2019-2020

**Are you familiar with Personalized Learning Plans?**

No
3

Yes
9
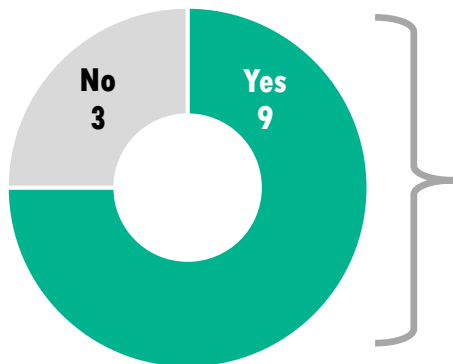

**Considering the full school year (in session and remote learning), how would you define a Personalized Learning Plan today?**

Plan tailored to student's specific interests and needs.

Individualized plan to meet the unique needs of the learner.

Fluid document that allows at risk students and their teachers to create and monitor short- and long-term goals.

Organized plan to achieving set goals. Steps for achieving goals are outlined.

Document very similar to an IEP with more day to day goals in mind.

**Themes from qualitative responses are summarized below. Complete survey comments are included at the end of this report.**

**What are the TOP five technology areas in which teachers would like to receive more training or support?**

Teams (7)

Office 365 (4)

Smart Boards (4)

Remote learning groups and interaction (3)

Assistive technology

Privacy

Elmo

Google Classroom

Zoom

Quizlet

OneDrive

Castle Learning

Using iPads

**What would teachers find helpful or necessary for planning to implement individualized instruction next year?**

Online resources for developing specific skills.

Epic subscriptions for students to use at home and in school.

Additional professional development on using tech tools and programs.

Technology assistance and resources.

Time to collaborate with colleagues.

Offer more training to students and families about online instruction.

**How do teachers feel the Learning Technology Grant can be the most helpful to them next year?**

Provide more interactive technology for students.

Access to online resources.

Select easier to use programs and platforms, such as Google Classroom.

More training for students and faculty.

Update current technology.

**What else did the teachers have to say?**

Teacher laptops need to be upgraded.

Students need access to cameras on their devices.

Students had difficulty navigating Teams.
