### Psychotropic Drug Use

In conformity with state statute, the Board of Education prohibits all school personnel from recommending the use of psychotropic drugs for any student enrolled within the school system. For purposes of this policy, the term “recommend” shall mean to directly or indirectly suggest that a child use psychotropic drugs.

Psychotropic drugs are defined as prescription medications for behavioral or social-emotional concerns, such as attention deficits, impulsivity, anxiety, depression and thought disorders and includes, but is not limited to stimulant medications and anti-depressants.

However, school health or mental health personnel, including school nurses or nurse practitioners, the District’s Medical Advisor, school psychologists, school social workers, and school counselors may recommend that a student be evaluated by an appropriate medical practitioner.

Communications between and among school health, mental health personnel and other school personnel pertaining to a child in possible need of a recommendation for a medical evaluation shall be accomplished through the District’s established child study teams and/or the planning and placement team and its procedures, in conformity with state and federal special education statutes.

Further, upon the consent of the student’s parents or guardian, obtained in writing, through the Planning and Placement Team process, school personnel may consult with the medical practitioner regarding such use.

The Board recognizes that the refusal of a parent or other person having control of a child to administer or consent to the administration of any psychotropic drug to the child shall not, in and of itself, constitute grounds for the Department of Children and Families (DCF) to take such child into custody or for any court of competent jurisdiction to order that such child be taken into custody by the department, unless such refusal causes such child to be neglected or abused, as defined in C.G.S. 46b-120.

The Superintendent of Schools or his/her designee shall promulgate this policy to district staff and parents/guardians of students annually and upon the registration of new students.
