# INDEPENDENT AUDITOR'S REPORT

Board of Education Bannockburn School District No. 106 Bannockburn, Illinois

# **Report on the Audit of the Financial Statements**

# **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Bannockburn School District No. 106, Bannockburn, Illinois (the "District"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
  error, and design and perform audit procedures responsive to those risks. Such procedures include
  examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
  appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
  the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### Other Matters

# Prior-Year Comparative Information

We have previously audited the District's 2021 financial statements, and we expressed qualified audit opinions on the respective financial statements of the governmental activities, each major fund and the aggregate remaining fund information in our report dated October 7, 2021. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2021, is consistent, in all material respects, with the audited financial statements from which it has been derived.

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the District as of and for the year ended June 30, 2021, (not presented herein), and have issued our report October 7, 2021, which contained qualified opinions on the respective financial statements of the governmental activities, each major fund and the aggregate remaining fund information. The supplementary information, as listed in the table of contents, for the year ended June 30, 2021, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2021 financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2021 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information as listed in the table of contents is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2021.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 12, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Education Bannockburn School District No. 106 Bannockburn, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Bannockburn School District No. 106, Bannockburn, Illinois, (the "District"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's financial statements, and have issued our report thereon dated October 12, 2022.

# **Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

# **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

# **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Rolling Meadows, Illinois October 12, 2022 REQUIRED SUPPLEMENTARY INFORMATION Management's Discussion and Analysis

# BANNOCKBURN SCHOOL DISTRICT NO. 106 MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30. 2022

The discussion and analysis of Bannockburn School District No. 106's (the District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2022. The District management encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the District's financial performance.

Certain comparative information between the current year and the prior year is required to be presented in this management discussion and analysis (MD&A). The information is presented throughout the report to illustrate the differences in the District's results between the two years.

# **Financial Highlights**

- The audit is conducted using the accrual basis of accounting. Under this basis, revenues are recognized
  in the period in which they are earned and become measurable, and expenses are recognized when
  incurred. The following information should be viewed with this in mind.
- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at June 30, 2022, by \$19,353,721 (net position).
- The District's total net position decreased by \$1,090,559.
- The District had capital outlay additions in the amount of \$248,123 for land, various improvements and equipment. The District had no capital outlay disposals.
- Fund balances totaled \$9,583,532, which is a decrease of \$863,661 in comparison to the previous year.

# **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- Government-Wide financial statements
- Fund financial statements
- Notes to the financial statements

This report also contains required supplementary information and supplementary information in addition to the basic financial statements.

This report also contains required supplementary information and supplementary information in addition to the basic financial statements. Included as revenue and expense in the Educational Account is the annual "on-behalf" payment by the State to the Teachers' Retirement System (TRS) and the Teachers' Health Insurance Security (THIS) fund discussed elsewhere in this audit report. This is money over which the District has no control and never sees on its books. In fact, the State does not always make this contribution, or make it on time. This contribution by the State must be shown in the audit, but it should be kept in mind that to get a true picture of the District's revenue, expenses and balances, this contribution must be discounted.

		and payable			

# Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets, deferred inflows of resources, deferred outflows of resources and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or declining.

The statement of activities presents information showing how the District's net position changed during the fiscal year being reported. It includes a description of the expenses and revenues for all governmental activities for the fiscal year. Revenues from specific programs and grants are identified by the functions that they support.

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The District's governmental activities include instructional services (regular education, special education and other) and supporting services, including operation and maintenance of facilities.

# BANNOCKBURN SCHOOL DISTRICT NO. 106 MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30. 2022

# Financial Statements

A fund is a self-balancing group of accounts with its own assets, liabilities, revenues and expenditures. Each fund is used to maintain control over resources and expenditures that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into one category governmental funds (the District maintains no fiduciary and proprietary funds).

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, where the focus is on the government as a whole, governmental fund financial statements focus their reporting on individually significant funds.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains eight governmental funds during the year. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund (Educational and Working Cash Accounts), and the major funds which are the Operations and Maintenance Fund, Transportation Fund, Municipal Retirement/Social Security Fund and Capital Projects Fund.

The District adopts an annual budget for each of the funds. A budgetary comparison statement is provided for the General Fund and each major fund in the basic financial statements as other information to demonstrate compliance with this budget.

# Notes to the financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain *Required Supplementary Information* concerning the District's operations presented to supplement the basic financial statements and progress in funding related to the Teachers' Retirement System (TRS), Illinois Municipal Retirement Fund (IMRF), and Teachers' Health Insurance Security (THIS) Fund. The *Supplementary Information* provides additional analysis derived from and relate directly to the underlying accounting and other records used to prepare the financial statements.

# **Government-Wide Financial Analysis**

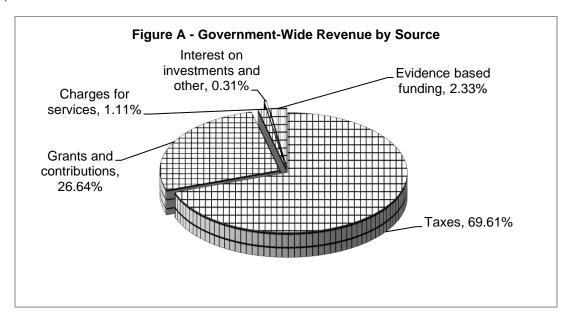

<u>Statement of Net Position</u>: The following summary data is compared with data from the preceding year. The following provides a summary of the District's Statement of Net Position as of June 30, 2022 and 2021:

	2022	2021	% Change
Other assets Non-current assets Total Assets	\$ 14,658,761 12,895,402 27,554,163	\$ 15,301,553 13,062,162 28,363,715	-4.20% -1.28% -2.85%

Total Net Position	\$ 19,353,721	\$ 20,444,280	-5.33%

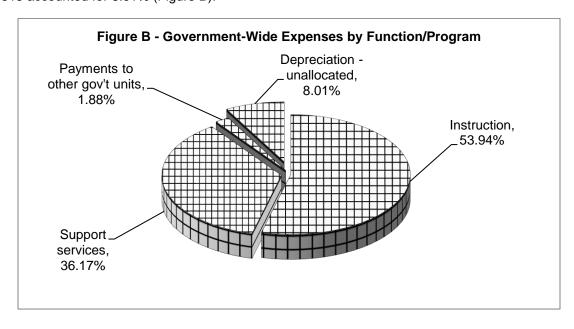

<u>Changes in Net Position</u>: The following is a summary of the District's changes in net position for the year ending June 30, 2022, and 2021:

	2022			2021	% Change
Revenues					
Program revenues					
Charges for services	\$	67,163	\$	42,819	56.85%
Grants and contributions		1,613,026		2,142,213	-24.70%
General revenues					
Taxes		4,214,898		4,901,706	-14.01%
Evidence based funding		140,751		140,593	0.11%
Interest on investments and other		18,800		35,040	-46.35%
Total Revenues		6,054,638		7,262,371	-16.63%
Expenses					
Instruction		3,854,220		4,680,257	-17.65%
Support services		2,584,057		2,800,741	-7.74%
Payments to other governmental units		134,405		220,587	-39.07%
Depreciation - unallocated		572,515		560,007	2.23%
Total Expenses		7,145,197		8,261,592	-13.51%
Change in Net Position		(1,090,559)		(999,221)	
Net Position - Beginning - as previously reported		20,444,280		21,442,982	
Prior Period Adjustment				519	
Net Position - Beginning - as restated		20,444,280		21,443,501	
Net Position - Ending	\$	19,353,721	\$	20,444,280	

**Revenues by Source:** Taxes, including personal property taxes, in the amount of \$4,214,898 accounted for 69.61% of total revenues, grants and contributions in the amount of \$1,613,026 accounted for 26.64%, charges for services in the amount of \$67,163 accounted for 1.11%, evidence based funding in the amount of \$140,751 accounted for 2.33%, and interest on investments and other in the amount of \$18,800 accounted for 0.31% (Figure A).

