Review Meeting 4 Discussions and Impressions of the Community Forum

Topic for Review and Discussion – Immediate, Short- & Long-Term Needs

How can we translate our findings into projects that will improve and transform the facilities and learning environments in the district?

Exercise: Review the needs we have identified through the process so far, sort them into immediate, short- and long-term needs. Focus schools will be Lakewood ES, English Crossing ES, Lakewood MS and the Lakewood SD campus.

Process: Use Miro to sort and record the committee findings.

After this meeting: McGranahan Architects will craft projects from the descriptions created at Meeting 5 and bring them to the committee on May 9 at Meeting 6, where we will rank the projects according to need, cost, and funding resources. We will have the benefit of a bond consultant at Meeting 6 to help us learn about the funding capacity of the community.

Essential Questions for Consideration During Our Planning

What are the near-term improvements our school buildings need? How should we address them?

How can our school buildings better support students' experiences of safety, belonging, equity, curiosity and joy? How can they be better learning environments across the district?

What do we need to do with our school facilities to accommodate anticipated growth?

How can the Lakewood SD educational campus be improved with respect to play, daily traffic, and community use?
