

RAPTOR ACCOUNTABILITY
Is Coming to Our School This Fall!

RAPTOR® TECHNOLOGIES

For more information about RAPTOR Technologies, please scan this QR CODE.

Why are we implementing this program?

Raptor Accountability and Raptor Reunification are critical to school safety. Knowing we have Raptor in place and can account for every student on campus and efficiently reunify them with their parents makes our schools safer.

How does it work?

Students scan their ID card when entering or leaving the school campus.

The software provides first responders with the locations, details, and medical conditions for all individuals, helping direct resources effectively. The system simplifies the processes and reduces the time and effort to reunify students and parents.

"Safety and security are a priority for Burbank USD, and the Raptor System helps ensure that all of our Students, Staff and Community Members are safe every day."

Dr. John Paramo
Interim Superintendent

BURBANK UNIFIED SCHOOL DISTRICT
Equity and Excellence

RAPTOR TECHNOLOGIES

Frequently Asked Questions

Why is the District implementing the Raptor Accountability Program?

The Safety and Security of our Burbank USD Students, Staff and Community Members are a high priority for our District. With accurate student attendance and location information available in real-time, staff can confidently account for all students at school during the instructional day and during an emergency situation.

When will the Raptor Accountability Program begin?

The implementation of the Raptor Accountability Program will depend on the grade level.

- August 14, 2023 – The First Day of School – Burbank HS, Burroughs HS, Monterrey HS, and Burbank Community Day School.
- Second or Third week of September – Luther MS, Huerta MS, and Muir MS.
- Still to be determined – All Elementary Schools

How does the Raptor Accountability Program work?

When entering the school campus, a student is to scan their ID badge at one of the Scanners located at the school's main entrance. If a student leaves the campus prior to the end of the day, they will also have to scan their ID Badge, at one of the Scanners located at the school's main entrance.

What if my child forgot their ID Badge?

If a student forgets their ID Badge, they can either:

1) give their name to the campus supervisor that is monitoring the scanning station. The campus supervisor will then manually type in the student's name.
2) using their cell phone, they can scan a saved picture of their ID Badge.

What if my child forgot to scan out at the end of the school day?

A student will only have to scan their ID Badge if they leave the campus prior to the end of the school day.

How often is the information updated for the Raptor Program?

The Raptor Accountability Program updates student information every evening.

Who can I contact if I have additional questions or need more information?

- You may go to the RAPTOR Technologies website: www.raptortech.com
