# 2022 - 2023 Annual Report

Dear Friends and Neighbors,

It is with a great deal of pride that I share our first annual report with you. Our community, like so many others, has endured a great many trials these past few years. Yet, we came through it together. We came through it with our schools forming the heart of caring in our community.

The Lakewood Compact continues to serve as the center or our work. For that reason, this annual report is organized around the three core commitments that define the Compact:

- Service, Leadership and a Community of Caring
- Equitable Access to Powerful Learning
- Collaborative Community and Programmatic Partnerships

In addition, this annual report highlights the strength of our financial stewardship. Even as we have expanded the services to support many academic and socialemotional needs across our schools, we have always made sure that our decisions are sustainable—that we have prioritized them in a financially responsible way.

The center of this report, and its largest section, is about learning. That is our core mission. I encourage you to review the sample of data that we have provided, as it reflects both our students' growth and the important and challenging work that lies ahead. We have also presented a picture of the concrete steps that we are taking across all schools to address immediate and long-term learning needs. In every section of this report, you will see numerous examples of what we are doing and why they are important.

We love our children. Each and every one. For that reason, we have engaged students and families in new ways to ensure that they know they belong and that their partnership is critical to our success.

# Service, Leadership and a Community of Caring

#### How do you experience belonging in our school community?

Friends, respect, connection with a teacher, comfortable environment. These themes and others emerged in November, when we asked students and families, "What does it look like, sound like and feel like for you to experience belonging in a school community?" The Lakewood Equity Team continued the conversation during a community Belonging Forum in January. Participants shared personal experiences and brainstormed growth opportunities.

See results from the ThoughtExchange and photos from the Belonging Forum on the LWSD website: www.lwsd.wednet.edu/Page/1511

#### Providing students a voice through Cougar Cabinet

The first Cougar Cabinet student ambassadors are learning how to make positive changes in their schools. During monthly meetings, Cougar Cabinet facilitators junior Carsten Brost, senior Kiana Schroeder and junior Mia Barber led activities to build trust and belonging, and to help students participate in authentic conversations and identify student priorities.

At the high school and middle school level, priorities include addressing graffiti, smoking and vaping in bathrooms; online bullying; and discrimination. At the elementary level, student priorities include cultivating respect on the playground; more vegan options at lunch; making sure all students have a snack time; and creating kindness groups to reduce bullying. Students are working with principals on ideas for implementation.

While making their "bravery muscle" stronger, high schoolers in Cougar Cabinet volunteered to try a bridging activity.

#### We speak your language

#### Language translation tablets available now in front offices

Whether a family speaks **Spanish**, **Ukrainian**, **Russian or another language**, our staff want to help. Each school and district building now has an electronic tablet in the reception area to use for language translation during short conversations.

# Tabletas de traducción de idiomas disponibles ahora en las oficinas principales

Ya sea que una familia hable español, ucraniano, ruso u otro idioma, nuestro personal desea ayudar. Cada escuela y edificio del distrito ahora tiene una tableta electrónica en el área de recepción para usar para la traducción de idiomas durante conversaciones breves.

Number of students who earned credit for languages they already knew in 2022 by participating in World Language Competency testing.

A small district going big places

# **Collaborative Community and Programmatic Partnerships**

#### Expanding professional partnerships Partner: ANEW

Construction students are building two tiny houses. When the houses are complete, they will provide shelter for homeless people in King County.

Students in Tom O'Hara's Advanced Core Plus Construction class are developing skills for life while they construct two tiny houses.

Students learn project management, communication, problem-solving, goalsetting and teamwork while they learn basic construction skills.

The houses are available through a partnership with the nonprofit, ANEW.

#### Colors fly during fund run

Volunteers from the Marysville Fire Department helped teachers and parent volunteers to distribute a colorful cornstarch/baking powder mix as students gleefully ran past during the English Crossing Elementary PTA fundraising run.

#### Developing comprehensive supports for Lakewood families Partner: LincNW

The district's neighbor, LincNW, hosted a Back to School event for students at its Faith Lutheran Church location.

Lakewood School District and LincNW are committed to providing a center of caring for our community. A Back to School event hosted by LincNW at Faith Lutheran Church brought together Kids' Kloset, Lion's Club, Sno-Isle Libraries, staff and volunteers who provided free backpacks, school supplies, clothes, books, a meal and fun for Lakewood students in need of a helping hand.

#### DISTRICT TO PROVIDE ALL SCHOOL SUPPLIES BEGINNING NEXT YEAR

Beginning in 2023-24, Lakewood will not require families to provide any school supplies for students, except for a backpack. (If families cannot provide a backpack, schools will help students access one with the help of community partners).

Multiyear grants from the Stillaguamish Tribe partially supported this change over the last several years. We are happy to make backto-school an exciting time for all students.

#### Increasing options during school meals Partner: Chartwells

Increased training opportunities with our food vendor, Chartwells, have allowed us to prepare more "homestyle" entrees that are made from scratch on-site. Each school now has a salad bar. Lakewood High School also has a taco/burrito bar and a madeto-order sandwich station.

