Renewal Tips

Renew early! Applications for certificate renewal may be submitted if your current certification expiration date is June 30, 2028 or earlier.

Educators do not lose time if they renew early. If your certificate expires 6/30/2025 and you renew in 2023, your renewed certificate will expire 6/30/2030 just like it would have if you applied closer to the expiration date.

Certificate renewals can take place at any point in the 5-year window as long as the clock hours were earned within the applicable timeframe.

The Professional Certification office is busiest during the summer months.
Applying early for a quicker response time.

Renew your certificate prior
to July 1st and you are not
subject to the new renewal
requirements!
