HUMAN RESOURCES

ATTENDANCE REPORTING: ALL EMPLOYEES

Each employee is required to report absences through the Absence Reporting System. A monthly attendance reconciliation form is submitted to payroll to verify absences. The site secretary keeps the attendance record sheet and can assist in reporting non-attendance.

It is each employee's responsibility to sign the site/department timesheet at the end of each pay period.

The accuracy of the timesheet is also the employee's responsibility. The employee's initials next to the employee's name is verification that the information on the timesheet is correct. Employees need to check the information before they initial the site/department timesheet.

Personal necessity, personal leave, and vacation may require prior approval except in cases of emergency situations. Employees must ensure that the required form is completed.

Excessive absences can be grounds for disciplinary action by the District. This is specifically directed toward those employees who have shown a history of excessive absences and/or have not followed procedures on reporting or properly processing absences.

ABSENCE REPORTING: Smart Find Express

Whenever it is necessary for an employee to be absent, these procedures must be followed:

1. Any employee who is unable to work **MUST** notify the Absence Reporting System (Smart Find Express) at **(951) 223-4029 or online at least ninety (90) minutes** before their scheduled start time.

In an emergency, or if it is too late to report an absence in the Absence Reporting System, the employee must call and leave a message at (951) 926-9244, ext 1234.

2. Each teacher must have a lesson plan, seating chart(s), and attendance register in or on their desk or in the principal's office. This may be a current daily lesson plan or a review plan that is updated as needed.
3. Following an absence, each employee is required to complete the monthly attendance report.
4. Advance substitute requests for school business must be submitted to the site secretary two weeks in advance and be placed into the system by the employee unless other arrangements are made for the substitute request.
5. Per AR 4161.1 – The District may require written verification by the employee's physician or practitioner for any absence due to illness or injury. Such verification may be required whenever an employee's absence record shows chronic absenteeism or a pattern of absences immediately before or after weekends and/or holidays or whenever clear evidence indicates that an absence is not related to illness or injury.

LEAVES OF ABSENCE

Leaves with Pay

Leaves include, but are not limited to, sick leave, bereavement, personal necessity leave, industrial accident or illness leave, family leave, or jury duty. For medical leaves longer than five workdays, a leave of absence request form must be submitted to Human Resources with a physician's statement indicating the anticipated length of absence. To request an appropriate leave review current Bargaining Unit Agreements and contact the Human Resources office.

Bereavement Leave

All employees are entitled to five days of bereavement leave with three of those days being with no loss of compensation or 5 days if out of state.

Jury Duty

When an employee is required to serve jury duty, the absence is to be reported to the absence reporting system. The absence should be reported using the code indicating jury duty. All employees should attach the Jury Duty timecard to their absence reporting form.

School district employees will receive payment of mileage and may keep this payment from the courts. There will be no deduction from the employee's sick leave or vacation hours.

Pre-Approved Absences

Personal necessity, personal leave, and vacation requests may require prior approval. Employees are to refer to the CSEA and RTA contracts, as applicable, for specific information regarding the use of personal necessity and personal leave.

Personal necessity and personal leave days are deducted from the employee's sick leave. (If an employee has exhausted sick leave benefits, these days are considered unpaid days and deductions are made from the employee's check.)

Sick Leave

Certificated employees are entitled to 10 days of sick leave for a full-time, ten-month contract. Employees working less than a full year earn a prorated amount of sick leave based on their schedule.

Classified employees are entitled to sick leave based on the number of hours worked each day and the number of months worked each year. A 12-month, eight hour per day employee earns 12 days of sick leave (96 hours) per year. Employees working less than twelve months/eight hours earn a prorated amount of sick leave based on their schedule and/or date of hire.

When either a classified or certificated employee exhausts all available paid sick leave, adjustments will be made to the employee's pay based upon the details of the unpaid absence.

VACATION

With the implementation of level pay, 10- and 11-month employees receive their base vacation pay monthly in their paychecks over an 11-month pay cycle. Vacation days beyond the base vacation leave can be used within the employee's contract year.

There will be no change for 12-month employees, who will continue to use vacation days during their 12-month schedules.

Vacation leave is expected to be taken during the year in which it is earned. In the event that an employee has accrued vacation leave from a prior year, 10% of the accrued leave must also be taken during the current year.

Leaves without Pay

Leave of absences without pay may be approved for employees of permanent status when there is a definite intent upon the part of the employee to return at the end of the designated period. Reasons for leave without pay may include: travel, research/study, illness or convalescence, for rest, or for other professional activities. Requests for such leave must be submitted to the District Human Resources Office in accordance with Bargaining Unit agreements.

TUBERCULOSIS (TB) TESTING PROCEDURES

All employees, when first hired, must show evidence of a negative TB test result. The TB test must have been performed within sixty days of the employee's hire date.

Subsequently, all employees must be tested for tuberculosis every four years. The District Nurse can read the test, eliminating the need for an employee to return to the doctor's office. Employees are to ensure that their test is performed on a day when, two days later, the District Nurse is able to read the test.

The District will pay for the first TB test. If an employee fails to return (to the doctor or see the District Nurse) to have the test read and must undergo another test, the employee is responsible for paying for any subsequent tests required due to failure to have the first test read.

VERIFICATION OF EMPLOYMENT

Only the Human Resources Department is authorized to verify employment or wages; an employee's worksite is not authorized to provide such verification. Verification of employment could be for the following:

1. Loans
2. Unemployment claims
3. Disability claims
4. Any other purpose

All requests must be sent to: Romoland School District
Human Resources Department
29100 Leon Road
Homeland, CA 92584

CREDENTIAL RENEWAL

All clear, professional, and professional clear credential holders are required to renew their credentials online at www.ctc.ca.gov. This must be done prior to the expiration date to ensure there is no delay in pay.

The Human Resources Department is available to help and advise employees. However, the ultimate responsibility for being aware of the requirements for renewing credential(s) and the expiration date(s) of the credential(s) is that of the individual teacher or administrator.

WORKPLACE VIOLENCE

All Romoland School District employees are required to report cases of workplace violence to a school site or district manager. The Workplace Violence Prevention Plan (WVPP) is located at the end of this staff handbook and includes a copy of the reporting form that needs to be completed in the event of an incident of workplace violence.

DISASTER SERVICE WORKER

All employees of the District are public employees; therefore, are considered disaster service workers. That means that all employees must remain on the job or, if at home, may be called into work to aid in the response and recovery phases of a disaster or emergency. In most cases, the District will assign duties based on the needs of the City to carry out its responsibilities during times of disaster. Duties may be outside an employee's regular scope of work or schedule; however, established work restrictions continue to apply.

Employees are strongly encouraged to prepare an emergency plan for their family for such events. Resources and information to assist with creating a home and family disaster preparation plan can be found at www.ReadyLA.org and www.RedCross.org.

GC 3100. It is hereby declared that the protection of the health and safety and preservation of the lives and property of the people of the state from the effects of natural, manmade, or war-caused emergencies which result in conditions of disaster or in extreme peril to life, property, and resources is of paramount state importance requiring the responsible efforts of public and private agencies and individual citizens. In furtherance of the exercise of the police power of the state in protection of its citizens and resources, all public employees are hereby declared to be disaster service workers subject to such disaster service activities as may be assigned to them by their superiors or by law.

PAYROLL

PAY DATES AND PAYROLL WARRANTS

Employees are compensated on a monthly pay cycle on one of three separate payrolls (A, B, and M payrolls). The payroll is based upon the specific assignment of the employee.

