A HISTORY OF WORTHINGTON SCHOOLS

The Worthington community has long been recognized for its traditions of excellence. Thomas Worthington High School, Linworth Experiential Program and Worthington Kilbourne High School share a legacy that is nationally recognized for its progressiveness and quality.

Worthington's first settlers had benefited from sound educational facilities in their original New England communities, and they made it a priority to provide similar opportunities for their children. During the winter of 1804, their first on the Ohio frontier, surveying the town plat led to the designation of a double town lot on the public square (the northeast quadrant of the Village Green) to be reserved for school purposes, and one hundred acres of farmland just west of the town to be rented in support of a school. A temporary log structure on the square was used as a one-room schoolhouse, until it was removed to make way for the Worthington Academy, the premier educational institution in Central Ohio, in 1808. The first principal of the Worthington Academy was John Kilbourn, nephew of Worthington's founder, James Kilbourn.¹

Over the next 180 years the population of school-age children educated in the Worthington school district grew in numbers as well as in geographical scope. High school buildings were constructed in 1894 on E. Granville Road (where Kilbourn Middle School now stands); in 1916 on W. Granville Road on the school farm lot (now McConnell Arts Center); and in the early 1950s the central portion of Worthington High School (now Thomas Worthington) was built west of the 1916 building. As each high school building was erected, the former building was transformed to serve a different educational purpose.¹

Following World War II the student population in the Worthington school district soared and elementary and middle school buildings were constructed to serve students in all quadrants of the district, eventually encompassing Sharon and Perry Township school districts as well. In 1973 the Linworth Alternative Program was launched on W. Granville Road, home of a unique alternative high school program featuring a small-school atmosphere with emphasis on experiential learning. Approximately 180 students in grades 9 through 12, from TWHS and WKHS, attend Linworth Alternative.

In 1991 the long-discussed vision of a second high school became a reality, as Worthington Kilbourne High School opened on the fifty-five acre site on a wooded ravine on Hard Road in the northwest Columbus part of the school district. As noted in the dedication program on October 20, 1991: "The construction of Worthington Kilbourne High School did not begin with building plans, but with a comprehensive study of the program which high school students would need to prepare themselves for the 21st century." Nine program components were developed which staff used in developing a philosophy and program objectives for the new high school. With community, staff and school board input, based on visits to high schools in the Midwest and Northeast noted for their excellent educational programs, four high school scenarios were proposed and community feedback was sought in creating the vision of the new high school. Named for James Kilbourn, a leading member of the Scioto Company and a champion of education, the name was chosen by a committee of parents, students and staff with the intention of carrying the tradition of old Worthington to the new school, by including both *Worthington* and *Kilbourne* in its name.² Worthington High School was renamed at that time to honor Thomas Worthington, the father of Ohio statehood.

Both high schools are situated on campuses that reflect the natural beauty of the area. Worthington Kilbourne and Thomas Worthington each house students in grades 9 through 12 and have multi-sports complexes. The schools share a natatorium located on the campus of TWHS. And each fall, the football teams of Worthington Kilbourne and Thomas Worthington face off on the field for the "Wo-Town Showdown", something the Scioto Company settlers never could have foreseen!

GENERAL INFORMATION

AVAILABILITY of BOARD OF EDUCATION POLICIES

The Board of Education has established policies and procedures that pertain to students, staff, and school operations. Copies of these policies and procedures are kept at the office of the Treasurer of the Board of Education, Worthington Education Center, 200 E. Wilson Bridge Rd., Worthington, 43085. These documents may also be viewed on the district website www.worthington.k12.oh.us

ACADEMIC INTEGRITY

Academic Integrity background: In the Worthington School District, we believe the students, staff, and community are stakeholders in the climate and culture of our school. The schools were founded on the belief that all students can and must learn in order to achieve success in our society. The community and staff further believe that success begins with personal and academic integrity, which are grounded in honesty, trust, fairness, respect, and responsibility.

School Culture – The values of honesty, trust, fairness, respect, and responsibility are worthy of our pursuit in the Worthington schools. The parameters of academic integrity include these five values which we hope to embrace and adjust to our environment. We strive to ensure success, exhibit integrity, and serve humanity through these five essential values.

