

Bolivar–Richburg Central School District

7110 COMPREHENSIVE STUDENT ATTENDANCE POLICY

School attendance is both a right and a responsibility. The School District is an active partner with students and parents in the task of ensuring that all students meet or exceed the New York State Learning Standards. Because the School District recognizes that consistent school attendance, academic success and school completion have a positive correlation, the School District will develop, review and, if necessary, revise a Comprehensive Student Attendance Policy to meet the following objectives:

- a) To increase school completion for all students.
- b) To raise student achievement and close gaps in student performance.
- c) To identify attendance patterns in order to design attendance improvement efforts.
- d) To know the whereabouts of every student for safety and other reasons.
- e) To verify that individual students are complying with education laws relating to compulsory attendance.
- f) To determine the District's average daily attendance for State aid purposes.

Description of **Strategies** to Meet Objectives

The School District will:

- a) Create and maintain a positive school building culture by fostering a positive physical and psychological environment where the presence of strong adult role models encourages respectful and nurturing interactions between adults and students. This positive school culture is aimed at encouraging a high level of student bonding to the school, which in turn should lead to increased attendance.
- b) Maintain accurate recordkeeping via a Register of Attendance to record attendance, absence, tardiness or early departure of each student.
- c) Utilize data analysis systems for tracking individual student attendance and individual and group trends in student attendance problems.
- d) Develop early intervention strategies to improve school attendance for all students.

Determination of Excused and Unexcused Absences, Tardiness, Truancy and Early Departures

Based upon our District's educational and community needs, values and priorities, the School District has determined that absences, tardiness and early departures will be considered excused, unexcused or truant according to the following standards.

- a) **Excused:** An absence, tardiness or early departure may be excused if due to personal illness, illness or death in the family, impassable roads due to inclement weather, religious observance,

quarantine, required court appearances, attendance at health clinics, approved college visits, approved cooperative work programs, military obligations, or other such reasons as may be approved by the Board of Education.

- b) **Unexcused:** An absence, tardiness or early departure is considered unexcused if the reason for the lack of attendance does not fall into the above categories (e.g., family vacation, hunting, babysitting, haircut, tanning, shopping, oversleeping)
- c) **Truancy:** Truancy is an unexcused absence that is not sanctioned by a parent or guardian.

Student Attendance **Recordkeeping/Data Collection**

The record of each student's presence, absence, tardiness and early departure shall be kept in a register of attendance in a manner consistent with Commissioner's Regulations. An absence, tardiness or early departure will be entered as "excused", "unexcused" or "truant" along with the District code for the reason.

Subject to regulations, attendance shall be taken and recorded in accordance with the following:

- a) For students in non-departmentalized kindergarten through grade eight (i.e., self-contained classrooms and supervised group movement to other scheduled school activities such as physical education in the gym, assembly, etc.), such student's presence or absence shall be recorded after the taking of attendance once per school day, provided that students are not dismissed from school grounds during a lunch period.
- b) For students in grades nine through twelve or in departmentalized schools at any grade level (i.e., students pass individually to different classes throughout the day), each student's presence or absence shall be recorded after the taking of attendance in each period of scheduled instruction except that where students do not change classrooms for each period of scheduled instruction, attendance shall be taken in accordance with paragraph "a" above.
- c) Any absence for a school day or portion thereof shall be recorded as excused, unexcused or truant in accordance with the standards articulated in this policy.
- d) In the event that a student at any instructional level from kindergarten through grade twelve arrives late for or departs early from scheduled instruction, such tardiness or early departure shall be recorded as excused, unexcused or truant in accordance with the standards articulated in this policy.
- e) A record shall be kept of each scheduled day of instruction during which the school is closed for all or part of the day because of extraordinary circumstances including adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of or damage to a school building, or such other cause as may be found satisfactory to the Commissioner of Education.
- f) Attendance records shall also indicate the date when a student withdraws from enrollment or is dropped from enrollment in accordance with Education Law Section 3202(1-a).

- g) At the conclusion of each class period or school day, all attendance information shall be compiled and provided to the designated school personnel who are responsible for attendance. The nature of the absence, tardiness or early departure shall be coded on a student's record in accordance with the established District/building procedures.

Make Up Work

Students who are absent from class for any reason, including due to their participation in a school-sponsored activity, are to arrange with their teachers to make up any work missed in a timely manner as determined by the student's teacher. Upon returning to school following an absence, tardiness or early departure, it shall be the responsibility of the student to consult with his/her teacher(s) regarding arrangements to make up missed work, assignments and/or tests in accordance with the time schedule specified by the teacher.

Notice of Students who are Absent, Tardy or Depart Early without Proper Excuse

A designated staff member shall notify parent/person in parental relation to a student who is absent, tardy or departs early without proper excuse. The notification shall explain the District's Comprehensive Student Attendance Policy, the District's/building level intervention procedures, and, if appropriate, the relationship between student attendance and grades.

If deemed necessary by appropriate school officials, or if requested by the parent/person in parental relation, a school conference shall be scheduled between the parent/person in parental relation and appropriate staff members in order to address the student's attendance. The student may also be requested to attend this conference in order to address appropriate intervention strategies that best meet the needs of the student.

Attendance Incentives

In order to encourage student attendance, the District will develop and implement grade-appropriate/building-level strategies and programs.

Disciplinary Consequences

Unexcused absences, tardiness, early departures and/or truanancies will result in disciplinary sanctions as described in the District's Code of Conduct. Consequences may include, but are not limited to, in-school suspension, detention and denial of participation in interscholastic and extracurricular activities. Parents/persons in parental relation will be notified by designated District personnel at periodic intervals to discuss their child's absences, tardiness or early departures and the importance of class attendance and appropriate interventions. Individual buildings/grade levels will address procedures to implement the notification process to the parent/person in parental relation.

Intervention Strategy Process

In order to effectively intervene when an identified pattern of unexcused absences, tardiness, early departures or truancies occur, designated District personnel will pursue the following:

- a) Identify specific element(s) of the pattern (e.g., grade level, building, time frame, type of unexcused absences, tardiness or early departures);
- b) Contact the District staff most closely associated with the element. In specific cases where the pattern involves an individual student, the student and parent/person in parental relation will be contacted ;
- c) Discuss strategies to directly intervene with specific element;
- d) Recommend intervention to Superintendent or his/her designee if it relates to change in District policy or procedure;
- e) Implement changes, as approved by appropriate administration;
- f) Utilize appropriate District and/or community resources to address and help remediate student unexcused absences, tardiness or early departures;
- g) Monitor and report short and long term effects of intervention.

A Description of the School's Policy Regarding Pupil Attendance and a Pupil's Ability to Get Course Credit

The Education Law requires that the students enrolled in the schools of this District attend school on every day unless properly excused. The educational program offered by this District is predicated upon the presence of the students and requires continuity of instruction and classroom and their participation in a well-planned instructional activity under the tutelage of a competent teacher are vital to this purpose. Absences other than excused absences, tardiness or early dismissal as defined by the District have a highly adverse effect on the students as well as the entire educational program. Therefore, the Board of Education urges all parents to make every effort for their children to be in attendance.

The Board of Education recognizes an important relationship between class attendance and student performance. Therefore, in order for a pupil to receive course credit, a minimum standard of attendance has been established. However, where a student earns a passing grade, credit will not be denied for the course.

Any student absent from a class more than 20% of the time, or 18 days for a full year course, for any reason, excused or unexcused, may not receive credit. The student may not receive credit because, for example, he/she did not learn the material taught in the missed classes, did not complete missed homework assignments, failed test, or quizzes, or did not complete projects.

For a half-year course the same policy applies. The ninth absence in a half year course may result in a loss of credit, because, for example, the student did not learn the material missed when he/she was absent, did not complete missed homework assignments, failed quizzes or tests, or did not complete projects.

Those students who have excessive absences from school or class will be given the opportunity to make up a test or other missed work and/or to turn in a late assignment for inclusion in the final grade. Make up opportunities must be completed by a date specified by the child's teacher for the class in question.

If the student wishes to remain in the class, he/she will be allowed the opportunity to make up the classes and work missed at the discretion of the Principal/designee. To ensure due process, the implementation of this general attendance policy will be in accordance with rules and regulations as developed by the administration. Further, the District shall publicize and disseminate this policy in order to ensure faculty, student and parental awareness.

At the elementary level, including grades K-5, there will be no minimum standard of attendance to be eligible for credit. However, a high number of absences may result in the student being retained at the grade level.

Appeal Process

A parent/person in parental relation may request a building level review of their child's attendance record.

Building Review of Attendance Records

Commencing with the 2003-04 school year, the building principal will work in conjunction with the building attendance clerk and other designated staff in reviewing attendance records at the end of each term. This review is conducted to identify individual and group attendance patterns and to initiate appropriate action to address the problem of unexcused absences, tardiness and early departures.

Annual Review by the Board of Education

The Board of Education shall annually review the building level student attendance records and if such records show a decline in student attendance, the Board shall make any revisions to the Policy and plan deemed necessary to improve student attendance.

Community Awareness

The Board of Education shall promote necessary community awareness of the District's Comprehensive Student Attendance Policy by:

- a) Providing a plain language summary of the policy to parents or persons in parental relation to students at the beginning of the each school year and promoting the understanding of such a policy to students and their parents/persons in parental relation;
- b) Providing each teacher, at the beginning of the school year or upon employment, with a copy of the policy; and

- c) Providing copies of the policy to any other member of the community upon request.

3210, 3211, and 3213
8 New York Code of Rules and Regulations
(NYCRR) Sections 104.1, 109.2, and 175.6

7113 RELEASED TIME OF STUDENTS

Related Policies & Documents: Refer also to Policy #7170

Written requests from the parent/guardian for the release of students generally will be honored. The appropriate time and reason for absence shall be recorded on the attendance record, using the procedures mandated by the state.

The building principal shall assume this responsibility or shall designate an individual to review and approve all requests.

8 New York Code of Rules and Regulations
(NYCRR) Section 109.2

NOTE: Refer also to Policy #7170 -- [Release of Students to Custodial/Noncustodial Parents](#)

7120 AGE OF ENTRANCE

Kindergarten

Students who are legal residents of the School District and who reside with parents or guardians within the School District at the time of the opening day of school must be five (5) years of age or more on December 1 in order to register for Kindergarten.

A child who transfers into the School District at any time during the school year may be considered for admission to Kindergarten by the Superintendent provided:

- a) The parents were not legal residents of the School District on the opening day of school, and
- b) The child has been registered and enrolled in kindergarten in the district in which his/her parents were legal residents.

Other Grades

Admission of children to other grades shall involve a consideration of both chronological age and the readiness of the children to do the work of those grades.

Proof of Age

A student's birth certificate or other satisfactory evidence of age shall be presented at the time of initial registration. The child shall be entered under his/her legal name.

Education Law Sections 1712, 3202 and 3212

7121 SCREENING OF NEW SCHOOL ENTRANTS

The Board of Education shall provide for the screening of every new entrant to school to determine which students may have disabilities, may be gifted or may be of limited English proficiency. Such diagnostic screening shall be conducted:

- a) By persons appropriately trained or qualified;
- b) In the student's native language if the language of the home is other than English;
- c) In the case of new entrants, prior to the school year, if possible, but no later than December 1 of the school year of entry or within fifteen (15) days of transfer of a student into a New York State public school should the entry take place after December 1 of the school year;
- d) In the case of students who score below the state reference point on New York State assessment tests, within thirty (30) days of the availability of the test scores.

Such screening shall include, but not be limited to the following:

- a) A physical examination by a physician or submission of a health certificate in accordance with Sections 901, 903, and 904 of the Education Law, including proof of immunization as required by Section 2164 of the Public Health Law;
- b) An assessment of motor development, of receptive and expressive language development, articulation skills, and cognitive ability in the student's native language, if the language of the home is not English.

If such screening indicates a possible disability, a referral shall be made to the Committee on Special Education (CSE) no later than fifteen (15) calendar days after completion of such diagnostic screening.

If such screening indicates a possibly gifted child, the name and finding shall be reported to the Superintendent of Schools and to the parents/guardians no later than fifteen (15) calendar days after completion of such screening.

If such screening indicates a child identified as possibly being of limited English proficiency, such child shall be referred for further evaluation in accordance with the Regulations of the Commissioner of Education to determine eligibility for appropriate transitional bilingual or free-standing ESL programs.

Reporting to Parents

Parents/guardians of children to be screened shall receive information in advance regarding the purpose of screening, the areas to be screened and the referral process. The information shall be communicated either orally or in writing in the parents' primary language(s). This information will be provided during the registration interview.

Parents/guardians have the right to request information regarding their child's performance during screening. They shall have access to the screening results and obtain copies upon request.

Confidentiality of Information

The Board of Education's policy and administrative regulations in accordance with the Family Educational Rights and Privacy Act of 1974 shall apply to all information collected about a child through the screening program. In accordance with the policy and regulations, parents shall be informed of their right to privacy, their right to access to the records and their right to challenge those records should they be inaccurate, misleading or otherwise inappropriate.

7130 ENTITLEMENT TO ATTEND -- AGE AND RESIDENCY

Related Policies & Documents: Refer also to Policy #7131

Ages of Attendance/Compulsory Attendance Age

According to Education Law, a student who becomes six (6) years of age on or before the first of December in any school year shall be required to attend full-time instruction from the first day that the District schools are in session in September of such school year, and a student who becomes six (6) years of age after the first of December in any school year shall be required to attend full-time instruction from the first day of session in the following September. Except as otherwise provided in Education Law Section 3205(3), a student shall be required to remain in attendance until the last day of session in the school year in which the student becomes sixteen (16) years of age.

However, in accordance with Education Law Section 3205(3), the Board of Education in **any** school district shall have the power to require minors from sixteen (16) to seventeen (17) years of age who are not employed to attend full-time instruction until the end of the school year in which the student turns seventeen (17) years of age.

All persons dwelling within the District who are between the ages of five (5) years and twenty-one (21) years and who have not received a high school diploma shall be entitled to enroll in the District.

Undocumented children, like U.S. citizen children, have the right to attend school full-time as long as they meet the age and residency requirements established by state law.

Proof of Age

The State Education Department does not require districts to collect students' social security numbers for any purpose. While school districts may need to collect certain data pursuant to State and/or federal laws, they should do so **after** a student has enrolled in school so as not to inadvertently give the impression that information related to immigration status will be used in making registration/enrollment determinations.

In accordance with Education Law, where a birth certificate or record of baptism is not available, a passport (including foreign passport) may be used to determine a child's age for purposes of enrollment/registration in school. Should none of these be available, the District may consider certain other documentary or recorded evidence to determine a child's age.

The following are examples of documentation that may be used to establish a student's age. This list is not intended to be exhaustive, nor is it a list of required documentation.

- a) School photo ID with date of birth;
- b) Hospital or health records;
- c) State or other government-issued ID;
- d) Military dependent ID card;
- e) Native American Tribal document;
- f) Record(s) from non-profit international aid agencies and voluntary agencies (VOLAGs);
- g) Consulate identification card; and
- h) Official driver's license.

Determination of Student Residency

The residence of children dwelling within the District boundaries shall be established in a manner consistent with State Law and the Regulations of the Commissioner. The Board of Education or its designee shall determine whether a child is entitled to attend a District school. Any adverse residency decision by a school official, other than the Board or its designee, shall include written notice to the parent/person in parental relation of the procedures for obtaining review of the decision within the District.

A child's residence is presumed to be that of his/her parents or legal guardians. However, the District may encounter students, particularly from other countries, who reside with persons other than their parents or legal guardians. In order to determine residency in these cases, the District may request information regarding such student's custody to establish residency and to ensure the health, safety and welfare of the child.

Children Living With Noncustodial Parents

A child's residence is usually determined by the residence of the custodial parent. However, a noncustodial parent who resides in the District may enroll his/her child in a District school if he/she shares the day-to-day responsibilities for the child and the custodial parent designates the child's residence with the noncustodial parent.

Homeless Children

The parent/person in parental relation to a homeless child; or the homeless child, together with the homeless liaison designated by the School District in the case of an unaccompanied youth; or the director of a residential program for runaway and homeless youth established pursuant to Executive Law Article 19-H, in consultation with the homeless child, where such homeless child is living in such program, may designate either the school district of current location, the school district of origin, or a school district participating in a regional placement plan as the district the homeless child shall attend.

Children of Activated Reserve Military Personnel

Students temporarily residing outside the boundaries of the District, due to relocation necessitated by the call to active military duty of the student's parent or person in parental relation, will be allowed to attend the public school that they attended prior to the relocation. However, the District is not required to provide transportation between a temporary residence located outside the District and the school the child attends.

Emancipated Minors

A determination of whether a student is to be designated as an emancipated minor in the Bolivar-Richburg Central School District will be based on evidence that the student is no longer under custody, control and support of his/her parents/persons in parental relation. To establish emancipation, a minor may submit documentation of his/her means of support, proof of residency, and an explanation of the circumstances surrounding the student's emancipation, including a description of the student's relationship with his/her parents/persons in parental relation.

These statements are renewable each school year. If at any time the above information is changed without prompt notification or proven to be false, the parent/person in parental relation and/or student may be subject to legal action.

Children Living With Persons Not Their Parents -- Guardianship or Custody

In accordance with the Family Court Act and Domestic Relations Law, a person possessing a lawful order of guardianship or custody of a minor child who is not the parent of such child may enroll the child in public school in the school district where he/she and the child reside.

Therefore, upon application for enrollment by the guardian or custodian, the District shall enroll such a child for such time as the child resides with the guardian or custodian in the District upon verification that the guardian or custodian possess a lawful order of guardianship or custody for the child and that the guardian or custodian and the child properly reside in the same household within the District.

8 New York Code of Rules and Regulations (NYCRR) Sections 100.2(x) and (y)

NOTE: Refer also to Policy #7131 -- Education of Homeless Children and Youth

7131 NON-RESIDENT STUDENTS

Non-resident families who wish to enroll children in the School System shall submit a request in writing to the Superintendent, who shall determine whether or not the student(s) will be admitted. The Superintendent will also determine which building the student will attend. The following guidelines will be followed:

- a) Parents/guardians must work out transfer conditions with home school district.
- b) There is sufficient space to accommodate the non-resident student;
- a) No increase in the size of faculty or staff will be necessary to accommodate them;
- b) All rules and regulations in effect for District students will be applicable to non-District students.
- c) A student whose parents intend to become residents of the Bolivar-Richburg Central School District within sixty (60) days of the beginning of the semester in which the enrollment is sought may enter the school if they can provide bona-fide evidence of their intent; i.e., sales contract, deed, etc.
- d) A student who moves from the District after completion of the first semester of the year preceding his/her anticipated graduation year may be given permission to remain in the Bolivar-Richburg Central School District until graduation.
- e) Students of any grade level who move from the Bolivar-Richburg Central School District during the school year may be given permission to finish the semester in which the move occurs.
- f) Foreign students participating in a recognized Student Exchange Program may attend District schools. The administration is authorized to file with the U.S. Immigration and

Naturalization Service the forms necessary for such students to obtain a student visa. The District will neither sponsor nor accept for admission students whose permanent residence is outside of the United States who are not participating in a recognized foreign student exchange program.

- g) In all cases described above and any unusual circumstances not covered above, a written request must be submitted to the Superintendent.

Non-resident families must provide their own transportation.

Tuition may be charged to families of non-resident students in accordance with formulas approved by the State Education Department.

Education Law Sections 1709(13), 2045 and 3202
8 New York Code of Rules and Regulations
(NYCRR) Section 174.2

7132 TRANSFER STUDENTS/CREDIT

A student who enters a District school from another state, another country, or another New York State school is considered to be a transfer student. Students who have been receiving home instruction and enroll in the School District are also considered to be transfer students.

It is the responsibility of the high school principal to evaluate the transcript or other records of a transfer student enrolling in a District high school, and award the appropriate units of transfer credit towards a high school diploma. However, when a student transfers from a registered New York State high school to a (registered) District high school, the principal **must** transfer credit for all credit awarded by such registered New York State high school.

Additionally, the principal, after consulting with relevant faculty, may award transfer credit for work done at other educational and cultural institutions and for work done through independent study. The decision should be based on whether the student's record indicates that the work is consistent with New York State commencement level learning standards and is of comparable scope and quality to that which would have been done in the school awarding the credit.

Transfer students **must** meet all the units of credit requirements for a diploma. While principals have considerable discretion in reviewing a student's record, they cannot waive the units of credit requirements for a diploma. The assessment requirements a student must meet to earn a diploma are based on the year in which the student entered grade 9 for the first time in New York State or in an out-of-state or out-of-country school. Transfer students who are *exempted* from taking specific State assessments must have their transcripts and permanent records so annotated.

Interscholastic athletic requirements for transfer students shall be in accordance with the rules enumerated in the most recent New York State Public High School Athletic Association (NYSPHSAA) Handbook.

8 New York Code of Rules and Regulations
(NYCRR) Part 100

7140 INVOLUNTARY TRANSFER OF STUDENTS

Involuntary transfer of a student from regular classroom instruction to an appropriate educational setting in another school shall be in accordance with Education Law.

Education Law Sections 1709(3) and 3214(5)

7150 EDUCATIONAL SERVICES FOR MARRIED/PREGNANT STUDENTS

Married Students

The Board of Education will comply with state law in reference to married students attending school.

Pregnant Students

According to New York State Education Law, a student who becomes six (6) years of age on or before the first of December in any school year shall be required to attend full-time instruction from the first day that the District schools are in session in September of such school year, and a student who becomes six (6) years of age after the first of December in any school year shall be required to attend full-time instruction from the first day of session in the following September. Except as otherwise provided in Education Law Section 3205(3), a student shall be required to remain in attendance until the last day of session in the school year in which the student becomes sixteen (16) years of age. The Education Law further provides that resident students over five (5) and under twenty-one (21) who have not received a high school diploma are entitled to attend school in the district in which they reside. The law further requires that a school district provide for this instruction and also to provide for home instruction for those students of legal age who are unable to profit from instruction in school.

In view of the above, administrative regulations will be developed to implement the terms of this policy to provide instruction as required by the New York State Education Law for students who

become pregnant. The Superintendent, or his/her designee, is directed to consult with the school physician and the student's personal physician in determining the form of instruction.

The form of instruction may be any of the following or a combination of the following:

- a) Remain in school with provisions for special instruction, scheduling, and counseling where needed.
- b) Receive home instruction.
- c) Attend BOCES programs.

Education Law Sections 1604(20), 3202-1, 3205-1,
4401-1, and 4402-2

7160 SCHOOL CENSUS

Related Policies & Documents: Refer also to Policy #7650

The School District is authorized, rather than obligated, to take a census of all children from birth to eighteen (18) years of age.

The census must indicate the names of all children between birth and eighteen (18) years of age, and of children with disabilities between birth and twenty-one (21) years of age; their respective residences by street and number; the day of the month and the year of their birth; the names of the persons in parental relation to them; such information relating to physical or mental disabilities, to illiteracy, to employment and to the enforcement of the law relating to child labor and compulsory education as the State Education Department and the Board of Education shall require; and also such further information as the Board shall require.

On written request and in such form as prescribed by the Commissioner of Education, the Board shall provide to the Commissioner a report containing the names, ages and addresses of those children who are blind or deaf, and those children having serious physical or mental disabilities. Additionally, such report shall further indicate whether such children are being educated within the public schools of the District or, if they are not, where such education is being furnished to them.

Persons in parental relation to those children within the prescribed census age ranges are to make such reports as the Board of Education shall require, including, but not limited to, providing two (2) weeks before the child reaches compulsory school age, the name of the child; the child's residence; the name of the person or persons in parental relation to the child; the name and location of the school

to which the child shall have been or shall be sent as a student; and such other information as required by law or as the Board may require.

A parent, guardian or other person having under his/her control or charge a child between birth and eighteen (18) years of age who withholds or refuses to give information in his/her possession relating to such census data as required by law pertaining to the child; or, in the alternative, gives false information in relation to such census data, shall be liable to and punished by a fine or imprisonment as established by law.

Census data shall be reported as required by law.

Education Law Sections 3240-3243 and 4402(1)(a)
8 New York Code of Rules and Regulations
(NYCRR) Section 200.2(a)

NOTE: Refer also to Policy #7650 -- Identification and Register of Children With Disabilities

7170 RELEASE OF STUDENTS TO CUSTODIAL/NONCUSTODIAL PARENTS

When parents of a student are separated, involved in divorce proceedings, or are divorced, the building principal will consider the rights of custodial and noncustodial parents to be equal with respect to access to their children, and information about their children, except when a court order or other legally binding document exists which contains special restrictions.

Unless restricted by a legally binding document (e.g., a final divorce decree which includes specific denial of visitation and/or access rights or a restraining order denying visitation and/or access rights), both parents have the right to access to their child; to view their child's school records; to receive school progress reports; to visit their child briefly at school; and to participate in parent-teacher conferences, although not necessarily together in the same conference.

Certified copies of all legally binding documents pertaining to child custody and visitation including, but not limited to, Judgments of Divorce and Separation, temporary and permanent court orders, and legally enforceable written agreements between the parties will be maintained in the appropriate school office. It is the responsibility of the custodial parent to provide the building principal with a certified copy of such court order or other legally binding document, if restricted access to the student or student information is requested.

In the alternative, written authorization from the custodial parent allowing the release of the child to the noncustodial parent will also be honored by the District.

The Board of Education directs the Superintendent or his/her designee to develop administrative regulations to provide guidance in releasing children to the custodial and noncustodial parents.

Education Law Section 3210

7180 ADMISSION OF FOREIGN STUDENTS

The Board of Education recognizes the cultural enrichment derived from welcoming non-immigrant foreign students into the educational program. Thus, the Board encourages the attendance of non-immigrant foreign students in the District's high school.

Only non-immigrant foreign students who possess a valid J-1 or F-1 visa to study in the United States will be admitted to the District's high school. The Board retains the sole discretion to deny admission to any student not meeting all the requirements set forth in this policy.

Foreign Exchange Students (J-1 Visa)

The Board encourages District participation in a foreign exchange student program. Foreign exchange students will be admitted to the District high school for a one-year academic program.

- a) The District recognizes only those organizations designated as "Exchange-Visitor Programs" by the United States Information Agency, pursuant to federal regulations, as sponsoring organizations for the exchange of students. Any organization must supply proof of designation prior to recognition.
- b) No foreign exchange students subject to this policy and regulation shall be brought into the District by a foreign exchange student program unless he or she has been accepted in writing as a student by the high school building principal or a designee.
- c) Foreign exchange students will be allowed to attend school. When a foreign exchange student is accepted for admission pursuant to this policy and regulation the letter of acceptance shall include a statement that tuition is waived for the student.
- d) The District will accept no more than five (5) foreign exchange students from any single foreign program.

The Board may terminate the approval of a foreign student program when it would be in the best interests of the District to do so.

Foreign Students with F-1 Visas

No F-1 students will be admitted into grades K-8. F-1 students may be admitted to the high school for one academic year upon the payment of tuition. The amount of tuition charged shall reflect the full, unsubsidized per capita cost of providing educational services to the student.

Immigrant Students

All school-aged immigrant children who have abandoned their residence in a foreign country and established residence in the District will be admitted to the District's schools without payment of tuition.

Education Law Section 3202(2)
8 New York Code of Rules and Regulations
(NYCRR) Section 174.2

7190 EDUCATION OF HOMELESS CHILDREN AND YOUTH

The parent/person in parental relation to a homeless child; or the homeless child, together with the homeless liaison designated by the School District in the case of an unaccompanied youth; or the director of a residential program for runaway and homeless youth established pursuant to Article 19-H of the Executive Law, in consultation with the homeless child, where such homeless child is living in such program, may designate either the school district of current location, the school district of origin, or a school district participating in a regional placement plan as the district the homeless child shall attend.

Pursuant to Commissioner's Regulations, a "homeless child" means a child or youth who lacks a fixed, regular, and adequate nighttime residence, including a child who is:

- a) Sharing the housing of other persons due to a loss of housing, economic hardship or a similar reason;
- b) Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations;
- c) Abandoned in hospitals;
- d) Awaiting foster care placement; or
- e) A migratory child who qualifies as homeless in accordance with Commissioner's Regulations. As defined in the No Child Left Behind Act of 2001, the term "migratory child" *includes* a child who is, or whose parent or spouse is, a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who has moved from one school district to another in the preceding 36 months, in order to obtain, or accompanies such parent or spouse in order to obtain, temporary or seasonal employment in agricultural or fishing work.
- f) A child or youth who has a primary nighttime location that is:
 - 1. A supervised, publicly or privately operated shelter designed to provide temporary living accommodations including, but not limited to, shelters operated or approved by the

state or local department of social services, and residential programs for runaway and homeless youth established pursuant to Article 19-H of the Executive Law; or

2. A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings; including a child or youth who is living in a car, park, public space, abandoned building, substandard housing, bus or train station or similar setting.

The **term "homeless child" shall not include** a child in foster care or receiving educational services pursuant to Education Law Section 3202(4), (5), (6), (6a) or (7) or pursuant to Articles 81, 85, 87 or 88. For example, a child in a family home at board, a school for the mentally retarded, a hospital or other institution for the care, custody and treatment of children; youths under the direction of the Division for Youth incarcerated in county correctional facilities or youth shelters; or children residing in child care institutions or schools for the deaf or blind would not be considered "homeless."

