

RESPONSE TO INTERVENTION (RTI)

What is RTI?

RTI is a school process used to determine if a student is responding to classroom instruction and progressing as expected.

In an RTI process, a student who is struggling receives additional instructional support provided by matching instruction to a student's individual needs through a multi-tier instructional model. Each level, also known as a tier, provides instruction with increased intensity such as smaller groups or instructional time focused on specific areas.

[RTI- A PARENT'S GUIDE TO INTERVENTION PAMPHLET](#)

RTI focuses on the early prevention of academic difficulty, particularly in the areas of reading and math by:

- * ensuring appropriate instruction for all students;
- * monitoring students' progress; and
- * providing additional levels of instructional assistance (intervention) for students who require support.

What are the steps in RTI?

Screening is conducted for all students.

What is screening?

- * Screening is a quick assessment that measures a student's skills or behaviors expected for his or her grade level.
- * Screenings may be conducted once a year or as many as three times per year.