Honesty – Honesty is the foundation of teaching, learning, research, and service. It is the prerequisite for full realization of trust, fairness, respect, and responsibility. Policies of Worthington schools uniformly deplore cheating, lying, fraud, misrepresentation, theft, and other forms of dishonest behaviors that jeopardize the rights and welfare of our learning community.

Trust – Mutual trust is formed in an academic community that celebrates the free exchange of ideas. Trust enables us to reach our full potential as human beings. We believe people respond to consistent honesty with trust. Only with trust can our learning community believe in the social value inherent in academic inquiry, scholarship, and integrity.

Fairness – Fairness evolves from predictability, clear expectations, consistency, careful listening, and just responses to dishonesty. All students and staff have a role in ensuring an environment embracing fairness.

Respect – Respect is one of the richest rewards of an environment built on fairness. Teaching and learning demand active engagement and mutual respect. Students and faculty must respect their individual roles in order to appreciate diversity, learn and test new skills, build community, and grow from failures. The antithesis of respect is being rude, sarcastic, demeaning, or disruptive to others.

Responsibility – Responsibility requires that each stakeholder protect the integrity of the learning climate. Each person in the Worthington Schools community must be responsible for their own honesty and personal responsibility and to encourage positive conduct by others.

DRUG EDUCATION

Any student who has a question or concern about their own or another's use or abuse of alcohol or any other mood-altering chemical may feel free to use the services of an administrator, school counselor, mental health specialist, or the school nurse, where confidential, constructive guidance and assistance are available.

HEALTH OFFICE

A full-time school nurse is available in the Health Office. Emergency illnesses or injuries should be reported to them immediately. Students who are too ill to attend class should report directly to the Health Office with a pass from their

classroom teacher. **The school nurse may release an ill student from school once the student's parent(s) or guardian have been notified.**

GUIDELINES: WHEN TO KEEP YOUR CHILD HOME FROM SCHOOL

The protocol for management of communicable disease in Worthington City Schools is based upon the Ohio Department of Health's guidelines and recommendations.

Your child is too ill to go to school if they have any of the following symptoms:

- Temperature of or above 100°F by mouth (must stay home until the student is fever free for 24 hours without the use of fever-reducing medication. In most cases this means students will miss the following school day. Please understand fevers can reoccur within a 24-hour time period and this policy is in the best interest for all students)
- Vomiting or diarrhea within the past 24 hours (must stay home for 24 hours to ensure these symptoms are gone before returning to school)
- Shortness of breath or increased wheezing during normal activity
- Has a cough that interrupts normal activity
- Pain from an earache, headache, sore throat or recent injury
- Has yellow or green drainage from nose or eye(s)
- Rash over body or localized to one area of the body (students who show signs of a communicable disease exhibiting as a rash may return to school once the rash is gone or a doctor's note stating the student may return to school is presented)
- Fatigue that requires bed rest (common with flu-like symptoms)
- Signs of conjunctivitis such as red, crusty or swollen eyes (may return once symptoms have been treated and are gone or a doctor's note stating the student may return to school is presented)

If your child is ill, please do not send them to school to be checked by the school nurse. Such exposure may be harmful to the child as well as to the children with whom they come in contact.

Please report all contagious diseases to the school office in order that the proper steps may be taken within the school to prevent the spread of disease.

If your child becomes ill, or is injured at school, you will be called and asked to come for them. We will be guided by information on the "Health Services" portion of your student's Online Registration Summary. You are asked to supply that information on or before the start of each school year.

If there are ever any changes to this information during the school year, please notify the school office immediately and make those changes online.

MEDICATION

When students require medication at school for illness or other chronic medical reasons, there are rules and laws regarding medication administration at school that must be followed. These requirements are not intended to create unnecessary inconvenience for parents, but rather to help ensure student safety and prevent medication errors while at school.

For medication to be administered at school (prescription and over-the-counter), a Medication Authorization Form must be completed by the parent or guardian and returned to the school office before any medication can be administered at school. This form must be signed by the parent and the doctor and indicate the name of the medication, the time to be taken, route of administration and possible side effects.

All medication must be received in the container in which it was dispensed. Your pharmacist will prepare another labeled bottle if you ask. Pills in envelopes and baggies are not acceptable. All medication is kept in a locked area and administered in the school clinic.

According to Worthington School Board Policy, students are not permitted to bring any medications to school. An adult must transport medications to school. If you have any questions, please contact your school nurse.