Enrollment, Retention and Participation in the Educational Program

Enrollment of homeless children shall not be delayed and their ability to continue or participate in the educational program shall not be restricted due to issues such as:

- a) Transportation;
- b) Immunization requirements;
- c) Residency requirements;
- d) Birth certificates, medical records, IEPs, school records and other documentation;
- e) Guardianship issues;
- f) Comprehensive assessment and advocacy referral processes;
- g) Resolution of disputes regarding school selection;
- h) Proof of social security numbers;
- i) Attendance requirements;
- j) Sports participation rules;
- k) Inability to pay fees associated with extracurricular activities such as club dues and sports uniforms; or
- l) Other enrollment issues.

Educational Programs and Services

The School District shall provide homeless children and youth with access to all of its programs, activities and services to the same extent that they are provided to resident students.

Homeless children and youth shall be educated as part of the school's regular academic program. Services must be provided to homeless children and youth through programs and mechanisms that integrate homeless children and youth with their non-homeless counterparts, including programs for special education, vocational and technical education, gifted and talented students, before and after school, English language learners/limited English proficiency, Head Start, Even Start, and school nutrition. Services provided with McKinney-Vento funds must expand upon or improve services provided as part of the regular school program. Consequently, the School District shall ensure that homeless children and youth are not segregated in a separate school, or in a separate program within the school, based on their status as homeless; and to the extent feasible consistent with the requirements of Commissioner's Regulations, keep a homeless child or youth in the school of origin except when doing so is contrary to the wishes of the child's or youth's parent or guardian. Further, the School District shall review and revise policies and practices, including transportation guidelines, that may act as barriers to the enrollment, attendance, school success, and retention of homeless children and youth in the School District.

All homeless children and youth are automatically eligible for Title I Part A services whether or not they meet the academic standards or live in a Title I school attendance area. Homeless students may receive Title I educational or support services from schoolwide and targeted-assistance school programs.

Transportation

If the local social service district or the Office of Children and Family Services is not required to provide transportation, the designated district is responsible for providing the student's transportation. However, the school district of origin is responsible for the cost of transportation provided by the designated district. Transportation responsibilities apply to all school districts regardless of whether or not they receive McKinney-Vento funds. Where a homeless student designates the school district of current location as the district the student will attend, that district shall provide transportation to the student on the same basis as a resident student. Where the homeless student designates the school district of origin, the district of current location, at the request of a parent/guardian, shall provide or arrange for transportation to and from the school of origin in accordance with law and/or regulation even if the district does not provide transportation to non-homeless students (except for preschoolers). Transportation must be provided during the pendency of enrollment disputes. If the designated district provides transportation for non-homeless preschool children, it must also provide comparable transportation services for homeless preschool children.

School District Liaison for Homeless Children and Youth

The School District shall designate an appropriate staff person, who may also be a coordinator for other federal programs, as the local educational agency liaison for homeless children and youth to carry out the duties as enumerated in law, Commissioner's Regulations and applicable guidance issued by the U.S. and New York State Education Departments. The District will inform school personnel, local service providers and advocates of the office and duties of the local homeless liaison.

Training

The District will train all school enrollment staff, secretaries, school counselors, school social workers, and principals on the legal requirements for enrollment. School nutrition staff, school nurses, teachers, and bus drivers will receive training on homelessness that is specific to their field.

Outreach

The District will make every effort to inform the parents or guardians of homeless children and youth of the education, transportation and related opportunities available to their children including transportation to the school of origin. The parent(s)/guardian(s) will be assisted in accessing transportation to the school they select, and will be provided with meaningful opportunities to participate in the education of their children. Public notice of educational rights of homeless children and youth will be disseminated by the District in places where families and youth are likely to be present (e.g., schools, shelters, soup kitchens), and in comprehensible formats (e.g., geared for low literacy or other community needs).

Dispute Resolution

The District shall establish guidelines for the prompt resolution of disputes regarding school selection or enrollment of a homeless student and provide a written explanation, including a statement regarding the right to appeal to the parent or guardian if the School District sends the student to a school other than the school of origin or the school requested by the parent or guardian.

If there is a factual dispute over whether a student is homeless, the District will immediately enroll the student and then provide the parent/guardian the opportunity to submit verification of homelessness. The student will remain enrolled until a final determination is made by the District and for a minimum of thirty (30) days after the final determination to allow the parent/guardian opportunity to appeal to the Commissioner of Education. If the student files an appeal that contains a request for a stay within thirty (30) days of such final determination, the District must continue to enroll the student until the Commissioner rules on the stay request.

Record and Reporting Requirements

If the District, as the school district of origin, receives a request to forward student records to a receiving district, the records must be forwarded within five days.

The School District shall maintain documentation regarding all aspects of the District's contact with and services provided to homeless students and youth for possible on-site monitoring by the State Education Department.

The District shall collect and transmit to the Commissioner of Education, at such time and in the manner as the Commissioner may require, a report containing such information as the Commissioner determines is necessary to assess the educational needs of homeless children and youths within the state.

Section 100.2(x)

Adopted: 4/3/12

7210 STUDENT EVALUATION

Placement

Placement within the system, with respect to building, teacher, and grade or special class, shall be at the discretion of the school administration and shall be subject to review and change at any time. In making such decisions, the administrator or Building Principal will be guided by performance in class, past records, parent/guardian and teacher recommendations, standardized test scores, and any other appropriate sources of information, but the final decision shall rest with the school administration. Parents may request, in writing, teacher attributes that would best serve their child's learning needs; however, requests for specific teachers will not be honored.

Promotion and Retention

The procedures to be followed by the staff regarding promotion and retention will be developed by the Superintendent and will be continually evaluated. Building Principals may establish written standards for promotion or retention within the school units to which the students are assigned, subject to the guidelines of the Superintendent and the approval of the Board of Education.

Testing Program

The Board of Education endorses and supports the use of ability, achievement, diagnostic, readiness, interest and guidance tests as part of the total educational process to the degree to which tests help the District to serve its students.

Alternative Testing Procedures

The use of alternative testing procedures shall be limited to:

- a) Students identified by the Committee on Special Education and/or Section 504 Team as having a disability. Alternative testing procedures shall be specified in a student's Individualized Education Program or Section 504 Accommodation Plan; and
- b) Students whose native language is other than English (i.e., English language learners) in accordance with State Education Department Guidelines.

The alternative testing procedures employed shall be based upon a student's individual needs and the type of test administered.

The District shall report the use of alternative testing procedures to the State Education Department on a form and at a time prescribed by the Commissioner.

Reporting to Parents/Guardians

Parents/guardians shall receive an appropriate report of student progress at regular intervals.

Report cards shall be used as a standard vehicle for the periodic reporting of student progress and appropriate school related data. Report cards, however, are not intended to exclude other means of reporting progress, such as interim reports, conferences, phone conversations, etc.

When necessary, attempts will be made to provide interpreters for non-English speaking parents/guardians.

Section 504 of the Rehabilitation Act of 1973, 29 USC Section 794 et seq.
Education Law Section 1709(3)
8 NYCRR Sections 100.2(g), 117 and 154

7211 PROVISION OF INTERPRETER SERVICES TO PARENTS WHO ARE HEARING IMPAIRED

The Board of Education assures parents or persons in parental relationship who are hearing impaired the right to meaningful access to school initiated meetings or activities pertaining to the academic and/or disciplinary aspects of their children's education. School initiated meetings or activities are defined to include, but are not limited to, parent-teacher conferences, child study or building-level team meetings, planning meetings with school counselors regarding educational progress and career planning, suspension hearings or any conferences with school officials relating to disciplinary actions. The term "hearing impaired" shall include any hearing impairment, whether

permanent or fluctuating, which prevents meaningful participation in School District meetings or activities.

Parents or persons in parental relationship shall be notified of the availability of interpreter services to be provided at no charge, provided that a written request is made to the School District within fourteen (14) days of the scheduled event. Exceptions to the time frame request may be made for unanticipated circumstances as determined by the principal/designee. The District shall also notify appropriate school personnel as to the terms and implementation of this policy.

If interpreter services are requested, the District shall appoint an interpreter for the hearing impaired to interpret during the meeting or activity. The District will arrange for interpreters through a District-created list or through an interpreter referral service. The District shall also develop interagency agreements, as appropriate, to ensure that sign language interpreters are provided for eligible parents or persons in parental relationship when District students attend out-of-District schools or programs.

In the event that an interpreter is unavailable, the School District shall make other reasonable accommodations which are satisfactory to the parents or persons in parental relationship. Examples of what constitutes reasonable accommodations in the event an interpreter cannot be located may include, but are not limited to, the use of:

- a) Written communications, transcripts, note takers, etc; and
- b) Technology, such as: a decoder or telecommunication device for the deaf, assistive listening devices, and closed or open captioning.

Education Law Section 3230

8 New York Code of Rules and Regulations

(NYCRR) Section 100.2(aa)

Adopted: 5/20/03

7212 RESPONSE TO INTERVENTION (RTI) PROCESS

Response to Intervention (RTI) is a multi-tiered early prevention and intervention system designed to improve outcomes for all students. In accordance with Commissioner's Regulations, the School District has established administrative practices and procedures for implementing District-wide initiatives that address a Response to Intervention (RTI) process applicable to all students. For students suspected of having a potential learning disability, the District will provide appropriate RTI services pursuant to Commissioner's Regulations prior to a referral to the Committee on Special Education (CSE) for evaluation.

The New York State Education Department (SED) has released a guidance document to assist school districts in designing and implementing an effective RTI process. This document includes, but is not limited to, information regarding regulatory requirements, quality indicators, staff development, tools to assist districts in selecting a specific model and procedures for the use of RTI data in determining if a student has a learning disability. This guidance document is available at:

<http://www.p12.nysed.gov/specialed/RTI/guidance/cover.htm>.

Minimum Requirements of District's RTI Program

The District's RTI process shall include the following minimum requirements:

- a) Scientific, research-based instruction in reading and mathematics provided to all students in the general education class by qualified personnel. Instruction in reading, per Commissioner's Regulations, shall mean scientific, research-based reading programs that include explicit and systematic instruction in phonemic awareness, phonics, vocabulary development, reading fluency (including oral reading skills) and reading comprehension strategies;
- b) Screenings shall be provided to all students in the class to identify those students who are not making academic progress at expected rates; Screenings will be conducted three times per year for all students in grades Kindergarten through 8 in reading and math.
- c) Scientific, research-based instruction matched to student need with increasingly intensive levels of targeted interventions for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards;
- d) Repeated assessments of student achievement which should include curriculum based measures to determine if interventions are resulting in student progress toward age or grade level standards;

- e) The application of information about the student's response to intervention to make educational decisions about changes in goals [i.e., goals for all students, not just Individualized Education Program (IEP) goals], instruction and/or services and the decision to make a referral for special education programs and/or services; and a Building Level RTI Team consisting of the principal, classroom teacher, intervention specialist, and consultant teacher, if applicable.
- f) Written notification to the parents when the student requires an intervention beyond that provided to all students in the general education classroom that provides information about:
 - 1. The amount and nature of student performance data that will be collected and the general education services that will be provided as enumerated in Commissioner's Regulations;
 - 2. Strategies for increasing the student's rate of learning; and
 - 3. The parents' right to request an evaluation for special education programs and/or services.

Structure of Response to Intervention Program

The District's RTI program will consist of multiple tiers of instruction/assessments to address increasingly intensive levels of targeted intervention to promote early identification of student performance needs and/or rate of learning, and to help raise achievement levels for all students.

The Building Level RTI Team's responsibilities shall include, but are not limited to, the following:

- a) Determining the level of interventions/student performance criteria appropriate for each tier of the RTI model;
- b) Analyzing information/assessments concerning a student's response to intervention and making educational decisions about changes in goals, instruction and/or services;
- c) Determining whether to make a referral for special education programs and/or services.

Criteria for Determining the Levels of Intervention to be Provided to Students

The District will establish grade levels/assessment guidelines for targeted areas of student performance in accordance with Commissioner's Regulations to identify students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards.

The District will identify assessment measures/tools and the corresponding scores or levels of proficiency below which students shall be considered for increasingly intensive levels of targeted intervention and instruction (i.e., multi-tiered RTI model).]

Types of Interventions

The District will provide multiple tiers of increasingly intensive levels of targeted intervention and instruction for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards.

It is expected that use of the Tier Level of instruction will be specific to each student's needs and will be an ongoing process, with students entering and exiting tiers of intervention according to the analysis of student performance data and progress monitoring.

Tier One Instruction/Intervention

Tier One instruction is provided to all students in the general education setting. The use of scientific, research based instruction in the areas of reading and math will be provided by the general education teacher and/or other qualified personnel as appropriate, and will emphasize proactive, preventative core instructional strategies in the classroom setting. Group and/or individualized instruction, assessment and reinforcement activities will be provided as deemed appropriate by the classroom teacher.

The analysis of Tier One student performance data will be used to identify those students who need additional intervention at the Tier One or at the Tier Two Level of instruction.

Tier Two Instruction/Intervention

In general, Tier Two instruction will consist of small group, targeted interventions for those students identified as being "at risk" who fail to make adequate progress in the general education classroom. Tier Two instruction will include programs and intervention strategies designed to supplement Tier One interventions provided to all students in the general education setting.

Tier Two instruction may be provided by specialized staff such as reading and math teachers, tutors, speech therapists, school psychologists and/or school counselors as determined by the Building Level RTI Team. It may take place in the general education classroom or in another location as determined by the Building Level RTI Team.

At the conclusion of Tier Two instruction, the Building Level RTI Team will review the student's progress and make a determination as to whether Tier Two interventions should be maintained, whether the student no longer requires Tier Two interventions if satisfactory progress is shown, or whether the student should be referred for Tier Three instruction.

Tier Three Instruction/Intervention

Tier Three instruction is the provision of more intensive instructional interventions, tailored to the needs of the individual student; and is provided to those students who do not achieve adequate progress after receiving interventions at the Tier Two level. Tier Three instruction may include longer periods of intervention program and services than those provided in the first two Tiers based upon the significant needs of the student.

Tier Three instruction will be provided by those specialists, as determined by the Building Level RTI Team, best qualified to address the individual student's targeted area(s) of need. If deemed appropriate

by the Team, and in accordance with applicable law and regulation, a referral of the student may be made to the Committee on Special Education.

Progress monitoring on a continuous basis is an integral part of Tier Three, and the student's response to the intervention process will determine the need/level of further intervention services and/or educational placement.

Amount and Nature of Student Performance Data to be Collected

The Building Level RTI Team will determine the amount and nature of student performance data that will be collected to assess, on an ongoing basis, student performance results and address ongoing academic needs as warranted. Such data collection will reflect the Tier Level of intervention provided to the student. Student performance data will also be used to review the District's RTI program and make modifications to the program as deemed necessary.

Manner and Frequency for Progress Monitoring

The RTI Building Team shall monitor the progress of those students receiving intervention services beyond that provided to all students in the general education classroom. The Team shall meet with the student's teacher(s) and will determine if further adjustments need to be made to the student's current instructional program and/or a change made to the Tier Level of intervention provided. Monitoring of student progress shall be an ongoing part of the RTI program from the initial screening to completion of the RTI process as applicable. Parents may also request that the progress of their child be reviewed by the Building Level RTI Team.

Fidelity measures (e.g., an observational checklist of designated teaching behaviors in accordance with the RTI process being implemented) will also be completed by Team members to assess whether the intervention was implemented as intended and uniformly applied. Clear benchmarks will be established for student performance and performance charts will be plotted at the completion of the instructional period/intervention process.

Staff Development

All staff members involved in the development, provision and/or assessment of the District's RTI program, including both general education and special education instructional personnel, shall receive appropriate training necessary to implement the District's RTI program. Staff development will include the criteria for determining the levels of intervention provided to students, the types of interventions, collection of student performance data, and the manner and frequency for monitoring progress.

Parent Notification

Written notification shall be provided to parents when their child requires an intervention beyond that provided to all students in the general education classroom. Such written notice shall include the following information:

- a) The amount and nature of student performance data that will be collected and the general education services that will be provided as part of the RTI process;

- b) Strategies for increasing the child's rate of learning; and
- c) The parents' right to request an evaluation for special education programs and/or services.

34 Code of Federal Regulations (CFR) Sections 300.309 and 300.311

Education Law Sections 3208, 4002, 4401, 4401-a, 4402, 4402, and 4410

8 New York Code of Rules and Regulations (NYCRR) Sections 100.2(ii), 200.2(b)(7), 200.4(a), 200.4(j)(3)(i), and 200.4(j)(5)(i)(g)

7220 GRADUATION REQUIREMENTS

In order to graduate from Bolivar-Richburg Central School District, a student must complete or may exceed the requirements set forth in Part 100 of the Commissioner's Regulations. The Board of Education reserves the right to establish requirements for graduation which exceed the minimum standards as defined by the New York State Regents.

8 New York Code of Rules and Regulations

(NYCRR) Sections 100.1(i) and 100.5

7221 EARLY GRADUATION

A student shall be eligible for early graduation in fewer than eight (8) semesters upon completion of all requirements for graduation, excluding physical education, as mandated by Commissioner's Regulations. A student shall not be required to continue enrollment for the sole purpose of completing physical education requirements. The District, upon request from the student's parent/guardian, may choose to grant the student a high school diploma prior to his/her completion of the eighth (8th) semester.

8 New York Code of Rules and Regulations

(NYCRR) Section 100.5(a) and (e)

7222 CREDENTIAL OPTIONS FOR STUDENTS WITH DISABILITIES

The Board of Education is committed to ensuring that students with disabilities are provided appropriate opportunities to earn a high school diploma in accordance with the provisions of Commissioner's Regulations Section 100.5. However, when necessary, the District may award high school individualized education program (IEP) diplomas to students with disabilities.

High School Diplomas

Students pursuing either a Regents or a local high school diploma must acquire a certain number of units of credit in specified courses and also meet subject sequence requirements. It is critical that students with disabilities be provided access to the required courses and testing programs needed for graduation with these awards.

High School Individualized Program (IEP) Diplomas

Each individualized education program (IEP) diploma awarded shall be accompanied by a written statement of assurance that the student named as its recipient shall continue to be eligible to attend school until the student has earned a high school diploma or until the end of the school year of such student's twenty-first (21st) birthday, whichever is earlier.

The Superintendent shall report to the State Education Department, within fifteen (15) days after the June graduation, the total number and the names of the students awarded IEP diplomas that school year.

Regents Competency Test (RCT) Safety Net and 55-64 Passing Score Option for Students with Disabilities

The Board of Regents approved an extension of the Regents Competency Test (RCT) "safety net" for students with disabilities who pursue a Regents or local high school diploma.

The following students qualify for the RCT safety net and the 55-64 passing score:

- a) Students with disabilities identified through a Committee on Special Education (CSE). Specific language regarding the availability of the safety net does not have to be indicated on the student's IEP.
- b) Students with disabilities identified through the Section 504 Multidisciplinary Team (MDT) if recommended and documented by the MDT on the student's Accommodation Plan.
- c) Students with disabilities declassified while in grades 8 through 12 if recommended and documented by the CSE on the student's IEP.

Regents Diploma Requirements

To earn a high school Regents diploma, all students need to take and pass five (5) specific Regents examinations with a score of 65 or higher and earn twenty-two (22) units of credit. The required Regents Examinations are English, Mathematics, Science, Global History and Geography, and U.S. History and Government.

Students with Disabilities - Local Diploma Requirements

Student with disabilities who first enter grade 9 prior to September 2011 may earn credit toward a Local Diploma by:

- a) Achieving a score of 55-64 on any or all Regents Examinations required for graduation (English, Mathematics, Science, Global History and Geography, and/or U.S. History and Government); or
- b) Passing the corresponding Regents Competency Test (RCT) of a failed required Regents Examination.

The school may administer the RCT before or after the Regents Examination, but in all cases the student **MUST** take the required Regents Examination in order to earn the Local Diploma.

The RCT Examinations shall remain available until the student graduates or reaches the age of twenty-one (21). This provision of law applies only to students with disabilities who are entitled to attend school pursuant to Education Law Section 3202 or 4402(5).

Education Law Sections 3202 and 4402(5)

8 New York Code of Rules and Regulations (NYCRR) Sections 100.5(a-f) and 100.9

7230 DUAL CREDIT FOR COLLEGE COURSES

All students who have successfully fulfilled the requirements to enter into their senior year and have demonstrated intellectual and social maturity may choose to matriculate at any one (1) of the colleges that have a cooperative agreement with our School District. Such opportunities may include early admission to college, collegiate-level work offered in the high school, or other means of providing advanced work. Review and approval by the administration are necessary before any college courses may be taken during the school day.

The Board shall not be required to pay tuition and other related costs for those high school students enrolled in college courses. Students who wish to enroll in college level coursework shall meet all academic, grade level and coursework requirements as set forth by administrative guidelines.

7240 STUDENT RECORDS: ACCESS AND CHALLENGE

Related Policies & Documents: Refer also to Policy #7643

The School District shall comply with the provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA). Under its provisions, "parents/guardians and noncustodial parent(s), whose rights are not limited by court order or formal agreement, of a student under eighteen (18), or a student who

is eighteen (18) years of age or older or who is attending an institution of post-secondary education, have a right to inspect and review any and all education records maintained by the School District.

Education Records

The term "education records" is defined as all records, files, documents and other materials containing information directly related to a student; and maintained by the education agency or institution, or by a person acting for such agency or institution (34 Code of Federal Regulations (CFR) Section 99.3). This includes all records regardless of medium, including, but not limited to, handwriting, videotape or audiotape, electronic or computer files, film, print, microfilm, and microfiche.

In addition, for students who attend a public school district, all records pertaining to services provided under the Individuals with Disabilities Education Act (IDEA) are considered "education records" under FERPA. As such, they are subject to the confidentiality provisions of both Acts.

Personal notes made by teachers or other staff, on the other hand, are not considered education records if they are:

- a) Kept in the sole possession of the maker;
- b) Not accessible or revealed to any other person except a temporary substitute; and
- c) Used only as a memory aid.

Additionally FERPA does not prohibit a school official from disclosing information about a student if the information is obtained through the school official's personal knowledge or observation and not from the student's education records.

Records created and maintained by a law enforcement unit for law enforcement purposes are also excluded.

Access to Student Records

The Board directs that administrative regulations and procedures be formulated to comply with the provisions of federal law relating to the availability of student records. The purpose of such regulations and procedures shall be to make available to the parents/guardians of students and noncustodial parent(s) whose rights are not limited by court order or formal agreement, or students who are eighteen (18) years of age or older or who are attending an institution of post-secondary education, student records, and files on students, and to ensure the confidentiality of such records with respect to third parties.

Under FERPA, unless otherwise exempted in accordance with law and regulation, the District may release personally identifiable information contained in student records only if it has received a "signed and dated written consent" from a parent or eligible student. Signed and dated written consent may include a record and signature in electronic form provided that such signature:

- a) Identifies and authenticates a particular person as the source of the electronic consent; and

- b) Indicates such person's approval of the information contained in the electronic consent.

Health and Safety Emergency Exception

School districts must balance the need to protect students' personally identifiable information with the need to address issues of school safety and emergency preparedness. Under FERPA, if an educational agency or institution determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records, without consent, to any person whose knowledge of the information is necessary to protect the health and safety of the student or other individuals during the period of the health or safety emergency. School districts may release information from records to appropriate parties including, but not limited to, parents, law enforcement officials and medical personnel. A school district's determination that there is an articulable and significant threat to the health or safety of a student or other individuals shall be based upon a totality of the circumstances, including the information available, at the time the determination is made. The school district must record the articulable and significant threat that formed the basis for the disclosure and maintain this record for as long as the student's education records are maintained.

Challenge to Student Records

Parents/guardians of a student under the age of eighteen (18), or a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education, shall have an opportunity for a hearing to challenge the content of the school records, to ensure that the records are not inaccurate, misleading, or otherwise in violation of the privacy of students, and to provide an opportunity for the correction or deletion of any such inaccurate, misleading, or otherwise inappropriate data contained therein.

Disclosures to Parents of Eligible Students

Even after a student has become an "eligible student" under FERPA (which is defined as a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education) an educational agency or institution may disclose education records to an eligible student's parents, without the student's consent:

- a) If the student is claimed as a dependent for Federal income tax purposes by either parent;
- b) In connection with a health or safety emergency;
- c) If the student is under twenty-one (21) years of age and has violated an institutional rule or policy governing the use of alcohol or a controlled substance; or
- d) If the disclosure falls within any other exception to the consent requirements under FERPA or its Regulations, such as the disclosure of directory information or in compliance with a court order or lawfully issued subpoena.

Release of Information to the Noncustodial Parent

The District may presume that the noncustodial parent has the authority to request information concerning his/her child and release such information upon request. If the custodial parent wishes to limit the noncustodial parent's access to the records, it would be his/her responsibility to obtain and present to the school a legally binding instrument that prevents the release of said information.

Release of Information to Another Educational Institution

The District may disclose any and all educational records, including disciplinary records and records that were created as a result of a student receiving special education services under Part B of IDEA, to another school or postsecondary institution at which the student seeks or intends to enroll, or after the student has enrolled or transferred, so long as the disclosure is for purposes related to the student's enrollment or transfer. Parental consent is not required for transferring education records if the school's annual FERPA notification indicates that such disclosures may be made. In the absence of information about disclosures in the annual FERPA notification, school officials must make a reasonable attempt to notify the parent about the disclosure, unless the parent initiated the disclosure. Additionally, upon request, schools must provide a copy of the information disclosed and an opportunity for a hearing.

Family Educational Rights and Privacy Act of 1974, 20 United States Code (USC) Section 1232g

34 Code of Federal Regulations (CFR) Part 99

7241 RELEASE OF INFORMATION TO THE NONCUSTODIAL PARENT

Related Policies & Documents: Refer also to Policy #7170

The District may presume that the noncustodial parent has the authority to request information concerning his/her child and release such information upon request. If the custodial parent wishes to limit the noncustodial parent's access to the records, it would be his/her responsibility to obtain and present to the school a legally binding instrument that prevents the release of said information.

20 United States Code (U.S.C.) 1232(g)(b)(4)(A)

34 Code of Federal Regulations (C.F.R.) Part 99

7242 STUDENT DIRECTORY INFORMATION

The District shall publish an annual public notice informing parents or eligible students of their right to refuse the release of student directory information and indicating a time period for their response. Following such public notice and a reasonable response period, the District may release such information to an outside group without individual consent.

The Family Education Rights and Privacy Act (FERPA) defines student directory information as the following: name; address; telephone listing; date and place of birth, enrollment status (e.g. undergraduate or graduate, full time or part time); major field of study; grade level; participation in officially recognized activities and sports; weight and height (if members of athletic teams); dates of attendance; honors, degrees and awards received; electronic mail address; photograph; and the name of the educational agency or institution most recently previously attended by the student.

20 United States Code (U.S.C.) 1232(g)

7243 MILITARY RECRUITERS' ACCESS TO SECONDARY SCHOOL STUDENTS AND INFORMATION ON STUDENTS

In compliance with the Elementary and Secondary Education Act of 1965, as amended by the No Child Left Behind Act of 2001 (NCLB); and the National Defense Authorization Act, and in accordance with the Family Educational Rights and Privacy Act (FERPA), the School District shall comply with a request by a military recruiter for secondary (i.e., juniors and seniors) students' names, addresses, and telephone listings, **unless a parent/eligible student (over age 18) has "opted out" of providing such information.**

Further, in compliance with the NCLB, the District shall give military recruiters the same access to secondary school students as they provide to postsecondary institutions or to prospective employers.

Under FERPA, the School District must provide notice to parents of the types of student information that it releases publicly. This type of information, commonly referred to as "directory information," which is released by the District includes - but is not limited to - such items as students' names, addresses, and telephone listings. The notice must include an explanation of a parent's right to request that the information not be disclosed without prior written parental consent; and further requires that parents be notified that the School District routinely discloses students' names, addresses, and telephone listings to military recruiters upon request, subject to a parent's/eligible student's request not to disclose such information without written consent.

A single notice provided through a mailing, student handbook, or other method that is reasonably calculated to inform parents of the above information is sufficient to satisfy the parental notification requirements of both FERPA and the NCLB. The notification shall advise the parent/eligible student of how to opt out of the public, nonconsensual disclosure of directory information and the method and timeline within which to do so.

If a parent/eligible student opts out of providing directory information (or any subset of such information) to third parties, the opt-out relating to the student's name, address, or telephone listing applies to request for military recruiters as well. For example, if the opt-out states that telephone

numbers will not be disclosed to the public, the District may not disclose telephone numbers to military recruiters.

The Superintendent/designee shall ensure that appropriate notification is provided to parents/eligible students informing them of their right to opt-out of the release of designated directory information without prior written parental consent.

U.S. Department of Education-Funded Surveys

In compliance with the Protection of Pupil Rights Amendment (PPRA), the School District is committed to protecting the rights and privacy interests of parents/guardians and students with regard to surveys funded in whole or part by any program administered by the U.S. Department of Education (DOE).

The District shall make instructional materials available for inspection by parents/guardians if those materials will be used in connection with a DOE-funded survey, analysis, or evaluation in which their children participate. In addition, the School District **shall obtain prior written parental/guardian consent** before minor students are required to participate in any DOE-funded survey, analysis, or evaluation that reveals information concerning:

- a) Political affiliations or beliefs of the student or the student's parent/guardian;
- b) Mental or psychological problems of the student or the student's family;
- c) Sex behavior or attitudes;
- d) Illegal, anti-social, self-incriminating, or demeaning behavior;
- e) Critical appraisals of other individuals with whom respondents have close family relationships;
- f) Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
- g) Religious practices, affiliations, or beliefs of the student or student's parent/guardian; or

- h) Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Surveys Funded by Sources Other than U.S. Department of Education

The School District has developed and adopted this Board policy, in consultation with parents/guardians, regarding the following:

- a) The right of the parent/guardian to inspect, upon request, a survey created by a third party (i.e., by a party other than the DOE) before the survey is administered or distributed by the school to a student. Requests by parents/guardians to inspect such surveys are to be submitted to, in writing, to the building principal at least 10 days prior to the administration or distribution of any survey. Further, the District shall grant a request by the parent/guardian for reasonable access to such survey within a reasonable period of time after the request is received by the District.
- b) Arrangements shall be provided by the District to protect student privacy in the event of the administration or distribution of a survey to a student containing one or more of the following items (including the right of the parent/guardian of the student to inspect, upon request, any survey containing one or more of such items):
 1. Political affiliations or beliefs of student toward the student's parent/guardian;
 2. Mental or psychological problems of the student or the student's family;
 3. Sex behavior or attitudes;
 4. Illegal, anti-social, self-incriminating or demeaning behavior;
 5. Critical appraisals of other individuals with whom respondents have close family relationships;
 6. Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
 7. Religious practices, affiliations, or beliefs of the student or the student's parent/guardian;
 8. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Parents/guardians have the right to inspect, upon request, any survey containing one or more of such items. Such requests must be submitted by the parent/guardian, in writing, to the building principal at least 10 days prior to the administration or distribution of any survey.

- c) Parents/guardians shall be granted, upon request, reasonable access and the right to inspect instructional materials used as part of the educational curriculum for the student within a

reasonable period of time (defined by the School District, for the purposes of this policy, as 30 days) after such request is received by the District. Requests shall be submitted by parents/guardians, in writing, to the building principal. The *term "instructional material" means instructional content that is provided to a student, regardless of its format, including printed or representational materials, audiovisual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). The term does not include academic tests or academic assessments.*

- d) The administration of physical examinations or screenings that the School District may administer to a student.

Further, this law does not apply to any physical examination or screening that is permitted or required by State law, including physical examinations or screenings that are permitted without parental notification.

In the implementation of this provision regarding the administration of physical examinations or screenings that the school may administer to the student, the School District incorporates by reference Board policies that address student health services, as applicable, including but not limited to policies regarding the administration of medication, immunization of students, and student physicals.

- e) Unless mandated/authorized in accordance with Federal or State law and/or regulation, it is policy of the Board of Education, to **not permit** the collection, disclosure, or use of personal information (the term "*personal information*" is defined as individually identifiable information including a student's or parent/guardian's first and last name; home address; telephone number; or Social Security number) collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose), *unless otherwise exempted pursuant to law as noted below*. Questions regarding the collection, disclosure, or use of personal information collected from students for such marketing purposes may be referred to the school attorney as deemed necessary by the Superintendent/designee.

These requirements **do not apply** to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as the following:

- a) College or other postsecondary education recruitment, or **military recruitment*;
- b) Book clubs, magazines, and programs providing access to low-cost literary products;
- c) Curriculum and instructional materials used by elementary schools and secondary schools;
- d) Tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about

students (or to generate others statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments;

- e) The sale by students of products or services to raise funds for school-related or education-related activities;
- f) Student recognition programs.

**Military recruiter access to student information is governed by the Family Educational Rights and Privacy Act of 1974 (FERPA) and the National Defense Authorization Act for Fiscal Year 2002.*

This law is not intended to preempt applicable provisions of State law that require parental/guardian notification.

Notification of Policies/"Opt Out" Provisions

The School District shall provide for reasonable notice of the adoption or continued use of this policy directly to the parents/guardians of students enrolled in the District. At a minimum, the District shall provide such notice at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in this policy.

Further, in the notification, the District shall offer an opportunity for parents/guardians to opt their child out of participation in the following activities:

- a) Activities involving the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose).
- b) The administration of **any survey** containing one or more of the eight items of information listed above in the subheadings referencing DOE-funded surveys as well as non-DOE-funded surveys.
- c) Any non-emergency, invasive physical examination or screening that is required as a condition of attendance; administered by the school and scheduled by the school in advance; and not necessary to protect the immediate health and safety of the student, or of other students. The term "invasive physical examination" means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision or scoliosis screening.

Notification of Specific Events

In the notification, the School District shall directly notify parents/guardians, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when the above activities are scheduled or expected to be scheduled.

General Provisions

The requirements of PPRA do not apply to a survey administered to a student in accordance with the Individuals with Disabilities Education Act (IDEA). Further, PPRA does not supersede any of the requirements of FERPA.

The rights provided to parents/guardians under PPRA transfer from the parent/guardian to the student when the student turns 18 years old or is an emancipated minor under applicable State law.

The School District may use funds provided under Part A of Title V of the Elementary and Secondary Education Act of 1965 to enhance parental/guardian involvement in areas affecting the in-school privacy of students.

Section 1232h(b) and (c), as amended by the No Child Left Behind Act of 2001

34 Code of Federal Regulations (C.F.R.) Part 98

7310 SCHOOL CONDUCT AND DISCIPLINE

Related Policies & Documents: Refer also to Policy #3410

The Board of Education acknowledges its responsibility to protect the educational climate of the District and to promote responsible student behavior. Accordingly, the Board delegates to the Superintendent the responsibility for assuring the implementation of a *Code of Conduct for the Maintenance of Order on School Property*, including school functions, which shall govern the conduct of students as well as teachers, other school personnel, and visitors. The Board shall further provide for the enforcement of such Code of Conduct. The District Code of Conduct shall be developed in collaboration with student, teacher, administrator, and parent organizations, school safety personnel and other personnel and shall incorporate, at a minimum, those components addressed in law and enumerated in Policy #3410 -- *Code of Conduct on School Property*. Specific components may vary as appropriate to student age, building levels, and educational needs.

In accordance with the *Code of Conduct on School Property*, areas addressing student conduct and behavior will further utilize the following strategies in promoting acceptable student behavior:

- a) A bill of rights and responsibilities of students that focuses upon positive student behavior, and is publicized and explained to all students on an annual basis;

- b) A Code of Conduct for student behavior setting forth prohibited student conduct and the range of penalties that may be imposed for violation of such Code, that is publicized and disseminated to all students and parents/guardians on an annual basis pursuant to law;
- c) Strategies and procedures for the maintenance and enforcement of public order on school property that shall govern the conduct of all persons on school premises, in accordance with Section 2801 of the Education Law and accepted principles of due process of law;
- d) Procedures within each building to involve student service personnel, administrators, teachers, parents/guardians and students in the early identification and resolution of discipline problems. For students identified as having disabilities, procedures are included for determining when a student's conduct shall constitute a reason for referral to the Committee on Special Education for review and modification, if appropriate, of the student's individualized education program;
- e) Alternative educational programs appropriate to individual student needs;
- f) Disciplinary measures for violation of the school policies developed in accordance with subparagraphs b) and c) of this paragraph. Such measures shall be appropriate to the seriousness of the offense and, where applicable, to the previous disciplinary record of the student. Any suspension from attendance upon instruction may be imposed only in accordance with Section 3214 of the Education Law; and
- g) Guidelines and programs for in-service education for all District staff to ensure effective implementation of school policy on school conduct and discipline.

Education Law Sections 2801 and 3214

8 New York Code of Rules and Regulations

(NYCRR) Section 100.2(l)(2)

7311 LOSS OF DESTRUCTION OF DISTRICT PROPERTY OR RESOURCES

The District is authorized to seek restitution, through civil action when necessary, from the parent or guardian of an unemancipated student over the age of ten (10) and under the age of eighteen (18) where such student:

- a) Has willfully, maliciously, or unlawfully damaged, defaced or destroyed real or personal property in the care, custody and/or ownership of the District; or

- b) Has knowingly entered or remained in a District building, and wrongfully taken, obtained or withheld personal property owned or maintained by the District.

In instances where the District has sought and obtained a judgment from a court of competent jurisdiction, parent/guardian liability for civil damages shall not exceed five thousand dollars (\$5,000). Under certain circumstances, prior to the entering of a judgment in the sum total of five hundred dollars (\$500) or more, a court may consider the parent's or guardian's financial inability to pay any portion or all of the amount of damages which are in excess of five hundred dollars (\$500), and enter a judgment in an amount within the financial capacity of the parent or guardian. However, no such judgment shall be entered for an amount which is less than five hundred dollars (\$500).

False Reporting of an Incident and/or Placing a False Bomb

A School District is also authorized to seek restitution, as described in law, from a parent or guardian of an unemancipated student over the age of ten (10) and under the age of eighteen (18) where such student:

- a) Has falsely reported an incident; or
- b) Has placed a false bomb as defined in the New York State Penal Law.

Damages for falsely reporting an incident or placing a false bomb shall mean the funds reasonably expended by the School District in responding to such false report of an incident or false bomb, less the amount of any funds which have been or will be recovered from any other source as enumerated in law.

In seeking restitution, the School District shall file with the court, district attorney and defense counsel an affidavit stating that the funds reasonably expended for which restitution is being sought have not been and will not be recovered from any other source or in any other civil or criminal proceeding, except as provided for pursuant to General Obligations Law Section 3-112.

General Obligations Law Section 3-112

Penal Law Section 60.27

7312 STUDENT DRESS CODE

The responsibility for the dress and appearance of students shall rest with individual students and parents. They have the right to determine how the student shall dress, provided that such attire does not interfere with the operation of the school or infringe upon the general health, safety and welfare of District students or employees. Student dress and appearance must be in accordance with the District Code of Conduct. The administration is authorized to take action in instances where individual dress does not meet these stated requirements.

While the school administration may require students participating in physical education classes to wear certain types of clothing such as sneakers, socks, shorts, and tee shirts, they may not prescribe a specific brand which students must wear.

This policy does not mean that student, faculty, or parent groups may not recommend appropriate dress for school or special occasions. It means that a student shall not be prevented from attending school or a school function, or otherwise be discriminated against, so long as his/her dress and appearance meet the above requirements.

7313 SUSPENSION OF STUDENTS

Related Policies & Documents: Refer also to Policy #7360

The Superintendent and/or the Principal may suspend the following students from required attendance upon instruction:

- a) A student who is insubordinate or disorderly; or
- b) A student who is violent or disruptive; or
- c) A student whose conduct otherwise endangers the safety, morals, health or welfare of others.

Suspension

Five (5) School Days or Less

The Superintendent and/or the Principal of the school where the student attends shall have the power to suspend a student for a period not to exceed five (5) school days. In the absence of the Principal, the designated "Acting Principal" may then suspend a student for a period of five (5) school days or less.

When the Superintendent or the Principal (the "suspending authority") proposes to suspend a student for five (5) school days or less, the suspending authority shall provide the student with **notice** of the charged misconduct. If the student denies the misconduct, the suspending authority shall provide an **explanation** of the basis for the suspension.

When suspension of a student for a period of five (5) school days or less is proposed, administration shall also immediately notify the parent/person in parental relation in writing that the student *may be* suspended from school.

Written notice shall be provided by personal delivery, express mail delivery, or equivalent means reasonably calculated to assure receipt of such notice within twenty-four (24) hours of the decision to propose suspension at the last known address or addresses of the parents/persons in parental relation. Where possible, notification shall also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents/persons in parental relation.

The notice shall provide a description of the incident(s) for which suspension is proposed and shall inform the student and the parent/person in parental relation of their right to request an immediate informal conference with the Principal in accordance with the provisions of Education Law

Section 3214(3)(b). Both the notice and the informal conference shall be in the dominant language or mode of communication used by the parents/persons in parental relation. At the informal conference, the student and/or parent/person in parental relation shall be authorized to present the student's version of the event and to ask questions of the complaining witnesses.

The notice and opportunity for informal conference shall take place **prior to** suspension of the student unless the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, in which case the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practical.

Teachers shall immediately report or refer a violent student to the Principal or Superintendent for a violation of the *District's Code of Conduct* and a minimum suspension period.

More Than Five (5) School Days

In situations where the Superintendent determines that a suspension in excess of five (5) school days may be warranted, the student and parent/person in parental relation, upon reasonable notice, shall have had an opportunity for a fair hearing. At the hearing, the student shall have the right of representation by counsel, with the right to question witnesses against him/her, and the right to present witnesses and other evidence on his/her behalf.

Where the basis for the suspension is, in whole or in part, the possession on school grounds or school property by the student of any firearm, rifle, shotgun, dagger, dangerous knife, dirk, razor, stiletto or any of the weapons, instruments or appliances specified in Penal Law Section 265.01, the hearing officer or Superintendent shall not be barred from considering the admissibility of such weapon, instrument or appliance as evidence, notwithstanding a determination by a court in a criminal or juvenile delinquency proceeding that the recovery of such weapon, instrument or appliance was the result of an unlawful search or seizure.

Minimum Periods of Suspension

Pursuant to law, Commissioner's Regulations and the *District's Code of Conduct*, minimum periods of suspension shall be provided for the following prohibited conduct, subject to the requirements of federal and state law and regulations:

- a) Consistent with the federal Gun-Free Schools Act, any student who is determined to have brought a firearm to school or possessed a firearm on school premises shall be suspended for a period of not less than one (1) calendar year. However, the Superintendent has the authority to modify this suspension requirement on a case-by-case basis.
- b) A minimum suspension period for students who repeatedly are substantially disruptive of the educational process or substantially interfere with the teacher's authority over the classroom, provided that the suspending authority may reduce such period on a case-by-case basis to be consistent with any other state and federal law. The definition of "repeatedly" is substantially disruptive of the educational process or substantially interferes with the

teacher's authority" shall be determined in accordance with the Regulations of the Commissioner.

c) A minimum suspension period for acts that would qualify the student to be defined as a violent student pursuant to Education Law Section 3214(2-a)(a), provided that the suspending authority may reduce such period on a case-by-case basis to be consistent with any other state and federal law.

Suspension of Students with Disabilities

Generally, should a student with a disability infringe upon the established rules of the schools, disciplinary action shall be in accordance with procedures set forth in the *District's Code of Conduct* and in conjunction with applicable law and the determination of the Committee on Special Education (CSE).

For suspensions or removals up to ten (10) school days in a school year that do not constitute a disciplinary change in placement, students with disabilities must be provided with alternative instruction or services on the same basis as non-disabled students of the same age.

If suspension or removal from the current educational placement constitutes a disciplinary change in placement because it is for more than ten (10) consecutive school days or constitutes a pattern, a manifestation determination must be made. The District determines on a case-by-case basis whether a pattern of removals constitutes a change of placement. This determination is subject to review through due process and judicial proceedings.

Manifestation Determinations

A review of the relationship between the student's disability and the behavior subject to disciplinary action to determine if the conduct is a manifestation of the disability must be made by a manifestation team immediately, if possible, but in no case later than ten (10) school days after a decision is made:

- a) By the Superintendent to change the placement to an interim alternative educational setting (IAES);
- b) By an Impartial Hearing Officer (IHO) to place the student in an IAES; or
- c) By the Board, District Superintendent, Superintendent or Building Principal to impose a suspension that constitutes a disciplinary change of placement.

The manifestation team shall include a representative of the District knowledgeable about the student and the interpretation of information about child behavior, the parent and relevant members of the CSE as determined by the parent and the District. The parent must receive written notice prior to the meeting to ensure that the parent has an opportunity to attend. This notice must include the purpose of the meeting, the names of those expected to attend and notice of the parent's right to have relevant members of the CSE participate at the parent's request.

The manifestation team shall review all relevant information in the student's file including the student's individualized education program (IEP), any teacher observations, and any relevant information provided by the parents to determine if: the conduct in question was caused by or had a direct and substantial relationship to the student's disability; or the conduct in question was the direct result of the District's failure to implement the IEP. If the team determines the conduct in question was the direct result of failure to implement the IEP, the District must take immediate steps to remedy those deficiencies.

Finding of Manifestation

If it is determined, as a result of this review, that the student's behavior is a manifestation of his/her disability the CSE shall conduct a functional behavioral assessment, if one has not yet been conducted, and implement or modify a behavioral intervention plan.

Functional behavioral assessment (FBA) means the process of determining why the student engages in behaviors that impede learning and how the student's behavior relates to the environment. FBA must be developed consistent with the requirements of Commissioner's Regulations Section 200.22(a) and shall include, but not be limited to, the identification of the problem behavior, the definition of the behavior in concrete terms, the identification of the contextual factors that contribute to the behavior (including cognitive and affective factors) and the formulation of a hypothesis regarding the general conditions under which a behavior usually occurs and probable consequences that serve to maintain it.

Behavioral intervention plan (BIP) means a plan that is based on the results of a functional behavioral assessment and, at a minimum, includes a description of the problem behavior, global and specific hypotheses as to why the problem behavior occurs and intervention strategies that include positive behavioral supports and services to address the behavior.

Unless the change in placement was due to behavior involving serious bodily injury, weapons, illegal drugs or controlled substances, the student must be returned to the placement from which the student was removed unless the parent and the District agree to a change of placement as part of the modification of the behavioral intervention plan.

No Finding of Manifestation

If it is determined that the student's behavior is not a manifestation of his/her disability, the relevant disciplinary procedures applicable to students without disabilities may be applied to the

Provision of Services Regardless of the Manifestation Determination

Regardless of the manifestation determination, students with a disability shall be provided the services necessary for them to continue to participate in the general education curriculum and progress toward meeting the goals set out in their IEP. They must also receive, as appropriate, a functional behavioral assessment, behavioral intervention services and modifications designed to address the behavior violation so it does not recur:

- a) For subsequent suspensions or removals for ten (10) consecutive school days or less that in the aggregate total more than ten (10) school days in a school year but do not constitute a disciplinary change of placement school personnel, in consultation with at least one of the student's teachers, will determine the extent to which services are needed;
- b) For suspensions or other disciplinary removals in excess of ten (10) school days in a school year which do constitute a disciplinary change in placement the IAES and services will be determined by the CSE.

Interim Alternative Educational Setting (IAES)

Students with disabilities who have been suspended or removed from their current placement for more than ten (10) school days may be placed in an IAES which is a temporary educational setting other than the student's current placement at the time the behavior precipitating the IAES placement occurred.

Additionally, an Impartial Hearing Officer in an expedited due process hearing may order a change in placement of a student with a disability to an appropriate IAES for up to forty-five (45) school days if the Hearing Officer determines that maintaining the current placement is substantially likely to result in injury to the students or others.

There are three (3) specific instances when a student with a disability may be placed in an IAES for up to forty-five (45) school days without regard to a manifestation determination:

- a) Where the student carries or possesses a weapon to or at school, on school premises, or to or at a school function under the jurisdiction of the District; or
- b) Where a student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises, or at a school function under the jurisdiction of the District; or
- c) Where a student has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the District. Serious bodily harm has been defined in law to refer to one of the following:
 - 1. Substantial risk of death;
 - 2. Extreme physical pain; or
 - 3. Protracted and obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

A school function shall mean a school-sponsored or school-authorized extracurricular event or activity regardless of where such event or activity takes place, including any event or activity that may take place in another state.

School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a student with a disability who violates a code

of student conduct.

In all cases, the student placed in an IAES shall:

- a) Continue to receive educational services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress towards the goals set out in the student's IEP, and
- b) Receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not recur.

The period of suspension or removal may not exceed the amount of time a non-disabled student would be suspended for the same behavior.

Suspension From BOCES

The BOCES Principal may suspend School District students from BOCES classes for a period not to exceed five (5) school days when student behavior warrants such action.

In-School Suspension

In-school suspension will be used as a lesser discipline to avoid an out-of-school suspension. The student shall be considered present for attendance purposes. The program is used to keep each student current with his/her class work while attempting to reinforce acceptable behavior, attitudes and personal interaction.

BOCES Activities

BOCES activities, such as field trips and other activities outside the building itself, are considered an extension of the school program. Therefore, an infraction handled at BOCES is to be considered as an act within the School District itself.

A student who is ineligible to attend a District school on a given day may also be ineligible to attend BOCES classes. The decision rests with the Superintendent or his/her designee.

Exhaustion of Administrative Remedies

If a parent/person in parental relation wishes to appeal the decision of the Building Principal and/or Superintendent to suspend a student from school, regardless of the length of the student's suspension, the parent/person in parental relation must appeal to the Board of Education prior to commencing an appeal to the Commissioner of Education.

Procedure After Suspension

When a student has been suspended and is of compulsory attendance age, immediate steps shall be taken to provide alternative instruction which is of an equivalent nature to that provided in the student's regularly scheduled classes.

When a student has been suspended, the suspension may be revoked by the Board of Education whenever it appears to be for the best interest of the school and the student to do so. The Board of Education may also condition a student's early return to school and suspension revocation on the student's voluntary participation in counseling or specialized classes, including anger management or dispute resolution, where applicable.

20 United States Code (USC) Section 7151, as reauthorized by the No Child Left Behind Act of 2001

34 Code of Federal Regulations (CFR) Part 300

Education Law Sections 2801(1), 3214 and 4402

Penal Law Section 265.01

8 New York Code of Rules and Regulations (NYCRR) Sections 100.2(l)(2), 200.4(d)(3)(i), 200.22 and Part 201

7313.1 STUDENTS PRESUMED TO HAVE A DISABILITY FOR DISCIPLINE PURPOSES

The parent of a student who has violated any rule or code of conduct of the School District and who was not identified as a student with a disability at the time of such behavior may assert several protections provided for under the Individuals with Disabilities Education Act (IDEA) and State regulations *if the School District is deemed to have had knowledge (as determined in accordance with law and/or regulations and referenced below) that the student was a student with a disability before the behavior that precipitated the disciplinary action occurred.*

Basis of Knowledge

The School District shall be deemed to have knowledge that the student had a disability if prior to the time the behavior occurred:

- a) The parent of the student has expressed concern in writing to supervisory or administrative personnel, or to a teacher of the student, that the student is in need of special education and related services. However, expressions of concern may be oral if the parent does not know how to write or has a disability that prevents a written statement;
- b) The parent of the student has requested an evaluation of the student; or
- c) A teacher of the student, or other District personnel, has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the Director of Special Education or to other supervisory personnel in accordance with the District's established child find or special education referral system.

Exception

A student is not a student presumed to have a disability for discipline purposes if, as a result of receiving the information specified above (i.e., subheading "Basis of Knowledge"):

- a) The parent of the student has not allowed an evaluation of the student pursuant to law and/or regulations;
- b) The parent of the student has refused services under law and/or regulations; or
- c) The student has been evaluated and it was determined that the student is not a student with a disability.

Responsibility for Determining Whether a Student is a Student Presumed to Have a Disability

If it is claimed by the parent of the student or by School District personnel that the District had a basis for knowledge, in accordance with law and/or regulation, that the student was a student with a disability prior to the time the behavior subject to disciplinary action occurred, it shall be the responsibility of the Superintendent of Schools, Building Principal or other school official imposing the suspension or removal to determine whether the student is a student presumed to have a disability.

Conditions That Apply if There is No Basis of Knowledge

If it is determined that there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other nondisabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made during the time period in which such nondisabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted in accordance with law and/or regulations. Pending the results of the evaluation, the student shall remain in the educational placement determined by school authorities.

If the student is determined to be a student with a disability, taking into consideration information from the evaluation and information provided by the parents, the District shall provide special education and related services in accordance with law and/or regulations.

7314 STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES (ACCEPTABLE USE POLICY)

Related Policies & Documents: Refer also to Policy #8271

The Board of Education will provide access to various computerized information resources through the District's computer system ("DCS" hereafter) consisting of software, hardware, computer networks and electronic communications systems. This may include access to electronic mail, so-called "on-line services" and the "Internet." It may include the opportunity for some students to have independent access to the DCS from their home or other remote locations. All use of the DCS, including independent use off school premises, shall be subject to this policy and accompanying regulations. Further, all such use must be in support of education and/or research and consistent with the goals and purposes of the School District.

Access to Inappropriate Content/Material and Use of Personal Technology or Electronic Devices

This policy is intended to establish general guidelines for the acceptable student use of the DCS and also to give students and parents/guardians notice that student use of the DCS will provide student access to external computer networks not controlled by the School District. The District cannot screen or review all of the available content or materials on these external computer networks. Thus some of the available content or materials on these external networks may be deemed unsuitable for student use or access by parents/guardians.

Despite the existence of District policy, regulations and guidelines, it is virtually impossible to completely prevent access to content or material that may be considered inappropriate for students. Students may have the ability to access such content or material from their home, other locations off school premises and/or with a student's own personal technology or electronic device on school grounds or at school events. Parents and guardians must be willing to establish boundaries and standards for the appropriate and acceptable use of technology and communicate these boundaries and standards to their children. The appropriate/acceptable use standards outlined in this policy apply to student use of technology via the DCS or any other electronic media or communications, including by means of a student's own personal technology or electronic device on school grounds or at school events.

Standards of Acceptable Use

Generally, the same standards of acceptable student conduct which apply to any school activity shall apply to use of the DCS. This policy does not attempt to articulate all required and/or acceptable uses of the DCS; nor is it the intention of this policy to define all inappropriate usage. Administrative regulations will further define general guidelines of appropriate student conduct and use as well as proscribed behavior.

District students shall also adhere to the laws, policies and rules governing computers including, but not limited to, copyright laws, rights of software publishers, license agreements, and student rights of privacy created by federal and state law.

Students who engage in unacceptable use may lose access to the DCS in accordance with applicable due process procedures, and may be subject to further discipline under the District's school conduct and discipline policy and the District Code of Conduct. The District reserves the right to pursue legal action against a student who willfully, maliciously or unlawfully damages or destroys property of the District. Further, the District may bring suit in civil court against the parents/guardians of any student who

willfully, maliciously or unlawfully damages or destroys District property pursuant to General Obligations Law Section 3-112.

Student data files and other electronic storage areas will be treated like school lockers. This means that such areas shall be considered to be School District property subject to control and inspection. The Computer Coordinator may access all such files and communications without prior notice to ensure system integrity and that users are complying with the requirements of this policy and accompanying regulations. Students should **NOT** expect that information stored on the DCS will be private.

Notification

The District's Acceptable Use Policy and Regulations will be disseminated to parents and students in order to provide notice of the school's requirements, expectations, and students' obligations when accessing the DCS.

Regulations will be established as necessary to implement the terms of this policy.

7315 TEACHER REMOVAL OF DISRUPTIVE STUDENTS FROM THE CLASSROOM

Disruptive Students

In accordance with Education Law, Commissioner's Regulations and the District's Code of Conduct, teachers shall have the power and authority to remove disruptive students from their classrooms consistent with discipline measures contained in the Code of Conduct. The term "disruptive student," as defined pursuant to law, shall refer to an elementary or secondary student under twenty-one (21) years of age who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom.

Further, teachers shall abide by the provisions of the District's Code of Conduct with regard to the utilization of alternative classroom management techniques and student intervention services, as may be applicable and appropriate to the specific circumstances, prior to removal of the student from the classroom. Additionally, teachers shall have the authority to remove disruptive students from the classroom for each incident for a period of time no greater than as enumerated in the Code of Conduct.

Teachers must inform the student and the school principal/designee of the reasons for the removal.

- a) In most instances, the teacher shall, prior to removing the disruptive student from the classroom, provide the student with an explanation of the basis for the removal and allow the student to informally present the student's version of relevant events.
- b) If the teacher finds that the disruptive student's continued presence in the classroom poses a continuing danger to persons or property or presents an ongoing threat of disruption to

the academic process, the teacher shall provide the student with an explanation of the basis for the removal and an informal opportunity to be heard within twenty-four (24) hours of the student's removal, provided that if such twenty-four (24) hour period does not end on a school day, it shall be extended to the corresponding time on the next school day.

No disruptive student shall return to the classroom until the principal/designee makes a final determination regarding the discipline imposed by the teacher as outlined in administrative regulations and pursuant to the provisions enumerated in Education Law Section 3214(3-a) or the period of removal expires, whichever is less. The District will ensure the provision of continued educational programming and activities for students removed from the classroom by a teacher.

The principal/designee shall inform the parents/person in parental relation to such student of the removal and shall, upon request, provide the student and the parent/person in parental relation an opportunity for an informal conference to discuss the reasons for the removal in accordance with the procedures enumerated in law. As applicable, the principal/designee shall render a determination regarding the discipline imposed by the teacher in accordance with the requirements mandated pursuant to law and/or regulation.

This policy, in accordance with statutory mandates, does not authorize removal of a student in violation of any state or federal law or regulation (e.g., IDEA, Section 504 of the Rehabilitation Act of 1973). It shall be the responsibility of the building principal/designee to ensure that teacher removal of students from the classroom complies with applicable laws and regulations.

Exhaustion of Administrative Remedies

It is District policy that, prior to commencing an appeal to the Commissioner of Education regarding teacher removal of a disruptive student from the classroom, the parent/person in parental relation must first appeal to the Board of Education.

"Sunset" Provision for twenty-four (24) hour and forty-eight (48) hour Notification Period.

The provisions in law which specify that twenty-four (24) and forty-eight (48) hour notification periods correlate with school days shall terminate on July 1, 2003 in accordance with legislation; and shall be rescinded as Board policy and procedure as of that date (unless subsequent revisions to applicable law provide otherwise).

