

CONTRACTUAL CONSIDERATIONS

ARE ONLINE CONFERENCING SOLUTIONS COMPLIANT WITH EDUCATION LAW SECTION 2-D?

Data privacy and security obligations related to third-party contractors must be addressed by the district entering into a compliant agreement with vendors to whom they are providing protected Personally Identifiable Information (PII). An agreement that covers the requirements defined by Ed Law 2-D must exist either directly between the school district and the product vendor, or, if the product is part of a service obtained through a BOCES CoSer, an agreement between that BOCES and the product vendor. District contracting procedures should be followed, and any agreements with third-party vendors should include the provisions required by law. **A vendor cannot achieve compliance unilaterally.**

HOW DOES YOUR DISTRICT ACQUIRE THEIR ONLINE CONFERENCING SOLUTION?

- LEVERAGE CONTRACT VIA BOCES/RIC CoSER
- CONTRACT DIRECTLY WITH VENDOR PARTNER (Contracts Below N/A)

ONLINE CONFERENCING SOLUTIONS

All major online conference solutions have similar features, including: two-way video, text chat, telephone call-in capabilities, and screen sharing support. Each solution differs in the way accounts are managed and created and how online conferences are scheduled. Below is information related to how districts can procure these technologies. Erie 1 BOCES, Erie 2 BOCES, and Capital Region BOCES have partnered with the vendor community to negotiate contracts that include protective Education Law 2-D language. **Remember that vendors cannot achieve compliance unilaterally. Districts must leverage a procurement mechanism that includes a contract with protective language.**
