REFLECTS YOUR CHILD'S INNER VALUES AND STRENGTHS

The students are able to take a strengths test and save their Top 5 Strengths. You are able to take the same test to find out yours as well! You can also read about their passion and action steps to grow that passion.

A GREAT WAY TO LEARN ABOUT WHO MAKES THEM FEEL VALUED

Students can go in and write about who makes them feel like they matter and what really matters to them. What an awesome conversation to have with your child!

AN OPPORTUNITY TO SEE THEIR HOPE AND HAPPINESS SCORES

Take a look to see how hopeful and happy your child has been. These can always be updated and self reflected as often as needed! Have a talk with them about how they are feeling lately and how they are viewing their future.

IDEAS ABOUT THEIR FUTURE

A huge goal with this app is to help the kids have a place to store their ideas about future careers, achievements, and next steps. It logs a history each time they update it.

TO LET THEM KNOW WE ARE IN THIS TOGETHER

Whether it is talking about future college visits, taking a grit test, or even logging PSAT scores, we want your child to feel like they are not alone. This app is a user friendly place to store this information and keep track of what they have done.