Violent Students

Teachers are required to immediately report and refer a violent student, as defined pursuant to Education Law, to the principal or Superintendent for a violation of the District's Code of Conduct and a minimum suspension period as determined by such Code, unless otherwise reduced by the suspending authority on a case-by-case basis to be consistent with any other state and federal law.

Education Law Sections 2801 and 3214

34 Code of Federal Regulations (C.F.R.) Part 300

Section 504 of the Rehabilitation Act of 1973,

29 United States Code (U.S.C.) Section 794 et seq.

7316 DETENTION

In accordance with Education Law, the Board of Education can maintain discipline in the schools by reasonable means. Consequently, the Board authorizes the administration and staff to utilize detention as a penalty for certain student misconduct in situations where a suspension or removal from the classroom would be inappropriate. There must be a reasonable relationship established between the seriousness of the offense and the imposition of detention as a disciplinary sanction.

The Board authorizes the administration to incorporate the use of detention as a possible penalty in the *District's Code of Conduct* as a means of addressing student misconduct for which detention may be imposed.

After-School Detention

Teachers, other staff members and administrators may require a student to serve after-school detention when such a sanction is appropriate to the seriousness of the offense and the student's parent/person in parental relationship has received prior notification. However, if a parent or person in parental relationship objects to the imposition of after-school detention in a specific situation, an alternative means of discipline will be imposed.

Where a student is required to serve a period of after-school detention and the student ordinarily receives transportation, the District shall transport the student home after the detention period unless alternate arrangements have been made by the parent/person in parental relationship.

7320 ALCOHOL, TOBACCO, DRUGS, AND OTHER SUBSTANCES (STUDENTS)

Related Policies & Documents: Refer also to Policies #3280, #3410, #5640, #7320, #8211

The Board of Education recognizes that the misuse of drugs, alcohol and/or tobacco is a serious problem with legal, physical, emotional and social implications for the entire community. Therefore, the consumption, sharing and/or selling, use and/or possession of alcoholic beverages, tobacco products, illegal drugs, counterfeit and designer drugs, or paraphernalia for the use of such drugs is prohibited at any school-sponsored event or on school property at all times. The inappropriate use of prescription and over-the-counter drugs shall also be disallowed. Persons shall be banned from entering school grounds or school-sponsored events when exhibiting behavioral, personal or physical characteristics indicative of having used or consumed alcohol or other substances.

Through the collaborative efforts of staff, students, parents/guardians and the community as a whole, a comprehensive program shall be developed addressing alcohol, tobacco, drugs, and other substances to include the following elements:

Primary Prevention

Preventing or delaying alcohol, tobacco, drugs, and other substance use/abuse by students shall be the major focus of a comprehensive K through 12 program in which proactive measures of prevention and early intervention are emphasized. This program shall include:

- a) A sequential K through 12 curriculum based on recognized principles of effectiveness that is developed and incorporated into the total educational process. This curriculum shall be concerned with education and prevention in all areas of alcohol, tobacco, drugs, and other substances use/abuse;
- b) Training school personnel and parents/guardians to reinforce the components of the policy through in-service and community education programs with up-to-date factual information and materials.
- c) An effort to provide positive alternatives to alcohol, tobacco, drugs, and other substances use/abuse through the promotion of drug/tobacco/alcohol-free special events, service projects and extracurricular activities that will develop and support a positive peer influence.

Intervention

School-based intervention services shall be made available to all students, grades K through 12, and provided by prevention professionals who are appropriately trained in this area. The purpose of intervention is to eliminate any existing use/abuse of alcohol, tobacco, drugs, and other substances and to identify students considered to be at risk for use/abuse. Intervention programming shall include:

- a) Counseling of students in groups and as individuals on alcohol, tobacco, drugs, and other substance use/abuse. Counselors shall be appropriately trained and skilled school staff assigned for this purpose.

- b) Referring students to community or other outside agencies when their use/abuse of alcohol, tobacco, drugs, and other substances requires additional counseling or treatment. Referral is a key link in school and community efforts and the process is basic to the dissemination of information regarding available counseling and health services;
- c) Providing a supportive school environment designed to continue the recovery process for students returning from treatment. A re-entry program may include continuing student and/or family counseling and emphasizing positive alternatives to alcohol, tobacco, drugs, and other substance use/abuse.
- d) Developing a parent network to serve as a support group and provide a vehicle of communication for parent education;
- e) Ensuring confidentiality as required by state and federal law.

Disciplinary Measures

Disciplinary measures for students consuming, sharing and/or selling, using and/or possessing alcoholic beverages, tobacco products, illegal drugs, counterfeit and designer drugs, or paraphernalia for the use of such drugs shall be outlined in the District's Code of Conduct on School Property.

Staff Development

There shall be ongoing training of District staff about the components of an effective alcohol, tobacco and other substances program. Training shall include, but not be limited to, District policies and regulations and the staff's role in implementing such policies and regulations. Teachers shall be trained to implement the District's K through 12 alcohol, tobacco, drugs, and other substance prevention curricula; intervention staff shall be suitably trained to carry out appropriate services.

Implementation, Dissemination and Monitoring

It shall be the responsibility of the Superintendent to implement the alcohol, tobacco, drugs, and other substances Board policy by collaboration with school personnel, students, parents/guardians and the community at large.

Additionally, copies of Board policy shall be disseminated to District staff, parents/guardians and community members. The Superintendent/designee shall periodically review the tobacco, drugs and alcohol abuse prevention program to determine its effectiveness and support appropriate modifications, as needed.

Safe and Drug-Free Schools and Communities Act

20 United States Code (U.S.C.) Section 7101 et seq.

7330 SEARCHES AND INTERROGATIONS

Students are protected by the Constitution from unreasonable searches and seizures. A student may be searched and contraband seized on school grounds or in a school building by a School District employee only when the School District employee has reasonable suspicion to believe the student is engaging in proscribed activity which is in violation of school rules and/or illegal.

Factors to be considered in determining whether reasonable suspicion exists to search a student include:

- a) The age of the student;
- b) The student's record and past history;
- c) The predominance and seriousness of the problem in the school where the search is directed; and
- d) The urgency to conduct the search without delay.

If reasonable suspicion exists to believe that a student possesses a weapon, it is permissible for a School District employee to search that student.

Lockers

Lockers are provided by the school for student use and the administration has the right to search lockers. A student may have exclusive use of a locker as far as other students are concerned but he/she does not have such exclusivity over the locker as it relates to the school authorities.

Questioning of Students by School Officials

School officials have the right to question students regarding any violations of school rules and/or illegal activity. In general, administration may conduct investigations concerning reports of misconduct which may include, but are not limited to, questioning students, staff, parents/guardians, or other individuals as may be appropriate and, when necessary, determining disciplinary action in accordance with applicable due process rights.

Should the questioning of students by school officials focus on the actions of one particular student, the student will be questioned, if possible, in private by the appropriate school administrator. The student's parent/guardian may be contacted; the degree, if any, of parental/guardian involvement will vary depending upon the nature and the reason for questioning, and the necessity for further action which may occur as a result.

The questioning of students by school officials does not preclude subsequent questioning/interrogations by police authorities as otherwise permitted by law. Similarly, the questioning of students by school officials does not negate the right/responsibility of school officials to contact appropriate law enforcement agencies, as may be necessary, with regard to such statements given by students to school officials.

School officials acting alone and on their own authority, without the involvement of or on behalf of law enforcement officials (at least until after the questioning of students by school authorities has been conducted) are not required to give the so-called "Miranda warnings" (i.e., advising a person, prior to any custodial interrogations as defined in law, of the right to remain silent; that any statement made by the individual may be used as evidence against him/her; and that the individual has the right to the presence of an attorney, either retained or appointed) prior to the questioning of students.

If deemed appropriate and/or necessary, the Superintendent/designee may also review the circumstances with School District legal counsel so as to address concerns and the course of action, if any, which may pertain to and/or result from the questioning of students by school officials.

Law Enforcement Officials

It shall be the policy of the Bolivar-Richburg Central School District that a cooperative effort shall be maintained between the school administration and law enforcement agencies. Law enforcement officials may be summoned in order to conduct an investigation of alleged criminal conduct on school premises or during a school-sponsored activity, or to maintain the educational environment. They may also be summoned for the purpose of maintaining or restoring order when the presence of such officers is necessary to prevent injury to persons or property.

Administrators have the responsibility and the authority to determine when the assistance of law enforcement officers is necessary within their respective jurisdictions. The School District's administrators shall at all times act in a manner that protects and guarantees the rights of students and parents.

Interrogation of Students by Law Enforcement Officials

If police are involved in the questioning of students on school premises, whether or not at the request of school authorities, it will be in accordance with applicable law and due process rights afforded students. Generally, police authorities may only interview students on school premises without the permission of the parent/guardian in situations where a warrant has been issued for the student's arrest (or removal). Police authorities may also question students for general investigations, general questions regarding crimes committed on school property. In all other situations, unless an immediate health or safety risk exists, if the police wish to speak to a student without a warrant they should take the matter up directly with the student's parent/guardian.

Whenever police wish to question a student on school premises, administration will attempt to notify the student's parent/guardian.

Education Law Sections 1604(9) and (30),

1709(2) and (33) and 2801

8 New York Code of Rules and Regulations

(NYCRR) Section 100.2(l)

7340 BUS RULES AND REGULATIONS

The Bolivar-Richburg Central School District furnishes transportation to those students whose disability or distance from the school make the service essential. Except as otherwise mandated in a student's Individualized Education Program (IEP), riding these buses is a privilege and may be withdrawn if the student does not comply with the rules and regulations set forth in this District.

Students riding school buses are expected to conform to the rules of conduct in order to permit the bus driver to transport his/her passengers safely.

The Board of Education, the Superintendent and/or his/her designee has the authority to suspend the transportation privileges of children who are disorderly and insubordinate on buses. In these cases, the parents/guardians of the children involved become responsible for seeing that their children get to and from school safely.

Bus drivers shall be held responsible for reasonable and acceptable behavior of students while riding the school bus.

The Board directs the administration to establish rules and regulations for student conduct on buses, including applicable due process rights to be afforded students suspended from transportation privileges. These rules and regulations shall be promulgated to all concerned, including the non-public schools to which students are transported.

Individuals With Disabilities Education Act (IDEA)

7350 CORPORTAL PUNISHMENT/EMERGENCY INTERVENTIONS

Related Policies & Documents: Refer also to Policies #7313, #7618

Corporal Punishment

Corporal punishment as a means of discipline shall not be used against a student by any teacher, administrator, officer, employee or agent of this School District.

Whenever a school employee uses physical force against a student, the school employee shall, within the same school day, make a report to the Superintendent describing in detail the circumstances and the nature of the action taken.

The Superintendent of Schools shall submit a written report semi-annually to the Commissioner of Education, with copies to the Board of Education, by January 15 and July 15 of each year, setting forth the substance of each written complaint about the use of corporal punishment received by the Bolivar-Richburg Central School District authorities during the reporting period, the results of each investigation, and the action, if any, taken by the school authorities in each case.

Emergency Interventions

However, if alternative procedures and methods which would not involve physical force do not work, then the use of reasonable physical force is not prohibited for the following reasons:

- a) Self-protection;
- b) Protection of others;
- c) Protection of property; or
- d) Restraining/removing a disruptive student.

Such emergency interventions shall only be used in situations where alternative procedures and methods not involving the use of reasonable physical force cannot reasonably be employed. Emergency interventions shall not be used as a punishment or as a substitute for systematic behavioral interventions that are designed to change, replace, modify or eliminate a targeted behavior.

Staff who may be called upon to implement emergency interventions will be provided appropriate training in safe and effective restraint procedures. The parent(s) of the student shall be notified whenever an emergency intervention is utilized.

The District will maintain documentation on the use of emergency interventions for each student including:

- a) Name and date of birth of student;
- b) Setting and location of the incident;
- c) Name of staff or other persons involved;
- d) Description of the incident and emergency intervention used, including duration;

- e) A statement as to whether the student has a current behavioral intervention plan; and
- f) Details of any injuries sustained by the student or others, including staff, as a result of the incident.

This documentation will be reviewed by District supervisory personnel and, if necessary, by the school nurse or other medical personnel.

8 New York Code of Rules and Regulations (NYCRR) Sections 19.5, 100.2(l)(3), 200.15(f)(1) and 200.22(d)

7360 WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT

Related Policies & Documents: Refer also to Policy #3411

Weapons in School

The possession of a weapon on school property, in District vehicles, in school buildings, or at school sponsored activities or settings under the control and supervision of the District regardless of location, is strictly prohibited, except by law enforcement personnel. Any person possessing a weapon for educational purposes in any school building must have written authorization of the Superintendent of Schools or his/her designee.

The Penal Code of the State of New York shall be used to determine what is considered a weapon.

Penal Law Sections 265.01-265.06

Specific Penalties Imposed by the Gun-Free Schools Act

No student shall bring or possess any "firearm" as defined in federal law on school premises (including school buildings and grounds, District vehicles, school settings and/or school sponsored activities under the control and supervision of the District regardless of location). For purposes of this policy, the term "firearm" includes any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of such weapon; any firearm muffler or silencer; or any "destructive device" (e.g., any explosive, incendiary, or poison gas, including bombs, grenades, rockets or other similar devices). The term does not include a rifle which the owner intends to use solely for sporting, recreational or cultural purposes; antique firearms; or Class C common fireworks.

In accordance with the Gun-Free Schools Act and Education Law Section 3214(3)(d), any student who brings or possesses a dangerous weapon or firearm, as defined in federal law, on school property,

will be referred by the Superintendent to the appropriate agency or authority for a juvenile delinquency proceeding in accordance with Family Court Act Article 3 when the student is under the age of sixteen (16) except for a student fourteen (14) or fifteen (15) years of age who qualifies for juvenile offender status under the Criminal Procedure Law, and will be referred by the Superintendent to the appropriate law enforcement officials when the student is sixteen (16) years of age or older or when the student is fourteen (14) or fifteen (15) years of age and qualifies for juvenile offender status under the Criminal Procedure Law. For purposes of this policy, the term "dangerous weapon" means a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than two and one-half inches (2 1/2") in length.

In addition, any student attending a District school who has been found guilty of bringing a firearm to or possessing a firearm on school property, after a hearing has been provided pursuant to Education Law Section 3214, shall be suspended for a period of not less than one (1) calendar year and any student attending a non-district school who participates in a program operated by the School District using funds from the Elementary and Secondary Education Act of 1965 who is determined to have brought a firearm to or possessed a firearm at a District school or on other premises used by the School District to provide such programs shall be suspended for a period of not less than one (1) calendar year from participation in such program. The procedures of Education Law Section 3214(3) shall apply to such a suspension of a student attending a non-district school. Further, after the imposition of the one (1) year penalty has been determined, the Superintendent of Schools has the authority to modify this suspension requirement for each student on a case-by-case basis. In reviewing the student's one (1) year suspension penalty, the Superintendent may modify the penalty based on factors as set forth in Regulations of the Commissioner of Education Section 100.2 and in Commissioner's Decisions. The determination of the Superintendent shall be subject to review by the Board of Education in accordance with Education Law Section 3214(3)(c) and by the Commissioner of Education in accordance with Education Law Section 310.

Student with a Disability

Pursuant to Commissioner Regulations, a student with a disability who is determined to have brought a weapon (including a firearm) to school or possessed a weapon (including a firearm) at school may be placed in an interim alternative educational setting, in accordance with federal and state law, for not more than forty-five (45) calendar days. If the parent or guardian requests an impartial hearing, the student must remain in the interim alternative placement until the completion of all proceedings, unless the parent or guardian and District can agree on a different placement. For more information regarding Interim Alternative Educational Settings (IAES), refer to Policy #7313 -- Suspension of Students.

However, a student with a disability may be given a long term suspension pursuant to the Gun-Free Schools Act only if a group of persons knowledgeable about the student, as defined in federal regulations implementing the Individuals with Disabilities Education Act (IDEA), determines that the bringing of a firearm to school or possessing a firearm at school was not a manifestation of the student's disability, subject to applicable procedural safeguards.

If it is determined that the student's bringing of a firearm to school or possessing a firearm at school was a manifestation of the student's disability, the Superintendent must exercise his/her authority under the Gun-Free Schools Act to modify the long term suspension requirement, and determine that the student may not be given a long term suspension for the behavior. The Committee on Special Education may review the student's current educational placement and initiate change in placement proceedings, if appropriate, subject to applicable procedural safeguards.

The District may offer home instruction as an interim alternative educational setting during the pendency of review proceedings only if the student's placement in a less restrictive alternative educational setting is substantially likely to result in injury either to the student or to others.

The District may also seek a court order to immediately remove a student with a disability from school if the District believes that maintaining the student in the current educational placement is substantially likely to result in injury to the student or to others.

Students with disabilities continue to be entitled to all rights enumerated in the Individuals with Disabilities Education Act and Education Law Article 89; and this policy shall not be deemed to authorize suspension of students with disabilities in violation of these laws.

This policy does not prohibit the District from utilizing other disciplinary measures including, but not limited to, out-of-school suspensions for a period of five days or less, or in-school suspensions, in responding to other types of student misconduct which infringe upon the established rules of the school. Additionally, this policy does not diminish the authority of the Board of Education to offer courses in instruction in the safe use of firearms pursuant to Education Law Section 809-a.

The District will continue to provide the suspended student who is of compulsory attendance age with appropriate alternative instruction during the period of the student's suspension.

Related Policies & Documents: Refer also to Policies #3411, #7360

No student shall bring or possess any "firearm" as defined in federal law on school premises (including school buildings and grounds, District vehicles, school settings and/or school sponsored activities under the control and supervision of the District regardless of location). For purposes of this policy, the term "firearm" includes any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of such weapon; any firearm muffler or silencer; or any "destructive device" (e.g., any explosive, incendiary, or poison gas, including bombs, grenades, rockets or other similar devices). The term does not include a rifle which the owner intends to use solely for sporting, recreational or cultural purposes; antique firearms; or Class C common fireworks.

In accordance with the Gun-Free Schools Act Section 3214(3)(d) of the Education Law, any student who brings or possesses a firearm, as defined in federal law, on school property, will be referred by the Superintendent to the appropriate agency or authority for a juvenile delinquency proceeding in accordance with Article 3 of the Family Court Act when the student is under the age of sixteen (16) except for a student fourteen (14) or fifteen (15) years of age who qualifies for juvenile offender status under the Criminal Procedure Law, and will be referred by the Superintendent to the appropriate law enforcement officials when the student is sixteen (16) years of age or older or when the student is fourteen (14) or fifteen (15) years of age and qualifies for juvenile offender status under the Criminal Procedure Law.

In addition, any student attending a District school who has been found guilty of bringing a firearm to or possessing a firearm on school property, after a hearing has been provided pursuant to Section 3214 of the Education Law, shall be suspended for a period of not less than one (1) calendar year and any student attending a non-district school who participates in a program operated by the School District using funds from the Elementary and Secondary Education Act of 1965 who is determined to have brought a firearm to or possessed a firearm at a District school or on other premises used by the School District to provide such programs shall be suspended for a period of not less than one (1) calendar year from participation in such program. The procedures of Education Law Section 3214(3) shall apply to such a suspension of a student attending a non-district school. Further, after the imposition of the one (1) year penalty has been determined, the Superintendent of Schools has the authority to modify this suspension requirement for each student on a case-by-case basis. In reviewing the student's one (1) year suspension penalty, the Superintendent may modify the penalty based on factors as set forth in Section 100.2 of the Regulations of the Commissioner of Education and in Commissioner's Decisional Law. The determination of the Superintendent shall be subject to review by the Board of Education in accordance with Education Law Section 3214(3)(c) and by the Commissioner of Education in accordance with Education Law Section 310.

Student with a Disability

A student with a disability who is determined to have brought a firearm to school or possessed a firearm at school may be placed in an interim alternative educational setting, in accordance with federal and state law, for not more than forty-five (45) calendar days. If the parent or guardian requests an impartial hearing, the student must remain in the interim alternative placement until the completion of all proceedings, unless the parent or guardian and District can agree on a different placement.

A student with a disability may be given a long term suspension pursuant to the Gun-Free Schools Act only if a group of persons knowledgeable about the student, as defined in federal regulations implementing the IDEA, determines that the bringing of a firearm to school or possessing a firearm at school was not a manifestation of the student's disability, subject to applicable procedural safeguards.

If it is determined that the student's bringing of a firearm to school or possessing a firearm at school was a manifestation of the student's disability, the Superintendent must exercise his/her authority under the Gun-Free Schools Act to modify the long term suspension requirement, and determine that the student may not be given a long term suspension for the behavior. The Committee on Special Education may review the student's current educational placement and initiate change in placement proceedings, if appropriate, subject to applicable procedural safeguards.

The District may offer home instruction as an interim alternative educational setting during the pendency of review proceedings only if the student's placement in a less restrictive alternative educational setting is substantially likely to result in injury either to the student or to others.

The District may also seek a court order to immediately remove a student with a disability from school if the District believes that maintaining the student in the current educational placement is substantially likely to result in injury to the student or to others.

Students with disabilities continue to be entitled to all rights enumerated in the Individuals With Disabilities Education Act and Article 89 of the Education Law; and this policy shall not be deemed to authorize suspension of students with disabilities in violation of these laws.

This policy does not prohibit the District from utilizing other disciplinary measures including, but not limited to, out-of-school suspensions for a period of five days or less, or in-school suspensions, in responding to other types of student misconduct which infringe upon the established rules of the school. Additionally, this policy does not diminish the authority of the Board of Education to offer courses in instruction in the safe use of firearms pursuant to Education Law Section 809-a.

The District will continue to provide the suspended student who is of compulsory attendance age with appropriate alternative instruction during the period of the student's suspension.

7410 EXTRACURRICULAR ACTIVITIES

The Board of Education considers extracurricular activities to be a valuable part of the program of the school and shall support these activities within the financial means of the District.

Limited Open Forum

The Board of Education maintains a limited open forum where secondary students may meet for voluntary student-initiated activities unrelated directly to the instructional program, regardless of religious, political or philosophical content.

To provide "a fair opportunity" to students who wish to conduct a meeting, the Board of Education, in accordance with the provisions of the Equal Access Act, shall ensure that:

- a) The meeting is voluntary and student-initiated;
- b) There is no sponsorship of the meeting by the school, the government, or its agents or employees;
- c) Employees or agents of the school or government are present at religious meetings only in a nonparticipatory capacity;
- d) The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school; and
- e) Nonschool persons may not direct, conduct, control, or regularly attend activities of student groups (20 U.S.C. Section 4071[c]).

The Board prohibits student organizations whose activities may be unlawful or may cause disruption or interference with the orderly conduct of the educational process.

Administration is responsible for establishing regulations governing the use of school facilities by student organizations.

Eligibility for Attendance

- a) Students who are suspended from school on a day of an athletic game or practice session, party, school dance, or other school affair scheduled after regular school hours are not eligible for participation or attendance at such events.
- b) In order for students to attend a school-sponsored function, it is necessary that students attend classes for at least one half (1/2) of the school day on the day of the activity, unless otherwise excused by the building administrator. One-half (1/2) of the school day is defined as follows: from 8:30 a.m. until noon or from noon until the end of the school day.

7411 CENSORSHIP OF SCHOOL SPONSORED STUDENT PUBLICATIONS AND ACTIVITIES

The District may exercise editorial control over the style and content of student speech in school sponsored publications and activities that are part of the educational curriculum.

7420 SPORTS AND THE ATHLETIC PROGRAM

Related Policies & Documents: Refer also to Policy #7522

Athletics are an integral part of a well balanced educational program. Therefore, the Board supports within its resources a broad sports program with equal access for both males and females, with an emphasis on maximum participation, through interscholastic and intramural activity. The District will comply with recommendations from the U.S. Department of Education's Office for Civil Rights (OCR) regarding Title IX equal opportunity for males and females in the District's total athletic program regarding any of the following factors which may be applicable:

- a) The nature and extent of the sports program to be offered (including the levels of competition, such as varsity, club, etc.);
- b) The provision of equipment and supplies;
- c) The scheduling of games and practice time;
- d) The provision of travel and per diem allowances;
- e) The nature and extent of the opportunity to receive coaching and academic tutoring;
- f) The assignment and compensation of coaches and tutors;
- g) The provision of locker rooms, practice and competitive facilities;
- h) The provision of medical and training facilities and services;
- i) The provision of housing and dining facilities and services; and
- j) The nature and extent of support, publicity and promotion including cheerleading, bands, published programs distributed at games, and booster club activities.

The interscholastic athletic program shall conform to the Regulations of the Commissioner of Education as well as the established rules of the New York State Public High Schools Athletic Association and the State Education Department.

Eligibility for interscholastic athletic competition requires that the students:

- a) Provide written parental/guardian consent. A consent form for a student's participation in interscholastic sports must contain information regarding mild traumatic brain injuries (concussions) as specified in Commissioner's Regulations;
- b) Pass satisfactorily the medical examination administered by the school physician/nurse practitioner or the student's personal physician. The school physician/nurse practitioner retains final approval on all physicals performed by the student's personal physician; and
- c) Meet the requirements for interscholastic competition as set forth by the Commissioner's Regulations and the New York State Public High School Athletic Association.

Booster Clubs

The School District has a responsibility under Title IX to ensure that boys' and girls' programs are provided with equivalent benefits, treatment, services and opportunities regardless of their source. When determining equivalency, benefits, services and opportunities attained through the use of private funds (e.g., "booster clubs"), such funds are considered in combination with all benefits, services and opportunities.

Private fundraising, including student-initiated fundraising, is permissible under Title IX. Further, compliance with Title IX does not mean that teams must "share" proceeds from fundraising activities. It

does, however, place a responsibility on the District to ensure that benefits, services, treatment and opportunities overall, regardless of funding sources, are equivalent for male and female athletes.

In accordance with OCR, in order for the District to be in continuing compliance with Title IX requirements, the District must assure that services, benefits and opportunities in its athletic programs are provided on an equivalent basis to both boys and girls, including those services, benefits and opportunities that are provided through the use of outside financial assistance such as donations, fundraising by coaches, and booster clubs.

Selection/Classification Process

The Board approves the use of the selection/classification process for all secondary school interscholastic team members. The Board directs the Superintendent to implement the procedures and maintain a file of those students deemed eligible as a result of those procedures.

Student Athletic Injuries

No student should be allowed to practice or play in an athletic contest if he/she is suffering from an injury. The diagnosis of and prescription of treatment for injuries is strictly a medical matter and should under no circumstances be considered within the province of the coach. A coach's responsibility is to see that injured players are given prompt and competent medical attention, and that all details of a doctor's instructions concerning the student's functioning as a team member are carried out. No student will be allowed to practice or compete if there is a question whether he/she is in adequate physical condition.

A physician's certificate may be required before an athlete is permitted to return to practice or competition.

Concussions

A student who has sustained or is believed to have sustained a mild traumatic brain injury (concussion) must be immediately removed from athletic activities. If there is any doubt, it shall be presumed that the student is so injured until proven otherwise. Before being permitted to return to athletic activity, a student must be symptom free for not less than twenty-four (24) hours and have been evaluated by and received written and signed authorization from a licensed physician. Additionally, for extra class athletic activities, a student must have received clearance from the School District Medical Director to participate in such activity.

Athletic Program - Safety

The District will take reasonable steps to see that physical risks to students participating in the interscholastic athletic program shall be kept at a minimum by:

- a) Requiring medical examinations of participants;
- b) Obtaining appropriately certified and/or licensed staff to coach all varsity, junior varsity, and modified games, along with certified and/or licensed officials to referee all such

competitions;

- c) Ensuring that equipment is both safe and operative within approved guidelines; and
- d) Providing professional development and training opportunities for all coaching staff.

Title IX of the Education Amendments of 1972, 20 USC Section 1681 et seq.

45 Code of Federal Regulations Part 86

8 NYCRR Section 135 and 136

7430 CONTESTS FOR STUDENTS, STUDENT AWARDS AND SCHOLARSHIPS

Contests for Students

Distribution of educational material, essay contests, and poster contests must be approved in advance by the Building Principals if the sponsoring organization wishes to involve students in the project on school time. Samples of informational material should accompany the request. Upon the judgment of the Principal, the request may be forwarded to the Superintendent and the Board of Education for approval.

Student Awards and Scholarships

The School District may obtain and award to its students awards and scholarships. The Board of Education, having been entrusted by law, will hold in trust gifts, grants, bequests and legacies given or bequeathed to the Bolivar-Richburg Central School District and shall apply the same and/or their interest and proceeds according to the instruction of the donors and according to the procedures established by the administration.

Awards and/or scholarships that are of \$100.00 or more in value will be presented during the annual graduation ceremony and any awards and/or scholarships less than \$100.00 will be presented at the annual awards banquets either academic or sports.

Education Law Sections 1604(30), 1709(12-a) and 2503(1)

7440 MUSICAL INSTRUMENTS

- a) All instrumental music students shall be expected to own or rent their instrument - particularly the common and less expensive instruments (flute, clarinet, trumpet, saxophone, etc.).
- b) Students will not be required to own or rent the less common and more expensive instruments. Instruments in this category are as follows: oboe, bassoon, tuba, French horn, trombone, baritone horn, tenor and baritone saxophones, bass trombone and percussion instruments. School-owned instruments in this classification will be disbursed upon decisions by the instrumental music staff. Decisions will be dependent upon the individual student's talent and merit and the need for a balanced instrumentation at each grade level.
- c) Students and parents/guardians will assume responsibility for proper care of school-owned instruments and will pay for damages to same.
- d) The District will only transport in its vehicles those instruments meeting certain safety standards as indicated in the New York State Department of Transportation Regulations.