A payroll - Substitute employees.

B payroll - Classified employees on an hourly salary schedule and early childhood education staff.

M payroll - All certificated and management employees and classified employees on a monthly salary schedule.

DIRECT DEPOSIT

All employees are offered the opportunity to have their payroll checks deposited to their financial institution by electronic transfer. Interested employees may download the form from the Human Resources website, then complete and return the form with a voided check and/or savings statement to the Payroll department.

(FICA) SOCIAL SECURITY AND MEDI-CARE

Certificated employees of the district contribute 1.45% of their earnings to the Social Security Administration for Medicare coverage. The district matches this contribution.

Classified employees of the district contribute 7.65% of their earnings to the Social Security Administration for Social Security benefits. These benefits include Medicare. The district matches this contribution.

Interested employees should contact the nearest Social Security Office for additional information.

CHANGES TO PERSONAL INFORMATION

The *Employment Record Change* form is used to inform the Human Resources and Business Services Departments of changes in name, address, phone, emergency information, and/or any other personal information. A copy of this form is available on the District website under [Human Resources/forms](#).

If the employee has insurance through the District, the employee must also complete forms to change their name and/or address with the individual companies. Assistance may be provided through the Business Services Department.

NAME CHANGE

Please contact the Human Resources Department to process a name change. A name change cannot be processed until the employee has received a new Social Security card with the new name. The employee must also complete new withholding forms (W-4, Federal / DE-4, State).

HEALTH INSURANCE PROGRAM

Romoland School District provides eligible employees with a health and welfare insurance program that includes family medical, dental, vision, employee-only life insurance, and employee-only accidental death and dismemberment (AD&D) insurance.

The District currently contributes an annual cap of \$11,500 toward the health and welfare package for all full-time employees. The annual health and welfare contribution is part of an employee's compensation package and is earned while that employee is in a paid status.

Employees do have the ability to opt out of health insurance if the employee can establish that they have health insurance coverage through another source.

Employees covered in individual coverage, such as Tricare, Medicare, Medi-Cal, and Covered California, are not eligible to receive cash in lieu of other health coverage, even if the coverage provides minimum value.

OPEN ENROLLMENT

The District conducts an annual open enrollment for all employees who are eligible for health and welfare insurance. Changes in insurance options must take place during the open enrollment period unless there is a qualifying event within the family that would allow for a change to take place outside of the open enrollment period.

CHANGES IN DEPENDENT STATUS

It is a major responsibility of the employee to notify the Business Services Department of any changes in dependent status. Failure to do so may result in non-coverage of a dependent. The notification must be submitted formally in writing within 30 days of a qualifying event:

1. *Change in marital status:* marriage, death of a spouse, divorce, legal separation, or annulment.
2. *Change in the number of dependents:* birth, death, or adoption of a child, or placement of a child for adoption.
3. *Change in employment status:* commencement or termination of employment, strike or lockout, commencement or return from an unpaid leave of absence, change in worksite, or any of these events that may apply to the employee, the employee's spouse, or the employee's dependent(s).
4. *Change in residence:* change in the place of residence of the employee or the employee's spouse or dependent.

New enrollment forms must be completed in all of the above cases, with proof of event included. In the case of divorce or over-age dependents, the District or Plan Administrator must offer the ex-spouse and/or former dependent the opportunity to purchase insurance coverage through C.O.B.R.A. Contact the Business Services Department with any questions regarding the health benefit program.

FLEXIBLE BENEFIT PLAN

The Internal Revenue Code Section 125 Flexible Benefit Plan is a voluntary plan that affords employees the opportunity to pre-tax certain insurance premiums and other types of expenses, such as unreimbursed medical and dependent care costs. A representative of American Fidelity Assurance Company (the District's administrator) is available to speak with employees to fully explain the program. Under federal guidelines, if an

employee does not sign up for the plan, the employee will be required to sign a waiver indicating that they have been provided an opportunity to participate and have chosen to decline.

New employees can sign up once the employment process is finalized. The plan year is July 1 through June 30. Open enrollment meetings for this program are held during the Spring of each year.

DISABILITY/INCOME PROTECTION INSURANCE

Romoland School District does not participate in the State Disability Insurance (SDI) system.

American Fidelity has disability plans for employees. Contact Angie Newman at American Fidelity at (800) 365-9180, ext. 312) for more information.

PROFESSIONAL GUIDELINES

MAINTAINING APPROPRIATE ADULT-STUDENT INTERACTIONS

To provide a positive school environment that protects the safety and well-being of district students, all adults with whom students may interact at school or in school-related activities, including employees, independent contractors, and volunteers, are expected to maintain the highest professional and ethical standards in their interactions with students both within and outside the educational setting. Such adults shall not engage in unlawful or inappropriate interactions with students including any conduct of a sexual nature and shall avoid boundary-blurring behaviors that undermine trust in the adult-student relationship and lead to the appearance of impropriety.

Adults shall not intrude on a student's physical or emotional boundaries unless necessary in an emergency or to serve a legitimate purpose related to instruction, counseling, student health, or student or staff safety.

Any employee who observes or has knowledge of another employee's violation of these guidelines shall report the information to the Human Resources Department or appropriate agency for investigation pursuant to the applicable complaint procedures. Other adults with knowledge of any violation of the policy are encouraged to report the violation to the Human Resources Department. Anyone who reports a violation shall be protected from retaliation. Immediate intervention shall be implemented when necessary to protect student safety or the integrity of the investigation.

Employees who engage in any conduct in violation of the policy, including retaliation against a person who reports the violation or participates in the complaint process, shall be subject to discipline, up to and including dismissal. Any other adult who violates this policy may be barred from school grounds and activities in accordance with law. The District may also notify law enforcement as appropriate.

Inappropriate Conduct. Employees shall remain vigilant of their position of authority and not abuse it when relating with students. Examples of employee conduct that can undermine professional adult-student interactions or create the appearance of impropriety include, but are not limited to:

1. Initiating inappropriate physical contact
2. Being alone with a student outside of the view of others
3. Visiting a student's home or inviting a student to visit the employee's home without parent/guardian consent
4. Maintaining personal contact with a student that has no legitimate educational purpose, by phone, letter, electronic communications, or other means, without including the student's parent/guardian or the principal
5. When communicating electronically with students, employees shall use district equipment or technological resources when available. Employees shall not communicate with students through any medium that is designed to eliminate records of the communications. The Superintendent or designee may monitor employee usage of district technology at any time without advance notice or consent.
6. Creating or participating in social networking sites for communication with students, other than those created by the district, without the prior written approval of the principal or designee
7. Inviting or accepting requests from students, or former students who are minors, to connect on personal social networking sites (e.g., "friending" or "following" on social media), unless the site is dedicated to school business
8. Singling out a particular student for personal attention and friendship, including giving gifts and/or nicknames to individual students
9. Addressing a student in an overly familiar manner, such as by using a term of endearment
10. Socializing or spending time with students outside of school-sponsored events, except as participants in community activities

11. Sending or accompanying students on personal errands unrelated to any legitimate educational purpose
12. Transporting a student in a personal vehicle without prior authorization.
13. Disclosing private personal or family matters to students or sharing personal secrets with students

PRIVACY RIGHTS OF STUDENTS

The Family Educational Rights and Privacy Act (FERPA) (20 USC 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) Privacy Rule provides federal protections for personal health information held by covered entities and gives patients an array of rights with respect to that information. At the same time, the Privacy Rule is balanced so that it permits the disclosure of personal health information needed for patient care and other important purposes.