Lunch participation at all schools has increased since October. Elementary participation is close

to 60%, up from 53% in October. Districtwide, participation is at 45%, up from 41%. As part of the USDA's Community Eligibility Provision program, all Lakewood elementary students are receiving free meals this year.

#### District General Fund Revenue

# State 77% Local Levy 14% Federal 7% Local Fees & Other 2%

#### Levies close gaps in school funding models

The Prototypical School Funding Model, which is linked to enrollment, drives state funding for all Washington schools.

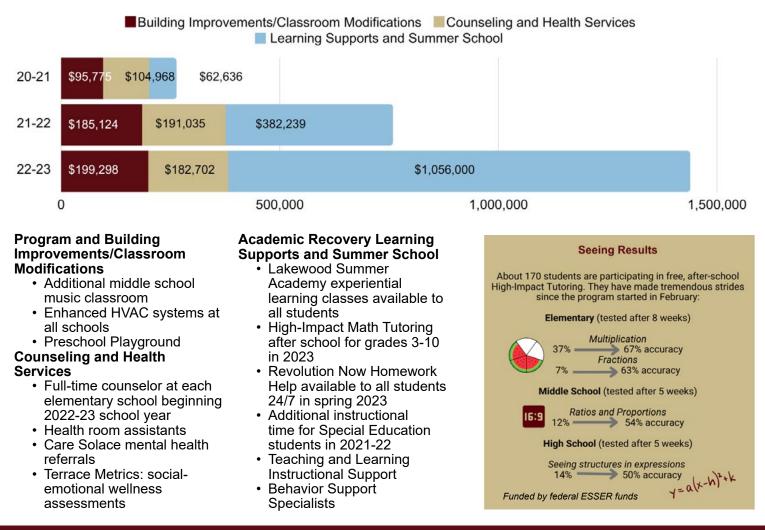

For example, the model recommends 1.25 administrators for 600 high school students. So, a high school of 800 students, like Lakewood High School, would receive funding for 1.66 administrator positions. The model does not include positions such as Athletic Director or Dean of Students.

Another example: The model funds fewer than one psychologist in Lakewood School District, but our schools need at least three psychologists. Our district also funds more counselors than what is outlined in the funding model.

Local levy dollars and federal funds help close the gaps between what the state provides and the needs of students. Thank you for supporting the future of Lakewood!

#### ESSER Funding

Lakewood received one-time federal ESSER (Elementary and Secondary School Emergency Relief) funds to provide schools with resources to meet the academic, social, emotional, and mental health needs of students resulting from the COVID-19 pandemic. Below is a summary of how these funds have been used. All remaining funds will be spent by August 31, 2023.

## **Stewardship**

#### Levy dollars ensure quality learning

Lakewood School District is grateful to local voters and the community for supporting students. Levy funding provides about 14% of our budget. It allows the district to keep class sizes small by funding additional teachers. It also provides funding beyond what the state provides for nurses, paraeducators, psychologists and office support staff. This levy enhances educational programs with funding for music, art, drama, athletics and student clubs that keep students involved and engaged in school.

This year, for the first time, students can participate in team sports as early as sixth grade. The high school offers 12 different varsity sports. See Ihscougarathletics.com for a schedule.

FFA students participate in agricultural projects and leadership development training. This year's FFA hosted a plant sale, an Ag Science and STEM Fair, and a workshop for second graders about insect pollination.

Students can begin playing an instrument in fifth grade band. As students grow older, they play more complex selections and perform in a variety of venues.

FCCLA (Family, Career and Community Leaders of America) members make a difference in their community. During Overdose Awareness Week, students made cake pops with the theme, "Life's Poppin' Not Stoppin'."

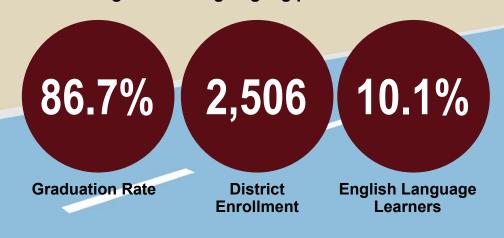

#### Promises Made, Promises Kept

PROGRAM	EXAMPLES	AMOUNT IN 2022-23
Vocational programs such as robotics, engineering, and technology classes	Middle school vocational classes	\$60,470
23 teachers beyond state \$ to provide smaller class sizes	Certificated teachers K-12	\$2,158,320
School safety and security enhancements	Supervision outside the classroom	\$300,585
Teachers/paras beyond state/federal \$ for children with learning challenges	Supports for special needs students	\$984,000
Nurses in all school buildings to support students with health needs	Full-day coverage for all five schools	\$424,930
Preventative maintenance and repair of facilities to ensure safe spaces	Maintenance staff	\$441,000
Classified staff for student learning and school support above state $\$	Classified paras support instruction	\$129,400
Training for staff to improve student learning and success after high school	Staff professional development	\$216,740
Activities like sports and clubs to keep students involved in school	Promote engagement & well-being	\$760,000
Food services that ensure readiness for students to learn	Funds Food Service gap beyond state	e\$\$\$81,000
Outreach to families and community	Communications and engagement	\$145,280
Student supplies and instructional materials for all classrooms	Allocations for classroom supplies	\$297,300
Utility, insurance and operations costs beyond state \$	Portion of operational expenses	\$277,675
Total 2022-2023 Local Levy Support		\$6,276,700

A small district going big places

#### Lakewood graduates... going big places!

"Lakewood High School is dedicated to educating students to become respectful, responsible, and literate citizens with the skills to contribute to a global community."

