To set up a web link in a Teams Tab

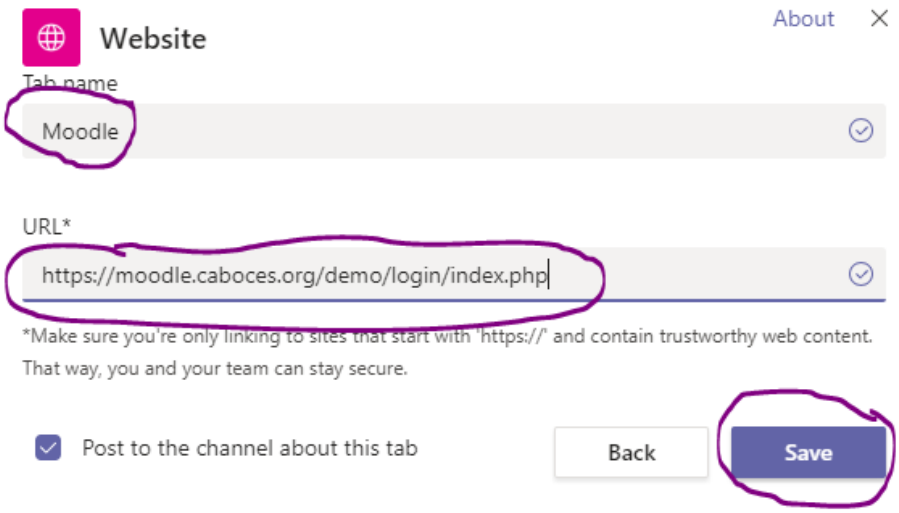

1. Click the + sign at the top of your team

2. Click on Website

3. Complete the form adding the name of the site and the URL or Web Address for the site. Then click save.

4. You will now have a tab at the top of the page that has you web page in it. If you are using the desktop app for teams, the web page will show. If students are using the desktop app for teams, the page will come up. If students are using the web version of teams, they will need to click on the words click here, if the site isn't loading correctly.
