Good morning everyone,

By now I am sure you have all read the email about the **walkout** a student is trying to organize. Hopefully administration is following policy on the consequences of leaving school during classes. I have been told by multiple people that there are teachers encouraging this behavior, telling students to make BLM and LGBTQ signs and helping the students organize this disruptive behavior. I think if this happens, hopefully administration keeps track of the teachers encouraging and participating. I would like to have a non-public Tuesday to talk about these actions, the policies that we have when dealing with this type of behavior, the protocols and consequences for encouraging students to disrupt the education of so many others. I am going to try to be at the school **today** for 1:15 so I can write down the names of the teachers "walking out" with students.

This **walkout** is an absolute disgrace and does not represent the values, morals or behavior that we expect from our students, parents, administration and especially our teachers.

Thank you,

Dan LeClair

I was also made aware that almost 20 teachers have called out **today**. Are these issues at all related?