Student educational and health information **MUST** be kept out of visual sight of any students, other staff or individuals. There are serious consequences (including financial penalties) that can be imposed if any health information is seen by anyone who does not have a 'need to know'. Consequences for doing this, cannot not only seriously 'damage' students who may have had their privacy violated, but also can result in serious fines (both individually and on the District). It is the role of all employees to ensure that they not only have appropriate and current health information on students, but that it is safeguarded appropriately.

RESTRAINT AND SECLUSION OF STUDENTS

Restraint and seclusion should only be used as a safety measure of last resort to control behavior that poses a clear and present danger of serious physical harm to the student or to others that cannot be immediately prevented by a response that is less restrictive; whenever possible, the use of seclusion or behavioral restraint techniques should be avoided. Restraint and seclusion should never be imposed as a means of coercion, discipline, convenience, or retaliation by staff. This is because restraint and seclusion can cause serious injury or long-lasting trauma and death, even when done safely and correctly.

The following is a summary of the provisions detailed in EC 49005 *et seq.*:

Physical Restraint

Physical restraint means any personal restriction that immobilizes or reduces the student's ability to move their torso, arms, legs, or head freely. It does not include:

- A physical escort, which means a temporary touching or holding of the hand, wrist, arm, shoulder, or back for the purpose of inducing a student who is acting out to walk to a safe location.
- The use of force by peace officers or security personnel for detention or for public safety purposes.

Staff may not do any of the following:

- Use a physical restraint technique that obstructs a student's respiratory airway or impairs the student's breathing or respiratory capacity, including techniques in which a staff member places pressure on a student's back or places body weight against the student's torso or back.
- Place a student in a facedown position with the student's hands held or restrained behind the student's back.

Mechanical Restraint

Mechanical restraint means the use of a device or equipment to restrict a student's freedom of movement. It does not include the use of devices by:

- Peace officers or security personnel for detention or for public safety purposes.
- Trained school personnel, or by a student, prescribed by an appropriate medical or related services professional, if the device is used for the specific and approved purpose for which the device or equipment was prescribed, which shall include, but not be limited to, all of the following:
 - Adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports.
 - Vehicle safety restraints when used as intended during the transport of a student in a moving vehicle.
 - Restraints for medical immobilization.
 - Orthopedically prescribed devices that permit a student to participate in activities without risk of harm.

Seclusion

Seclusion means the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. It does not include a timeout, which is a behavior management technique that is part of an approved program, that involves the monitored separation of the student in a non-locked setting, and is implemented for the purpose of calming.

For a student who is secluded, staff must keep constant, direct observation of the student, which may be done through a window, or another barrier, where staff is able to make direct eye contact with the student. The observation cannot be through indirect means, including through a security camera or a closed-circuit television.

MOLESTATION PREVENTION

In order to reduce the likelihood of a staff member being charged with allegations of sexual misconduct with a minor, both substantiated and unsubstantiated, it is the responsibility of all staff to take affirmative steps to eliminate circumstances in which a staff member is alone with a student in an area not visible to others.

Examples would include, but not be limited to:

- A. *Classroom, offices, or other building spaces without uncovered windows that allow easy viewing from the outside:* Staff shall not be alone with a student in such areas without keeping the door open to the outside in such a manner as to allow passer-bys to easily see inside the room.
- B. *Vehicles:* Except in the case of an emergency, staff shall never be alone in a vehicle with a student without verified authorization from a parent/guardian.
- C. *Leaving campus:* Board policy disallows students from leaving campus without verified authorization from the parent/guardian. All staff members are expected to abide by this policy.
- D. *Off campus:* Staff shall not meet alone with any student off campus during school hours or authorized school activity without verified authorization from the parent/guardian, and are strongly advised against doing so on personal time as well.

MESSAGES

In order to provide outstanding customer service, telephone calls and emails should be returned within 24 hours.

PERSONAL CELL PHONE USAGE

The District recognizes that personal calls and electronic communications may occasionally need to be made during the workday. These communications should be made during the employee's designated break or lunch time or before or after school. The following are additional guidelines related to cell phone usage during working hours:

1. While working in the classroom, cell phones should be turned to *Vibrate*, *Silent*, or *Off* mode to minimize classroom interruptions.
2. At no time should an employee be talking on the cell phone while working with or supervising students.
3. Cell phones may not be used to take pictures of children or record any activity in the classroom for personal use.

VALUABLES

Collection of Money. The District realizes the need to collect money from students/parents for a variety of activities. In order to collect money for any reason(s), it must be first approved in writing by the principal. Money or any other valuables collected should be recorded and turned in per site procedures.

Lost & Found. Money and other valuable items found should be turned in to the site office along with information on when it was found and by whom. Such items will be placed in the "Lost & Found" receptacles.

1. All items placed in "Lost & Found" are not to be removed without permission from office staff who are assigned by the principal.
2. Staff members, regardless of position, should not take any item out of the "Lost & Found" without the presence of another staff member regardless of the value of the item.

FAMILY CARE AND MEDICAL LEAVE & PREGNANCY DISABILITY LEAVE

Under California law, an employee may have the right to take job-protected leave to care for their own serious health condition or a family member with a serious health condition, or to bond with a new child (via birth, adoption, or foster care). California law also requires employers to provide job-protected leave and accommodations to employees who are disabled by pregnancy, childbirth, or a related medical condition.

Under the California Family Rights Act of 1993 (CFRA), many employees have the right to take job-protected leave, which is leave that will allow them to return to their job or a similar job after their leave ends. This leave may be up to 12 work weeks in a 12-month period for:

- the employee's own serious health condition;
- the serious health condition of a child, spouse, domestic partner, parent, parent-in-law, grandparent, grandchild, sibling, or someone else with a blood or family-like relationship with the employee ("designated person"); or
- the birth, adoption, or foster care placement of a child.

If an employee takes leave for their own or a family member's serious health condition, leave may be taken on an intermittent or reduced work schedule when medically necessary, among other circumstances.

Eligibility. To be eligible for CFRA leave, an employee must have more than 12 months of service with their employer, have worked at least 1,250 hours in the 12-month period before the date they want to begin their leave, and their employer must have five or more employees.

Pay and Benefits During Leave. While the law provides only unpaid leave, some employers pay their employees during CFRA leave. In addition, employees may choose (or employers may require) use of accrued paid leave while taking CFRA leave under certain circumstances. Employees on CFRA leave may also be eligible for benefits administered by the Employment Development Department.

Taking CFRA leave may impact certain employee benefits and seniority date. If employees want more information regarding eligibility for a leave and/or the impact of the leave on seniority and benefits, they should contact their employer.

Pregnancy Disability Leave. Even if an employee is not eligible for CFRA leave, if disabled by pregnancy, childbirth or a related medical condition, the employee is entitled to take a pregnancy disability leave of up to four months, depending on their period(s) of actual disability. If the employee is CFRA-eligible, they have certain rights to take both a pregnancy disability leave and a CFRA leave for reason of the birth of their child.

Reinstatement. Both CFRA leave and pregnancy disability leave contain a guarantee of reinstatement to the same position or, in certain instances, a comparable position at the end of the leave, subject to any defense allowed under the law.

Notice. For foreseeable events (such as the expected birth of a child or a planned medical treatment for the employee or of a family member), the employee must provide, if possible, at least 30 days' advance notice to their employer that they will be taking leave. For events that are unforeseeable, employees should notify their

Failure to comply with these notice rules is grounds for, and may result in, denial of the requested leave until the employee complies with this notice policy.

Certification. Employees may require certification from an employer's health care provider before allowing leave for pregnancy disability or for the employee's own serious health condition. Employees may also require certification from the health care provider of the employer's family member, including a designated person, who has a serious health condition, before granting leave to take care of that family member.

PREGNANT EMPLOYEES

If you are pregnant, have a pregnancy-related medical condition, or are recovering from childbirth, please read this notice. These are your rights and obligations as a pregnant employee.

YOUR EMPLOYER* HAS AN OBLIGATION TO

- Reasonably accommodate your medical needs related to pregnancy, childbirth, or related conditions (such as temporarily modifying your work duties, providing you with a stool or chair, or allowing more frequent breaks);
- Transfer you to a less strenuous or hazardous position (if one is available) or duties if medically needed because of your pregnancy;
- Provide you with pregnancy disability leave (PDL) of up to four months (the working days you normally would work in one-third of a year or 17 1/3 weeks) and return you to your same job when you are no longer disabled by your pregnancy or, in certain instances, to a comparable job. Taking PDL, however, does not protect you from non-leave related employment actions, such as a layoff;
- Provide a reasonable amount of break time and use of a room or other location in close proximity to the employee's work area to express breast milk in private as set forth in the Labor Code; and
- Never discriminate, harass, or retaliate on the basis of pregnancy.

FOR PREGNANCY DISABILITY LEAVE

- PDL is not for an automatic period of time, but for the period of time that you are disabled by pregnancy, childbirth, or related medical condition. Your health care provider determines how much time you will need.
- Once your employer has been informed that you need to take PDL, your employer must guarantee in writing that you can return to work in your same or a comparable position if you request a written guarantee. Your employer may require you to submit written medical certification from your health care provider substantiating the need for your leave.
- PDL may include, but is not limited to, additional or more frequent breaks, time for prenatal or postnatal medical appointments, and doctor-ordered bed rest, and covers conditions such as severe morning sickness, gestational diabetes, pregnancy-induced hypertension, preeclampsia, recovery from childbirth or loss or end of pregnancy, and/or postpartum depression.
- PDL does not need to be taken all at once but can be taken on an as-needed basis as required by your health care provider, including intermittent leave or a reduced work schedule.
- Your leave will be paid or unpaid depending on your employer's policy for other medical leaves. You may also be eligible for state disability insurance or Paid Family Leave (PFL), administered by the California Employment Development Department.
- At your discretion, you can use any vacation or other paid time off during your PDL.
- Your employer may require or you may choose to use any available sick leave during your PDL.
- Your employer is required to continue your group health coverage during your PDL at the same level and under the same conditions that coverage would have been provided if you had continued in employment continuously for the duration of your leave.
- Taking PDL may impact certain of your benefits and your seniority date; please contact your employer for details.

NOTICE OBLIGATIONS AS AN EMPLOYEE

- Give your employer reasonable notice. To receive reasonable accommodation, obtain a transfer, or take PDL, you must give your employer sufficient notice for your employer to make appropriate plans. Sufficient

SEXUAL HARASSMENT

This sexual harassment policy shall apply to all district employees, interns, volunteers, contractors, job applicants, and other persons with an employment relationship with the district. Its accompanying administrative regulation shall apply to all allegations of sexual harassment involving employees, interns, volunteers, and job applicants, but shall not be used to resolve any complaint by or against a student.

(BP/AR 4119.11, 4219.11, 4319.11)

Sexual harassment against district employees and retaliatory behavior or action against any person who complains, testifies, or otherwise participates in the complaint process is prohibited. Sexual harassment includes, but is not limited to, harassment that is based on the sex, gender, gender identity, gender expression, or sexual orientation of the victim and harassment based on pregnancy, childbirth, or related medical conditions.

Definitions. Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (EC 212.5; GC 12940; 2 CCR 11034)

4. Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district.

For purposes of applying the complaint procedures specified in Title IX of the Education Amendments of 1972, sexual harassment is defined as any of the following forms of conduct that occurs in an education program or activity in which a district school exercises substantial control over the context and respondent: (34 CFR 106.30, 106.44)

1. A district employee conditioning the provision of a district aid, benefit, or service on the person's participation in unwelcome sexual conduct
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity
3. Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291

Examples of Sexual Harassment. Examples of actions that might constitute sexual harassment under state or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

1. Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
2. Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects

1. Providing training to employees in accordance with law and administrative regulation
2. Publicizing and disseminating the district's sexual harassment policy to employees and others to whom the policy may apply
3. Ensuring prompt, thorough, fair, and equitable investigation of complaints
4. Taking timely and appropriate corrective/remedial action(s), which may require interim separation of the complainant and the alleged harasser and subsequent monitoring of developments

The Superintendent or designee shall periodically evaluate the effectiveness of the district's strategies to prevent and address harassment. Such evaluation may involve conducting regular anonymous employee surveys to assess whether harassment is occurring or is perceived to be tolerated, partnering with researchers or other agencies with the needed expertise to evaluate the district's prevention strategies, and using any other effective tool for receiving feedback on systems and/or processes. As necessary, changes shall be made to the harassment policy, complaint procedures, or training.

Training. Every two years, the District shall ensure that supervisory employees receive at least two hours, and nonsupervisory employees receive at least one hour, of classroom or other effective interactive training and education regarding sexual harassment. All newly hired employees and employees promoted to a supervisory position shall receive training within six months of their assumption of the new position. (GC 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district, to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (GC 12926)

Such training may be completed by employees individually or as part of a group presentation, may be completed in shorter segments as long as the applicable hourly requirement is met, and may be provided in conjunction with other training provided to the employees. The training shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation. (GC 12950.1)

The district's sexual harassment training and education program shall include, but is not limited to, the following: (GC 12950.1; 2 CCR 11024)

5. Supervisors' obligation to report sexual harassment, discrimination, and retaliation of which they become aware
6. Practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources
7. The limited confidentiality of the complaint process
8. Resources for victims of unlawful harassment, such as to whom they should report any alleged harassment
9. Steps necessary to take appropriate remedial measures to correct harassing behavior, which includes the district's obligation to conduct an effective workplace investigation of a harassment complaint
10. What to do if the supervisor is personally accused of harassment
11. The essential elements of the district's anti-harassment policy, and how to use the policy if a harassment complaint is filed
Employees shall receive a copy of the district's sexual harassment policy and administrative regulations, which they shall read and acknowledge that they have received.
12. Information, including practical examples, of harassment based on gender identity, gender expression, and sexual orientation
13. Prevention of abusive conduct, including a review of the definition and elements of abusive conduct pursuant to GC 12950.1, the negative effects that abusive conduct has on the victim and other in the workplace, the detrimental consequences of this conduct on employee productivity and morale, and that a single act does not constitute abusive conduct unless the act is severe or egregious

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

Notifications. The Superintendent or designee shall notify employees that the district does not discriminate on the basis of sex as required by Title IX, that the Title IX nondiscrimination requirement extends to employment, and that inquiries about the application of Title IX to the district may be referred to the district's Title IX Coordinator and/or to the Assistant Secretary for Civil Rights, U.S. Department of Education. (34 CFR 106.8)

The district shall notify employees, bargaining units, and applicants for employment of the name or title, office address, email address, and telephone number of the district's Title IX Coordinator. (34 CFR 106.8)

A copy of the Board policy and this administrative regulation shall:

1. Be displayed in a prominent location in the main administrative building, district office, or other area of the school where notices of district rules, regulations, procedures, and standards of conduct are posted (EC 231.5)
2. Be provided to every district employee at the beginning of the first quarter or semester of the school year or whenever a new employee is hired (EC 231.5)
3. Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (EC 231.5)
4. Be posted, along with the name or title and contact information of the Title IX Coordinator, in a prominent location on the district's web site (34 CFR 106.8)
5. Be included, along with the name or title and contact information of the Title IX Coordinator, in any handbook provided to employees or employee organizations (34 CFR 106.8)

All employees shall receive a copy of an information sheet prepared by the California Department of Fair Employment and Housing (DFEH) or the district that contains, at a minimum, components on: (GC 12950)

6. Directions on how to contact DFEH and the EEOC
7. The protection against retaliation provided by 2 CCR 11021 for opposing harassment prohibited by law or for filing a complaint with or otherwise participating in an investigation, proceeding, or hearing conducted by DFEH and the EEOC

In addition, the district shall post, in a prominent and accessible location, the DFEH poster on discrimination in employment and the illegality of sexual harassment and the DFEH poster regarding transgender rights. (GC 12950)

Filing a Complaint. District employees who feel that they have been sexually harassed in the performance of their district responsibilities or who have knowledge of any incident of sexual harassment by or against another employee shall immediately report the incident to their direct supervisor, a district administrator, or the District's Title IX Coordinator. Employees may bypass their supervisor in filing a complaint if the supervisor is the subject of the complaint. A supervisor or administrator who receives a harassment complaint shall promptly notify the Title IX Coordinator.

Complaint Procedures. All complaints and allegations of sexual harassment by and against employees shall be investigated and resolved in accordance with law and district procedures. The Title IX Coordinator shall review the allegations to determine the applicable procedure for responding to the complaint. All complaints that meet the definition of sexual harassment under Title IX shall be investigated and resolved in accordance with AR 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaint Procedures. Other sexual harassment complaints shall be investigated and resolved pursuant to AR 4030 - Nondiscrimination in Employment. Because a complaint or allegation that is dismissed or denied under the Title IX complaint procedure may still be subject to consideration under state law, the Title IX Coordinator shall ensure that any implementation of AR 4119.12/4219.12/4319.12 concurrently meets the requirements of AR 4030.

The Title IX Coordinator shall offer supportive measures to the complainant and respondent, as deemed appropriate under the circumstances.

If sexual harassment is found following an investigation, the Title IX Coordinator, or designee in consultation with the Coordinator, shall take prompt action to stop the sexual harassment, prevent recurrence, and address any continuing effects. Any district employee found to have engaged or participated in sexual harassment or to have aided, abetted, incited, compelled, or coerced another to commit sexual harassment in violation of district policy shall be subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

SOCIAL MEDIA GUIDELINES FOR EMPLOYEES

Romoland School District (“District”) recognizes that 21st century learning requires that educators adapt to and embrace new methods of communication between teachers, students, and families. These guidelines provide direction for faculty, staff and students to safely participate in online social media activities in accordance with the Children’s Internet Protection Act (CIPA) and other applicable federal and state laws.

As public employees and as representatives of the District, it is important that staff conduct themselves in a professional and responsible manner when communicating via social media related to the programs, activities, and operations of the District. Employees are encouraged to participate in online social activities, both as a means to enhance communication and collaboration with students and families, as well as an avenue for professional learning. It is important to recognize that information produced by Romoland employees is a reflection on the entire District and is subject to the District’s Responsible Use Policy. By accessing, creating or contributing to any online social media for classroom or District use, you agree to abide by the guidelines set forth in this document, and ultimately accept sole responsibility for any content you post online. Please read these guidelines carefully before participating in any online social media.

District-authorized social media: A site that has been authorized by the Superintendent or designee to represent the District and/or schools. Official District social media platform: A site authorized by the Superintendent or designee.

Personal social media: Non-work related social media activities (e.g., a District employee establishing a Facebook account for their own personal use).

SOCIAL MEDIA GUIDELINES FOR FACULTY & STAFF

Professional Identity & Personal Responsibility

In the digital world, it is important to distinguish District-authorized social media from personal social media accounts. When participating in online social media during and in the course of your District employment, remember your association with Romoland School District. If you identify yourself as a Romoland employee, ensure that your profile and related content reflect the District’s professional standards. How you represent yourself online should be comparable to how you represent yourself in person in the workplace.

It is recommended that employees adhere to the following requirements when using social media for work related purposes:

- Prior to establishing social media accounts, review District Board policies, administrative regulations, and related documents governing employee use of technology and District-sponsored social media.

- Maintain separate accounts for personal and professional social media use, and refrain from using personal accounts to interact with students, parents/guardians, or minors. If a student or minor requests to follow an employee’s personal social media site, redirect them to the District-authorized site.
- Use your Romoland email address when creating an account for any District-authorized social media. Do not use your Romoland email address for personal social media use.
- Utilize District authorized social media platforms for District-related purposes.
- Employees who choose to use a social media site that has not been authorized by the District for District-related purposes should prominently display a disclaimer that states “The postings on this site do not represent the views and opinions of the Romoland School District.”
- The posting or publication of any personally identifiable information of District students including, but not limited to, names, pictures, student educational records, and videos to an Official District Social Media Platform should be avoided unless the posting of such information complies with applicable laws and District policies. Employees should be advised that, in some cases, prior written consent from parents/guardians may be required prior to releasing or posting such information.
- Do not post photos online of students whose parents/guardians have opted out of the District’s media release. For more information about the media release opt-out list, please contact the school secretary.
- Avoid posting photos of District employees, volunteers, contractors, or vendors without first obtaining permission to do so.
- Avoid posting any information or engaging in communications that violate state or federal laws or District policies, including but not limited to, privacy laws, trademark, copyright, fair use, and financial disclosure laws, and the District’s Employee Use of Technology Policy (BP 4040) and District-Sponsored Social Media Policies (BP/AR 1114).
- Assume that there is no privacy on the Internet, even with privacy controls. If you would not share it in the classroom, refrain from sharing it online.

SOCIAL MEDIA AND THE CALIFORNIA PUBLIC RECORDS ACT

Employees should be advised that records maintained on any personal device or messages sent or received on a personal device that is being used to conduct District business may be subject to disclosure pursuant to a subpoena, a request made pursuant to the California Public Records Act, or other lawful request.

REQUESTS FOR DISTRICT-AUTHORIZED SOCIAL MEDIA

District-authorized social media platforms shall be used only for their stated purposes and in a manner consistent with District policies. District social media presence can include, but is not limited to:

- Teacher and/or classroom accounts
- Clubs
- Athletics
- Parent-Teacher Organizations

All social media platforms created by District employees that intend to represent Romoland School District or its affiliated organizations, programs, services, or activities must first be approved by the District. Any accounts, websites, or social media pages existing prior to this social media policy will be subject to review and must conform to the guidelines set forth in this document in order to maintain District-authorized status. To request permission for District-authorized social media use, please contact the Instructional Technology Department.

SOCIAL MEDIA IN THE CLASSROOM

The District recognizes that, in some circumstances, employees may wish to use social media as an instructional tool in the classroom. As a K-8 district nearly all Romoland students are below the age of thirteen. Thus, employees must be careful to comply with the Children's Online Privacy Protection Act (COPPA) when utilizing online programs in the classroom. Employees who determine that use of social media is critical to student learning objectives must adhere to the following guidelines when using social media within the classroom:

- Prior to utilizing any online programs in the classroom, obtain authorization from the District. The District must have an opportunity to assess a particular site's information collection practices, enter into a use or privacy agreement with the website operator, and provide proper notice to parents/guardians before any online or social media program is implemented as an instructional tool.
- Prior to collecting student information from student social media accounts, ensure that the District has notified parents/guardians and has held a public hearing pursuant to Education Code 49073.6. It is therefore recommended that staff obtain consent from a site administrator prior to collecting student information from social media accounts, or engaging in classroom activities or assignments that require collection of such information.
- Be prepared to provide information to families regarding the purpose for the use of the selected media, an example of what the media project will look like, and a description of the amount of student information required and level of security.
- Utilize District-issued email addresses, rather than personal email addresses, to create accounts.
- Ensure privacy settings are as narrowly tailored as possible to ensure that social media communications only reach the employee's intended audience.

MONITORING AND DELETING INAPPROPRIATE CONTENT

Any official District social media platform used to conduct District business, or for District programs, activities, or operations requires constant monitoring. Employees who serve as the primary point of contact for official District social media platforms should strive to ensure that information disseminated via such platforms is accurate, school appropriate, and responsive to community member questions. Employees who have ownership of accounts associated with official District social media platforms are responsible for removing content that contains profanity, nudity, unprotected speech, spam, or other content that violates the professional conduct standards of the District. Questions and requests regarding official District social media platforms may be directed to the Chief Technology Officer.

Responsible Use Policy

Romoland School District (“District”) recognizes that access to technology at school gives students greater opportunities to learn, engage, communicate, and develop skills that will prepare them for work, life, and citizenship. We are committed to helping our students develop 21st-century technology and communication skills. To facilitate this we provide access to various technologies for student and staff use.

This Responsible Use Policy (“Policy”) outlines the guidelines and behaviors that all users are expected to follow when using District technology resources.

- The Romoland School District network is intended solely for educational purposes.
- All activity over the network or using District resources may be monitored and retained.
- Access to online content via the network will be restricted in accordance with our policies and applicable federal regulations, such as the Children’s Internet Protection Act (“CIPA”).
- Users are expected to follow the same rules for good behavior and respectful conduct online as offline.
- Misuse of technology resources may result in disciplinary action.
- Romoland School District makes a reasonable effort to ensure our users’ safety and security online but will not be held accountable for any harm or damages that result from the use of District technologies.
- Users of the District network or other technologies are expected to alert Technology staff immediately of any concerns for safety or security.

Technologies Covered: The District may provide technological resources for student and employee use including, but not limited to, Internet access, computers and/or computing devices, videoconferencing capabilities, online collaboration capabilities, message boards, and email. The policies outlined in this document are intended to cover *all* available technologies, not just those specifically listed.

Usage Policies: As a condition of maintaining the privilege of using District computer resources, each user will be held responsible for his or her own actions which affect such resources. Each user acknowledges and agrees to abide by the terms of the Policy. A user who violates the Policy will be subject to appropriate discipline.

District technology resources are to be used for instruction, learning, District-related business, and administrative activities. Use of District technology resources to engage in personal business is not permitted.

Internet Access: The District provides its users with access to the Internet, including web sites, resources, content, and online tools. This access will be restricted in compliance with CIPA regulations and District policies. Web browsing may be monitored and web activity records may be retained indefinitely.

Users shall comply with the access and security procedures and systems established to ensure the security, integrity and operational functionality of District computer resources.

Users shall not attempt to modify any system or network or attempt to “crash” or “hack” into District systems. Users shall not tamper with any software protections or restrictions placed on computer applications or files. Unless properly authorized, users shall not attempt to access restricted portions of any operating system or security software. Users shall not attempt to remove existing software or add their own personal software to District computers and systems unless authorized.

Personal Safety: Users must never share personal information including phone numbers, addresses, social security numbers, birthdates, or financial information over the Internet or via email. Communicating over the Internet brings anonymity and associated risks and users should always carefully safeguard the personal

information of themselves and others. Students should never agree to meet someone they have communicated with online in real life without parental permission.

If you see a message, comment, image, video or anything else online that makes you concerned for your personal safety, bring it to the attention of an adult (teacher or staff if you're at school; parent if you're using the device at home) immediately.

Accounts: Accounts issued to users for the use of District technology resources are for the intended user's sole use only. Users are expected to keep login information private at all times and are responsible for any misuse that occurs under the accounts issued to them. They shall use the system only under their own accounts and shall maintain the privacy of personal information and passwords.

Email: The District may provide users with email accounts for the purpose of school-related communication. Availability and use may be restricted based on District policies.

If users are provided with email accounts they should be used with care. Email is not a secure transmission protocol; messages are sent in clear text and may be intercepted. Users should never send personal information or attempt to open files or follow links from unknown or untrusted origin. Users shall refrain from profanity and vulgarity. Only communicate with other people as allowed by District policies or the teacher.

Users are expected to communicate with the same appropriate, safe, mindful, courteous conduct online as offline. Email usage may be monitored and archived.

Mobile Devices: The District may provide users with mobile computers or other devices to promote learning outside of the classroom. Users are expected to abide by the same responsible use policies when using devices both on and off the District network. Use of these devices while off the District network may be monitored. As a condition of using a District-owned device, the employee or student will be deemed an authorized user of said device and consents to the District's access to the contents of said device as needed by District personnel.

Users are expected to treat these devices with extreme care and caution; these are expensive devices that the District is entrusting to your care. Users should report any loss, damage, or malfunction to Technology staff immediately. Users may be financially accountable for any damage resulting from negligence or misuse.

Social/Web 2.0/Collaborative Content: Recognizing the benefits collaboration brings to education, the District may provide users with access to web sites or tools that allow communication, collaboration, sharing, and messaging among users.

Users are expected to communicate with the same appropriate, safe, mindful, courteous conduct online as offline. Posts, chats, sharing, and messaging may be monitored. Users should never share personally identifying information online.

Cyberbullying: Cyberbullying will not be tolerated. Harassing, flaming, denigrating, impersonating, outing, tricking, excluding, and cyber-stalking are all examples of cyberbullying. Don't send emails, text messages, or post comments with the intent of scaring, hurting, or intimidating someone else.

Engaging in these behaviors, or any online activities intended to cause harm (physically or emotionally) to another person will result in severe disciplinary action. Cyberbullying can be a crime. Remember that your activities are subject to monitoring and retention.

Data Security: District staff and students may have access to confidential and/or personally identifiable

information of students or staff. This information may not be shared with unauthorized third parties, and under no circumstances may it be transmitted electronically without the use of appropriate encryption and the prior approval of the Custodian of Records and the Chief Technology Officer. Confidential and/or personally identifiable information may not be stored on mobile computing devices or portable storage devices without encryption, and may not be transmitted via email under any circumstances.

Personal Equipment: The District recognizes that the use of certain technology devices, such as flash drives, which are not owned by the District may be beneficial to both District employees and students. Flash drives and similar storage devices may be used with District computer resources if the user has current security software installed on all non-District equipment on which the flash drive or other storage device is used. District employees and students may connect personal laptops, tablets, or other computing or mobile devices to District wireless networks identified as “Guest” only. Personal equipment may not be connected to any other wired or wireless network owned by the District without express permission by the Chief Technology Officer.