**Expenses by Function:** Expenses for instruction in the amount of \$3,854,220 accounted for 53.94% of total expenses, while support services in the amount of \$2,584,057 accounted for 36.17%, payments to other governmental units in the amount of \$134,405 accounted for 1.88%, and unallocated depreciation in the amount of \$572,515 accounted for 8.01% (Figure B).

# Financial Analysis of the District's Funds

The financial performance of the District reflects the financial climate of the country as a whole and Illinois in particular. Expenditures and revenues are monitored carefully. Financial updates and projections are shared with the Board of Education regularly. Account balances for all funds are at positive levels for the year ended June 30, 2022. Fund balances totaled \$9,583,532, which is a decrease of \$863,661 in comparison to the previous year.

# General Fund (Educational and Working Cash Accounts)

- Fund balance decreased by \$584,940, resulting in an ending fund balance of \$7,110,197.
- On-behalf payments decreased from \$1,898,698 to \$1,239,122, a decrease of to \$659,576.

# Operations and Maintenance Fund

Fund balance decreased by \$212,490, resulting in an ending fund balance of \$1,671,960.

# Transportation Fund

Fund balance increased by \$19,468, resulting in an ending fund balance of \$332,432.

# Municipal Retirement/Social Security Fund

Fund balance decreased by \$34,213, resulting in an ending fund balance of \$241,473.

### Capital Projects Fund

Fund balance decreased by \$51,486, resulting in an ending fund balance of \$227,470.

# Capital Assets and Long-term Liabilities

# Capital Assets

By the end of fiscal year 2022, the District had invested \$12,737,770 (net of depreciation) in a broad range of capital assets, including various buildings, improvements, equipment and vehicles.

	2022	2021	% Change
Land	\$ 907,232	\$ 900,482	0.75%
Buildings and improvements	10,788,318	11,171,810	-3.43%
Site improvements	836,597	724,714	15.44%
Equipment and vehicles	205,623	265,156	-22.45%
Total	\$ 12,737,770	\$ 13,062,162	-2.48%

Additional information on the District's capital assets can be found in Note 5 to the financial statements.

# BANNOCKBURN SCHOOL DISTRICT NO. 106 MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30. 2022

# Long-term Liabilities

At June 30, 2022, the District had total long-term liabilities of \$2,183,636.

	2022		2021	% Change
Pensions Other post-employment benefits	\$ 202,788 1,980,848	\$	315,371 2,309,348	-35.70% -14.22%
Total	\$ 2,183,636	\$	2,624,719	-16.80%

Additional information on the District's long-term liabilities can be found in Note 6 to the financial statements.

# **Budgetary Analysis**

For the year ended June 30, 2022, the District operated within the confined of the budget.

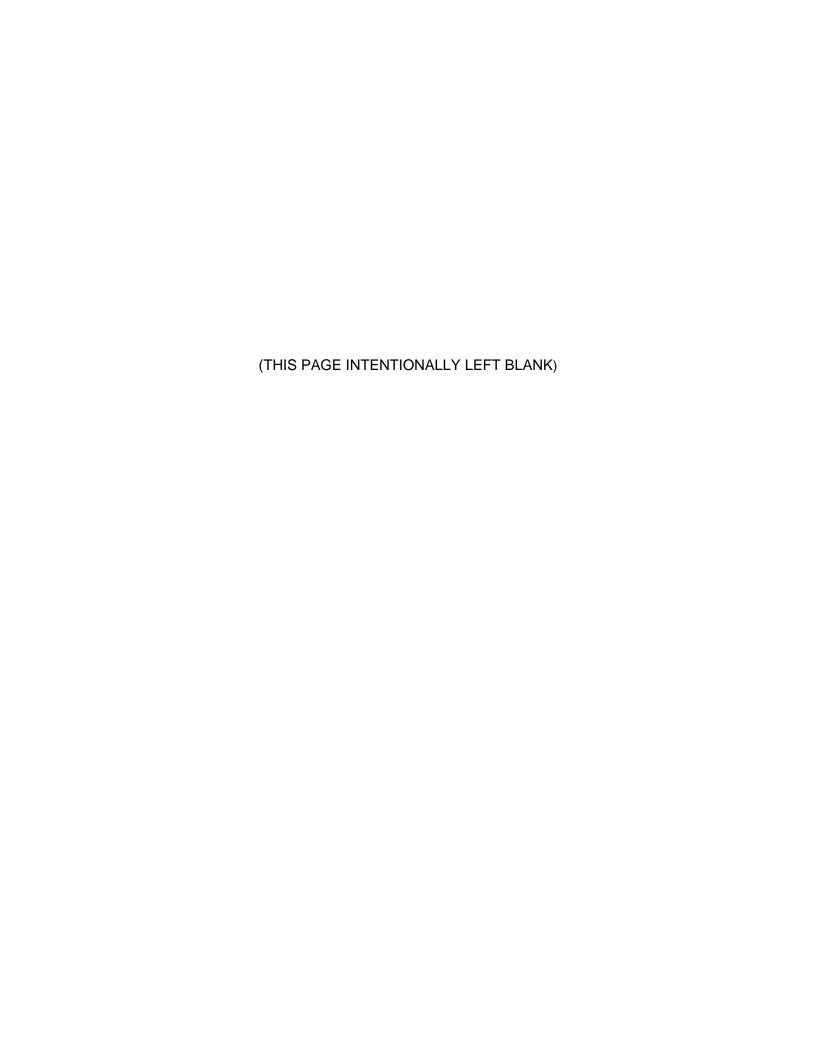

# **Factors Affecting the District's Future**

The District is aware of the following factors that may affect its future financial health:

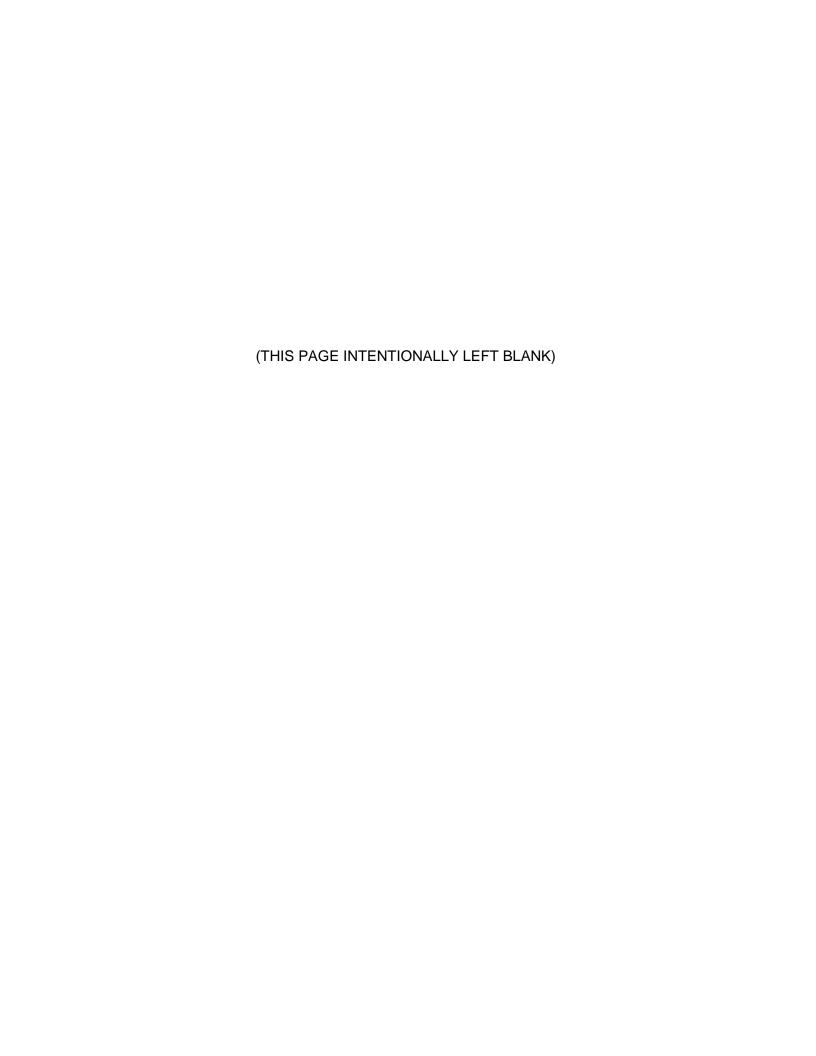

- The lack of consistent on-time payments from the State of Illinois and the potential loss of significant State revenues.
- The continued deterioration of the financial condition of the statewide Teachers Retirement System (TRS) and the threat of the normal cost for the pension system being passed on to the District.
- Property tax appeals leading to assessment reductions and eroding District property tax collections or EAV.
- The state of the economy, particularly at the State level, continues to affect the District's state funding levels and timing of state receipts.
- The inability of lawmakers to address the State's financial dilemmas continues to create future financial
  uncertainty for school districts, of which the District is not immune. Likewise, the issue of local property
  tax "freezes" and pension reform continues to be a focus of State lawmakers, again creating more
  financial uncertainty for school districts.
- Employment contracts with mandatory financial obligations.

# **Requests for Information**

This financial report is designed to provide the District's citizens, taxpayers and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, please contact the Director of Business Services, *Lisa Pease*: Bannockburn School District No. 106, 2165 Telegraph Road, Bannockburn, IL 60015.

# **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Bannockburn School District No. 106 (the "District") operates as a public-school system governed by the school board. The District is organized under the School Code of the State of Illinois. The District's accounting policies conform to generally accepted accounting principles as applicable to local education agencies.

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant accounting policies established in GAAP and used by the District are discussed below.

# A. The Reporting Entity

The accompanying financial statements comply with the provisions of GASB statements in that the financial statements include all organizations, activities, and functions that comprise the District. Component units are legally separate entities for which the District (the primary entity) is financially accountable. Financial accountability is defined as the ability to appoint a voting majority of the organization's governing body and either (1) the District's ability to impose its will over the organization or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the District. Using these criteria, the District has no component units. In addition, the District is not included as a component unit in any other governmental reporting entity as defined by GASB pronouncements.

### B. Basis of Presentation

### Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements. The District's operating activities are all considered "governmental activities", that is, activities normally supported by taxes and intergovernmental revenues. The District has no operating activities that would be considered "business activities".

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) amounts paid by the recipient of goods or services offered by the program and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

### Governmental Funds Financial Statements

Governmental funds financial statements are organized and operated on the basis of funds and are used to account for the District's general governmental activities. Fund accounting segregates funds according to their intended purpose, and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts that comprise its assets, liabilities, reserves, fund balance, revenues and expenditures. The minimum number of funds is maintained consistent with legal and managerial requirements.

Separate financial statements are provided for all governmental funds and fiduciary funds; the fiduciary funds are excluded from the government-wide financial statements. The District has no fiduciary funds.

# NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

# C. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing or related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue when all eligibility requirements have been met.

Governmental fund financial statements are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both "measurable and available". "Measurable" means that the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers all revenues available if they are collected within 30 days after year-end. Expenditures are recorded when the related fund liability is incurred. However, expenditures for unmatured principal and interest on general long-term debt are recognized when due; and certain compensated absences, claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources.

On-behalf payments (payments made by a third party for the benefit of the District, such as payments made by the state to the Teachers' Retirement System [TRS] and Teachers' Health Insurance Security [THIS] Fund) have been recognized in the financial statements.

Property taxes, replacement taxes, certain state and federal aid, and interest on investments are susceptible to accrual. Other receipts become measurable and available when cash is received by the District and recognized as revenue at that time.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until earned.

The funds of the District are described below:

# **Governmental Funds**

<u>General Fund</u> – The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The Educational and Working Cash Accounts are included in this fund.

<u>Special Revenue Funds</u> – The Special Revenue Funds (Operations and Maintenance Fund, Transportation Fund, and Illinois Municipal Retirement/Social Security Fund) are used to account for the proceeds of specific revenue sources that are restricted, committed, or assigned to expenditures for specified purposes other than debt service or capital projects.

<u>Capital Projects Fund</u> – The Capital Projects Fund is used to account for financial resources that are restricted, committed, or assigned to expenditures for the acquisition or construction of major capital facilities.

# Proprietary Fund Types (not included in governmental-wide statements)

There are no Proprietary Fund Types.

# Fiduciary Funds (not included in governmental-wide statements)

There are no Fiduciary Fund Types.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

# **Major and Non-major Funds**

An emphasis is placed on major funds with the governmental and proprietary categories.

A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

- a. Total assets, liabilities, revenues and expenditures of that individual governmental or enterprise fund are at least ten percent of the corresponding total for all funds of that category or type; and:
- b. Total assets, liabilities, revenues or expenditures of the individual governmental or enterprise fund are at least five percent of the corresponding total for all governmental and enterprise funds combined.

# The District has elected to treat all funds as major funds.

The funds classified as major are as follows:

General Fund – See above for description.

<u>Operations and Maintenance Fund</u> – accounts for expenditures made for repair and maintenance of the District's buildings and land. Revenue consists primarily of local property taxes and state aid.

<u>Transportation Fund</u> – accounts for all revenue and expenditures made for student transportation. Revenue is derived primarily from local property taxes and state reimbursement grants.

<u>Municipal Retirement Fund</u> – accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund, payments to Medicare and payments to the Social Security System for non-certified employees. Revenue to finance the contributions is derived primarily from local property taxes and personal property replacement taxes.

<u>Capital Projects Fund</u> – accounts for the financial resources to be used for the acquisition or construction of, and/or additions to, major capital facilities.

# Assets, Deferred Outflows/Inflows of Resources and Liabilities

# Cash and Investments

Deposits are considered to be cash on hand, cash with financial institutions, savings deposit accounts and non-negotiable certificates of deposit. Investments are considered to be government securities. Investments are stated at fair value. Changes in fair value are included as interest on investments.

# Receivables

All receivables are reported net of estimated uncollectible amounts.

# Capital Assets

Capital assets, which include land, construction in progress, buildings and improvements, site improvements, equipment, equipment and vehicles are reported in the government-wide financial statements. Capital assets are defined by the District as an initial individual cost of more than \$5,000, with an estimated useful life of 1 year or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Depreciation of capital assets is provided using the straight-line method over the following estimated useful lives:

Assets	Years		
Buildings and improvements Site improvements	20-40 20		
Equipment and vehicles	5-20		

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

# Long-Term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the applicable bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed in the year incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the period incurred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

# Deferred outflows

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two items that qualifies for this category. The two items are pensions and other post-employment benefits reported in the government-wide statement of position. These results are from differences between expected and actual experience, the net differences projected and actual investment earnings on plan investments, changes of assumptions, and changes in proportion and differences between contributions and proportion share of contributions.

# **Deferred inflows**

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has three items, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. The first is unavailable revenue; it is reported in both the government-wide statement of position and in the governmental funds balance sheet. The item for unavailable revenue is from property taxes. The second and third items are pensions and other post-employment benefits. These results are from differences between expected and actual experience, the net differences projected and actual investment earnings on plan investments, changes of assumptions, and changes in proportion and differences between contributions and proportion share of contributions. These items amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

# NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

# **Property Tax Revenues**

The District must file its tax levy resolution by the last Tuesday in December of each year. The District's 2021 levy resolution was approved during the December 14, 2021 board meeting. The District's 2020 levy resolution was approved during the December 15, 2020 board meeting. The District's property tax is levied each year on all taxable real property located in the District and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 in any year is liable for taxes of that year. The District's annual property tax levy is subject to two statutory limitations: Individual fund rate ceilings and the Property Tax Extension Limitation Act (PTELA).

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lesser of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is "new growth" in the District's tax base. The new growth consists of new construction, annexations and tax increment finance district property becoming eligible for taxation.

### Personal Property Replacement Taxes

Personal property replacement taxes are first allocated to the Municipal Retirement Fund, and the balance is allocated to the remaining funds at the discretion of the District.

### **Program Revenues**

Amounts reported as program revenues include 1) Tuition and fees and 2) Grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. All taxes, including those dedicated for specific purposes, are reported as general revenues rather than as program revenues.

# **Interfund Activity**

Interfund activity is reported either as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

# Eliminations and Reclassifications

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances were eliminated or reclassified.

# **Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

# NOTE 2 - NET POSITION AND FUND BALANCE REPORTING

Net position is displayed in three components; Net investment in capital assets, restricted net position, and unrestricted net position.

<u>Net investment in capital assets</u> – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets less any unspent debt proceeds.

Restricted net position – Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation. The Restricted Net Position consists of Student Activities, \$98; the Operations and Maintenance Fund, \$1,671,960; the Transportation Fund, \$332,432; the Municipal Retirement Fund, \$241,473; and the Capital Projects Fund, \$227,470; totaling \$2,473,433.

<u>Unrestricted net position</u> – All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

# **Governmental Fund Balance Reporting**

Governmental fund balances are to be classified into five major classifications; Nonspendable, Restricted, Committed, Assigned, and Unassigned.

Nonspendable – the nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts.

<u>Restricted</u> – the restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the District. Items such as restrictions imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Special Revenue Funds are by definition restricted for those specified purposes. The District has several revenue sources received within different funds that also fall into these categories:

- Student Activities revenues and the related expenditures are accounted for in the Educational Account. At June 30, 2022, the restricted balance is \$98.
- Special Education revenues and the related expenditures of this restricted tax levy are accounted for in the Educational Account. Expenditures exceeded revenues for this purpose, resulting in no restricted fund balance.
- State Grants proceeds from state grants and the related expenditures have been included in the Educational and Transportation Funds. At June 30, 2022, expenditures exceeded revenues from state grants, resulting in no restricted balance.
- Federal Grants proceeds from federal grants and the related expenditures have been included in the Educational Account. At June 30, 2022, expenditures exceeded revenues from federal grants, resulting in no restricted balance.
- Social Security expenditures and the related expenditures of this restricted tax levy are accounted for in the Municipal Retirement Fund. Expenditures disbursed exceeded revenue received, resulting in no restricted balance.

#### NOTE 2 - NET POSITION AND FUND BALANCE REPORTING (CONT'D)

<u>Committed</u> – the committed fund balance refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the school board. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts. There are no committed fund balance designations.

<u>Assigned</u> – the assigned fund balance classification refers to amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. Assignments make take place after the end of the reporting period. There are no assigned fund balance designations

<u>Unassigned</u> – the unassigned fund balance classification is the residual classification for amounts in the General Fund for amounts that have not been restricted, committed, or assigned to specific purposes within the General Fund.

<u>Expenditures of fund balances</u> – unless specifically identified, expenditures reduce restricted balances first, then to committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

#### **NOTE 3 - CASH AND INVESTMENTS**

Deposits are considered to be cash on hand, cash with financial institutions, savings deposit accounts and non-negotiable certificates of deposit. Investments are considered to be government securities. Investments are stated at fair value. Changes in fair value are included as interest on investments. The District has adopted a formal cash management policy. The financial institutions in which accounts are made must be approved by the Board of Education.

Separate cash and investment accounts are not maintained for all District funds; instead, the individual funds maintain their balances in the common accounts, with accounting records being maintained to show the portion of the common account balance attributable to each participating fund.

At June 30, 2022, the carrying amount of the District's deposits and investments totaled \$11,958,945 and bank balances totaled \$12,355,394.

For disclosure purposes, the amounts are classified as follows:

				Ma	aturities		
Cash and Deposits and Investments	Amount		Less Than Six Months		Six Months to One Year		Year to e Years
					ic rear		C TCGIS
Cash with Financial Institutions	\$ 145,2	38 \$	145,238	\$	-	\$	-
Savings Deposit Accounts	5,294,4	12 5	,294,412		-		-
Non-negotiable							
Certificates of Deposits	6,189,7	00 4	,955,900	1	,233,800		-
Government Securities	726,0	44	-		726,044		
Total	\$ 12,355,3	94 \$ 10	,395,550	\$ 1	,959,844	\$	-

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs utilizing bonds valued by pricing service that uses matrix pricing; Level 3 inputs are significant unobservable inputs.

#### NOTE 3 - CASH AND INVESTMENTS (CONT'D)

At June 30, 2022, the District had the following fair value measurements:

Investment Type	F	air Value	Level 1	Le	evel 2	Le	evel 3
Government Securities	\$	726,044	\$ 726,044	\$	-	\$	
Total	\$	726,044	\$ 726,044	\$	-	\$	-

*Interest Rate Risk.* The District's investment policy limits investment maturities as a means of managing its exposure to losses arising from interest rate fluctuations. The weighted average of the portfolio maturity was 187.56 days and the weighted portfolio yield was 1.38%.

*Credit Risk.* Under Illinois law, the District is restricted to investing funds in specific types of investments. The following generally represents the types of instruments allowable by state law:

- Securities issued or guaranteed by the United States.
- Interest-bearing accounts of financial institutions insured by the Federal Deposit Insurance Corporation.
- Short-term obligations (less than 180 days) of U.S. corporations with assets over \$500,000,000 rated in the highest classifications by at least two rating agencies.
- Insured accounts of an Illinois credit union chartered under United States or Illinois law.
- Money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same types of obligations.
- The Illinois Funds Money Market Fund.
- The Illinois School District Liquid Asset Fund (ISDLAF+).
- Repurchase agreements, which meet instrument transactions, requirements of Illinois law.

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) is a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from participating members. This fund is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940. Investments are valued at net asset value (NAV) per share price, which is the price at which the investment could be sold, as determined by the pool.

Custodial Credit Risk. Custodial credit risk is the risk that, in the event of the failure of the bank or the counterparty, the District will not be able to recover the value of its deposits, investments, or collateral securities that are in possessions of an outside party. As of June 30, 2022, the District's bank balance of \$12,355,394 is exposed to custodial credit risk as follows:

Depository Account	Bank Balance
FDIC Insured Uncollateralized*	\$ 7,060,983 5,294,411
Total	\$ 12,355,394

<sup>\*</sup>Invested in accordance with the Public Treasurer's Investment Pool created under Section 17 of the State Treasurer's Act. Deposits with the Illinois School District Liquid Asset Fund and Max Cash Fund of \$5,294,411 are not insured by FDIC and are not collateralized by any private source.

#### **NOTE 4 - PROPERTY TAXES**

Property taxes receivable and unavailable revenue recorded in these financial statements are from the 2020 tax levy. The unavailable revenue is 100% of the 2021 tax levy, net of estimated uncollectible amounts. These taxes are unavailable as only a portion of the taxes are collected near the end of the fiscal year and the District does not consider the amounts to be available and does not budget for their use in fiscal year 2022. The District has determined that 100% of the amounts collected for the 2020 levy are allocable for use in fiscal year 2022. Therefore, 100% of the amounts collected for the 2020 and prior levies are recorded in these financial statements as property tax revenue. A summary of the assessed valuations and extensions for the past three years are as follows:

Tax Year		2021		2020	2019	
<b>Equalized Assessed</b>						
Valuation	\$215	,120,806	\$216	,097,600	\$223	3,248,668
	Rates	Extensions	Rates	Extensions	Rates	Extensions

Buildings and improvements	4	,207,635		438,055		-		4,645,690
Site improvements		653,740		74,927		-		728,667
Equipment and vehicles		734,041		59,533		-		793,574
Total	5	,595,416		572,515				6,167,931
Net capital assets being depreciated	12	,161,680		(331,142)			1	1,830,538
Net capital assets	\$ 13	,062,162	\$	(324,392)	\$		\$ 1	2,737,770

Depreciation expense is unallocted under functions/programs on the statement of activities.

#### **NOTE 6 - LONG-TERM LIABILITIES**

The following is the long-term liability activity for the District for the year ended June 30, 2022:

Governmental Activities	Beginning Balance	Incr	eases	D	ecreases	 Ending Balance	 Within e Year
Pensions* Other post-employment	\$ 315,371	\$	-	\$	112,583	\$ 202,788	\$ -
benefits (OPEB)	2,309,348		-		328,500	1,980,848	-
Total	\$ 2,624,719	\$	-	\$	441,083	\$ 2,183,636	\$ 

<sup>\*</sup>Illinois Municipal Retirement Fund (IMRF) Net Pension Asset of \$157,632 is not included (see Note 6A).

#### **Legal Debt Margin**

Based on the 2021 assessed valuation of \$215,120,806, the legal debt margin of 6.9% is \$14,843,337. At June 30, 2022, the outstanding debt to which the legal debt margin applies is \$-0-, leaving an available borrowing power of \$14,843,337.

#### **NOTE 7 – RETIREMENT SYSTEMS**

#### A. Illinois Municipal Retirement Fund (IMRF)

#### **IMRF Plan Description**

The employer's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The employer's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information (RSI). The report is available for download at www.imrf.org.

#### **Benefits Provided**

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011, (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

#### NOTE 7 - RETIREMENT SYSTEMS (CONT'D)

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

#### **Employees Covered by Benefit Terms**

As of December 31, 2021, the following employees were covered by the benefit terms:

December 31,	2021
Retirees and Beneficiaries currently receiving benefits	15
Inactive Plan Members entitled to but not yet receiving benefits	32
Active Plan Members	8
Total	55

#### Contributions

As set by statute, the employer's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer's annual required contribution rate for calendar year 2021 was 12.25%. For the fiscal year ended June 30, 2022, the employer contributed \$67,049 to the plan. The employer also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

#### **Net Pension Liability**

The employer's net pension liability was measured as of December 31, 2021. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

#### **Actuarial Assumptions**

The following are the methods and assumptions used to determine total pension liability at December 31, 2021:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.25%.
- Salary Increases were expected to be 2.85% to 13.75%, including inflation.
- The Investment Rate of Return was assumed to be 7.25%.

#### NOTE 7 - RETIREMENT SYSTEMS (CONT'D)

- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2020 valuation according to an experience study from years 2017 to 2019.
- For Non-Disabled Retirees, the Pub-2010, Amounted-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and female (adjusted 105%) tables, and future morality improvements projected using scale MP-2020.
- For Disabled Retirees, the Pub-2010, Amounted-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.
- For Active Members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future morality improvements projected using scale MP- 2020.
- The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

			Projected R	eturns/Risk
	Target	Return	One Year	Ten Year
Asset Class	Allocation	12/31/2021	Arithmetic	Geometric
Equities	39%	24.89%	3.25%	1.90%
International Equities	15%	9.78%	4.89%	3.15%
Fixed Income	25%	-0.44%	-0.50%	-0.60%
Real Estate	10%	21.95%	4.20%	3.30%
Alternatives	10%	46.46%		
Private Equity		N/A	8.85%	5.50%
Hedge Funds		N/A	N/A	N/A
Commodities		N/A	2.90%	1.70%
Cash Equivalents	1%	2.44%	-0.90%	-0.90%
Total	100%			

#### **Single Discount Rate**

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

#### NOTE 7 - RETIREMENT SYSTEMS (CONT'D)

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.25%; the municipal bond rate is 1.84%; and the resulting single discount rate is 7.25%.

#### **Changes in the Net Pension Liability**

	Total Pension Liability (A)		Plan Fiduciary Net Position (B)		et Pension pility/(Asset) (A) - (B)
Balances at December 31, 2020	\$	2,685,312	\$	2,594,091	\$ 91,221
Changes for the year Service Cost Interest on the Total Pension Liability Differences Between Expected and Actual Experience Changes of Assumptions Contributions - Employer Contributions - Employees Net Investment Income Benefits Payments and Refunds Other (Net Transfer)		44,328 191,203 50,475 - - - - (140,397)		- - 61,877 22,730 455,295 (140,397) (5,043)	44,328 191,203 50,475 - (61,877) (22,730) (455,295) - 5,043
Net Changes		145,609		394,462	(248,853)
Balances at December 31, 2021	\$	2,830,921	\$	2,988,553	\$ (157,632)

#### Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the plan's net pension liability, calculated using a Single Discount Rate of 7.25%, as well as what the plan's net pension liability would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher:

			Cui	rrent Single		
	1%	Decrease	Dis	count Rate	1%	Increase
	(	(6.25%)		(7.25%)	(	(8.25%)
Net Pension Liability/(Asset)	\$	137,475	\$	(157,632)	\$	(414,320)

### Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2022, the employer recognized pension (revenue) of \$(105,018). At June 30, 2022, the employer reported deferred outflows or resources and deferred inflows of resources related to pensions from the following sources:

#### NOTE 7 - RETIREMENT SYSTEMS (CONT'D)

Deferred Amounts Related to Pensions	Οι	Deferred utflows of esources	- Ir	Deferred of the sources
Deferred amounts to be recognized in pension expense in future periods  Differences between expected and actual experience	\$	12.969	\$	_
Changes of assumptions  Net difference between projected and actual earnings on pension plan investments		53,290		412,430
Total deferred amounts to be recognized in pension expense in future periods		66,259		412,430
Pension contributions made subsequent to the measurement date		34,246		
Total	\$	100,505	\$	412,430

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

Year Ending December 31	Out	et Deferred flows (Inflows) Resources
2022 2023 2024 2025 2026 Thereafter	\$	(68,214) (134,471) (89,601) (53,885) -
Total	\$	(346,171)

#### B. Teachers' Retirement System (TRS) of the State of Illinois

#### General Information about the Pension Plan

#### Plan Description

The employer participates in the Teachers' Retirement System (TRS) of the State of Illinois. TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the system's administration.

TRS issues a publicly available financial report that can be obtained at <a href="https://www.trsil.org">https://www.trsil.org</a>; by writing to TRS at 2815 W. Washington Street, P. O. Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

#### NOTE 7 - RETIREMENT SYSTEMS (CONT'D)

#### Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the highest four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier III hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2024. One program allows retiring Tier I members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier I and II members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the state of Illinois.

#### Contributions

The State of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the system up to 90 percent of the total actuarial liabilities of the system by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2021 was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

#### On-behalf contributions to TRS

The State of Illinois makes employer pension contributions on behalf of the employer. For the year ended June 30, 2022, State of Illinois contributions recognized by the employer were based on the State's proportionate share of the collective net pension liability associated with the employer, and the employer recognized revenue and expenditures of \$1,219,037 in pension contributions from the State of Illinois.

#### 2.2 formula contributions

Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2022, were \$12,944, and are deferred because they were paid after the June 30, 2021, measurement date.

#### NOTE 7 - RETIREMENT SYSTEMS (CONT'D)

Federal and special trust fund contributions

When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2022, the employer pension contribution was 10.31 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2022, salaries totaling \$-0-were paid from federal and special trust funds that required employer contributions of \$-0-. These contributions are deferred because they were paid after the June 30, 2021, measurement date.

#### Employer retirement contributions

Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2022, the employer paid \$ -0- to TRS for employer contributions due on salary increases in excess of 6 percent, \$-0- for excess of governor's statutory salary contributions, and \$-0- for sick leave days granted in excess of the normal annual allotment.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the employer reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the employer. The state's support and total are for disclosure purposes only. The amount recognized by the employer as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the employer were as follows:

Employer's proportionate share of the net pension liability State's proportionate share of the net pension liability	Ф	202,788
associated with the employer		16,995,749
Total	\$	17,198,537

The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021. The employer's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2021, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2021, the employer's proportion was 0.0002599464 percent and at June 30, 2020 was 0.0002599888 percent.

For the year ended June 30, 2022, the employer recognized pension expense of \$1,219,037 and revenue of \$1,226,450 for support provided by the state. At June 30, 2022, the employer reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

#### NOTE 7 - RETIREMENT SYSTEMS (CONT'D)

Deferred Amounts Related to Pensions	Οu	eferred atflows of esources	- In	Deferred of the sources
Deferred amounts to be recognized in pension				
expense in future periods	_			
Differences between expected and actual experience	\$	1,163	\$	836
Changes of assumptions		90		1,002
Changes in proportion and differences between employer				
contributions and proportionate share of contributions		4,796		13,994
Net difference between projected and actual earnings				
on pension plan investments		-		13,602
Total deferred amounts to be recognized in				
pension expense in future periods		6,049		29,434
·		0,0.0		20, 10 1
Pension contributions made subsequent to the				
measurement date		12,944		
Total	\$	18,993	\$	29,434

\$12,944 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30	Outf	et Deferred lows (Inflows) Resources
2023 2024 2025 2026 2027	\$	(4,998) (5,497) (6,581) (6,166) (143)
Total	\$	(23,385)

#### Actuarial Assumptions

The total pension liability in the June 30, 2021, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

**Inflation** 2.25 percent

Salary increases varies by amount of service credit

**Investment rate of return** 7.00 percent, net of pension plan investment expense, including inflation

In the June 30, 2021, actuarial valuation, mortality rates were based on the PubT-2010 Table with adjustments as appropriate for TRS experience. The rates are based on a fully-generational basis using projection table MP-2020. In June 30, 2020 actuarial valuation, moralities rates were based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully-generational basis using projection table MP-2017.

#### NOTE 7 - RETIREMENT SYSTEMS (CONT'D)

The long-term (20-year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. equities large cap	16.7%	6.2%
U.S. equities small/mid cap	2.2%	7.4%
International equities developed	10.6%	6.9%
Emerging market equities	4.5%	9.2%
U.S. bonds core	3.0%	1.6%
Cash equivalents	2.0%	0.1%
TIPS	1.0%	80.0%
International debt developed	1.0%	0.8%
Emerging international debt	4.0%	4.4%
Real estate	16.0%	5.8%
Private debt	10.0%	6.5%
Hedge funds	10.0%	3.9%
Private equity	15.0%	10.4%
Infrastructure	4.0%	6.3%
Total	100.0%	

#### Discount Rate

At June 30, 2021, the discount rate used to measure the total pension liability was 7.0 percent, which was the same as the June 30, 2020 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2021, was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially-funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate.

#### NOTE 7 - RETIREMENT SYSTEMS (CONT'D)

			(	Current		
	(		count Rate (7.00%)	1% Increase (8.00%)		
Employer's proportionate share of the net pension liability	\$	162,618	\$	202,788	\$	251,148

#### TRS Fiduciary Net Position

Detailed information about the TRS's fiduciary net position as of June 30, 2021, is available in the separately issued TRS *Annual Comprehensive Financial Report*.

#### A. Aggregate Pension Amounts

For the year ended June 30, 2022, aggregate pension amounts are as follows:

	IMRF		TRS	 Total
Deferred Outflows of Resources	\$	100,505	\$ 18,993	\$ 119,498
Net Pension (Asset)/Liability		(157,632)	202,788	45,156
Deferred Inflows of Resources		412,430	29,434	441,864
Pension Expense/(Revenue), Net of State Support		(105,018)	(7,413)	(112,431)

#### **B.** Social Security/Medicare

Employees not qualifying for coverage under the Illinois Teacher's Retirement System or the Illinois Municipal Retirement Fund are considered "nonparticipating employees". These employees and those qualifying for coverage under the Illinois Municipal Retirement Fund are covered under Social Security/Medicare.

#### **NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS**

#### A. Teachers' Health Insurance Security (THIS) Fund

#### General Information about the Plan

#### Plan Description

The employer participates in the Teachers' Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago.

#### Benefits Provided

The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state- administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

#### NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (CONT'D)

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. Effective July 1, 2012, in accordance with Executive Order 12-01, the plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund.

#### **Contributions**

The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

#### On-Behalf Contributions to the THIS Fund

The State of Illinois makes employer retiree health insurance contributions on behalf of the employer. State contributions are intended to match contributions to the THIS Fund from active members which were 0.90 percent of pay during the year ended June 30, 2022. State of Illinois contributions were \$20,085 and the employer recognized revenue and expenditures of this amount during the year.

#### Employer Contributions to the THIS Fund

The employer also makes contributions to the THIS Fund. The employer THIS Fund contribution was 0.67 percent during the year ended June 30, 2022. For the year ended June 30, 2022, the employer paid \$14,952 to the THIS Fund, which was 100 percent of the required contribution. The contributions are deferred because they were paid after the June 30, 2021, measurement date.

### THIS Liabilities, THIS Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to THIS

At June 30, 2021, the employer reported a liability for its proportionate share of the net THIS liability (first amount shown below). The state's support and total are for disclosure purposes only. The amount recognized by the employer as its proportionate share of the net THIS liability, the related state support, and the total portion of the net THIS liability that was associated with the employer were as follows:

Employer's proportionate share of the net THIS liability State's proportionate share of the net THIS liability	\$ 1,980,848
associated with the employer	2,685,741
Total	\$ 4,666,589

The net THIS liability was measured as of June 30, 2021, and the total THIS liability used to calculate the net THIS liability was determined by an actuarial valuation as of June 30, 2021. The employer's proportion of the net THIS liability was based on the employer's share of contributions to THIS for the measurement year ended June 30, 2021, relative to the projected contributions of all participating THIS employers and the state during that period. At June 30, 2021, the employer's proportion was 0.008981 percent and at June 30, 2020 was 0.008638 percent.

For the year ended June 30, 2022, the employer recognized THIS expense of \$35,022 and revenue of \$20,085 for support provided by the state. At June 30, 2022, the employer reported deferred outflows of resources and deferred inflows of resources related to THIS from the following sources:

#### NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (CONT'D)

Deferred Amounts Related to THIS	Out	eferred tflows of sources	- Ir	Deferred oflows of esources

T. (.)		· · · · · · · · · · · · · · · · · · ·	_	000 000
Total	\$	250,698	\$	869,909

\$14,952 reported as deferred outflows of resources related to THIS resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the THIS OPEB liability in the reporting year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to THIS will be recognized in THIS expense as follows:

Year Ending June 30	Outf	et Deferred lows (Inflows) Resources
2023 2024 2025 2026 2027 Thereafter	\$	(116,205) (116,195) (100,604) (77,111) (70,926) (138,170)
Total	\$	(619,211)

#### Actuarial Assumptions

The total THIS liability was determined by an actuarial valuation as of June 30, 2021, using the following actuarial assumptions, applied to all periods included in the measurement date, unless otherwise specified:

Inflation	2.50 percent
Salary increases	Depends on service and ranges from 9.50% at 1 year of service to 4.00% at 20 or more years of service. Salary increase includes a 3.25% wage inflation assumption.
Investment rate of return	2.75% percent, net of THIS plan investment expense, including inflation, for all plan years.
Healthcare cost trend rates	Trend for fiscal year ending 2022 based on expected increases used to develop average costs. For fiscal years ending on and after 2023, trend starts at 8.00% for non-Medicare costs and post-Medicare costs, and gradually decreases to an ultimate trend of 4.25%.

#### NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (CONT'D)

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table. All tables reflect future mortality improvements using Projection Scale MP-2017.

The actuarial valuation was based on the Entry Age Normal cost method. Under this method, the normal cost and actuarial accrued liability are directly proportional to the employee's salary. The normal cost rate equals the present value of future benefits at entry age divided by the present value of future salary at entry age. The normal cost at the member's attained age equals the normal cost rate at entry age multiplied by the salary at attained age. The actuarial accrued liability equals the present value of benefits at attained age less present value of future salaries at attained age multiplied by normal cost rate at entry age.

Given the significant benefit payable, negative asset value and pay-as-you-go funding policy, the long-term expected rate of return assumption was set at zero.

#### Discount Rate

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on THIS plan investments (to the extent that the plan fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since THIS is financed on a pay-as-you-go basis, a discount rate consistent with fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity's index's "20-year Municipal GO AA Index" has been selected. The discount rates are 1.92% as of June 30, 2021, and 2.45% as of June 30, 2020.

Sensitivity of the Employer's Proportionate Share of the Net THIS Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the net THIS liability calculated using the discount rate of 1.92 percent, as well as what the employer's proportionate share of the net THIS liability would be if it were calculated using a discount rate that is 1-percentage-point lower (0.92 percent) or 1-percentage-point higher (2.92 percent) than the current rate.

		Current	
	1% Lower	Discount Rate	1% Higher
	(0.92%)	(1.92%)	(2.92%)
Net THIS Liability	\$ 2,379,516	\$ 1,980,848	\$ 1,664,751

Sensitivity of the Employer's Proportionate Share of the Net THIS Liability to Changes in the Health Care Trend Rate

The following presents the employer's proportionate share of the net THIS liability calculated using the health care trend rate of 8.00 percent, as well as what the employer's proportionate share of the net THIS liability would be if it were calculated using a health care trend rate that is 1-percentage-point lower (7.00 percent) or 1-percentage-point higher (9.00 percent) than the current rate.

		Current		
	1% Lower	Discount Rate	1% Higher	
	(7.00%)	(8.00%)	(9.00%)	
Net THIS Liability	\$ 1,585,725	\$ 1,980,848	\$ 2,517,465	

#### NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (CONT'D)

#### Further information on the THIS Fund

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: <a href="http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp">http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp</a>. The current reports are listed under "Central Management Services." Prior reports are available under "Healthcare and Family Services".

#### **NOTE 9 – JOINT VENTURE**

The District has entered into a joint agreement to provide special education programs and services to the students enrolled. Each member district has a financial responsibility for annual and special assessments as established by the management council. The District believes that because it does not control the selection of the governing authority, and because of the control over employment of management personnel, operations, scope of public service, and special financing relationships exercised by the joint agreement governing boards, these are not included as component units of the District. Complete financial statements for NSSED can be obtained from the Administrative Offices at 760 Red Oak Lane, Highland Park, IL 60035-3899.

#### **NOTE 10 - RISK MANAGEMENT**

The District is exposed to various risks of loss related to employee health benefits; workers' compensation claims; theft of, damage to, and destruction of assets; and natural disasters. To protect from such risks, the District participates in a public entity risk pool, the Collective Liability Insurance Cooperative (CLIC). The District pays annual premiums to the pool for insurance coverage. The arrangements with the pools provide that each will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain levels established by the pool. There have been no significant reductions in insurance coverage from coverage in any of the past three fiscal years.

The District continues to carry commercial insurance for all other risks of loss, including torts and professional liability insurance. Premiums have been recorded as expenditures in the appropriate funds. There have been no significant reductions in insurance coverage from coverage in the prior years. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The District believes that because it does not control the selection of the above governing authorities, and because of the control over employment of management personnel, operations, scope of public service, and special financing relationships exercised by the joint agreement governing boards, these are not included as component units of the District.

#### **NOTE 11 - CONTINGENCIES**

The District is not aware of any litigation which might have a material adverse effect on the District's financial position.

#### **NOTE 12 - SUBSEQUENT EVENTS**

Subsequent events are events or transactions that occur after the balance sheet date but before the financial statements are issued or available to be issued. There are two types of subsequent events: recognized (events that relate to conditions present at the balance sheet date) and non-recognized (events or conditions that did not exist at the balance sheet date but arose after that date).

There have been no recognized or non-recognized subsequent events that have occurred between June 30, 2022, and the date of this audit report requiring disclosure in the financial statements.

### Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2021 Contribution Rate\* Valuation Date

Notes

Actuarially determined contribution rates are calculated as of December 31 each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.

#### Methods and Assumptions Used to Determine 2021 Contribution Rates

Actuarial Cost Method Aggregate entry age normal
Amortization Method Level percentage of payroll, closed

Remaining Amortization Period 22-year closed period

Asset Valuation Method 5-year smoothed market; 20% corridor

Wage Growth 3.25%
Price Inflation 2.50%

Salary Increases 3.35% to 14.25%, including inflation

Investment Rate of Return 7.25%

Retirement Age Experience-based table of rates that are specific to the type of eligibility

condition; last updated for the 2017 valuation pursuant to an experience

study of the period 2014 to 2016.

Mortality For non-disabled retirees, an IMRF specific mortality table was used with

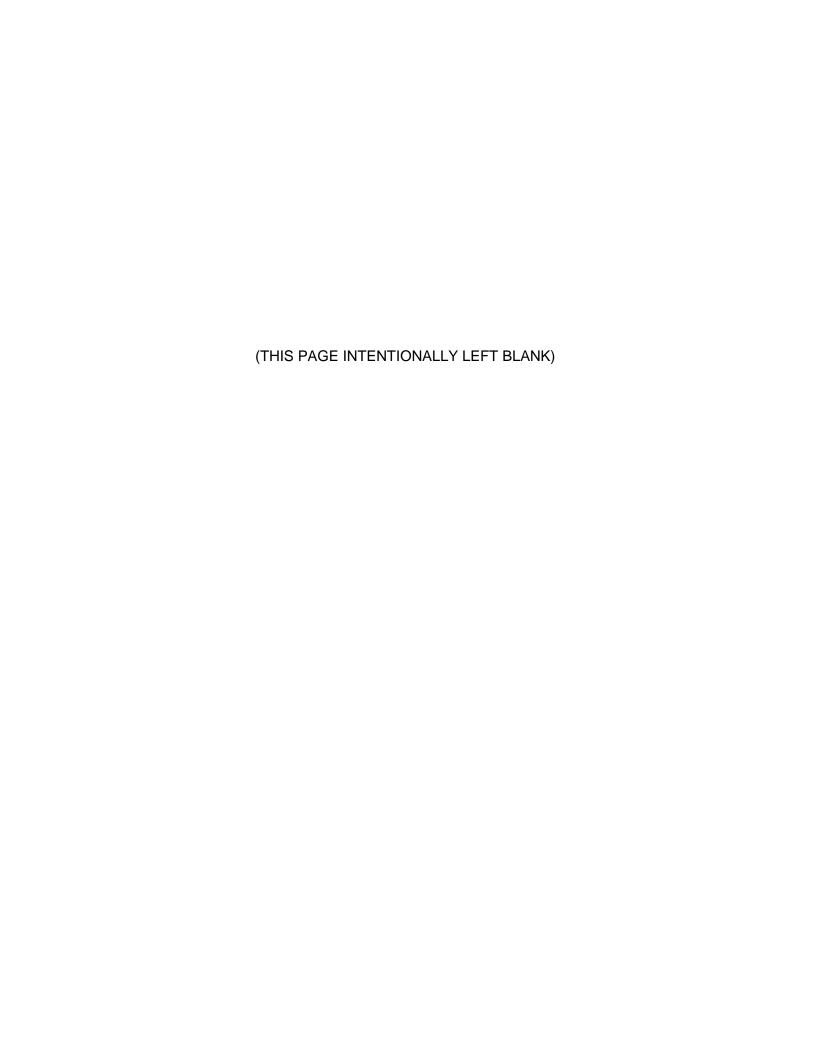

fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with

adjustments to match current IMRF experience.

#### Other Information:

Notes There were no benefit changes during the year.

<sup>\*</sup>Based on Valuation Assumptions used in the December 31, 2019 actuarial valuation.

## BANNOCKBURN SCHOOL DISTRICT NO. 106 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2022

### NOTE 1 - TEACHERS' RETIREMENT SYSTEM (TRS) OF THE STATE OF ILLINOIS

### Changes of Assumptions

For the 2021 measurement years, the assumed investment rate of return was 7.0 percent, including an inflation rate of 2.25 percent and a real return of 4.75 percent. Salary increases were assumed to vary by service credit 2019 and 2020. These actuarial assumptions were based on an experience study dated September 30, 2021.

For the 2016-2020 measurement years, the assumed investment rate of return was 7.0 percent, including an inflation rate of 2.5 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit and were consistent in 2019 and 2020. These actuarial assumptions were based on an experience study dated September 18, 2018.

For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience for the three-year period ending June 30, 2014.

### NOTE 2 - TEACHERS' HEALTH INSURANCE SECURITY (THIS) FUND

### Changes of Assumptions

The discount rate was changed from 2.45 percent at June 30, 2020, to 1.92 percent at June 30, 2021. The healthcare trend assumption was updated based on claim and enrollment experience through June 30, 2020, projected plan cost for plan year end June 30, 2021, premium changes through plan year end 2022, and expectation of future trend increases after June 30, 2021. Since the Excise Tax was repealed, the Excise Tax trend adjustment was removed. Per capita claim costs for plan year end June 30, 2021, were updated based on projected claims and enrollment experience through June 30, 2020, and updated premium rates through plan year 2022. Healthcare plan participation rates by plan were updated based on observed experience.

Amounts reported in 2021 reflect an investment rate of return of 2.75 percent, an inflation rate of 2.50 percent, and salary increases that vary by service credit. Amounts reported in 2020 reflect an investment rate of return of 2.75 percent, an inflation rate of 2.50 percent, and salary increases that vary by service credit. Amounts reported in 2019 reflect an investment rate of return of 0.00 percent, an inflation rate of 2.50 percent and salary increases that vary by amount of service credit. Amounts reported in 2018 reflect an investment rate of return of 0.00 percent, an inflation rate of 2.50, and salary increases that vary by service credit. In 2017, assumptions used were an investment rate of return of 0.00 percent, and inflation rate of 2.75 percent, and salary increases that vary by amount of service. In 2016, assumptions used were an investment rate of return of 0.00 percent, and inflation rate of 2.75 percent, and salary increases that vary by amount of service. In 2015 and 2014, assumptions used were an investment rate of return of 4.50 percent, and inflation rate of 3.00 percent, and salary increases that vary by amount of service.

#### **NOTE 3 – BUDGETS AND BUDGETARY ACCOUNTING**

The District follows procedures mandated by Illinois State law and District Board policy to establish the budgetary data reflected in its financial statements. The original budget was passed August 17, 2021. The final budget was passed June 23, 2022. The budget lapses at the end of each fiscal year.

The budgeted amounts in this report are the result of full compliance with the following procedures:

- 1. Prior to July 1, the Superintendent submits to the Board of Education a proposed operating budget for the fiscal year commencing on that date. The operating budget includes proposed expenditures and the means of financing them.
- 2. A public hearing is conducted to obtain taxpayer comments.

## BANNOCKBURN SCHOOL DISTRICT NO. 106 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2022

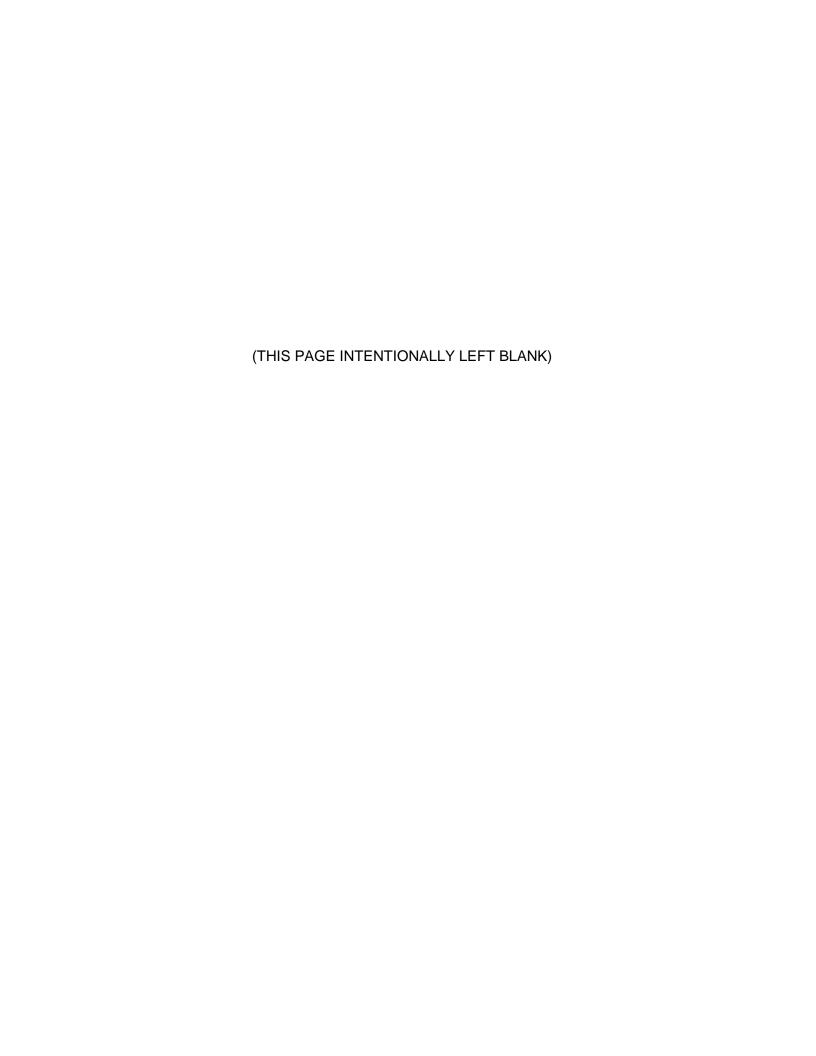

## NOTE 3 - BUDGETS AND BUDGETARY ACCOUNTING (CONT'D)

- 3. Prior to October 1, the budget is legally adopted through passage of a resolution.
- 4. Formal budgetary integration is employed as a management control device during the year.
- 5. The Board of Education may make transfers between the various items in any fund not exceeding in the aggregate 10% of the total of such fund as set forth in the budget.
- 6. The Board of Education may amend the budget (in other ways) by the same procedures required of its original adoption.

### EXPENDITURES IN EXCESS OF BUDGET

For the year ended June 30, 2022, the District operated within the confines of the budget.
