*You may want to purchase extra supplies to keep at home or donate to the classroom in case your child runs out during the year. School supplies are cheapest during the summer when back-to-school sales are going on.

*Please have your child practice his/her basic multiplication facts regularly. They are an important skill that your child must have in order to complete 5th grade math work. A little bit of daily reading is also recommended.

Thank you! Please let us know if there is anything we can help you with. We look forward to tile new school year!
