## ADULT RECREATION & ENRICHMENT

### SCUBA DIVING PADI OPEN WATER DIVER (AGES 12+)

During the PADI Open Water Diver course, you'll learn what you need to know to explore the underwater world using scuba.

The PADI Open Water Diver course includes three parts: Knowledge Development, Confined Water Dives, and Open Water Dives. Knowledge Development covers the principles, concepts and terms you need to know for dive safety and enjoyment. During the Confined Water Dives, you learn and practice scuba skills under controlled lake conditions. You'll enjoy making one or more mini-dives, which take you through the same steps you follow when you make open water dives. To complete training you practice, apply and demonstrate what you learn during your Open Water Dives at a local dive site.

Earning a PADI Open Water Diver certification shows that you've met the course requirements. Dive centers and resorts require proof of certification before they will rent scuba equipment, fill scuba cylinders or book dive excursions. As a PADI Open Water Diver, you'll be trained to a maximum depth of 18 meters/60 feet, and are qualified to dive in conditions as good as, or better than, those in which you trained. It's just the beginning of a lifetime filled with dive adventures.

- 1st class will be held at the Shelby Township Activities Center (14275 Rick Dr., Shelby Twp.). Dives will be conducted at Stony Lake Township Park (1397 Lapeer Rd., Oxford). Fee includes all rental equipment and air fills for each class related dive.

### SCUBA DIVING ENRICHED AIR/NITROX DIVER (AGES 15+)

Enriched Air, also known as "NITROX", is a form of breathing gas that allows divers to extend bottom time and reduce nitrogen loading. It is PADI's most popular specialty course. This certification counts toward the PADI Master Scuba Diver rating. You'll learn why diving with air that has higher oxygen and lower nitrogen content gives you more bottom time, along with enriched air equipment considerations. During our virtual classroom session you will: Discuss managing oxygen exposure; Discuss analyzing oxygen content in your scuba tank; Set your dive computer for diving with enriched air/nitrox.

Classes are done via ZOOM. Upon student registration, each participant will receive e-Learning material for review. Classroom and exam will be conducted via Zoom. The ZOOM link will be emailed by the instructor. • Instructor: Mario Lepore • 1 Session(s) — \$199

Although you've been scuba diving at a site many times before, at night you drop into a whole new world and watch it come to life under the glow of your dive light. The scene changes as day creatures retire and nocturnal organisms emerge. If you've wondered what happens underwater after the sun goes down, sign up for the PADI Night Diver Specialty course. • Instructor: Mario Lepore • 1 Session(s) — \$199