> Lakewood High School mission statement

To graduate from high school in Washington, students successfully earn **24 credits** (17 core credits + 3 personalized pathway requirements + 4 elective credits). Students must also complete a graduation pathway. Lakewood High School counselors work with students to determine which pathway is right for them.

#### 1. Career/Technical Field (CTE):

Student completes CTE credits in their area of interest. Examples:

- Core Plus Construction
- Marketing
- Video Foundations
- Agriscience and Animal Biology
- American Sign Language
- Sno-Isle Skills Center: Aerospace engineering, auto repair, welding, firefighting, culinary arts, medical/dental assistant
- Snohomish County Regional Apprenticeship Pathways (RAP) program: Students learn skills to prepare for apprenticeships in construction, electrical and labor trades.

#### 2. Military Career

• Students meet the minimum score established by the military on the ASVAB (Armed Services Vocational Aptitude Battery).

#### 3. Postsecondary Education:

Students use assessments or credits for this graduation pathway.

- Dual Credit: Students receive both college and high school credit.
- College in the High School: LHS offers 12 College in the High School classes, including marine biology, advanced biology/forensics, and honors government. Courses are taught by Lakewood teachers who work closely with Everett Community College faculty mentors.
- Running Start: Students enroll in college courses while they are still in high school without paying tuition.
- Advanced Placement classes (AP Literature and AP Language and Composition): Students can receive college credit with a qualifying score on the AP test.

# **Equitable Access to Powerful Learning**

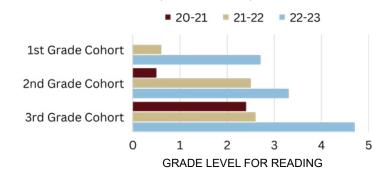

#### **Developing Multi-Tiered Systems of Support**

Individual students have individual needs. The goal of Multi-Tiered Systems of Support (MTSS) is to intervene early so that all students are successful. Supports are provided in areas such as literacy, math, and socialemotional supports to improve behavior. Assessment data can come from recorded teacher observations, attendance, classroom assignments, STAR assessments (three times per year), and Smarter Balanced (SBA) Assessments (one time per year – certain grades).

#### Performance Measure: Local Assessments in Reading

STAR READING SCORES (BY COHORT)

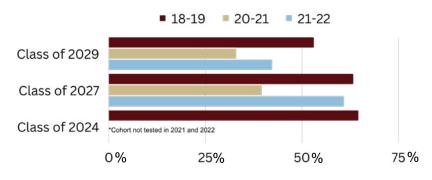

**Literacy:** All K-2 students are screened multiple times per year using an assessment called Early Literacy STAR and STAR Classroom Based Assessments. Teachers use the results to identify areas of concern. In reading, interventions include small-group reading instruction that focuses on phonemic awareness and fluency. Frequent measurements and an enhanced curriculum are demonstrating enormous student growth.

#### **Performance Measure: State Assessments**

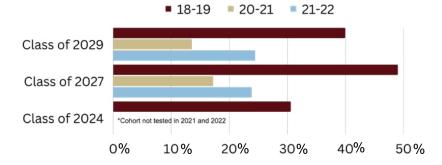

State test scores from the **Smarter Balanced Assessment** fell during the pandemic in 2021. The latest scores – from spring 2022 – show growth at the cohort level. We anticipate that we will see continued growth in test scores in spring 2023. To continue to help students fill in learning gaps from the pandemic, the district has used federal ESSER (Elementary and Secondary School Emergency Relief) funding to implement a number of programs:

- Recovery Services (additional learning time) for special education students (2021-2022)
- Lakewood Summer Academy for Kindergarten through 12th grade (summer 2022, 2023)
- High-impact After-school Math Tutoring (began in spring 2023): 170 students, grades 3-11, are participating in this program.
- Revolution Now online homework help available 24/7 for all grades (began spring 2023)

PERCENTAGE OF STUDENTS WHO MET SBA -ELA STANDARDS (BY COHORT)

#### RESIDENTIAL CUSTOMER

### Nominate a Heart of Lakewood recipient

The Lakewood School District and Board of Directors is seeking nominations for the Heart of Lakewood Community Service Award. The award, which will be presented at the June 21 Board meeting, recognizes outstanding community service contributions

made by a student, staff member or community member.

Eligible activities include initiating a community project that provides a substantial service to the Lakewood community; serving as an inspiration in the community as a result of selfless commitment to compassion and kindness that contributes to the greater good; or providing leadership in a community-based endeavor that brings out the best in other people.

Students, alumni, staff and community members are eligible.