New York State Department of Transportation

Regulations Section 720.22

7450 FUND RAISING BY STUDENTS

Related Policies & Documents: Refer also to Policy #3271

Fund raising projects in which students sell merchandise, provide services, or in other ways solicit money for school activities may be sponsored by school organizations with the express approval of the building principal. Any such plan shall have a clearly defined purpose and, in general, shall contribute to the educational experience of students and shall not conflict with instructional programs or state mandates. Fund raising activities away from school property shall be held to a minimum.

Door to door sales projects undertaken by any organization using the Bolivar-Richburg Central School District name shall require previous approval of the Board of Education. Profits shall be used to enhance school programs by providing money for expenditures not normally funded by the District.

All participation shall be voluntary, with written parent/legal guardian consent for children in grades K through 8.

8 New York Code of Rules and Regulations

(NYCRR) Section 19.6

New York State Constitution, Article VIII, Section 1

Education Law Section 414

7460 CHAPERONES

The Board of Education recognizes that the use of chaperones for school sponsored events or activities can provide important support for the District. Chaperones, therefore, shall be volunteer or paid adults whose responsibility it is to assist the advisor of the event in seeing to the safety and conduct of the students during the duration of the activity.

Chaperones shall be selected on the basis of their ability to assist with the supervision of students, and their ability to contribute to the group's activities. Any overnight trip with male and female students must include at least one (1) male and one (1) female chaperone.

7470 CONSTITUTIONALLY PROTECTED PRAYER IN THE PUBLIC SCHOOLS

Related Policies & Documents: Refer also to Policy #8360

In accordance with the most recent Guidance Document issued by the U.S. Department of Education implementing the requirements of the No Child Left Behind Act of 2001, the Board of Education affirms the responsibilities of the School District, consistent with applicable statutory/case law pertaining to the First Amendment of the United States Constitution, to allow students and staff to engage in constitutionally protected prayer within the District schools.

Accordingly, no Board of Education policy shall prevent, or otherwise deny participation in, constitutionally protected prayer in District schools, consistent with the Guidance Document and applicable law as enumerated above.

The Board rescinds any other policy that may be inconsistent with the mandates of this policy, which shall supersede any and all Board policies to the contrary.

Section 9524 of the Elementary and Secondary

Education Act of 1965, as amended by the No Child

Left Behind Act of 2001

United States Constitution, First Amendment

Equal Access Act,

7511 IMMUNIZATION OF STUDENTS

Related Policies & Documents: Refer also to Policy #7131

The Board of Education recognizes its responsibility under the Public Health Law to ensure that the children under its charge are immunized against measles, polio, diphtheria, mumps, rubella, *Haemophilus influenzae type b (Hib), **hepatitis B, ***varicella (chickenpox), ****pertussis (whooping cough) and tetanus. The Board, therefore, requires that a physician's certificate or some other acceptable evidence of immunization be submitted for all children entering and presently attending school.

The Board directs the administration not to permit any child lacking evidence of immunization to remain in school for more than fourteen (14) days, or thirty (30) days for an out-of-state transferee who can show an effort to obtain the necessary evidence or certification. The administration should notify the local health authority of the name and address of the child, as well as to provide the parent/person in parental relation to the child who has been denied admission or attendance a statement of his/her duty regarding immunization and a consent form prescribed by the Commissioner of Health. The school shall cooperate with the local health authorities to provide a time and place for the immunization of children lacking the same.

The only exceptions to this policy are as follows:

- a) If a child whose parent, parents, or persons in parental relation hold genuine and sincere religious beliefs which are contrary to the practices required, no certificate shall be required as a prerequisite to such child being admitted or received into school or attending school;
- b) If a physician will certify that administering a vaccine to a particular child is detrimental to the child's health, the requirement may be waived by the Board.

A student denied entrance or attendance due to failure of meeting health immunization standards may appeal to the Commissioner of Education.

*Applicable only to Pre-K, Nursery and Day Care.

**Shall apply to children born on or after January 1, 1993, beginning with their enrollment in any public, private or parochial kindergarten, elementary, intermediate or secondary school, and to children born on or after January 1, 1995, beginning with their enrollment in any school, as defined in Public Health Law Section 2164(1)(a). Also, on or after September 1, 2000, all children are to be immunized against

hepatitis B prior to enrollment in the seventh (7th) grade in any public, private or parochial intermediate or middle school.

***Shall apply to: children born on or after January 1, 1998 who will enter grades kindergarten and above; all children born on or after January 1, 2000 and enrolled in any school; and effective January 1, 2005, all children born after January 1, 1994 and prior to January 1, 1998 upon such child's initial promotion to, entry into or enrollment in sixth grade.

****Shall apply to children born on or after January 1, 2005, as requirements for school entry and attendance.

Education Law Section 914

Public Health Law Section 2164

10 New York Code of Rules and Regulations (NYCRR)

Subpart 66-1

7512 STUDENT PHYSICALS

Related Policies & Documents: Refer also to Policies #5690, #5691, #5692, #7121, #7131, #7511, #7522

Health Examination

Each student enrolled in District schools must have a satisfactory health examination conducted by the student's physician, physician assistant or nurse practitioner within twelve (12) months prior to the commencement of the school year of:

- a) The student's entrance in a District school at any grade level;
- b) Entrance to pre-kindergarten or kindergarten;
- c) Entry into the 2nd, 4th, 7th and 10th grades.

The District may also require an examination and health history of a student when it is determined by the District that it would promote the educational interests of the student.

In addition, the District requires a certificate of physical fitness for:

- a) All athletes prior to their first sport of the school year, then only those who were injured or ill during their first sport before participating in a second sport during the school year;
- b) All students who need work permits; and

- c) All students either suspected of or sustaining a mild traumatic brain injury (concussion) must receive a written and signed authorization from a licensed physician before returning to athletic activities in school.

Health Certificate

Each student must submit a health certificate attesting to the health examination within thirty (30) days after his or her entrance into school and within thirty (30) days after his or her entry into the 2nd, 4th, 7th and 10th grades. The health certificate shall be filed in the student's cumulative record. The health certificate must:

- a) Describe the condition of the student when the examination was given;
- b) State the results of any test conducted on the student for sickle cell anemia;
- c) State whether the student is in a fit condition of health to permit his/her attendance at public school and, where applicable, whether the student has defective sight or hearing, or any other physical disability which may tend to prevent the student from receiving the full benefit of school work or from receiving the best educational results, or which may require a modification of such work to prevent injury to the student;
- d) Include a calculation of the student's body mass index (BMI) and weight status category. BMI is computed as the weight in kilograms divided by the square of height in meters or the weight in pounds divided by the square of height in inches multiplied by a conversion factor of 703. Weight status categories for children and adolescents shall be defined by the Commissioner of Health. BMI collection is mandatory, effective September 2008. Reporting is random, with districts chosen by the NYS Department of Health. Selected districts must report BMI results on-line using DOH's Health Provider Network (HPN), a secure website;
- e) Be signed by a duly licensed physician, physician assistant, or nurse practitioner, who is authorized by law to practice in New York State consistent with any applicable written practice agreement; or authorized to practice in the jurisdiction in which the examination was given, provided that the Commissioner of Health has determined that such jurisdiction has standards of licensure and practice comparable to those of New York. A certificate signed by a chiropractor is not acceptable except for a scoliosis evaluation.

Dental Certificate

The dental certificate law became effective on September 1, 2008. This law applies to new entrants in PreK, K, Grades 2, 4, 7 and 10. In accordance with this law, a notice of request for a dental health certificate shall be distributed at the same time that the parent/person in parental relation is notified of health examination requirements, such certificate to be furnished at the same time the health certificate is required. At this time, students will be permitted to attend school regardless of whether or not they have a dental certificate.

The dental certificate shall be signed by a duly licensed dentist authorized by law to practice in New York State or one who is authorized to practice in the jurisdiction in which the examination was

performed, provided that the Commissioner has determined that the jurisdiction has standards of licensure and practice comparable to New York State. The certificate shall describe the dental health condition of the student upon examination, which shall not be more than twelve (12) months prior to the commencement of the school year in which the examination is requested, and shall state whether the student is in fit condition of dental health to permit his/her attendance at the public schools.

Requests are not to be retroactive (i.e., any physical requested prior to September 1, 2008 does not need to have an additional notice sent requesting the dental certificate). Requests are not required when the student or parent/person in parental relation objects on the grounds of conflict with their genuine and sincere religious beliefs. Within thirty (30) days following the student's entrance in the school or grade, the certificate, if obtained, shall be filed in the student's cumulative health record.

Examination by Health Appraisal

The Principal or the Principal's designee will send a notice to the parents of, or person in parental relation to, any student who does not present a health certificate, that if the required health certificate is not furnished within thirty (30) days from the date of such notice, an examination by health appraisal will be made of such student by the Director of School Health Services.

The Director of School Health Services shall cause such students to be separately and carefully examined and tested to ascertain whether any such student has defective sight or hearing, or any other physical disability which may tend to prevent the student from receiving the full benefit of school work or from receiving the best educational results, or which may require a modification of such work to prevent injury to the student.

The physician, physician assistant or nurse practitioner administering such examination shall determine whether a one-time test for sickle cell anemia is necessary or desirable and, if so determined, shall conduct such test and include the results in the health certificate.

Unless otherwise prohibited by law, if it is ascertained that any students have defective sight or hearing, or a physical disability or other condition, including sickle cell anemia which may require professional attention with regard to health, the Principal or Principal's designee shall notify, in writing, the student's parents or persons in parental relation as to the existence of such disability. If the parents or persons in parental relation are unable or unwilling to provide the necessary relief and treatment for such students, such fact shall be reported by the Principal or Principal's designee to the Director of School Health Services, who then has the duty to provide relief for such students.

Health Screenings

The District will provide:

- a) Scoliosis screening at least once each school year for all students in grades 5 through 9. The positive results of any such screening examinations for the presence of scoliosis shall be provided in writing to the student's parent or person in parental relation within ninety (90) days after such finding;

- b) Vision screening to all students who enroll in school including at a minimum color perception, distance acuity, and near vision within six (6) months of admission to the school. In addition, all students shall be screened for distance acuity in grades Kindergarten, 1, 2, 3, 5, 7 and 10 and at any other time deemed necessary. The results of all such vision screening examinations shall be provided in writing to the student's parent or person in parental relation and to any teacher of the student. The vision report will be kept in a permanent file of the school for at least as long as the minimum retention period for such records;
- c) Hearing screening to all students within six (6) months of admission to the school and in grades Kindergarten, 1, 3, 5, 7 and 10, as well as at any other time deemed necessary. Screening shall include, but not be limited to, pure tone and threshold air conduction screening. The results of any such hearing tests shall be provided in writing to the student's parent or person in parental relation and to any teacher of the student.

The results of all health screenings (dental, hearing, vision and scoliosis) shall be recorded on appropriate forms signed by the health professional making the examination, include appropriate recommendations, and be kept on file in the school. The health records of individual students will be kept confidential in accordance with the federal Family Educational Rights and Privacy Act (FERPA) and any other applicable federal and State laws.

Accommodation for Religious Beliefs

No health examinations, health history, examinations for health appraisal, screening examinations for sickle cell anemia and/or other health screenings shall be required where a student or the parent or person in parental relation to such student objects thereto on the grounds that such examinations, health history and/or screenings conflict with their genuine and sincere religious beliefs. A written and signed statement from the student or the student's parent or person in parental relation that such person holds such beliefs shall be submitted to the Principal or Principal's designee, in which case the Principal or Principal's designee may require supporting documents.

Homeless Students

For homeless children, the enrolling school must immediately refer the parent or guardian of the student to the District's homeless liaison, who must assist them in obtaining the necessary medical records.

Family Educational Rights and Privacy Act of 1974 (FERPA)

20 USC Section 1232(g)

Education Law Sections 901-905, 912 and 3217

8 NYCRR Parts 135 and 136

7513 ADMINISTRATION OF MEDICATION

Under certain circumstances, when it is necessary for a student to take medication (prescription and non-prescription) during school hours, the school's registered professional nurse may administer the medication if the parent or person in parental relation submits a written request accompanied by a written request from a physician indicating the frequency and dosage of prescribed medication. The parent or person in parental relation must assume responsibility to have the medication delivered directly to the Health Office in a properly labeled original container.

All medication orders (prescription and non-prescription) must be reviewed annually or when there is a change in dosage.

Procedures for receipt, storage and disposal of medications as well as procedures for taking medications off school grounds or after school hours while participating in a school-sponsored activity will be in accordance with State Education Department Guidelines.

Disposal of Medications

If a medication regimen is changed or discontinued, or there is medication left at the end of the school year, the medication must be returned to the parent or be properly disposed. Parents shall be notified of these options including instructions for picking up medications should that be their choice.

Recent scientific methods have detected low levels of medication residue in water systems causing uncertainty of the effect these low levels have on fish, wild life, and humans. Therefore, in accordance with the recommendations of the New York State Department of Environment Conservation (DEC), the District shall dispose of medications in the trash rather than by flushing. The medications will be placed in a container and mixed with water, salt, coffee grounds, cat litter, or ashes to enhance the destruction of the medication, sealed with tape, disposed of in a trash receptacle. Care shall be taken to ensure the receptacle is not easily accessible, especially to students. The District may consider using a company specializing in commercial pick up of medical waste.

Emergency Medication

The administration of emergency medication (injectable, including "epi-pens," and/or oral) to a student for extreme hypersensitivity may be performed by a school staff member responding to an emergency situation when such use has been prescribed by a licensed prescriber. However, a registered professional nurse/nurse practitioner/physician/physician's assistant must have trained the staff member to administer the emergency medication for that particular emergency situation (e.g., "epi-pen") and given him/her approval to assist the student in the event of an emergency anaphylactic reaction. Such a response would fall under the Good Samaritan exemption for rendering emergency care during a life threatening situation.

Use of Inhalers in Schools

In accordance with law, the School District must permit students who have been diagnosed by a physician or other duly authorized health care provider as having a severe asthmatic condition to carry and use a prescribed inhaler during the school day. Prior to permitting such use, the School Health

Office must receive the written permission of the prescribing physician or other duly authorized health care provider, and parental consent, based on such physician's or provider's determination that the student is subject to sudden asthmatic attacks severe enough to debilitate that student. In addition, upon the written request of a parent or person in parental relation, the Board shall allow such pupils to maintain an extra inhaler in the care and custody of the school's registered professional nurse employed by the District. However, the law does not require the District to retain a school nurse solely for the purpose of taking custody of a spare inhaler, or require that a school nurse be available at all times in a school building for such purpose.

A record of such physician or health care provider/parental permission shall be maintained in the school health office.

Health Office personnel will maintain regular parental contact in order to monitor the effectiveness of such self-medication procedures and to clarify parental responsibility as to the daily monitoring of their child to ensure that the medication is being utilized in accordance with the physician's or provider's instructions. Additionally, the student will be required to report to the Health Office on a periodic basis as determined by Health Office personnel so as to maintain an ongoing evaluation of the student's management of such self-medication techniques, and to work cooperatively with the parents and the student regarding such self-care management.

Students who self-administer medication without proper authorization, under any circumstances, will be referred for counseling by school nursing personnel. Additionally, school administration and parents will be notified of such unauthorized use of medication by the student, and school administration may also be involved in determining the proper resolution of such student behavior.

Blood Glucose Monitoring

Children with diabetes have the right to care for their diabetes at school in accordance with the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act of 1973 which provide protection against discrimination for children with disabilities, including diabetes.

Accordingly, blood glucose monitoring must be allowed in the school setting at any time, within any place, and by anyone necessitating such testing. Children must receive assistance if needed with the procedure.

The school nurse shall oversee any arrangements that need to be made for testing and a system to report the results to the nurse as needed. Proper arrangements should be made for the disposal of sharps.

Alcohol-Based Hand Sanitizers

Alcohol-based hand sanitizers are considered over-the-counter (OTC) drugs by the United States Food and Drug Administration. However, due the fact that careful hand-washing and sanitation is the most effective way to control the recent spread of Methicillin-Resistant Staphylococcus Aureus (MRSA) in schools, the New York State Education Department (NYSED) has allowed a medical exemption to the requirements for OTC preparations in the school setting to permit the use of alcohol-based hand sanitizers.

The School Medical Director may approve and permit the use of alcohol-based hand sanitizers in the District's schools without a physician's order. Parents may provide written notification to the school in the event that they do not wish to have their child use this product.

It should be noted that hand sanitizers which contain alcohol are flammable and shall not be placed in hallways or near an open flame or source of sparks.

Public Health Law Section 3000-a

7514 HEALTH RECORDS

The school shall keep a convenient, accurate, and up-to-date health record of every student. Insofar as the health records include confidential disclosures or findings, they shall be kept confidential. Individual records may be interpreted by the nurse to administrators, teachers, and counselors, consistent with law.

8 New York Code of Rules and Regulations

(NYCRR) Part 136

7520 ACCIDENTS AND MEDICAL EMERGENCIES

Procedures shall be established and maintained by the Superintendent for the handling of student injuries and medical emergencies that occur on school property and during school activities.

Student Emergency Treatment

All staff members of the School District are responsible to obtain first aid care of students who are injured or become ill while under school supervision.

In most instances first aid should be rendered, and then the parent should be contacted to come to school and transport the student to the family physician. Beyond first aid, the medical care of the student is the parent's responsibility. However, the student's welfare is always the primary concern, and it is the responsibility of school personnel to exercise good judgment and care under all circumstances.

The Board of Education encourages all staff members to become qualified to give emergency treatment through instruction in first aid and Cardiopulmonary Resuscitation (CPR).

Transporting an Ill or Injured Student

In the event of an illness or injury to a student, an ambulance may be called if warranted. This solution will be used after other alternatives, including parent/guardian contact, have been made.

Insurance

The Board of Education shall approve provisions for all students to be covered by group insurance.

Such student accident insurance policies are to be a co-insurance with family coverage(s) as primary.

Education Law Sections 1604(7-a, b) and 1709(8-a, b)

7521 STUDENTS WITH LIFE-THREATENING HEALTH CONDITIONS

Related Policies & Documents: Refer also to Policy 7513

SUBJECT: STUDENTS WITH LIFE-THREATENING HEALTH CONDITIONS

Students come to school with diverse medical conditions which may impact their learning as well as their health. Some of these conditions are serious and may be life-threatening. As a result, students, parents, school personnel, and health care providers must all work together to provide the necessary information and training to allow children with chronic health problems to participate as fully and safely as possible in the school experience. This policy encompasses an array of serious or life-threatening medical conditions such as anaphylaxis, diabetes, seizure disorders, or severe asthma and acute medical conditions such as substance overdose. All students within the District with known life-threatening conditions will have a comprehensive plan of care in place: an Emergency Care Plan (ECP) or Individualized Healthcare Plan (IHP) and if appropriate, an Individualized Education Plan (IEP) or Section 504 Plan.

Life-Threatening Conditions

For those students with chronic life-threatening conditions such as diabetes, seizure disorders, asthma, and allergies, the District must work cooperatively with the parent(s) and the healthcare provider(s) to:

- a) Immediately develop an ECP for each at risk student to ensure that all appropriate personnel are aware of the student's potential for a life-threatening reaction;
- b) If appropriate, develop an IHP that includes all necessary treatments, medications, training, and educational requirements for the student. If the student is eligible for accommodations

based upon the Individuals with Disabilities Act (IDEA), Section 504 of the Rehabilitation Act of 1973, or the Americans with Disabilities Act, the appropriate procedures will be followed regarding evaluation and identification;

- c) Provide training by licensed medical personnel (e.g., registered professional nurse) for all adults in a supervisory role in the recognition and emergency management of a specific medical condition for specific students;
- d) Obtain specific medical-legal documents duly executed in accordance with New York State law; appropriate health care provider authorization in writing for specific students that includes the frequency and conditions for any testing and/or treatment, symptoms, and treatment of any conditions associated with the health problem; and directions for emergencies;
- e) Secure written parent permission and discuss parental responsibility that includes providing the health care provider's orders, providing any necessary equipment, and participation in the education and co-management of the child as he or she works toward self-management;
- f) Allow supervised students to carry life-saving medication in accordance with relevant laws, regulations, and procedures. The District will also encourage parents and students to provide duplicate life-saving medication to be maintained in the health office in the event the self-carrying student misplaces, loses, or forgets their medication;
- g) Assure appropriate and reasonable building accommodations are in place within a reasonable degree of medical certainty.

In addition, the District will:

- a) Provide training for transportation, instructional, food service, or physical education staff, as appropriate, in the recognition of an anaphylactic reaction;

- b) Have standing emergency medical protocols for nursing or other staff;
- c) Request the school medical director to write a non-patient specific order for anaphylaxis treatment agents for the school's registered professional nurse or other staff, as designated by the administration and allowed under federal and New York State laws and regulations, to administer in the event of an unanticipated anaphylactic episode;
- d) Maintain or ensure the maintenance of a copy of the standing order(s) and protocol(s) that authorizes them to administer emergency medications such as anaphylactic treatment agents;
- e) As permitted by New York State law, maintain stock supplies of life-saving emergency medications such as epinephrine auto-injectors or Naloxone (Narcan) for use, especially in first time emergencies;
- f) Allow the school registered nurse, nurse practitioner, or physician to train unlicensed school personnel to administer emergency epinephrine via auto-injector, or emergency glucagon, to students with both a written provider order and parent or person in parental relation consent during the school day, on school property, and at any school function. Such training will be done in accordance with specifications outlined in the Commissioner's regulations;
- g) Ensure that building-level safety plans and the District-wide emergency response plan include appropriate accommodations for students with life-threatening health conditions.
- h) Encourage families to obtain medic-alert bracelets for at risk students;
- i) Educate students regarding the importance of immediately reporting symptoms of an allergic reaction.

Creating an Allergen-Safe School Environment

The risk of accidental exposure or cross-contamination is always present in school, particularly for students with food allergies. The school setting is a high-risk environment for accidental ingestion of a food allergen due to the presence of a large number of students, increased exposure to food allergens, and cross-contamination of tables, desks, and other surfaces.

In an effort to prevent accidental exposure to allergens, the District will monitor the following high-risk areas and activities:

- a) Cafeteria;
- b) Food sharing;
- c) Hidden ingredients in art, science, and other projects;
- d) Transportation;
- e) Fund raisers and bake sales;
- f) Parties and holiday celebrations;
- g) Field trips;
- h) Before and after school programs.

-

Medication Self-Management

The District will work toward assisting students in the self-management of their chronic health condition based upon the student's knowledge level and skill by:

- a) Adequately training all staff involved in the care of the child, as appropriate;
- b) Assuring the availability of the necessary equipment or medications;
- c) Providing appropriately trained licensed persons as required by law;

- d) Developing an emergency plan for the student; and
- e) Providing ongoing staff and student education.

7522 CONCUSSION MANAGEMENT

The Board of Education recognizes that concussions and head injuries are the most commonly reported injuries in children and adolescents who participate in sports and recreational activities. The physical and mental well-being of our students is a primary concern. Therefore, the Bolivar-Richburg Central School District adopts the following Policy to support the proper evaluation and management of concussion injuries.

A concussion is a mild traumatic brain injury (MTBI). A concussion occurs when normal brain functioning is disrupted by a blow or jolt to the head or body that causes the head and brain to move rapidly back and forth. Recovery from concussion and its symptoms will vary. Avoiding re-injury and over-exertion until fully recovered are the cornerstones of proper concussion management. Concussions can impact a student's academics as well as their athletic pursuits.

Concussion Management Team (CMT)

In accordance with the Concussion Management and Awareness Act, the School District is authorized, at its discretion, to establish a Concussion Management Team (CMT) which may be composed of the certified athletic director, a school nurse, the school physician, a coach of an

interscholastic team, a certified athletic trainer or such other appropriate personnel as designated by the School District. The Concussion Management Team shall oversee and implement the School District's concussion policy and regulations, including the requirement that all school coaches, physical education teachers, nurses and certified athletic trainers who work with and/or provide instruction to pupils engaged in school-sponsored athletic activities complete training relating to mild traumatic brain injuries. Furthermore, every concussion management team may establish and implement a program which provides information on mild traumatic brain injuries to parents and persons in parental relation throughout each school year.

Staff Training/Course of Instruction

Each school coach, physical education teacher, school nurse and certified athletic trainer who works with and/or provides instruction to students in school-sponsored athletic activities (including physical education class and recess) shall complete a course of instruction every two (2) years relating to recognizing the symptoms of concussions or MTBIs and monitoring and seeking proper medical treatment for students who suffer from a concussion or MTBI.

Components of the training will include:

- a) The definition of MTBI;
- b) Signs and symptoms of MTBI;
- c) How MTBIs may occur;
- d) Practices regarding prevention; and
- e) Guidelines for the return to school and school activities for a student who has suffered an MTBI, even if the injury occurred outside of school.

The course can be completed by means of instruction approved by SED which include, but are not limited to, courses provided online and by teleconference.

Information to Parents

The District shall include the following information on concussion in any permission or consent form or similar document that may be required from a parent/person in parental relation for a student's participation in interscholastic sports. Information will include:

- a) The definition of MTBI;
- b) Signs and symptoms of MTBI;
- c) How MTBIs may occur;
- d) Practices regarding prevention; and

e) Guidelines for the return to school and school activities for a student who has suffered an MTBI, even if the injury occurred outside of school.

The District will provide a link on its website to the above list of information on the State Education Department's and Department of Health's websites.

Identification of Concussion and Removal from Athletic Activities

The District shall require the immediate removal from all athletic activities of any student who has sustained, or is believed to have sustained, a mild traumatic brain injury (MTBI) or concussion. Any student demonstrating signs, symptoms or behaviors consistent with a concussion while participating in a class, extracurricular activity, or interscholastic athletic activity shall be removed from the class, game or activity and must be evaluated as soon as possible by an appropriate health care professional. If this professional is not the PCP, immediately follow up with the PCP is required prior to return to school. (PCP is most familiar with student.) Such removal must occur based on display of symptoms regardless of whether such injury occurred inside or outside of school. If there is any doubt as to whether the student has sustained a concussion, it shall be presumed that the student has been injured until proven otherwise. The District shall notify the student's parents or guardians and recommend appropriate evaluation and monitoring.

The School District may choose to allow credentialed District staff to use validated Neurocognitive computerized testing as a concussion assessment tool to obtain baseline and post-concussion performance data. These tools are not a replacement for a medical evaluation to diagnose and treat a concussion.

Return to School Activities and Athletics

The student shall not return to physical activity (including athletics, physical education class and recess) until he/she has been symptom-free for not less than twenty-four (24) hours, and has been evaluated and received written authorization from a licensed physician. The five-day return to play will be completed by any coach, PE teacher, athletic director, school nurse or faculty/staff member who has the state-mandated concussion training. In accordance with Commissioner's Regulations, The School District's Medical Director will give final clearance on a return to activity for extra-class athletics. All such authorizations shall be kept on file in the student's permanent health record. The standards for return to athletic activity will also apply to injuries that occur outside of school. School staff should be aware that students may exhibit concussion symptoms caused by injuries from outside activities and that these visible symptoms also indicate a removal from play.

The District shall follow any directives issued by the student's treating physician with regard to limitations and restrictions on school and athletic activities for the student. The District's Medical Director may also formulate a standard protocol for treatment of students with concussions during the school day.

In accordance with NYSED guidelines, this Policy shall be reviewed periodically and updated as necessary in accordance with New York State Education Department guidelines. The Superintendent, in consultation with the District's Medical Director and other appropriate staff, may develop regulations

and protocols for strategies to prevent concussions, the identification of concussions, and procedures for removal from and return to activities or academics.

7530 CHILD ABUSE

The Bolivar-Richburg Central School District subscribes to all of the provisions of Title 6 - Child Protective Services of the Social Services Law (Sections 411-428). Our purpose is to provide protective services to abused and maltreated children as described by the law, and to make all school personnel within the District aware of our legal responsibilities under this law.

Regulations shall be developed, maintained and disseminated by administration regarding the:

- a) Mandatory reporting of suspected child abuse/neglect;
- b) Reporting procedures and obligations of persons required to report;
- c) Provisions for taking a child into protective custody;
- d) Mandatory reporting of deaths;
- e) Immunity from liability and penalties for failure to report; and
- f) Obligations for provision of services and procedures necessary to safeguard the life of a child.

Additionally, an ongoing training program for all professional staff shall be established and implemented to enable such staff to carry out their reporting responsibilities.

Social Services Law Sections 411-428

Family Court Act Section 1012

Education Law Section 3209-a

Child Abuse in an Educational Setting

The School District is committed to the protection of students in educational settings from abuse and maltreatment by employees or volunteers as enumerated in law.

"Child abuse" shall mean any of the following acts committed in an educational setting by an employee or volunteer against a child:

- a) Intentionally or recklessly inflicting physical injury, serious physical injury or death; or
- b) Intentionally or recklessly engaging in conduct which creates a substantial risk of such physical injury, serious physical injury or death; or
- c) Any child sexual abuse, defined as conduct prohibited by Article 130 or 263 of the Penal Law; or
- d) The commission or attempted commission against a child of the crime of disseminating indecent materials to minors pursuant to Article 235 of the Penal Law.

