NJHS Merit Sheet

As an NJHS student, you are expected to use your time and talents to benefit and assist others in your community and school during the school year and holidays. There are many opportunities available to you. Remember that merits are measured in terms of time – one hour of service equals one merit, so one-half hour of service will count as one-half merit. **A minimum of 30 hours per year for all members is required. We recommend and will collect 15 Fall, and 15 Spring hours.** In addition to church, school, and the community and neighborhood activities there are also opportunities to help at our neighbor elementary school through NJHS sponsored events.
