1111 Las Gallinas Ave.  
San Rafael, 94903

## Initial ELPAC Calibration Training Details:

We know calibration is less about being right and more about consistently *getting it right* according to the rubric. This training provides opportunities for scoring practice within the speaking and writing domains and collaboration with other county test examiners.

## Course Recommendations for Attendees:

- Complete the Moodle coursework all the way up to the calibration exercises for the Summative ELPAC.
- Please bring a charged computer for this training.

*Please note: This training is only for the calibration portion of the Initial ELPAC Test Administration. Registration is free.\**
