

## Elementary Instrumental Music Supply and Vendor List 2024

Your decision to provide your child with a quality musical instrument is an investment in your child’s future success. Music stores that specialize in the school music business offer many programs that will provide you and your child with a good quality new or used instrument at an affordable price. You will be provided with a list of **recommended instrument makes and models** during the recruitment process from area dealers who service musical instruments.

If you decide to purchase a used instrument (band only), please have it evaluated by a music repair technician before you finalize the purchase. Any area music store will be glad to provide this service. Be especially cautious when making a purchase over the internet!

Students who qualify for the free or reduced lunch program are eligible to have the annual/summer rental fee waived for district-owned instruments. Please contact your child’s instrumental music teacher for availability of school owned instruments and contract requirements.

**Experience shows that having a quality instrument provides  
 the best chance for success and achievement.**

### Instrument Repair Information

Should you find that your child’s instrument is not working properly or seems to need a repair, please contact your child’s teacher immediately. Some repairs can be addressed at school by the teacher. Many will need to be sent to a music repair technician. This cost may be covered by your instrument rental contract. **Costly damages can occur when repairs are attempted at home.**

### Music Instruments and Supplies

These shops also do instrument repairs and provide a wide variety of instrument supplies, music books and sheet music.

**BAND INSTRUMENTS:**

We Highly Recommend:	Other Stores:
