          | UF > 100%       | 1         | Allderdice*   |
| Well Utilized          | 80% < UF < 100% | 8         | Brookline, Colfax, Dilworth, Liberty, Online, Phillips, Sci-Tech, South Brook                             |
| Slightly Underutilized | 50% < UF < 80%  | 40        |   |
| Underutilized          | UF < 50%        | 12        | Allegheny, Arsenal, Clayton, King, Langley, Manchester, Miller, U-Prep, Oliver Citywide, Perry, SAC, Weil |
