1. OVERVIEW

eSchoolData is pleased to announce version 12.0.0 of the eSD® Student Management System. This release includes many enhancement items as well as minor bug fixes.

For more information, please review this release notice for additional details regarding build highlights, product enhancements, minor enhancements & fixes, and security updates for this version of the eSD® Student Management System.

2. RELEASE HIGHLIGHTS

- User Security Information** – With this release, auditing of user account information has been enhanced. We have made a few updates to the User Security Information page. This page will now include the details on the Last Login, columns will be sortable, and there is now a quick link to the staff record so admins can remain on one page when cleaning up accounts and staff records.
- Attendance Exception** - With this release, there are new attendance exceptions added to the Attendance Exceptions Report. These exception additions will aid building administrators in finding any student records that may have scheduling or data issues that require attention and cleanup.

3. PRODUCT ENHANCEMENTS

GURU
GURU The GURU Menu has been updated for easier visibility and navigation. The configuration settings have been separated into individual menu items and the contrast has been adjusted.
INTEROPERABILITY
Interoperability > eSP > Student Account Management The "Gender" column header and excel export have been updated to "iGender".
REPORTS