"Educational setting" shall mean the building(s) and grounds of the School District; the vehicles provided by the School District for the transportation of students to and from school buildings, field trips, co-curricular and extracurricular activities both on and off School District grounds; all co-curricular and extracurricular activity sites; and any other location where direct contact between an employee or volunteer and a child has allegedly occurred.

In any case where an oral or written allegation is made to a teacher, school nurse, school guidance counselor, school psychologist, school social worker, school administrator, School Board member, or other school personnel required to hold a teaching or administrative license or certificate, that a child (defined in the law as a person under the age of twenty-one (21) years enrolled in a school district in this state) has been subjected to child abuse by an employee or volunteer in an educational setting, that person shall upon receipt of such allegation:

- a) Promptly complete a written report of such allegation including the full name of the child alleged to be abused; the name of the child's parent; the identity of the person making the allegation and their relationship to the alleged child victim; the name of the employee or volunteer against whom the allegation was made; and a listing of the specific allegations of child abuse in an educational setting. Such written report shall be completed on a form as prescribed by the Commissioner of Education.
- b) Except where the school administrator is the person receiving such an oral or written allegation, the employee completing the written report must promptly *personally deliver* a copy of that written report to the school administrator of the school in which the child abuse allegedly occurred (subject to the following paragraph).

In any case where it is alleged the child was abused by an employee or volunteer of a school other than a school within the school district of the child's attendance, the report of such allegations shall be promptly forwarded to the Superintendent of Schools of the school district of the child's attendance and the school district where the abuse allegedly occurred.

Any employee or volunteer who reasonably and in good faith makes a report of allegations of child abuse in an educational setting in accordance with the reporting requirements of the law shall have immunity from civil liability which might otherwise result by reason of such actions.

Upon receipt of a written report alleging child abuse in an educational setting, the school administrator or Superintendent must then determine whether there is "reasonable suspicion" to believe that such an act of child abuse has occurred. Where there has been a determination as to the existence of such reasonable suspicion, the school administrator or Superintendent must follow the notification/reporting procedures mandated in law and further enumerated in administrative regulations, including parental notification. When the school administrator receives a written report, he/she shall promptly provide a copy of such report to the Superintendent.

Where the school administrator or Superintendent has forwarded a written report of child abuse in an educational setting to law enforcement authorities, the Superintendent shall also refer such report to the Commissioner of Education where the employee or volunteer alleged to have committed such an act of child abuse holds a certification or license issued by the State Education Department.

Any school administrator or Superintendent who reasonably and in good faith makes a report of allegations of child abuse in an educational setting, or reasonably and in good faith transmits such a report to a person or agency as required by law, shall have immunity from civil liability which might otherwise result by reason of such actions.

Reports and other written material submitted pursuant to law with regard to allegations of child abuse in an educational setting, and photographs taken concerning such reports that are in the possession of any person legally authorized to receive such information, *shall be confidential and shall not be redisclosed except* to law enforcement authorities involved in an investigation of child abuse in an educational setting or as expressly authorized by law or pursuant to a court-ordered subpoena. School administrators and the Superintendent shall exercise reasonable care in preventing such unauthorized disclosure.

Additionally, teachers and all other school officials shall be provided an annual written explanation concerning the reporting of child abuse in an educational setting, including the immunity provisions as enumerated in law. Further, the Commissioner of Education shall furnish the District with required information, including rules and regulations for training necessary to implement District/staff responsibilities under the law.

Prohibition of "Silent" (Unreported) Resignations

The Superintendent and other school administrators are prohibited from withholding from law enforcement authorities, the Superintendent or the Commissioner of Education, where appropriate, information concerning allegations of child abuse in an educational setting against an employee or volunteer in exchange for that individual's resignation or voluntary suspension from his/her position.

Superintendents (or a designated administrator) who reasonably and in good faith report to law enforcement officials information regarding allegations of child abuse or a resignation as required pursuant to the law shall have immunity from any liability, civil or criminal, which might otherwise result by reason of such actions.

7540 SUICIDE

The suicide of a student has an extremely disturbing effect on the school and the local community. Unfortunately, there has been a significant increase in the number of adolescents who choose suicide as a way to resolve their problems. It is the intent of this District to alert school personnel to the implications of suicide by a student, to help the school and the community cope with the aftermath of such a tragic event should it occur, to recommend ways of identifying children and adolescents at risk of attempting suicide and to suggest ways to prevent such occurrences.

Suicide prevention will be incorporated into the curriculum to make students aware of this growing problem. This will be done in a manner so as not to glamorize the situation but to educate students in regard to this policy.

The administration is responsible for informing staff of regulations and procedures of suicide prevention, intervention, and post-intervention that have been developed by the administration.

7550 COMPLAINTS AND GRIEVANCES BY STUDENTS

Related Policies & Documents: Refer also to Policy #3420

While students have the responsibility to abide by the policies and regulations of the District, they shall also be afforded opportunity to present complaints and grievances free from interference, coercion, restraint, discrimination or reprisal. Administration shall be responsible for:

- a) Establishing rules and regulations for the redress of complaints or grievances through proper administration channels;
- b) Developing an appeals process;

- c) Ensuring that students have full understanding and access to these regulations and procedure; and
- d) Providing prompt consideration and determination of student complaints and grievances.

Complaints and Grievances Coordinator

In addition, students and parents/guardians will receive annual notification of the District's established grievance procedures for resolving complaints of discrimination based on sex, sexual orientation, or disability. This notice shall include the name, address and telephone number of the Title IX/Section 504/ADA Coordinator.

The Title IX/Section 504/ADA Coordinator shall also be responsible for handling complaints and grievances regarding discrimination based on race, color, creed, religion, national origin, political affiliation, age or marital status.

29 United States Code Section 621

7551 SEXUAL HARASSMENT OF STUDENTS

The Board of Education affirms its commitment to non-discrimination and recognizes its responsibility to provide for all District students an environment that is free of sexual harassment and intimidation. Sexual harassment is a violation of law and stands in direct opposition to District policy. Therefore, the Board prohibits and condemns all forms of sexual harassment by employees, school volunteers, students, and non-employees such as contractors and vendors which occur on school grounds and at all school-sponsored events, programs and activities including those that take place at locations off school premises or those that take place in another state. Generally, sexual harassment is defined as unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct or communication of a sexual nature when:

- a) Submission to or rejection of such sexually harassing conduct and/or communication by a student affects decisions regarding any aspect of the student's education, including participation in school-sponsored activities;

- b) Conditions exist within the school environment that allow or foster obscene pictures, lewd jokes, sexual advances, requests for sexual favors or other harassing activities of a sexual nature; and
- c) Such conduct and/or communication has the purpose or effect of substantially or unreasonably interfering with a student's academic performance or participation in an educational or extracurricular activity, or creating an intimidating, hostile or offensive learning environment; and/or effectively bars the student's access to an educational opportunity or benefit.

The Board acknowledges that in determining whether sexual harassment has occurred the totality of the circumstances, expectations, and relationships should be evaluated including, but not limited to, the ages of the harasser and the victim; the number of individuals involved; and the type, frequency and duration of the conduct. The Board recognizes that sexual harassment can originate from a person of either sex against a person of the opposite or same sex, and from a third party such as a school visitor, volunteer, or vendor, or any other individual associated with the School District. Sexual harassment may occur from student-to-student, from staff-to-student, from student-to-staff, as well as staff-to-staff. The District will designate, at a minimum, two (2) Complaint Officers, one (1) of each gender.

In order for the Board to enforce this policy, and to take corrective measures as may be necessary, it is essential that any student who believes he/she has been a victim of sexual harassment in the school environment, as well as any other person who is aware of and/or who has knowledge of or witnesses any possible occurrence of sexual harassment, immediately report such alleged harassment; such report shall be directed to or forwarded to the District's designated Complaint Officers through informal and/or formal complaint procedures as developed by the District. Such complaints are recommended to be in writing, although verbal complaints of alleged sexual harassment will also be promptly investigated in accordance with the terms of this policy. In the event that the Complaint Officer is the alleged offender, the report will be directed to the next level of supervisory authority.

Upon receipt of an informal/formal complaint (even an anonymous complaint), the District will conduct a thorough investigation of the charges. However, even in the absence of a complaint, if the District has knowledge of or has reason to know of or suspect any occurrence of sexual harassment, the District will investigate such conduct promptly and thoroughly. To the extent possible, within legal constraints, all complaints will be treated as confidentially and privately as possible. However, disclosure may be necessary to complete a thorough investigation of the charges, and any disclosure will be provided on a "need to know" basis.

Based upon the results of the investigation, if the District determines that an employee and/or student has violated the terms of this policy and/or accompanying regulations, immediate corrective action will be taken as warranted. Should the offending individual be a student, appropriate disciplinary measures will be applied, up to and including suspension, in accordance with District policy and regulation, the Code of Conduct, and applicable laws and/or regulations. Should the offending individual be a school employee, appropriate disciplinary measures will be applied, up to and including

termination of the offender's employment, in accordance with legal guidelines, District policy and regulation, the Code of Conduct and the applicable collective bargaining agreement(s). Third parties (such as school volunteers, vendors, etc.) who are found to have violated this policy and/or accompanying regulations will be subject to appropriate sanctions as warranted and in compliance with law.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of sexual harassment. Follow-up inquiries shall be made to ensure that sexual harassment has not resumed and that all those involved in the investigation of the sexual harassment complaint have not suffered retaliation.

Finding That Harassment Did Not Occur

At any level/stage of investigation of alleged harassment, if a determination is made that harassment did not occur, the Complaint Officer will so notify the complainant, the alleged offender and the Superintendent of this determination. Such a finding does not preclude the complainant from filing an appeal pursuant to District policy or regulation and/or pursuing other legal avenues of recourse.

However, even if a determination is made that harassment did not occur, the Superintendent/designee reserves the right to initiate staff awareness and training, as applicable, to help ensure that the school community is not conducive to fostering harassment in the workplace.

In all cases, the Superintendent will inform the Board of Education of the results of each investigation involving a finding that harassment did not occur.

Knowingly Makes False Accusations

Employees and/or students who *knowingly* make false accusations against another individual as to allegations of harassment may also face appropriate disciplinary action.

Privacy Rights

As part of the investigation, the District has the right to search all school property and equipment including District computers. Rooms, desks, cabinets, lockers, computers, etc. are provided by the District for the use of staff and students, but the users do not have exclusive use of these locations or equipment and should not expect that materials stored therein will be private.

Development and Dissemination of Administrative Regulations

Regulations will be developed for reporting, investigating and remedying allegations of sexual harassment. An appeal procedure will also be provided to address any unresolved complaints and/or unsatisfactory prior determinations by the applicable Complaint Officer(s).

Such regulations will be developed in accordance with federal and state law as well as any applicable collective bargaining agreement(s).

The Superintendent/designee(s) will affirmatively discuss the topic of sexual harassment with all employees and students, express the District's condemnation of such conduct, and explain the sanctions for such harassment. Appropriate training and/or "awareness" programs will be established for staff and students to help ensure knowledge of and familiarity with the issues pertaining to sexual harassment in the schools, and to disseminate preventative measures to help reduce such incidents of prohibited conduct. Furthermore, special training will be provided for designated supervisors and managerial employees, as may be necessary, for training in the investigation of sexual harassment complaints.

A copy of this policy and its accompanying regulations will be available upon request and may be posted at various locations in each school building. The District's policy and regulations on sexual harassment will be published in appropriate school publications such as teacher/employee handbooks, student handbooks, and/or school calendars.

7552 DIGNITY FOR ALL STUDENTS ACT

Related Policies & Documents: Refer also to Policies #1330, #3410, #3420, #7551, #7552, #7553, #8242

The Board of Education recognizes that learning environments that are safe and supportive can increase student attendance and improve academic achievement. A student's ability to learn and achieve high academic standards, and a school's ability to educate students, is compromised by incidents of discrimination or harassment, including but not limited to bullying, taunting and intimidation. Therefore, in accordance with the Dignity for All Students Act, Education Law, Article 2, the District will strive to create an environment free of bullying, discrimination and/or harassment and will foster civility in the schools to prevent and prohibit conduct which is inconsistent with the District's educational mission. Since cyberbullying is a form of bullying, the term "bullying" as used in this policy will implicitly include cyberbullying even if it is not explicitly stated.

The District condemns and prohibits all forms of bullying, discrimination and/or harassment of students based on actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender, or sex by school employees or students on school property and at school-sponsored activities and events that take place at locations off school property. In addition, any act of bullying, discrimination and/or harassment, outside of school sponsored events, which can reasonably be expected to materially and substantially disrupt the education process may be subject to discipline.

Dignity Act Coordinator

At least one (1) employee at every school shall be designated as the Dignity Act Coordinator(s). The Dignity Act Coordinator(s) will be thoroughly trained to handle human relations in the areas of race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender (identity or expression) and sex. The Board of Education shall appoint the Dignity Act Coordinator(s) and share the name(s) and contact information with all school personnel, students, and parents/persons in parental relation, which shall include, but is not limited to, providing the name, designated school and contact information by:

- a) Listing such information in the Code of Conduct and updates posted on the Internet website, if available;
- b) Including such information in the plain language summary of the Code of Conduct provided to all persons in parental relation to students before the beginning of each school year;
- c) Providing such information to parents and persons of parental relation in at least one district or school mailing or other method of distribution including, but not limited to, sending such information home with each student and, if such information changes, in at least one subsequent district or school mailing or other such method of distribution as soon as practicable thereafter;
- d) Posting such information in highly visible areas of school buildings;
- e) Making such information available at the district and school-level administrative offices.

If a Dignity Act Coordinator vacates his/her position, another school employee shall immediately be designated for an interim appointment as Coordinator, pending approval from the Board of Education, within thirty (30) days of the date the position was vacated. In the event a Coordinator is unable to perform the duties of the position for an extended period of time, another school employee shall immediately be designated for an interim appointment as Coordinator, pending return of the previous Coordinator to the position.

Training and Awareness

Each District and Charter School shall establish guidelines for training which shall be approved by the Board of Education. Training will be provided each school year for all District employees in conjunction with existing professional development training to raise staff awareness and sensitivity of bullying, discrimination and/or harassment directed at students that are committed by students or

school employees on school property or at a school function. Training will include ways to promote a supportive school environment that is free from bullying, discrimination and/or harassment, emphasize positive relationships, and demonstrate prevention and intervention techniques to assist employees in recognizing and responding to bullying, discrimination and/or harassment, as well as ensuring the safety of the victims.

Instruction in grades Kindergarten through 12 shall include a component on civility, citizenship and character education. Such component shall instruct students on the principles of honesty, tolerance, personal responsibility, respect for others, observance of laws and rules, courtesy, dignity and other traits which will enhance the quality of their experiences in, and contributions to, the community. For the purposes of this policy, "tolerance," "respect for others" and "dignity" shall include awareness and sensitivity to bullying, discrimination and/or harassment and civility in the relations of people of different races, weights, national origins, ethnic groups, religions, religious practices, mental or physical abilities, sexual orientations, genders and sexes.

Rules against bullying, discrimination and/or harassment will be included in the Code of Conduct, publicized District-wide and disseminated to all staff and parents. An age-appropriate summary shall be distributed to all students at a school assembly at the beginning of each school year.

Reports and Investigations of Bullying, Discrimination and/or Harassment

The District will investigate all complaints of bullying, discrimination and/or harassment, either formal or informal, and take prompt corrective measures, as necessary. Complaints will be investigated in accordance with applicable policies and regulations. If, after an appropriate investigation, the District finds that this policy has been violated, corrective action will be taken in accordance with District policies and regulations, the Code of Conduct, and all appropriate federal or state laws.

The District will annually report material incidents of bullying, discrimination and/or harassment which occurred during the school year to the State Education Department. Such report shall be submitted in a manner prescribed by the Commissioner, on or before the basic educational data system (BEDS) reporting deadline or such other date as determined by the Commissioner.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

Any person who has reasonable cause to suspect that a student has been subjected to bullying, discrimination and/or harassment by an employee or student, on school grounds or at a school function, who acts reasonably and in good faith and reports such information to school officials or law enforcement authorities, shall have immunity from any civil liability that may arise from making such report. The Board prohibits any retaliatory behavior directed at complainants, victims, witnesses and/or any other individuals who participated in the investigation of a complaint of bullying, discrimination and/or harassment.

Education Law Sections 10-18 and 801-a

8 New York Code of Rules and Regulations (NYCRR) Section 100.2(jj), 100.2(kk), and 100.2(1)(2)

7553 BULLYING: PEER ABUSE IN THE SCHOOLS

Related Policies & Documents: Refer also to Policies #3410, #3420, #7551

The Board of Education is committed to providing a safe and productive learning environment within its schools. Bullying of a student by another student is strictly prohibited on school property, in school buildings, on school buses, and at school sponsored events and/or activities whether occurring on or off campus. The Board of Education shall require the prohibition of bullying - along with the range of possible intervention activities and/or sanctions for such misconduct - to be included in the *District Code of Conduct* for all grade levels.

For purposes of this policy, the term "bullying" among children is defined, in general, as: "a variety of negative acts carried out repeatedly over time. It involves a real or perceived imbalance of power, with a more powerful child or group attacking those who are less powerful." Bullying can take three forms:

- a) Physical (including, but not limited to, hitting, kicking, spitting, pushing, taking personal belongings);
- b) Verbal (including, but not limited to, taunting, malicious teasing, name calling, making threats); and
- c) Psychological (including, but not limited to, spreading rumors; manipulating social relationships; or engaging in social exclusion, extortion, or intimidation).

Although this Policy focuses on the bullying of a student by another student, it should be noted that bullying against any individual is strictly prohibited. This includes bullying of staff members against students, students against staff members, staff members against other staff members, and bullying by or against any parents, persons in parental relation, volunteers, visitors or vendors who may be on school property or at school sponsored events as defined above.

Engages in Cyberbullying Behavior

As with other forms of bullying, cyberbullying is an attempt to display power and control over someone perceived as weaker. Cyberbullying involving District students may occur both on campus and off school grounds and may involve student use of the District Internet system or student use of personal digital devices while at school, such as cell phones, digital cameras, and personal computers to engage in bullying.

Cyberbullying includes, but is not limited to, the following misuses of technology: harassing, teasing, intimidating, threatening, or terrorizing another student or staff member by way of any technological tool, such as sending or posting inappropriate or derogatory e-mail messages, instant messages, text messages, digital pictures or images, or Web site postings (including blogs).

Cyberbullying has the effect of:

- a) Physically, emotionally or mentally harming a student;
- b) Placing a student in reasonable fear of physical, emotional or mental harm;
- c) Placing a student in reasonable fear of damage to or loss of personal property; and
- d) Creating an intimidating or hostile environment that substantially interferes with a student's educational opportunities.

Also, cyberbullying that occurs off-campus, that causes or threatens to cause a material or substantial disruption in the school, could allow school officials to apply the "***Tinker*** standard" where a student's off-campus "speech" may be subject to formal discipline by school officials when it is determined that the off-campus speech did cause a substantial disruption or threat thereof within the school setting [Tinker v. Des Moines Indep. Sch. Dist., 393 U.S. 503 (1969)]. Such conduct could also be subject to appropriate disciplinary action in accordance with the *District Code of Conduct* and possible referral to local law enforcement authorities.

Reports of Allegations of Bullying/Cyberbullying Behavior

Any student who believes that he/she is being subjected to bullying/cyberbullying behavior, as well as any other person who has knowledge of or witnesses any possible occurrence of bullying, shall report the bullying to any staff member or the Building Principal. The staff member/Building Principal to whom the report is made (or the staff member/Building Principal who witnesses bullying behavior) shall promptly, thoroughly and equitably investigate the complaint and take appropriate action to include, as necessary, referral to the next level of supervisory authority and/or other official designated by the District to investigate allegations of bullying. Investigation of allegations of bullying shall follow the procedures utilized for complaints of harassment within the School District. Allegations of bullying shall be promptly and equitably investigated and will be treated as confidential and private to the extent possible within legal constraints.

Prevention and Intervention

Personnel at all levels are responsible for taking corrective action to prevent bullying behavior of which they have been made aware at School District sites or activities and/or reporting such behavior to their immediate supervisor. Further, staff training shall be provided to raise awareness of the problem of bullying within the schools and to facilitate staff identification of and response to such bullying behavior among students.

Prevention and intervention techniques within the District to prevent against bullying behavior and to support and protect victims shall include building-level and classroom-level strategies and activities as determined by administration. Individual intervention will be provided by appropriate staff members to bullies, victims and their parents to help ensure that the bullying stops.

Rules against bullying shall be publicized District-wide and shall be disseminated as appropriate to staff, students and parents.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of bullying. Follow-up inquiries and/or appropriate monitoring of the alleged bully and victim shall be made to ensure that bullying behavior has not resumed and that all those involved in the investigation of allegations of bullying have not suffered retaliation.

Civil Service Law Section 75-B

7560 NOTIFICATION OF SEX OFFENDERS

In accordance with the Sex Offender Registration Act ("Megan's Law"), the Board of Education supports the New York State Department of Criminal Justice Services (DCJS) in its effort to inform the community in certain circumstances of the presence of individuals with a history of sex offenses, particularly against children, in the school locality. This policy is enacted in order to minimize the possibility that the sex offender will come in contact with school-age children, and to assist law enforcement agencies in preventing further criminal activity from occurring. Furthermore, the District shall cooperate with local police authorities and the local community in promoting and protecting the safety and well being of its students.

It is the policy of the Board of Education to disseminate all information which the District receives from local police authorities in conjunction with Megan's Law to designated staff members who might have possible contact with the offender during the course of their school duties including, but not limited to, Building Principals, supervisors, teachers, office personnel, coaches, custodians, bus drivers, and security personnel. The Superintendent reserves the right to automatically disseminate such information to additional members of the staff, designated supervisors of non-school groups that regularly use District facilities and have children in attendance, parents/guardians of District students, and other community residents who, in the opinion of the Superintendent, have an immediate need to be notified of such data in order to protect the safety of our students.

All staff members shall be informed of the availability of the information received by the District pursuant to Megan's Law upon written request to the applicable Building Principal/designee or supervisor.

Staff members shall inform their immediate supervisor if they observe within the school building, on school grounds, at school activities, or at or near bus routes any individual whose description matches the information which was provided to the District by local law enforcement authorities. Such law enforcement officials will be notified of this information by the District as appropriate.

Information that is disseminated to the School District pursuant to Megan's Law may be disclosed or not disclosed by the District in its discretion. Any information which the School District receives regarding a sex offender from a source other than the Sex Offender Registry, and which is maintained independent of the requirements of Megan's Law, will be available from the District, upon written request, in accordance with the requirements of the Freedom of Information Law (FOIL).

Special Circumstances Whereby Sex Offenders May Enter Upon School Grounds

As a mandatory condition of the sentence for sex offenders placed on probation or conditional discharge whose victim was under the age of eighteen (18) or who has been designated a Level 3 sex offender, the court requires that such sentenced offender refrain from knowingly entering into or upon school grounds or any other facility or institution primarily used for the care or treatment of persons under the age of eighteen (18) while one or more of such persons are present.

However, by exception, a sex offender may enter school grounds or facility with the written authorization of his/her parole officer and the Superintendent for limited authorized purposes. Entrance upon the premises is subject to the following conditions:

- a) The offender is a registered student, participant or employee of the facility;
- b) The offender is an employee of an entity contracted by the facility;
- c) The offender has a family member enrolled in the facility; or
- d) If the school is the offender's designated polling place and he/she enters solely to vote.

Implementation

Administrative regulations shall be developed to implement this policy.

7570 SUPERVISION OF STUDENTS

Related Policies & Documents: Refer also to Policy #5730

Students working on any activity must be supervised by the teacher or staff member in charge of the activity. This applies to all in school and extracurricular activities as well as sports activities and events. Permission to hold practices or meetings must not be granted unless a teacher or staff member is definitely in charge.

- a) District personnel will be fully responsible for the supervision of all students in either their class or their after school activities.
- b) Coaches will maintain supervision over the dressing rooms by personally being present during the dressing periods. Coaches are responsible for the supervision of their athletes at

the end of practice. This may entail bus duty, or making sure students have transportation home.

- c) Teachers and/or assigned school personnel in the elementary grades will be responsible for the playground supervision of all the children under their jurisdiction during the recess periods and before the regular afternoon sessions. The principal will distribute the responsibility so that the playground situation will be properly controlled.
- d) Students are not to be sent on any type of errand away from the building without the consent of the principal.

7610 SPECIAL EDUCATION: DISTRICT PLAN

A District plan shall be developed and updated every two (2) years describing the Special Education program in the Bolivar-Richburg Central School District. The District plan shall include the following:

- a) A description of the nature and scope of special education programs and services currently available to students residing in the District, including but not limited to descriptions of the District's resource room programs and each special class program provided by the District in terms of group size and composition.
- b) Identification of the number and age span of students (school age and preschool) to be served by type of disability and recommended setting.
- c) The method to be used to evaluate the extent to which the objectives of the program have been achieved.
- d) A description of the policies and practices of the Board of Education to ensure the allocation of appropriate space within the District for special education programs that meet the needs of students and preschool children with disabilities.
- e) A description of the policies and practices of the Board of Education to ensure that appropriate space will be continually available to meet the needs of resident students and preschool students with disabilities who attend special education programs provided by Boards of Cooperative Educational Services.
- f) A description of how the District intends to ensure that all instructional materials to be used in the schools of the District will be made available in a usable alternative format for each student with a disability at the same time as such instructional materials are available to non-disabled students.
- g) The estimated budget to support such plan.
- h) The date on which such plan was adopted by the Board of Education.

The District plan, with personally identifiable student information deleted, shall be filed and available for public inspection and review by the Commissioner.

8 New York Code of Rules and Regulations

(NYCRR) Section 200.2(c)

7611 CHILDREN WITH DISABILITIES

Related Policies & Documents: Refer also to Policy #7615

A child with a disability means a student under the age of twenty-one who is entitled to attend public schools and who, because of mental, physical or emotional reasons can only receive appropriate educational opportunities from a program of special education. A child is not considered as having a disability if his/her educational needs are due primarily to unfamiliarity with the English language; environmental, cultural or economic factors; or lack of appropriate instruction in reading or mathematics.

If the State Education Department finds that the District has inappropriate policies, procedures or practices resulting in a significant disproportionality by race/ethnicity in the suspension, identification, classification and/or placement of students with disabilities, the District will ensure that it publicly reports on the subsequent revisions to those policies, procedures or practices.

The Board of Education recognizes the existence of individual differences in the intellectual, social, emotional and physical development of children attending school in the District. In recognizing these differences the Board supports a system of services offered in the least restrictive environment for children with disabilities which includes:

- a) Not requiring any student to obtain a prescription for a drug or other substance identified as a controlled substance by the federal Controlled Substances Act as a condition of receiving services.
- b) Education in regular classes with or without support services, education in a resource room, education for part of the day in a special class, full time education in a special class, home instruction and education in a residential setting.
- c) Providing for the education of students with disabilities with non-disabled peers to the extent appropriate.
- d) Taking the following measurable steps to recruit, hire, train and retain highly qualified personnel to provide special education programs and services:
 1. Utilize established procedures for publication of all potential job openings;

2. Check credentials and requirements listed on applications;
 3. Provide training sessions for interview committee;
 4. Special Education teachers are required to have subject matter knowledge appropriate to the level of instruction being provided; when teaching two (2) or more core academic subjects exclusively to children with disabilities, the teacher will meet the requirements of "highly qualified" per the No Child Left Behind Act (NCLB) and the Individuals with Disabilities Education Improvement Act of 2004 (IDEA) or demonstrate competence in all the core academic subjects taught per state regulations.
- e) Establishing the following guidelines for the provision of appropriate accommodations necessary to measure the academic achievement and functional performance of the student in the administration of District-wide assessments:
1. Ensure that necessary accommodations are specified on individualized education program (IEP) and implemented in accordance with the IEP;
 2. Review the need for accommodations at Committee on Special Education (CSE) evaluations/re-evaluations;
 3. etc.
- f) To the extent feasible, using universal design principles (defined as a concept or philosophy for designing and delivering products and services that are usable by people with the widest range of functional capabilities, which include products and services that are directly usable without requiring assistive technologies and products and services that are made usable with assistive technologies) in developing and administering District-wide assessment programs by:
1. Addressing appropriate universal design principles in IEP;
 2. Having the Library Media Specialist and/or Curriculum Coordinator keep Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) apprised of available products and services utilizing universal design principles;
 3. Ensuring that instructional materials and activities allow learning goals to be achievable by individuals with wide differences in abilities;
 4. Ensuring that flexible curricular materials and activities are built into the instructional design and operating systems.
 5. Ensuring that instruction is diversified to deliver the general education curriculum to every student and diversify ways students may respond to that curriculum.
- g) Consideration of the location of a school program(s) to a student's residence, before placement into an educational program.

- h) Adoption of written policies and procedures ensuring that students with disabilities are provided appropriate opportunities to earn a high school diploma in accordance with Commissioner's Regulations
- i) Allocation of appropriate space within the District for special education programs that meet the needs of students with disabilities.
- j) Assurance that appropriate space will be available to meet the needs of resident students with disabilities who attend special education programs provided by BOCES.

Provision of Special Education Services to Nonpublic School Students with Disabilities who are Parentally Placed

The **district of location** is responsible for child find, including individual evaluations, Committee on Special Education (CSE) meetings, provision of special education services, and due process to parentally placed nonpublic school students attending nonpublic schools located in the geographic region of the public school district.

