

Power School is District 11's student information system. PowerSchool allows you to view your students grades and attendance. Parents can make their own PowerSchool account and link their student(s) by entering a unique code. All parents should have access to their students in PowerSchool to monitor their learning progress.

Schoology is the digital classroom. Students will view and turn in assignments on Schoology. Parents can also create a Schoology account and link their student(s) with a unique code. Parent Schoology access is not as essential as PowerSchool but allows parents to see the day to day of what is going on in the digital classroom. This can be especially helpful if your student is struggling and you want to see the day to day of what they are supposed to be completing and turning in.

If you need parent access to PowerSchool or Schoology, please call, email, or stop by the attendance office to get your student(s) unique codes.