Unless approved by the teacher and/or school administration, students are only permitted to use cellular phones or other mobile communication devices outside of the instructional day (before school, at lunch, and after school). Students must keep their cellular phones or other mobile communication devices powered off and out of sight during instructional time.

As a condition of possessing or using a personally owned device on campus and/or for school related activities, the student will be deemed an authorized user of said device and to have consented to the search of the student's electronic device by a school official when there is a reasonable suspicion that the search will uncover evidence of a violation of the law, Board policy, administrative regulation, or other rules of the district or the school.

District employees may only use personal communication devices during non-duty times of the workday or for brief conversations. Instructional time may not be interrupted by a personal cellular telephone or mobile communication device, except in an emergency. Such activities shall not interfere with the work efficiency or performance of the employee and shall not interfere with the rights or work efficiency or performance of others.

Security: Security on any computer system is of the highest priority. Users who identify a security problem must immediately notify a representative from Technology or an administrator. Users must never use another user's account or share passwords with anyone, or leave account/password information where it may be discovered. Students may only use teacher computing equipment under the direct supervision of the teacher, and solely for instructional purposes. Any user identified as a security risk may be denied access to the system.

Downloads: Users shall not download or attempt to download or run executable programs over the District network or onto District resources without express permission from Technology staff.

TOBACCO-FREE SCHOOLS

The Board of Trustees recognizes that smoking and other uses of tobacco and nicotine products constitute a serious public health hazard and are inconsistent with district goals to provide a healthy environment for students and staff. (BP/AR 3513.3)

The Board prohibits smoking and/or the use of tobacco products at any time in district-owned or leased buildings, on district property, and in district vehicles. (HSC 104420, 104559)

These prohibitions apply to all employees, students, and visitors at any school-sponsored instructional program, activity, or athletic event held on or off district property. Any written joint use agreement governing community use of district facilities or grounds shall include notice of the district's tobacco-free schools policy and consequences for violations of the policy.

Smoking means inhaling, exhaling, burning, or carrying of any lighted or heated cigar, cigarette, pipe, tobacco, or plant product intended for inhalation, whether natural or synthetic, in any manner or form, and includes the use of an electronic smoking device that creates aerosol or vapor or of any oral smoking device for the purpose of circumventing the prohibition of smoking. (BPC 22950.5; EC 48901)

Tobacco products include: (BPC 22950.5; EC 48901)

1. Any product containing, made, or derived from tobacco or nicotine that is intended for human consumption, whether smoked, heated, chewed, absorbed, dissolved, inhaled, snorted, sniffed, or ingested by any other means, including, but not limited to, cigarettes, cigars, little cigars, chewing tobacco, pipe tobacco, or snuff
2. An electronic device that delivers nicotine or other vaporized liquids to the person inhaling from the device, including, but not limited to, an electronic cigarette, cigar, pipe, or hookah
3. Any component, part, or accessory of a tobacco product, whether or not sold separately

This policy does not prohibit the use or possession of prescription products and other cessation aids that have been approved by the U.S. Department of Health and Human Services, Food and Drug Administration, such as nicotine patch or gum.

Smoking or use of any tobacco-related product or disposal of any tobacco-related waste is prohibited within 25 feet of any playground, except on a public sidewalk located within 25 feet of the playground. In addition, any form of intimidation, threat, or retaliation against a person for attempting to enforce this policy is prohibited. (HSC 104495)

Signs stating "Tobacco use is prohibited" are prominently displayed at all entrances to school property. (HSC 104420, 104559)

Any employee or student who violates the district's tobacco-free schools policy shall be asked to refrain from smoking and shall be subject to disciplinary action as appropriate.

Any other person who violates the district's policy on tobacco-free schools shall be informed of the district's policy and asked to refrain from smoking. If the person fails to comply with this request, the Superintendent or designee may:

1. Direct the person to leave school property
2. Request local law enforcement assistance in removing the person from school premises
3. If the person repeatedly violates the tobacco-free schools policy, prohibit him/her from entering district property for a specified period of time

The Superintendent or designee shall not be required to physically eject a nonemployee who is smoking or to request that the nonemployee refrain from smoking under circumstances involving a risk of physical harm to the district or any employee. (LC 6404.5)

TRANSGENDER RIGHTS IN THE WORKPLACE

California law protects transgender and gender nonconforming people from discrimination, harassment, and retaliation at work. These protections are enforced by the Civil Rights Department (CRD).

THE RIGHTS OF EMPLOYEES WHO ARE TRANSGENDER OR GENDER NONCONFORMING

CALIFORNIA LAW PROTECTS TRANSGENDER AND GENDER NONCONFORMING PEOPLE FROM DISCRIMINATION, HARASSMENT, AND RETALIATION AT WORK. THESE PROTECTIONS ARE ENFORCED BY THE CIVIL RIGHTS DEPARTMENT (CRD).

THINGS YOU NEED TO KNOW

- Does California law protect transgender and gender nonconforming employees from employment discrimination?**
Yes. All employees, job applicants, unpaid interns, volunteers, and contractors are protected from discrimination at work when based on a protected characteristic, such as their gender identity, gender expression, sexual orientation, race, or national origin. This means that private employers with five or more employees may not, for example, refuse to hire or promote someone because they identify as – or are perceived to identify as – transgender or non-binary, or because they express their gender in non-stereotypical ways. Employment discrimination can occur at any time during the hiring or employment process. In addition to refusing to hire or promote someone, unlawful discrimination includes discharging an employee, subjecting them to worse working conditions, or unfairly modifying the terms of their employment because of their gender identity or gender expression.
- Does California law protect transgender and gender nonconforming employees from harassment at work?**
Yes. All employees are prohibited from harassing any employee, intern, volunteer, or contractor because of their gender identity or gender expression. For example, an employer can be liable if co-workers create a hostile work environment – whether in person or virtual – for an employee who is undergoing a gender transition. Similarly, an employer can be liable when customers or other third parties harass an employee because of their gender identity or expression, such as intentionally referring to a gender nonconforming employee by the wrong pronouns or name.
- Does California law protect employees who complain about discrimination or harassment in the workplace?**
Yes. Employers are prohibited from retaliating against any employee who asserts their right under the law to be free from discrimination or harassment. For example, an employer commits unlawful retaliation when it responds to an employee making a discrimination complaint – to their supervisor, human resources staff, or CRD – by cutting their shifts.
- If bathrooms, showers, and locker rooms are sexsegregated, can employees choose the one that is most appropriate for them?**
Yes. All employees have a right to safe and appropriate restroom and locker room facilities. This includes the right to use a restroom or locker room that corresponds to the employee's gender identity, regardless of the employee's sex assigned at birth. In addition, where possible, an employer should provide an easily accessible, gender-neutral (or “all-gender”), single user facility for use by any employee. The use of single stall restrooms and other facilities should always be a matter of choice. Employees should never be forced to use one, as a matter of policy or due to harassment.
- Does an employee have the right to be addressed by the name and pronouns that correspond to their gender identity or gender expression, even if different from their legal name and gender?**
Yes. Employees have the right to use and be addressed by the name and pronouns that correspond to their gender identity or gender expression. These are sometimes known as “chosen” or “preferred” names and pronouns. For example, an employee does not need to have legally changed their name or birth certificate,

and other facilities should always be a matter of choice. Employees should never be forced to use one, as a matter of policy or due to harassment.

