<p>4. Guidelines</p>	<p>school-related activities.</p> <p>Possession of emergency medications under proper orders of a treating <u>licensed healthcare provider</u> physician and in accordance with this policy shall not constitute a violation of the Drug and Alcohol Abuse Policy.</p> <p>Before a student may possess or use emergency medication in the school setting, the Board shall require the following:</p> <ol style="list-style-type: none"> 1. A written request from the parent/guardian that the school complies with the order of the <u>licensed healthcare provider</u> licensed physician, certified registered nurse practitioner or physician assistant. 2. A written statement from the parent/guardian acknowledging that the school is not responsible for ensuring the medication is taken and relieving the district and its employees of responsibility for the benefits or consequences of the prescribed medication. 3. A written statement from the <u>licensed healthcare provider</u> licensed physician, certified registered nurse practitioner or physician assistant that states: <ol style="list-style-type: none"> a. The name of the drug; b. The dosage instructions which shall include number and/or quantity of the medications; the frequency of its usage; the maximum period of dosage; the recommended date of discontinuance of dosage; and any special instructions or precautions concerned with the administration of said medication; c. The times when the medication is to be taken; d. The length of time medication is prescribed; e. The diagnosis or reason that the medication is needed, unless the reason should remain confidential; f. The potential of any serious reaction that may occur to the medication, as well as any necessary emergency response; g. Whether the student is qualified and able to self-administer the medication; h. That the student is required to carry the medication on his/her person for medical emergency purposes; and i. The signature of the administering <u>licensed healthcare provider</u> physician
----------------------	--

<p>5. Delegation of Responsibility</p>	<p>certified registered nurse practitioner, or physician assistant.</p> <p>The District reserves the right to require a statement from the <u>licensed healthcare provider</u>licensed physician, certified registered nurse practitioner or physician assistant for the continued use of a medication beyond the specified time period.</p> <p>A written request for student use of an emergency medication shall be submitted annually, along with required written statements from the parent/guardian and an updated prescription.</p> <p>A student whose parent/guardian completes the written requirements for the student to possess an emergency medication and to self-administer the prescribed medication in the school setting shall demonstrate to the school nurse the competency for self-administration and responsible behavior in use of the medication. Determination of competency for self-administration shall be based on the student's age, cognitive function, maturity and demonstration of responsible behavior.</p> <p>Students shall notify the school nurse immediately following each use of an emergency medication.</p> <p>Students shall be prohibited from sharing, giving, selling, and using emergency medications in any manner other than which it is prescribed during school hours, at any time while on school property, at any school-sponsored activity, and during the time spent traveling to and from school and school sponsored activities. Violations of this policy shall result in loss of privilege to self-carry the medication and disciplinary action in accordance with the Code of Student Conduct and Board policy.</p> <p>If the District denies a student's request to self-carry an emergency medication or the student has lost the privilege of self-carrying the medication, the student's prescribed medication shall be appropriately stored at an <u>accessible</u> location in close proximity to the student. The student's classroom teachers shall be informed where the medication is stored and the means to access the medication.</p> <p>The Superintendent or designee may develop any necessary administrative regulations for student possession and self-administration of emergency medications.</p> <p>The Superintendent or designee shall annually notify students and parents/guardians of this policy by distributing the same with the Code of Student Conduct and by making it available on the District's website.</p>