These requirements only pertain to students with disabilities parentally placed in elementary and secondary nonpublic schools, not to parental placements of preschool children with disabilities in private day care or preschool programs; or to CSE placements of students with disabilities in approved private schools, Special Act School Districts, State-supported or State-operated schools or to Charter schools.

Parental consent must be obtained by the school district of location before any personally identifiable information about the student is shared between officials in the public school district of residence and officials in the public school district of location.

The school district of location must consult with nonpublic school representatives and representatives of parents of parentally placed nonpublic school students with disabilities enrolled in nonpublic elementary and secondary schools located within the boundaries of the school district. The school district must engage in consultation regarding the child find process and services generally; consultation is not specific to individual students. Individual services are determined by the CSE.

The consultation process must be timely and meaningful and include discussion of:

- 1) Child Find;
- 2) Provision of Special Education Services; and
- 3) Use of Federal Funds.

The school district of location must provide, as appropriate, special education services to an eligible student who legally resides in another state and who is parentally placed in a nonpublic school located in New York State. The services to be provided to out-of state students must be documented on a services plan that is developed by the CSE of the district of location. The services plan is the written plan that describes the specific special education and related service that the district of location will

provide to the student consistent with the services that the school district of location has determined through the consultation process and in relation to the proportionate shares of federal IDEA Part B dollars, to be provided to the student.

7612 GROUPING BY SIMILARITY OF NEEDS

The Board of Education will provide appropriate special education and related services to students with disabilities. For those students for whom an appropriate education requires that they be placed together for purposes of special education, the following guidelines shall apply:

- a) That each student with a disability shall be identified, evaluated and placed as determined by the Committee on Special Education (CSE).
- b) The CSE shall determine written goals, including academic and functional goals, for each student with a disability by considering the special and individual needs of each student with a disability. Short-term instructional objectives and/or benchmarks will be created for each preschool student with a disability and for students who take New York State alternate assessments.
- c) The CSE shall recommend to the Board of Education appropriate educational programs and services for each student with a disability based upon the CSE evaluation.
- d) The CSE shall provide information to those teachers and professionals who arrange instructional groups for students with disabilities. Information shall include physical, psychological and social information as well as achievement test results.

- e) The curriculum and instruction provided to students with disabilities who are grouped by similarity of needs shall be consistent with the individual needs of each student in the group.
- f) Students with disabilities may be grouped according to:
 - 1. Academic achievement, functional performance and learning characteristics;
 - 2. Social development;
 - 3. Physical development; and
 - 4. Management needs.
- g) When grouping students by similarity of needs, the social needs or physical development of a student shall not be the sole determinant for placement of a student in a special education program.
- h) The management needs of such students may vary, provided that environmental modifications, adaptations, or human or material resources required to meet the needs of any one student in the group are provided and do not consistently detract from the opportunities of other students in the group to benefit from instruction.

8 New York Code of Rules and Regulations (NYCRR) Sections 200.1(ww), 200.2(b)(3), 200.4(d) and 200.6(a) (3)

7613 THE ROLE OF THE BOARD IN IMPLEMENTING A STUDENT'S INDIVIDUALIZED EDUCATION PROGRAM

Related Policies & Documents: Refer also to Policies #7631, 7632

The Board of Education shall establish at least one Committee on Special Education (CSE) and one Committee on Preschool Special Education (CPSE). The Board shall also establish, as necessary, Subcommittees on Special Education to ensure timely evaluation and placement of students with disabilities.

Committee on Special Education

The Board of Education shall, upon completion of its review of the recommendations of the CSE, arrange for the appropriate special education programs and services to be provided to a student with a disability. The Board shall notify the parent/guardian of its action in accordance with federal and state law and regulations.

For a student not previously identified as having a disability, the CSE shall provide a recommendation to the Board which shall arrange for the appropriate special education programs and services to be provided within sixty (60) school days of the date of receipt of consent to evaluate. For a student with a disability referred for review, a recommendation shall be provided to the Board which

shall arrange for the appropriate special education programs and services to be provided within sixty (60) school days of the referral for review. However, if such recommendation of the CSE is for placement in an approved in-state or out-of-state private school, the Board shall arrange for such special education programs and services for students with disabilities within thirty (30) school days of the Board's receipt of the recommendation of the CSE.

If on review of the recommendation of the CSE, the Board of Education disagrees with such recommendation, the Board shall follow one of the following procedures:

- a) The Board may remand the recommendation to the CSE with a statement of the Board's objections or concerns and a request that a timely meeting be held to review and consider such objections or concerns. The CSE shall consider the Board's objections or concerns, revise the individualized education program (IEP) where appropriate, and resubmit a recommendation to the Board. If the Board continues to disagree with the recommendation of the CSE, the Board may continue to remand the recommendation to the original committee for additional reviews of its objections or concerns, or establish a second CSE to develop a new recommendation in accordance with the following paragraph, provided that the Board arranges for the programs and services in accordance with the student's IEP within the timelines as outlined above; or, in the alternative,
- b) The Board may establish a second CSE to develop a new recommendation for the student. If the Board disagrees with such new recommendation, the Board may remand the recommendation to the second CSE with a statement of the Board's objections or concerns and a request that a timely meeting be held to review and consider such objections or concerns. The second CSE shall consider the Board's objections or concerns, revise the IEP where appropriate, and resubmit a recommendation to the Board. If the Board continues to disagree with the recommendation of the second CSE, the Board may continue to remand the recommendation for additional reviews of its objections or concerns by the second CSE, provided that the Board arranges for the programs and services in accordance with the student's IEP, as developed by the second CSE, within the timelines as outlined above.

Pursuant to Commissioner's Regulations, the Board may not select the recommendation of the original CSE once it has established a second CSE.

The Board shall provide the student's parents/guardians with written notice and a copy of the statement of its objections or concerns and notice of due process rights in accordance with Section 200.5 of the Regulations of the Commissioner.

Committee on Preschool Special Education

Upon receipt of the recommendation of the Committee on Preschool Special Education (CPSE), the Board of Education shall arrange for the preschool student with a disability to receive such appropriate programs and services in accordance with the student's IEP, commencing with the July, September or January starting date for the approved program, unless such services are recommended by the CPSE less than thirty (30) school days prior to, or after, the appropriate starting date selected for the

preschool student with a disability; in that case, such services shall be provided no later than thirty (30) days from the recommendation of the CPSE.

If the Board disagrees with the recommendation of the CPSE, the Board shall send the recommendation back to the CPSE with notice of the need to schedule a timely meeting to review the Board's concerns and to revise the IEP as deemed appropriate. The Board of Education shall provide such notice as required by federal and state law and regulations.

Subcommittee on Special Education

The number of Subcommittees on Special Education will be determined by the CSE and the CSE will be responsible for the oversight and monitoring of the activities of each subcommittee to assure compliance with the requirements of applicable state and federal laws and regulations.

Each Subcommittee may perform the functions for which the CSE is responsible, except:

- a) When a student is considered for initial placement in a special class; or
- b) When a student is considered for initial placement in a special class outside of the student's school of attendance; or
- c) When a student is considered for placements in a school primarily serving students with disabilities or a school outside the District.

Subcommittees shall report annually to the CSE regarding the status of each student with a disability within its jurisdiction. Upon receipt of a written request from the parent or person in parental relation to a student, the Subcommittee shall refer to the CSE any matter in which the parent disagrees with the Subcommittee's recommendation concerning a modification or change in the identification, evaluation, educational placement or provision of a free appropriate education to the student.

Education Law Sections 4402 and 4410

8 New York Code of Rules and Regulations (NYCRR) Sections 200.2(d)(1), 200.4(c), 200.4(d), 200.5 and 200.16(e)

7614 PRESCHOOL SPECIAL EDUCATION PROGRAM

Related Policies & Documents: Refer also to Policy #7632

The Board recognizes the need for educational programs for three (3) and four (4) year old children with disabilities and directs that administrative practices and procedures be developed to:

- a) Ensure the provision of special education services and programs for each preschool child with a disability residing in the District.

- b) Establish a Committee on Preschool Special Education (CPSE) which shall be comprised in accordance with applicable federal and state law and regulation.
- c) Ensure that parents have received and understand the request for consent for evaluation of a preschool aged child.

Education Law Section 4410

20 United States Code (U.S.C.) Sections 1400-1485,

Individuals With Disabilities Education Act (IDEA)

8 New York Code of Rules and Regulations

(NYCRR) Section 200.2(b)(5)

7615 LEAST RESTRICTIVE ENVIRONMENT

Least restrictive environment means that placement of students with disabilities in special classes, separate schools or other removal from the regular educational environment occurs only when the nature or severity of the disability is such that even with use of supplementary aids and services, education in regular classes cannot be satisfactorily achieved. The placement of an individual student with a disability in the least restrictive environment shall:

- a) Provide the special education and related services, as well as supplementary aids and services, needed by the student. The term "related services" does not include a medical device that is surgically implanted, the optimization of the device's functioning (e.g, mapping), maintenance of, or the replacement of such device;
- b) Provide for education of the student to the maximum extent appropriate to the needs of the student with other students who do not have disabilities; and
- c) Be as close as possible to the student's home.

The District has an obligation, pursuant to law and regulation, to educate students with disabilities in the least restrictive environment. The School District shall ensure that:

- a) Placement is based on the student's individualized education program and determined at least annually;
- b) Placement is as close as possible to the student's home, and unless the student's individualized education program requires some other arrangement, the student shall be

educated in the school he/she would have attended if not disabled;

- c) In selecting the least restrictive environment, consideration will be given to any potential harmful effect on the student or on the quality of services that he/she needs; and
- d) A student with a disability will not be removed from education in age-appropriate regular classrooms solely because of needed modifications in the general education curriculum.

The District shall ensure that a continuum of alternative placements, in accordance with law and/or regulation, will be available to meet the needs of students with disabilities. To enable students with disabilities to be educated with nondisabled students to the maximum extent appropriate, specially designed instruction and supplementary services may be provided in the regular class, including, as appropriate, related services, resource room programs and special class programs within the general education classroom.

8 New York Code of Rules and Regulations (NYCRR) Sections 100.5, 100.9, 200.1(cc), 200.1(qq), 200.2(b), 200.4 and 200.6

7616 PREREFERRAL INTERVENTION STRATEGIES IN GENERAL EDUCATION (PRIOR TO REFERRAL FOR SPECIAL EDUCATION)

The School District shall establish a plan for implementing schoolwide approaches and prereferral interventions in order to remediate a student's performance *prior to referral* for special education.

The provision of programs and/or services for students starts with consideration/implementation of instruction in the general education curriculum, with appropriate supports and/or modifications as may be necessary. In implementing prereferral intervention strategies, the District may utilize resources/strategies already in place for qualified students including, but not limited to, services available through Section 504 of the Rehabilitation Act of 1973, and Educationally Related Support Services and Academic Intervention Services as defined in Education Law and/or Commissioner's Regulations. All of these programs may be considered as possible components of Prereferral/Intervention Instructional Support Plans. The District will ensure that they have a system in place, with appropriate personnel, for developing, implementing and evaluating prereferral intervention strategies.

The District will provide general education support services, instructional modifications, alternative instructional approaches, or alternative program options to address a student's performance prior to a referral to a Committee on Special Education (CSE). Formal Instructional Support Services Teams (ISST) or other school-based teams (e.g., Direct Student Support Teams or Child Study Teams), will be formed in accordance with law and/or regulations as may be applicable as well as

District guidelines. The ISST will include representatives from general and special education as well as other disciplines and include individuals with classroom experience. Parents/persons in parental relation to students will be involved in developing prereferral strategies to address the educational needs of their child. Additionally, the District will seek collaboration between outside agencies and the school prior to a referral of the student to the CSE in order to address necessary student support services.

Administration shall ensure that appropriate opportunities exist for collaboration between general educators and special educators, and that consultation and support are available to teachers and other school personnel to assist parents/persons in parental relation to students and teachers in exploring alternative approaches for meeting the individual needs of any student prior to formal referral for special education.

The determination of prevention and prereferral intervention strategies/services shall consider the student's strengths, environment, social history, language and cultural diversity in addition to the teacher's concerns. The building administrator will further ensure that all staff are familiar with intervention procedures and procedures for operating an ISST.

Prereferral/Intervention Instructional Support Plans shall be proactive in their strategies to meet the broad range of student needs and to improve student performance. Prereferral/Intervention strategies and/or Instructional Support Plans are to be reviewed and evaluated to determine their effectiveness, and modified as may be appropriate. Appropriate documentation of the prevention and/or intervention strategies implemented shall be maintained.

However, should a referral be made to the CSE during the course of implementing prereferral/intervention instructional support services, the CSE is obligated in accordance with law to continue its duties and functions, and must meet mandatory time lines in evaluating the student for special education services and implementation of an individualized education program, if applicable.

Educational Related Support Services

Educational related support services (ERSS) means curriculum and instructional modification services; direct student support team services; assessment and non-career counseling services; special instruction to eligible students with disabilities as defined in Education Law Section 4401, which does not generate excess cost aid including related services but excluding transportation and transition services; and to eligible, qualified students pursuant to Section 504 of the Rehabilitation Act of 1973. These services are provided to eligible students, individually or in groups, and may include those related consultation services provided to their families and related school personnel in order to enhance the academic achievement and attendance of such students. Educational related support services shall also mean speech and language improvement services as defined in Commissioner's Regulations.

ERRS Services may be utilized as a component of any Prereferral/Intervention Instructional Support Plan.

Section 504 of the Rehabilitation Act of 1973

For students who are qualified for services pursuant to Section 504 of the Rehabilitation Act, but are not classified as students with disabilities as defined in Education Law Section 4401, Section 504 Accommodation Plans may address instructional support services that can be utilized as components of any prereferral/intervention strategies as deemed necessary and/or appropriate.

Academic Intervention Services

Academic intervention services means additional instruction which supplements the instruction provided in the general curriculum and assists students in meeting the State learning standards as defined in Commissioner's Regulations and/or student support services which may include guidance, counseling, attendance, and study skills which are needed to support improved academic performance. However, such services shall not include services provided to students with limited English proficiency pursuant to Commissioner's Regulations or special education services and programs as defined in Education Law Section 4401. Academic intervention services are intended to assist students who are at risk of not achieving the State learning standards in English language arts, mathematics, social studies and/or science, or who are at risk of not gaining the knowledge and skills needed to meet or exceed designated performance levels on State assessments.

The District has developed a description of the academic intervention services offered to grades K-12 students in need of such services. The District will review and revise this description every two years based on student performance results.

Parental notification of students who have been determined to need academic intervention services will be provided as per Commissioner's Regulations.

In implementing prevention and/or prereferral intervention support strategies in order to remediate a student's performance prior to referral for special education, the utilization of academic intervention services, as enumerated in Commissioner's Regulations, may be included as a component of any such Prereferral/Intervention Instructional Support Plan.

Education Law Sections 3602(32), 4401 and 4401-a

8 New York Code of Rules and Regulations

(NYCRR) Sections 100.1(g), (p), (r), (s), and (t);

100.2(v); 100.2(dd)(4); 100.2(ee); 200.2(b)(7);

200.4(a)(2) and (9); 200.4(c); and Part 154

Section 504 of the Rehabilitation Act of 1973,

29 United States Code (U.S.C.) Section 794 et seq.

The School District shall establish and implement a plan for the appropriate declassification of students with disabilities which must include:

- a) The regular consideration for declassifying students when appropriate;
- b) A reevaluation of the student prior to declassification; and
- c) The provision of educational and support services to the student upon declassification.

Eligibility Determinations

The School District must evaluate a student with a disability prior to determining that a student is no longer a student with a disability as defined in accordance with Commissioner's Regulations, and the District shall provide a copy of the evaluation report and the documentation of eligibility to the student's parent. The District is not required to conduct a reevaluation of a student before the termination of a student's eligibility due to graduation with a local high school or Regents diploma or exceeding the age eligibility for a free appropriate public education. However, the parent must receive prior written notice, in accordance with Commissioner's Regulations, before the student's graduation from high school with a local or Regents diploma or before he/she receives an Individualized Education Program (IEP) diploma. The results of any reevaluations must be addressed by the Committee on Special Education (CSE) in a meeting to review and, as appropriate, revise the student's IEP.

Prior to the reevaluation, the School District shall obtain informed parental consent unless otherwise authorized pursuant to law and/or regulation. Parental consent need not be obtained if the District can demonstrate that it has taken reasonable measures to obtain that consent, and the student's parents fail to respond. The District must have a record of its attempts to obtain parental consent. Should the student's parents refuse consent for the reevaluation, the District may continue to pursue the reevaluation by using mediation and/or due process procedures.

The District shall take whatever action is necessary to ensure that the parent understands the proceedings at the meeting of the CSE, including arranging for an interpreter for parents with deafness or whose native language is other than English.

Individual Evaluation

As part of any reevaluation, a group that includes the CSE and other qualified professionals, as appropriate, shall review existing evaluation data on the student including evaluations and information provided by the parents of the student, current classroom-based assessments and observations, and observations by teachers and related services providers.

On the basis of that review, and input from the student's parents, the CSE and other qualified professionals, as appropriate, shall identify what additional data, if any, are needed to determine:

- a) In the case of a reevaluation of a student, whether the student continues to have such a disability;
- b) The present levels of performance and educational needs of the student;

- c) In the case of a reevaluation of a student, whether the student continues to need special education; and
- d) Whether any additions or modifications to the special education services are needed to enable the student to meet the measurable annual goal set out in the Individualized Education Program (IEP) of the student and to participate, as appropriate, in the general curriculum.

If additional data are not needed, the District must notify the parents of that determination and the reasons for it and of the right of the parents to request an assessment to determine whether, for purposes of services provided in accordance with law and Commissioner's Regulations, the student continues to be a student with a disability. The District is not required to conduct the assessment unless requested to do so by the student's parents.

The CSE shall arrange for an appropriate reevaluation of each student with a disability at least every three (3) years by a multidisciplinary team or group of persons, including at least one (1) teacher or other specialist with knowledge in the area of the student's disability. The reevaluation shall be sufficient to determine the student's individual needs, educational progress and achievement, the student's ability to participate in instructional programs in regular education and the student's continuing eligibility for special education. The results of any reevaluations must be addressed by the CSE in reviewing and, as appropriate, revising the student's IEP.

Recommendation for Declassification

If the student has been receiving special education services, but it is determined by CSE that the student no longer needs special education services and can be placed in a regular educational program on a full-time basis, the recommendation shall:

- a) Identify the declassification support services, if any, to be provided to the student; and/or the student's teachers; and
- b) Indicate the projected date of initiation of such services, the frequency of provision of such services, and the duration of these services, provided that such services shall not continue for more than one (1) year after the student enters the full-time regular education program.

Declassification Support Services

When appropriate, the District shall provide declassification support services to students who have moved from special education to a full-time regular educational program in accordance with the recommendation of the CSE.

Declassification support services means those services provided by persons appropriately certified pursuant to Part 80 of Commissioner's Regulations, or holding a valid teaching license in the appropriate area of service, to a student or the student's teacher to aid in the student's move from special education to full-time regular education, including:

- a) For the student, psychological services, social work services, speech and language improvement services, noncareer counseling, and other appropriate support services; and
- b) For the student's teacher, the assistance of a teacher aide or a teaching assistant, and consultation with appropriate personnel.

Procedural Safeguards Notice

The District shall use the procedural safeguards notice prescribed by the Commissioner of Education. The District will further ensure that the procedural safeguards notice is provided in the native language of the parent or other mode of communication used by the parent, unless it is clearly not feasible to do so. If the native language or other mode of communication of the parent is not a written language, the District shall take steps to ensure that the notice is translated orally or by other means to the parent in his/her native language or other mode of communication; that the parent understands the content of the notice; and that there is written evidence that all due process procedures, pursuant to law and/or regulation, have been met.

7618 USE OF TIME OUT ROOMS

"Time out" is a technique used to interrupt an unacceptable behavior by removing the student from the situation where the misbehavior is occurring. SED does not regulate the use of time outs, but does regulate the use of a separate room where a student may be removed for a time out.

Except as provided pursuant to 8 NYCRR Section 200.22(c) as referenced below, the School District shall not employ the use of time out rooms as a means of regulating student behavior.

Pursuant to Commissioner's Regulations, a time out room is defined "as an area for a student to safely deescalate, regain control and prepare to meet expectations to return to his/her education program." If a time out room is to be used, it must be used in conjunction with a behavioral intervention plan (that is designed to teach and reinforce alternative appropriate behaviors). The student is then removed to a supervised area in order to facilitate self-control. Time outs may also be used in unanticipated situations that pose an immediate concern for the physical safety of a student or others. Such unanticipated or emergency use requires proper documentation as outlined in Commissioner's Regulation Section 200.22(d)(4).

The Bolivar-Richburg Central School District does not normally use a "Time Out Room." If at such time, extreme circumstances warranted the establishment and implementation of a "Time Out Room" it must be noted on the student's Individual Education Plan (IEP) and faculty/staff will follow the district's "Time Out Room" policy. The District has adopted and implemented the following policy and procedures governing school use of time out rooms as part of its behavior management approach consistent with Commissioner's Regulations, including the physical and monitoring requirements, parental rights and individualized education program (IEP) requirements for students with disabilities.

At a minimum, the use of time out rooms shall be governed by the following rules and standards:

- a) The District prohibits placing a student in a locked room or space or in a room where the student cannot be continuously observed and supervised. The time out room shall be unlocked and the door must be able to be opened from the inside. The use of locked rooms or spaces for purposes of time out or emergency interventions is prohibited.

Staff shall continuously monitor the student in a time out room. The staff must be able to see and hear the student at all times.

Under no circumstances shall a time out room in a school program be used for seclusion of the student, where the term "seclusion" is interpreted to mean placing a student in a locked room or space or in a room where the student is not continuously observed and supervised.

- b) Factors which may precipitate the use of the time out room:

Student is acting in a physically violent manner which may cause physical harm to themselves or others within the classroom setting.

- c) Time limitations for the use of the time out room:

Further, a student's IEP shall specify when a behavioral intervention plan includes the use of a time out room for a student with a disability, including the maximum amount of time a student will need to be in a time out room as a behavioral consequence as determined on an individual basis in consideration of the student's age and individual needs.

School administration or other personnel shall be notified in the event a student is placed in a time out room for excessive amounts of time; and such information shall be considered when determining the effectiveness of the student's behavioral intervention plan and the use of the time out room for the student. Whether the student requires a debriefing following the use of a time out room shall be left to the staff knowledgeable about the individual student.

Student shall not exceed 30 minutes in the time out setting.

- d) Staff training on the policies and procedures related to the use of time out rooms shall include, but not be limited to, the following measures:

1. The Director of Special Education shall be responsible to the Superintendent for establishing administrative practices and procedures for training all District personnel responsible for carrying out the provisions of Commissioner's Regulations relating to the use of time out rooms, including members of the Committee on Special Education (CSE) and Committee on Preschool Special Education (CPSE).
2. Professional development will be provided to any faculty/staff who is currently working with the student to enhance their knowledge of de-escalation techniques and

procedures for following the district's policy on the use of "Time Out Rooms".

e) Data collection to monitor the effectiveness of the use of time out rooms:

District schools shall establish and implement procedures to document the use of time out rooms, including information to monitor the effectiveness of the use of the time out room to decrease specified behaviors. Such data would be subject to review by the State Education Department (SED) upon request.

Such data collection should appropriately include, but is not limited to, the following information:

1. A record for each student showing the date and time of each use of the time out room;
2. A detailed account of the antecedent conditions/specific behavior that led to the use of the time out room;
3. The amount of time that the student was in the time out room;
4. Information to monitor the effectiveness of the use of the time out room to decrease specified behaviors which resulted in the student being placed in the room; and
5. A register, located by the time out room, that must be signed by the adult responsible for the student while the student was in the time out room

f) Information to be provided to parents.

The School District shall inform the student's parents prior to the initiation of a behavioral intervention plan that will incorporate the use of a time out room for a student, and shall give the parent the opportunity to see the physical space that will be used as a time out room and provide the parent with a copy of the school's policy on the use of time out rooms.

Additionally, parents should be notified if their child was placed in a time out room. Minimally, *whenever a time out room is used as an emergency intervention* pursuant to Commissioner's Regulations Section 200.22(d), the parent shall be notified of the emergency intervention. Such notification will be provided the same day whenever possible.

The parent is a member of the Committee of Special Education (CSE) Committee and the use of a time out room must be included on the student's IEP. The parent receives prior notice as to the recommendations on a student's IEP and may request due process in the event the parent does not agree with the CSE recommendations.

Parent reports of alleged inappropriate interventions used in a time out room should be directed to school administrators.

Physical Space Used as a Time Out Room

In the event a student requires a time out room, the district will have a physical space that meets the following standards.

- a) The room shall provide a means for continuous visual and auditory monitoring of the student.
- b) The room shall be of adequate width, length and height to allow the student to move about and recline comfortably.
- c) Wall and floor coverings should be designed to prevent injury to the student, and there shall be adequate lighting and ventilation.

- d) The temperature of the room shall be within the normal comfort range and consistent with the rest of the building.
- e) The room shall be clean and free of objects and fixtures that could be potentially dangerous to a student and shall meet all local fire and safety codes.

Education Law §§ 207, 210, 305, 4401, 4402, 4403, and 4410

8 NYCRR §§ 19.5, 200.1, 200.4, 200.7, 200.22, and 201.2

7620 STUDENTS WITH DISABILITIES PARTICIPATING IN SCHOOL DISTRICT PROGRAMS

All students with disabilities residing in the District, including those of preschool age, shall be provided with full access and opportunity to participate in School District programs, including nonacademic and extracurricular programs and activities, that are available to all other students enrolled in the public schools of the District. Nonacademic and extracurricular programs and activities may include counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by the School District, referrals to agencies that provide assistance to individuals with disabilities and employment of students (both by the School District and assistance in making outside employment available).

Parents/guardians of students with disabilities, including those students placed in out-of-District programs, shall receive timely notice of such District programs and activities.

8 New York Code of Rules and Regulations (NYCRR) Sections 200.2(b)(1) and 200.2(b)(2)

7621 SECTION 504 OF THE REHABILITATION ACT OF 1973

The Board of Education affirms its compliance with those sections of the Rehabilitation Act of 1973 dealing with program accessibility.

Section 504 of the Rehabilitation Act prohibits discrimination against qualified individuals with disabilities in federally assisted programs or activities solely on the basis of disability. The District shall make its program and facilities accessible to all its students with disabilities.

The District shall also identify, evaluate and extend to every qualified student with a disability under Section 504 a free, appropriate public education, including modifications, accommodations, specialized instruction or related aids and services, as deemed necessary to meet their educational needs as adequately as the needs of non-disabled students are met.

The District official responsible for coordination of activities relating to compliance with Section 504 is the Superintendent of Schools. This official shall provide information, including complaint procedures, to any person who feels his/her rights under Section 504 have been violated by the District or its officials.

Section 504 of the Rehabilitation Act of 1973,

29 United States Code (U.S.C.) Section 794 et seq.

7631 APPOINTMENT AND TRAINING OF COMMITTEE ON SPECIAL EDUCATION (CSE)/SUBCOMMITTEE ON SPECIAL EDUCATION

Related Policies & Documents: Refer also to Policies #7613, #7632

Committee on Special Education (CSE) Membership

The Board of Education shall appoint a Committee on Special Education (CSE) whose membership shall include, but not be limited to, the following members:

- a) The parent(s) or persons in parental relationship of the student. To ensure that one or both parents are present at each CSE meeting, the District and the parent(s) may agree to use alternative means of participation such as videoconferences or conference phone calls.
- b) Not less than one (1) regular education teacher of such student (if the student is, or may be, participating in the regular education environment);
- c) Not less than one (1) special education teacher of the student, or, where appropriate, not less than one (1) special education provider (i.e., related service provider) of such student;
- d) A representative of the School District who is qualified to provide or administer or supervise special education and who is knowledgeable about the general education curriculum and about the availability of resources of the District;
- e) An individual who can interpret the instructional implications of evaluation results, who may be a CSE member selected from the regular education teacher, the special education teacher or provider, the school psychologist, or the School District representative described above, or a person having knowledge or special expertise regarding the student as determined by the District;
- f) A member as described in letters b) through e) of this subheading is not required to attend the CSE meeting, in whole or in part, if the parent of a child with a disability and the school district agree, in writing, that the attendance of the member is not necessary because the

member's area of the curriculum or related services is not being modified or discussed in the meeting.

- g) At the discretion of the parent or the District, other individuals who have knowledge or special expertise regarding the student, including related services personnel as appropriate. The determination of knowledge or special expertise shall be made by the party (parents or School District) who invited the individual to be a member of the committee;
- h) Whenever appropriate, the student with a disability. The district must invite a child with a disability to attend the child's CSE meeting if a purpose of the meeting will be the consideration of the postsecondary goals for the child and the transition services needed to assist the child in reaching those goals. If the child does not attend the CSE meeting, the district must take other steps to ensure that the child's preference and interests are considered. To the extent appropriate, with the consent of the parent or a child who has reached the age of majority, the district must also invite a representative of any participating agency that is likely to be responsible for providing or paying for transition services;
- i) A school psychologist;
- j) A school physician, if requested in writing at least seventy-two (72) hours prior to the meeting by the parents of the student or the School District; and
- k) An additional parent residing in the District or a neighboring school district who is a parent of a student with a disability, a parent of a student who has been declassified and is no longer eligible for an individualized education program (IEP), or a parent of a disabled child who has graduated. This parent member may serve for a period of five years beyond the student's declassification or graduation, provided that the parent shall not be employed by or under contract with the School District. Such parent is not a required member if the parents of the student request, in writing, that the additional parent member not participate in the meeting.

