# Message from ESD Superintendent, Craig Woods

Dear Gem County Community,

The 2023-2024 school year was one to be proud of, and we look with anticipation to the 2024-2025 year ahead. Here are some highlights moving forward:

- 2024-2025 was a year of celebration, growth, and change with accomplishments in academics and extracurricular activities
- We plan to utilize intentional planning, preparation, & Friday professional development to reinforce the foundations of English Mathematics, Science, & Social Studies, fostering an environment where every student can grow & receive a well-rounded & robust education.
- Through targeted training & resources, we will continue to invest in our teachers as they are the cornerstone in delivering high-quality education for all students.
- We will continue strengthening community partnerships with leaders, businesses, & families. Together, we will create enriching opportunities & a network of support for our students & staff.
- With guidance and direction from our Board of Trustees, we are well-equipped to navigate the ever-evolving cultural landscape of our nation. Their leadership ensures that we remain adaptable and responsive to the needs of our community.

Thank you for the wonderful support of our staff, students, parents, and Gem County Community. Together we are building a brighter future for the Emmett School District.

Respectfully,  
Craig Woods  
Superintendent, Emmett School District
