Rainbow Writing

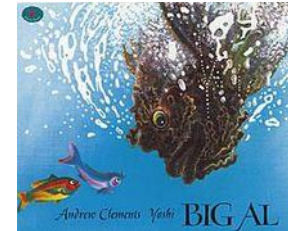

Write your child's name in the middle of a piece of paper and show them how to trace the letters with a marker or crayon. Then, let them repeat tracing it with other colors and then decorate the page.

Sorting

Link: [Sorting by Color and Size](#)

Using two different colors of paper, cut large pieces and small pieces of each color. Mix the large and small pieces together. First, ask your child to sort them by color. Then, mix them up again and ask your child to sort them by their size, putting all the large pieces in a group and all the small pieces in another group.

Read Aloud

Link: [Big Al](#)

After listening to the read aloud, ask your child what happened at the beginning, middle, and end of the story. Ask them to draw their favorite part and describe their drawing to you.

Alphabet Song

Link: [Alpha Pig ABC Song](#)

Build letter M and A from play-doh or use items around the house such as pencils, markers, or crayons, to build each letter. Then, name items that begin with each letter, such as: apple, mask, monkey, astronaut, ankle, moon, ambulance, mountain.

Counting in Patterns

Count aloud to 20 in patterns of two by saying the odd number softly and the even number louder:

(quietly) *One.*

(louder) *Two.*

(quietly) *Three.*

(louder) *Four.*

Put your finger to your lips as a reminder to say the odd numbers quietly. After counting to 20 with this pattern, repeat for practice.

Our Five Senses

Smell and Tell Game

Gather familiar items from home with distinct smells: toothpaste, onion, bubble gum, soap, and chocolate. Tell your child they will use their sense of smell for this game. After they close their eyes, let them smell each item and predict what it is, before opening their eyes to see if they were correct.

Challenge: Ask your child to draw their favorite item from the game, describe their drawing, and tell you why it is their favorite.