6. Does an employee have the right to be addressed by the name and pronouns that correspond to their gender identity or gender expression, even if different from their legal name and gender?
Yes. Employees have the right to use and be addressed by the name and pronouns that correspond to their gender identity or gender expression. These are sometimes known as “chosen” or “preferred” names and pronouns. For example, an employee does not need to have legally changed their name or birth certificate, nor have undergone any type of gender transition (such as surgery), to use a name and/or pronoun that correspond with their gender identity or gender expression. An employer may be legally obligated to use an employee's legal name in specific employment records, but when no legal obligation compels the use of a legal name, employers and coworkers must respect an employee's chosen name and pronouns. For example, some time tracking and software for payroll and other administrative purposes, such as creating work schedules or generating virtual notices, where it may be appropriate for the business to use a transgender employee's legal name for payroll purposes, may not be able to use a preferred name and pronouns. If different from their legal name, on an ID card could be harassing or discriminatory. CRD recommends that employees take care to ensure that each employee's chosen name and pronouns are respected to the greatest extent allowed by law.

7. Can an employer ask an applicant about their sex assigned at birth or gender identity in an interview?
No. Employers may ask non-discriminatory questions, such as inquiring about an applicant's employment history or seeking for professional references. But an interviewer should not ask questions designed to elicit a person's gender identity or gender transition history such as asking about why the person changed their name. Employers should also not ask questions about a person's body or whether they plan to have surgery.

For example, some businesses utilize software for payroll and other administrative purposes, such as creating work schedules or generating virtual profiles. While it may be appropriate for the business to use a transgender employee's legal name for payroll purposes when legally required, refusing or failing to use that person's chosen name and pronouns, if different from their legal name, on a shift schedule, nametag, instant messaging account, or work ID card could be harassing or discriminatory. CRD recommends that employers take care to ensure that each employee's chosen name and pronouns are respected to the greatest extent allowed by law.

6. *Does an employee have the right to dress in a way that corresponds with their gender identity and gender expression?*

Yes. An employer who imposes a dress code must enforce it in a non-discriminatory manner. This means that each employee must be allowed to dress in accordance with their gender identity and expression. While an employer may establish a dress code or grooming policy in accord with business necessity, all employees must be held to the same standard, regardless of their gender identity or expression.

7. *Can an employer ask an applicant about their sex assigned at birth or gender identity in an interview?*

No. Employers may ask non-discriminatory questions, such as inquiring about an applicant's employment history or asking for professional references. But an interviewer should not ask questions designed to detect a person's gender identity or gender transition history such as asking about why the person changed their name. Employers should also not ask questions about a person's body or whether they plan to have surgery.

Investigation and Response. These uniform procedures require the complainant to submit a written complaint no later than one year from the date the alleged violation occurred. In the case of a complaint alleging unlawful discrimination, harassment, intimidation, or bullying, a UCP complaint must be filed no later than six months from the date of the alleged conduct or the date the complainant first obtained knowledge of the facts of the alleged conduct. A student enrolled in a public school must not be required to pay a fee for participation in an educational activity that constitutes an integral fundamental part of the District's educational program, including curricular and extracurricular activities. A complaint regarding student fees or the LCAP may be filed anonymously if the complainant provides evidence or information leading to evidence to support the complaint.

Once a complaint is received, the compliance officer will initiate the investigation within 10 business days, and will prepare and send to the complainant the investigation report within 60 calendar days from the receipt of the complaint, unless the complainant agrees in writing to extend the timeline. If the District finds merit in a complaint, the District will adopt any appropriate corrective action permitted by law and/or provide the appropriate remedies to all affected students and parents, where applicable.

WORKERS' COMPENSATION

All employees are covered by Workers' Compensation insurance. Workers' Compensation is a state-mandated insurance program to aid workers with job-related injuries or illnesses.

If an employee who sustains a work related injury or illness is given physical limitations or work restrictions by the treating physician, and the restrictions are significant enough that accommodations to the employee's regular position cannot reasonably or safely be made, the employee will be placed in a transitional duty assignment for the time period prescribed by the treating physician (up to 60 days). Such assignments are managed by the Business Services Department and they should be contacted for further information.

During the time a claim is being delayed and investigated, the employee's sick leave will be used. If the employee does not have enough full-pay sick leave accumulated, salary adjustments will be made in accordance with Education Code regulations and language in bargaining unit agreements. If the claim is ultimately accepted, sick leave will be reinstated and any salary adjustments will be repaid where appropriate.

If an injured employee has been taken off work by the physician, or the district is unable to accommodate work restrictions given, the employee will be placed on temporary disability. Per Labor Code, temporary disability (TD) payments are equal to two-thirds of the employee's pay, limited to a certain maximum and minimum amount.

Education Code 44984 provides for a maximum of sixty (60) work days per injury of full salary for non-substitute employees injured on the job, and 100 days of job protection. During this time period, the employee will receive full pay (the TD rate plus the amount paid by the district to make up the difference to equal full pay).

Certificated employees at their date of hire shall be entitled to a leave of up to sixty (60) working days in any one fiscal year for the same accident or illness that renders them temporarily totally disabled. This leave shall not be accumulated from year to year, and when any leave will overlap a fiscal year, the bargaining unit member shall be entitled to only that amount remaining at the end of the fiscal year in which the injury or illness occurred.

When the sixty (60) day entitlement has been exhausted, their sick leave will then be used which, when added to the TD payments, provides for a day's pay. The 5-month count will not begin until all sick leave has been exhausted.

On the 101st day the employee will be placed on 39-month rehire.

Classified employees who have obtained permanency in the District and has suffered an injury or illness arising out of and in the course and scope of his employment that renders them temporarily totally disabled shall be entitled to a leave of up to sixty (60) working days in any one fiscal year for the same accident or illness. This leave shall not be accumulated from year to year, and when any leave will overlap a fiscal year, the bargaining unit member shall be entitled to only that amount remaining at the end of the fiscal year in which the injury or illness occurred.

When the sixty (60) day entitlement has been exhausted, entitlement to other sick leave, vacation or other paid leave may then be used and a 100 day count will begin. The employee shall be entitled to use only so much of his accumulated and available normal sick leave and vacation leave, which, when added to the TD payments, provides for a day's pay at the regular rate of pay.

If 100 days run into the next year, a classified employee is eligible for another 100 days starting with the new fiscal year. If TD plus half pay equals more than full pay, then the employee only gets their full pay. If

TD plus half pay is less than full pay, the employee's pay will be deducted. On the 101st day the employee will be placed on 39 month rehire.

When an employee on Industrial Accident or Illness Leave is able to return to work within the first five months he/she shall be reinstated in his/her position without loss of pay or benefits.

Substitute employees on TD are paid directly by Keenan & Associates and are not entitled to full pay – they are paid the TD rate only.

A Substitute employee taken off work by a physician due to a work related injury will not receive TD payments for the first three days (per Labor Code, there is a three day waiting period).

Romoland School District is Self-Insured Workers' Compensation through the Joint Powers Authorities of Riverside Schools Risk Management Authority (RSRMA) and Protected Insurance Program for Schools (PIPS), which is administered by Keenan & Associates. Keenan processes all claims, makes temporary and permanent disability payments, approves and assigns medical treatment, and conducts investigations to determine authenticity of claims for compensation.