Subcommittee on Special Education Membership

The Board of Education shall appoint, as necessary, a Subcommittee on Special Education whose membership shall include, but not be limited to, the following members:

- a) The parent(s) of the student;
- b) Not less than one (1) regular education teacher of such student (if the student is, or may be, participating in the regular education environment);
- c) Not less than one (1) special education teacher, of the student, or where appropriate, not less than one (1) special education provider (i.e., related service provider) of such student;
- d) A representative of the School District who is qualified to provide or administer or supervise special education and who is knowledgeable about the general education curriculum and about the availability of resources of the District;

- e) A school psychologist, whenever a new psychological evaluation is reviewed or a change to a program option with a more intensive staff/student ratio, as set forth in Section 200.6(f)(4) of the Regulations of the Commissioner, is considered;
- f) At the discretion of the parent or the Committee, other individuals who have knowledge or special expertise regarding the student, including related services personnel as appropriate. The determination of knowledge or special expertise shall be made by the party (parents or School District) who invited the individual to be a member of the subcommittee;
- g) An individual who can interpret the instructional implications of evaluation results, who may be a member described in letters "b" through "f" of this subheading; and
- h) Whenever appropriate, the student with a disability.

Training

The training of qualified personnel is essential to the effective implementation of the Regulations of the Commissioner of Education regarding the education of all students with disabilities.

The Director of Special Education shall be responsible to the Superintendent for establishing administrative practices and procedures for training all District personnel responsible for carrying out the provisions of Part 200 of the Commissioner's Regulations as well as members of the Committee on Special Education.

Alternative Means of Meeting

When conducting a meeting of the Committee on Special Education (CSE), the parent and the representative of the District appointed to the CSE may agree to use alternative means of meeting participation, such as videoconferences and conference calls.

Individuals with Disabilities Education Act (IDEA) 20 United States Code (USC) Section 1400 et seq.

34 Code of Federal Regulations (CFR) Part 300 and Section 300.321

7632 APPOINTMENT AND TRAINING OF COMMITTEE ON PRESCHOOL SPECIAL EDUCATION (CPSE) MEMBERS

Related Policies & Documents: Refer also to Policies #7613, #7614, \$7631

Committee on Preschool Special Education (CPSE) Membership

The Board of Education shall appoint a Committee on Preschool Special Education (CPSE) whose membership shall include, but not be limited to, the following members:

- a) The parent(s) of the preschool child. To ensure that one or both parents are present at each CPSE meeting, the District and the parent(s) may agree to use alternative means of participation such as video conferences or conference phone calls;
- b) Not less than one (1) regular education teacher of such child (if the child is, or may be, participating in the regular education environment);
- c) Not less than one (1) special education teacher of the child or, where appropriate, not less than one (1) special education provider (i.e., related service provider) of such child;
- d) A representative of the School District who is qualified to provide, or supervise the provision of, special education and who is knowledgeable about the general education curriculum and about the availability of preschool special education programs and services and other resources of the District and the municipality (who shall serve as Chairperson of the CPSE);
- e) An individual who can interpret the instructional implications of evaluation results, who may be a member of the team selected from the regular education teacher, the special education teacher or provider, the school psychologist, the School District representative described above, or a person having knowledge or special expertise regarding the student as determined by the District;
- f) At the discretion of the parent or the District, other individuals who have knowledge or special expertise regarding the child, including related services personnel as appropriate. The determination of knowledge or special expertise shall be made by the party (parents or School District) who invited the individual to be a member of the committee;
- g) An additional parent of a child with a disability who resides in the School District or a neighboring school district, and whose child is enrolled in a preschool or elementary level education program provided that such parent shall not be employed by or under contract with the School District or municipality; and provided further that such parent shall not be a required member if the parents of the child request, in writing, that the additional parent member not participate in the meeting;
- h) For a child's transition from early intervention programs and services (Infant and Toddler Programs), the appropriate professional designated by the agency that has been charged with the responsibility for the preschool child. This professional must attend all meetings of the CPSE conducted prior to the child's initial receipt of services; and
- i) A representative from the municipality of the preschool child's residence. Attendance of the appointee of the municipality is not required for a quorum.

Training

The training of qualified personnel is essential to the effective implementation of the Regulations of the Commissioner of Education regarding the education of all students with disabilities.

The Director of Special Education shall be responsible to the Superintendent for establishing administrative practices and procedures for training all District personnel responsible for carrying out the provisions of Part 200 of the Commissioner's Regulations as well as members of the Committee on Preschool Special Education.

Alternative Means of Meeting

When conducting a meeting of the Committee on Special Education (CSE), the parent and the representative of the District appointed to the CSE may agree to use alternative means of meeting participation, such as videoconferences and conference calls.

7640 STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP): DEVELOPMENT AND PROVISION

Related Policies & Documents: Refer also to Policies #7618, #7619

Development of Individualized Education Program

The Board of Education directs that the Committee on Special Education (CSE) or Committee on Preschool Special Education (CPSE) shall have prepared a written statement (program) for each child with a disability.

Such an Individualized Education Program (IEP) will be developed by the CSE or CPSE upon referral, and reviewed or revised, whichever is appropriate, for every child with a disability at least annually or in the event that the program no longer appears to be appropriate to meet the student's needs and ability level.

The District shall ensure that each student with a disability has an IEP in effect at the beginning of each school year.

Functional Behavioral Assessments/Behavior Intervention Plans

A functional behavioral assessment (FBA) is an integral part of the evaluation and reevaluation of a student with a disability which should be used throughout the process of developing, reviewing and revising a student's IEP when the student's behavior impedes learning of the child or others. The FBA is the process of determining why a student engages in challenging behavior and how the student's behavior relates to the environment.

The FBA provides a baseline of the student's problem behaviors with regard to frequency, duration, intensity and/or latency across activities, settings, people and times of the day and includes:

- a) The identification of the problem behavior,
- b) The definition of the behavior in concrete terms,
- c) The identification of the contextual factors that contribute to the behavior (including cognitive and affective factors), and
- d) The formulation of a hypothesis regarding the general conditions under which a behavior usually occurs and probable consequences that serve to maintain it.

The CSE/CPSE will ensure that functional behavioral assessments, when appropriate, are conducted and reviewed to:

- a) Identify supplementary aids and services, modifications and/or related services appropriate to address the identified behaviors to promote the student's involvement and progress in the general curriculum;
- b) Determine a student's eligibility for special education services;
- c) Develop the IEP which includes behavioral goals and objectives and positive behavioral supports and strategies.

In the case of a student whose behavior impedes his or her learning or that of others, the CSE/CPSE shall consider strategies, including positive behavioral interventions and supports and other strategies to address that behavior. The need for a behavioral intervention plan (BIP) shall be documented on the IEP and such plan shall be reviewed at least annually by the CSE/CPSE. In addition, regular progress monitoring of the frequency, duration and intensity of the behavioral interventions shall be conducted at scheduled intervals, documented and reported to the parents and CSE/CPSE.

A behavioral intervention plan may not include the use of aversive interventions except as provided in Policy #7618 -- Use of Aversive Interventions. Any use of time out rooms will be in accordance with Policy #7619 -- Use of Time Out Rooms.

Individual Evaluations

Unless a referral is withdrawn, an individual evaluation at no cost to the parent will be completed by the CSE/CPSE within sixty (60) calendar days of receiving written parental consent, unless:

- a) A student enrolls in the District after sixty (60) days and prior to a determination by the student's previous school district as to whether the student has a disability, but only if the new school district is making sufficient progress to ensure a prompt completion of the evaluation and the parent and the new district agree to a specific timeframe for completion;
or
- b) The parent or student repeatedly fails or refuses to produce the student for evaluation.

No student shall be required to obtain a prescription for a drug or other substance identified as a controlled substance by the federal Controlled Substances Act as a condition of receiving an evaluation.

The individual evaluation will include a variety of assessment tools and strategies, including information provided by the parent. The purpose of the evaluation is to gather relevant functional, developmental and academic information that may assist in determining whether the student is a student with a disability and the content of the student's IEP. This shall include information relating to enabling the student to participate and progress in the general education curriculum (or for a preschool child, to participate in appropriate activities.)

As part of any evaluation, a group that includes the CSE/CPSE and other qualified professionals, as appropriate, shall review existing evaluation data on the student including evaluations and information provided by the parents of the student, current classroom-based assessments, local or state assessments, classroom-based observations, and observations by teachers and related services providers.

On the basis of that review, and input from the student's parents, the group shall identify what additional data, if any, are needed to determine:

- a) Whether the student has or continues to have a disability;
- b) The present levels of academic achievement and related developmental needs of the student, including:
 - 1. Academic achievement, functional performance, and learning characteristics;
 - 2. Social development;
 - 3. Physical development; and
 - 4. Management needs.
- c) In the case of a reevaluation of a student, whether the student continues to need special education; and
- d) Whether any additions or modifications to the special education services are needed to enable the student to meet the measurable annual goals set out in the IEP of the student and to participate, as appropriate, in the general education curriculum.

If additional data are not needed, the District must notify the parents of that determination and the reasons for it and of the right of the parents to request an assessment to determine whether, for purposes of services provided in accordance with law and Commissioner's Regulations, the student continues to be a student with a disability and to determine the student's educational needs. The District is not required to conduct the assessment unless requested to do so by the student's parents.

Individual Re-evaluations

A CSE/CPSE shall arrange for an appropriate re-evaluation of each student with a disability:

- a) If the District determines that the educational or related services needs, including improved academic achievement and functional performance of the student warrant re-evaluation;
- b) If the student's parent or teacher request a re-evaluation;
- c) At least once every three (3) years.

A re-evaluation shall not be conducted more frequently than once a year unless the parent and the District representative appointed to the CSE/CPSE agree otherwise.

The re-evaluation will be conducted by a multi-disciplinary team or group of persons, including at least one teacher or other specialist with knowledge in the area of the student's disability. The re-evaluation shall be sufficient to determine the student's individual needs, educational progress and achievement, the student's ability to participate in instructional programs in regular education and the student's continuing eligibility for special education. The results of any re-evaluations must be addressed by the CSE/CPSE in reviewing, and as appropriate, revising the student's IEP.

To the extent possible, the District shall encourage the consolidation of re-evaluation meetings for the student and other CSE/CPSE meetings for the student.

Amendments to the IEP

Amendments to the IEP made after the annual review by the CSE may be made by rewriting the IEP or by developing a written document to amend or modify the student's current IEP, provided that:

- a) The parent receives a prior written notice of any changes to the IEP; and
- b) The parent receives any documents that amend the IEP, or upon request, a revised copy of the entire IEP with the amendments incorporated.

Use of Recording Equipment at IEP Meetings

The Board of Education shall allow recording equipment to be used at meetings regarding individualized education programs for students with disabilities.

Provision of Individualized Education Program

The Board of Education directs that the Superintendent/designee(s) establish administrative practices and procedures to ensure that each regular education teacher, special education teacher, related service provider and/or other service provider who is responsible for the implementation of a student's IEP is *provided a paper or electronic copy of such student's IEP (including amendments to the IEP) prior to the implementation of such program*. For purposes of this policy, "other service provider" means a representative of another public school district, charter school, Board of

Cooperative Educational Services (BOCES) or school enumerated in Education Law Articles 81, 85 or 89 where the student receives or will receive IEP services. Further, the District will designate at least one school official who shall be responsible for maintaining a record of the personnel who have received IEP copies for each student.

Any *copy of a student's IEP shall remain confidential* in compliance with the Individuals with Disabilities Education Act, the Family Educational Rights and Privacy Act, and District policy regarding confidentiality of student records; and shall not be disclosed to any other person other than the parent of such student, except in accordance with federal and state laws and/or regulations. Appropriate training and information will be provided to designated school personnel, as applicable, to ensure the confidentiality of such information. Procedures will be established to ensure that copies of students' IEPs are stored in secure locations and retrieved or destroyed when such professionals are no longer responsible for implementing a student's IEP.

The Chairperson of the CSE, CSE subcommittee, or CPSE *shall designate* for each student one or, as appropriate, more than one professional employee of the School District with knowledge of the student's disability and education program *who will be responsible to, prior to the implementation of the IEP, inform* each regular education teacher, special education teacher, related service provider, other service provider, supplementary school personnel (i.e., a teaching assistant or a teacher aide as defined in Commissioner's Regulations), and other provider and support staff person of his/her responsibility to implement the recommendations on a student's IEP, including the responsibility to provide specific accommodations, program modifications, supports and/or services for the student in accordance with the IEP. In selecting the professional staff person(s), the Chairperson could select him/herself for this responsibility, another administrator, or a teacher, related service provider or other professional based on the particular circumstances of the student's disability and education program.

The School District shall also ensure that each teaching assistant, teacher aide and each other provider responsible for assisting in the implementation of a student's IEP has *the opportunity to review* a copy of the student's IEP (including amendments) prior to the implementation of such program. Further, each teaching assistant, teacher aide and such other provider responsible for assisting in the implementation of a student's IEP shall have *ongoing access* to a copy of the IEP, which may be the copy provided to the student's special education teacher or the teacher or related service provider under whose direction the supplementary school personnel or other provider works. However, the District may, at its discretion, provide a copy of the IEP to teaching assistants and/or teacher aides.

A copy of a student's IEP shall be provided to the student's parents at no cost to the student's parents.

200.4(d)(3)(i), 200.4(e)(3), 200.4(f), 200.16(e)(6) and 200.22

7641 TRANSITION SERVICES

The Board of Education will provide transition services for students with disabilities who are fifteen (15) and older (and at a younger age if determined appropriate). Additionally, beginning at age fourteen (14), and updated annually, the student's Individualized Education Program (IEP) must include a statement of transition service needs under the applicable components of the student's IEP that focuses on the student's courses of study. As defined by the Commissioner's Regulations, transition services means a coordinated set of activities for a student with a disability, designed within an outcome-oriented process, that promotes movement from a school to post-school activities. Post-school activities include, but are not limited to, post-secondary education, vocational training, integrated competitive employment (including supported employment), continuing and adult education, adult services, independent living, or community participation. The coordinated set of activities must be based on the individual student's needs, taking into account the student's preferences and interests and shall include needed activities in the following areas:

- a) Instruction;
- b) Related services;
- c) Community experiences;
- d) The development of employment and other post-school adult living objectives; and
- e) If appropriate, acquisition of daily living skills and functional vocational evaluation.

200.4(c)(4), 200.4(d)(3), and 200.5(a)(1)(xii)

7642 TWELVE MONTH SPECIAL SERVICES AND/OR PROGRAMS

The School District shall provide, directly or by contract, special services and/or programs during July and August to those students whose disabilities are severe enough to exhibit the need for a structured learning environment of twelve (12) months duration in order to prevent substantial

regression as determined by the Committee on Special Education or Committee on Preschool Special Education.

(NYCRR) Sections 200.1(qq), 200.6(j) and

200.16(h)(3)(v)

7650 IDENTIFICATION AND REGISTER OF CHILDREN WITH DISABILITIES (CHILD FIND)

Related Policies & Documents: Refer also to Policy #7140

The School District of residence is required to locate and identify all students with disabilities who reside in the District with the exception of students with disabilities who are parentally placed in nonpublic schools outside the district of residence, including students who do not attend public school. Therefore, it is the policy of the Board of Education to conduct a census in order to have all children with disabilities within its jurisdiction under the age of twenty-one (21) identified, located and evaluated, including children of preschool age, homeless children, children who are wards of the State as defined in Commissioner's Regulations and children in all public and private agencies and institutions.

Procedures must be established to locate, identify and evaluate all nonpublic elementary and secondary school students with disabilities, including religious-school children, to ensure the equitable participation of parentally placed private school students with disabilities and an accurate count of such students. The District will consult with representatives of private schools and representatives of parents of parentally placed private school students on the child find process. Any student suspected of having a disability is to be referred to the applicable Committee on Special Education (CSE) for evaluation and possible identification as a student with disability.

Census data shall be reported by October 1 to the Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) as appropriate. The CSE/CPSE will maintain and revise annually a register and related summary reports containing the data requirements indicated in Commissioner's Regulations including the number of students enrolled in private schools by their parents who are evaluated to determine if they are students with disabilities, the number of such students who are determined to have a disability and the number who received special education services.

Nonpublic School Students with Disabilities Who are Parentally Placed

If the School District boundaries encompass a nonpublic school, the District, as the district of location, must develop and implement methods to identify, locate and ensure the identification and evaluation of students with disabilities who have been, or are going to be, parentally placed in such nonpublic school.

The child find activities must be similar to activities for students with disabilities in the public schools and must be completed in a time period comparable to that for other students attending public schools in the School District.

As the public school district of location, the District must consult with the nonpublic schools where students are parentally placed to determine an accurate count of students with disabilities attending such schools and receiving special education services.

The new requirements do not pertain to parental placements of preschool children with disabilities in private day care or preschool programs or to CSE placements of students with disabilities in approved private schools, Special Act School Districts, and State-supported or State-operated schools, nor does it apply to Charter schools. These requirements only pertain to students with disabilities parentally placed in elementary and secondary nonpublic schools.

7660 PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES

The Board of Education recognizes the rights of the parent/guardian to be fully informed of all information relevant to the identification, or change in identification, evaluation and educational placement of a child with a disability.

All due process procedures for parents/guardians and children in the Commissioner's Regulations shall be observed by the School District.

Definition of Parent

Parent means a birth or adoptive parent, a guardian, a person in parental relationship to the child as defined in Education Law Section 3212, an individual designated as a person in parental relation pursuant to General Obligations Law Title 15-A including an individual so designated who is acting in the place of a birth or adoptive parent (including a grandparent, stepparent or other relative with whom the child resides), or a surrogate parent who has been appointed in accordance with Section 200.5(n) of Commissioner's Regulations. The term does not include the State if the student is a ward of the State.

A foster parent may act as a parent unless State law, regulations or contractual obligations with a State or local entity prohibit the foster parent from acting as a parent.

Unless a judicial decree identifies a specific person(s) to act as the parent or make educational decisions for the student, if one or more parties is qualified to act as a parent, the birth or adoptive

parent is presumed to be the parent unless they do not have the legal authority to do so.

Surrogate Parents

It is the duty of the School District to determine whether a child needs a surrogate parent and to assign a surrogate parent in the manner permitted under New York State law. This determination shall be completed within a reasonable time following the receipt of a referral for an initial evaluation or re-evaluation.

In the event that no parent or guardian for a child with a disability can be identified; or after reasonable efforts the whereabouts of the parent or guardian cannot be determined; or the student is an unaccompanied homeless youth; or the child with a disability is a ward of the State and does not have a "parent" as defined above; or the rights of the parent to make educational decisions have been subrogated by a judge in accordance with State law; the Board shall assign an individual to act as a surrogate for the parents or guardians.

Alternatively, the surrogate parent may be appointed by a judge overseeing the child's case.

The person selected as a surrogate shall have no interest that conflicts with the interest of the child he/she represents, and shall have knowledge and skills that ensure adequate representation of the child.

Prior Written Notice

Prior written notice must be given to parents of a student with a disability a reasonable time before the District proposes to, or refuses to, initiate or change the identification, evaluation, educational placement of the student or the provision of a free appropriate public education to the student. Prior written notice must also be provided informing the parents when no additional data is required to determine the student's educational needs, the reasons for this determination and their right to request an assessment.

If the prior written notice relates to a proposed action that also requires parental consent, the District must give notice at the same time it requests parental consent. The prior written notice will contain all elements required by Commissioner's Regulations.

A parent may elect to receive prior written notice and other required notifications by electronic mail (e-mail) communication if the District makes this option available.

Parent Participation in Meetings

The School District must take steps to ensure that one or both of the parents of a child with a disability are present at each Committee on Special Education (CSE)/Committee on Preschool Special Education (CSPE) meeting or are afforded the opportunity to participate in a mutually agreed upon time and place. The School District must document its attempts to involve parents, such as:

- a) Detailed records of telephone calls made or attempted and the results of these calls;
- b) Copies of correspondence sent to the parents and any responses received; and

- c) Detailed records of visits made to the parent's home or place of employment and the results of those visits.

A meeting may be conducted without a parent in attendance if the School District is unable to convince the parents that they should attend.

Additionally, the School District must take whatever action is necessary to ensure the parent understands the proceedings of this meeting including arranging for an interpreter for parents with deafness or whose native language is other than English.

Parental Consent

In accordance with due process, a parent or guardian of a special education student or a student suspected of having a disability must provide informed consent before the School District can take certain actions.

Consent for Evaluations

The parent or guardian must provide informed consent to the initial evaluation, or reevaluations in accordance with law and/or regulations. If a parent does not provide consent for an initial evaluation, the School District *may* pursue the evaluation by commencing a due process hearing to override the refusal to provide consent.

Parental consent for a reevaluation is not needed if the District can demonstrate that it has taken reasonable measures to obtain consent, but the parents or guardians have failed to respond.

Consent for the Initial Provision of Services

Parental consent is also required for the initial provision of special education services. Consent for an initial evaluation does not constitute consent for the initial provision of services. If a parent does not provide consent for the initial provision of services, the School District *shall not* provide the special education program and services to the student and shall not use the due process procedures to challenge the parent's refusal to consent. The School District shall not be considered to be in violation of the requirements to provide a free appropriate public education (FAPE), shall not be required to convene a meeting of the committee on special education or develop an individualized education program (IEP).

Consent for Other Actions

Prior written consent must also be provided:

- a) Prior to releasing any personally identifiable information; and
- b) Prior to each time the District proposes to access a parent's private insurance.

Consent for an Unaccompanied Homeless Youth

Consent may be provided by a surrogate parent. However, until a surrogate parent is appointed, consent may be provided on a temporary basis by an employee of a temporary housing facility operated or approved by a local social services district or a residential facility for runaway and homeless youth.

Consent for a Ward of the State

A ward of the State means a child or youth under the age of twenty-one (21):

- a) Who has been placed or remanded pursuant to Social Services Law or the Family Court Act or freed for adoption pursuant to Social Services Law; or
- b) Who is in the custody of the Commissioner of Social Services or the Office of Children and Family Services; or
- c) Who is a destitute child under Social Services Law.

In the event that a child is a ward of the State, the School District shall make reasonable efforts to obtain the informed consent from the parent of the child for an initial evaluation to determine whether the child is a child with a disability.

The School District is not required to obtain informed consent if:

- a) Despite reasonable efforts to do so, the School District cannot discover the whereabouts of the parent of the student, including consulting with the agency responsible for the care of the student; or
- b) The rights of the parents of the student have been terminated in accordance with State law; or
- c) The rights of the parent to make educational decisions have been subrogated by a judge in accordance with State law.

Procedural Safeguards Notice

The School District will provide the procedural safeguards notice prescribed by the Commissioner of Education to the parents of a student with a disability at least one time per year and also:

- a) Upon initial referral or parental request for evaluation;
- b) Upon the first filing of a due process complaint notice to request mediation or an impartial hearing; and
- c) Upon request by a parent.

7670 IMPARTIAL HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS

The School District is committed to making every effort to amicably resolve differences involving the educational programs for students with disabilities. When outside assistance is needed to aid in resolving a disagreement about the identification, evaluation, educational placement or provision of a free appropriate education for a student with a disability, mediation is encouraged. For those exceptional circumstances where a more formal method is required, the impartial hearing process will be utilized. The impartial hearing officer (IHO) renders a written decision after the parties present and refute evidence before him/her. The decision of the IHO is final and binding on both parties unless appealed to the State Review Officer (SRO).

Impartial Hearing Process

The following is an overview of the Impartial Hearing process:

- a) Either the parent or the School District may request an impartial hearing. If a parent makes the request it must be in writing to the Board of Education describing the nature of the dispute and a proposed resolution of the problem. The District will provide a form for this purpose. However, the District may not deny or delay a parent's right to an impartial hearing if the written request is not complete.

If the District is the party initiating an impartial hearing, the District will provide prior written notice to the parent including a statement of the action proposed and any explanation of why the District proposes to take such action.

- b) Upon receipt of or initiation of a request for an impartial hearing, the District will inform the parent of the availability of mediation, of any free or low-cost legal and other relevant services available in the area, and provide them with a copy of the District's Procedural Safeguards Notice.
- c) The District must immediately [but not later than two (2) business days after receipt of the written request] initiate the process to select an IHO. The District selects the IHO through a rotational selection process in accordance with regulatory timelines. The Superintendent's Secretary/District Clerk will be responsible for contacting IHOs and maintaining appropriate records.
- d) The IHO must be certified by the Commissioner of Education, be independent and have access to the support and equipment necessary to perform the duties of an IHO. When the selected IHO indicates availability, the Board of Education must immediately appoint

him/her. To expedite this process the Board may designate one (1) or more of its members to appoint the IHO on behalf of the Board.

- e) The impartial hearing will be conducted at a location that is reasonable and convenient to the parent and the student involved. The hearing shall be closed to the public unless the parent requests an open hearing.
- f) The IHO presides over the hearing at which the parties have an opportunity to present evidence and testimony.
- g) The student remains in his/her current placement during the pendency of the impartial hearing unless both parties agree and except as otherwise provided for expedited impartial hearings for certain disciplinary suspensions or removals of a student.
- h) The IHO renders and forwards the finding of fact and decision to the parties and to the State Education Department in accordance with regulatory timelines.
- i) The decision of the IHO is final and binding on both parties unless appealed to the State Review Officer (SRO).

Recordkeeping And Reporting

The District will maintain an alphabetical list of the names of each IHO who is certified in New York State and available to serve in the District. The District will record and report to the State Education Department required information relating to the selection of IHOs and the conduct of impartial hearings according to the manner and schedule specified by the department. The Superintendent shall designate a staff member(s) that will be responsible for reporting such information as required relating to the impartial hearing process into the State Education Department's well-based reporting system.

Compensation Of Impartial Hearing Officers

The District will be responsible for compensating the IHO for pre-hearing, hearing and post-hearing activities at the rate agreed upon at the time of the IHO's appointment. The rate of compensation may not exceed the maximum rate approved by the Director of the Division of the Budget. The District will also reimburse the IHO for travel and other hearing-related expenses (e.g., duplication and telephone costs) pursuant to an annually determined schedule. On an annual basis, the District will forward a copy of its compensation rates to each IHO on the District's rotational list.

Mediation

Mediation is voluntary and does not deny or delay a parent's right to an impartial hearing. If mediation is initiated after a request for an impartial hearing has been received, the impartial hearing must continue unless the request for the impartial hearing is withdrawn. However, a party may request an extension to an impartial hearing in order to pursue mediation.

Guardians ad Litem at Impartial Hearings

Unless a surrogate parent has been previously appointed, the IHO must appoint a guardian ad litem when he/she determines that the interests of the parent(s) are opposed to or inconsistent with those of the student or whenever the interests of the student would be best protected by such appointment.

Confidentiality

All issues relating to a request for and conduct of an Impartial Hearing must be kept confidential by all District staff.

Administrative Procedures

Administrative procedures will be developed for the selection and appointment of an IHO consistent with regulatory requirements.

Education Law Sections 4404(1) and 4410(7)

8 New York Code of Rules and Regulations

(NYCRR) Sections 200.1, 200.2, 200.5, 200.16,

200.21 and 201.11

7680 INDEPENDENT EDUCATIONAL EVALUATIONS

Parents of children with disabilities have the right under Federal and State regulations to obtain an independent evaluation at public expense under certain conditions. Regulatory standards are outlined in New York State Regulations of the Commissioner of Education Part 200.5(a)(1)(vi). Additionally, the Federal Regulations (34 Code of Federal Regulations [C.F.R.] 300.503) specify requirements for an independent evaluation.

Administrative regulations on independent evaluations will be developed in order to explain the rights of parents and the responsibilities of school districts with regard to independent evaluations, and also to avoid any misunderstandings.

8 New York Code of Rules and Regulations

(NYCRR) Sections 200.1(z) and 200.5(g)

34 Code of Federal Regulations (C.F.R.)

Sections 300.12 and 300.503

7690 SPECIAL EDUCATION MEDIATION

The District will offer mediation as an alternative to the impartial hearing process in disputes regarding the provision of a free, appropriate public education for students identified by the Committee on Special Education (CSE) or Committee on Preschool Special Education (CPSE) as having a disability, or students suspected of having a disability. Such mediation shall be conducted by mediators furnished by a Community Dispute Resolution Center who are not employees of a school district or program serving students with disabilities. Mediators may not have a personal or professional interest which would conflict with their objectivity in the mediation process.

Parents or persons in parental relationship to students suspected of or having disabilities will receive written notice of the availability of the mediation program each time they receive notice of their entitlement to the impartial hearing procedures in accordance with Federal and State law and regulations.

Mediation will not operate to diminish or limit any rights provided for in law, including the right of the parent or person in parental relationship to request an impartial hearing subsequent to mediation. Parents or persons in parental relationship to students suspected of or having disabilities continue to have full access to all rights, including due process procedures, provided for in federal and state laws and regulations. Similarly, mediation shall not be construed to limit a parent or person in parental relationship from requesting an impartial hearing without having first utilized mediation procedures set forth in Education Law.
