

ELECTIVE OPTIONS (Online Academy)

A quick reference for parents and students during registration

Please note, we have so many career courses that it's hard to list them all, but if students have any particular interests – medical, construction, business, education, computers, etc. – they can let their coach know and we will help navigate to the right course. Below are a few options to get you started:

- CTE or Careers courses (can be general or specific by career interests, just let us know)
- Small Business Entrepreneurship
- Business Law
- Strategies for Academic Success
- Computer Applications
- Microsoft Office Specialist
- Psychology
- Sociology I and II
- Financial Math
- Personal Finance
- Lifetime Fitness (understanding physical health and fitness, but mostly academic activities)
- Physical Fitness (mainly focused on creating a fitness plan and then logging physical activities)
- Healthy Living (focus on overall well-being)
- Intro to Art (this is an art appreciation course, students do not actively do art projects or artistic assignments)
- Art History
- Spanish I and II
- Forensics: Using Science to Solve a Mystery
- Peer tutoring
- SEL/advisory credit (.25 credits per semester)