Student Possession of Prescription Medication: If school personnel are asked to dispense any kind of prescription medication to a student, the health office must have a Prescription Medication Authorization Form completed and on file in our office. This form requires the signatures of the prescribing physician and at least one parent or guardian.

Student Possession of Emergency Medication: Students who have a medical need to maintain emergency medication on their person, as verified by a current signed physician's statement, may possess and self-administer such medication in accordance with the directions of the student's physician. Any such student shall first notify the building health office by presenting a copy of the signed physician's statement together with the prescribed medication. Examples of such medication may include, but are not limited to, medication for diabetes, inhalers, severe allergy reactions and similar conditions.

Student Possession of Non-Prescription Medication: Students in grades 9-12 are permitted to self-carry over-the-counter medications during school hours. Non-prescription medication must be carried in the original container and limited in quantity to only the amount necessary for one week's dosage. The Over-the-Counter Non-Prescription Medication Form requires the signature of at least one parent or guardian and must be on file in the health office.

Both forms are available on the district's website and in our school office.

(policy 5336; Ohio Revised code, section 3313.713)

IMMUNIZATIONS

Proof of immunization must be on file in the nurse's office within fourteen (14) days of the student entering school. In addition to this requirement, students entering the district from a foreign country must also present evidence of a negative TB test or chest x-ray report within the last thirty (30) days and prior to entry to school.

Additional vaccine requirements: Ohio Revised Code 3313.671 requires the meningococcal vaccine for all students entering the 12th grade.

7th grade: Tdap and Meningococcal vaccines

12th grade: Meningococcal vaccine

LIBRARY-MEDIA CENTER

Thomas Worthington High School and Worthington Kilbourne High School offer comprehensive library-media center services and are staffed by a school library-media specialist. Teachers may schedule classes in the library. Books, unless placed on reserve by a teacher, are due in two weeks with renewals as needed. All reference materials, audiovisual materials, and magazines are in limited circulation. Fines are assessed for overdue materials. Students from Academic Prep may utilize the library if they are doing academic work that can only be done in the library. All students using the library are expected to read, work constructively or study quietly.

TEXTBOOKS

Hardback textbooks are stored, distributed, and collected through the school's bookroom. Students may pick up and drop off their textbooks prior to and at the end of each semester. Students should check posted bookroom hours for availability. Students who do not return their textbooks in good condition will be held responsible for replacement costs and/or fines. Students with outstanding school obligations may not be eligible to participate in school activities or use school parking facilities.

SIGN-POSTING POLICY

1. **ONLY** Worthington Kilbourne or Thomas Worthington organizations or groups with special permission may post signs in the school.
2. *All signs must be approved in the appropriate administrative office. At Worthington Kilbourne, signs are approved in the Co-curricular office. At Thomas Worthington, signs are approved in the Central Office.*
3. Please use tack strips where available. Signs can also be attached to the wall by using masking tape on the back of the sign; no other tape is permitted. Signs should never be suspended from or attached to light fixtures. Signs may be posted on hallway bulletin boards or any non-painted surfaces with the exception of the Commons area.
4. Signs and posters should be moderate in size, no larger than 22"x 28." They must be appropriate and in good taste.
5. **Locker Signs:** Student support group advisors may obtain student locker numbers from an office (WKHS Student Services or TWHS Central Office) at the beginning of the season. A complete team/group roster must be submitted at the time locker numbers are requested.

STUDENT PUBLICATIONS

School Sponsored:

The following guidelines shall give direction to the preparation of school-sponsored publications:

1. Ongoing publications prepared by members of the student body for distribution to other students and to faculty shall be under the supervision of one or more faculty members. The advisor will be appointed by the principal.
2. The person or persons designated as editor or co editors will bear full student responsibility for content.
3. The editor or editorial staff will be responsible for the final review and preparation of the articles for the paper under the direction of the previously appointed member of the faculty.
4. Articles that have been reviewed and rejected by the editor, editorial staff, advisor, or principal will be returned to the author. The author may reconsider the content and amend the article, or avail themselves of the right of appeal.
5. According to the U.S. Supreme Court in the "Hazelwood decision, the school is the publisher and therefore has ultimate editorial rights."

Non-School Sponsored:

The following guidelines shall give direction to the preparation and distribution of non-school sponsored publications. Such publications must be written completely by students of Worthington schools.

1. There shall be no solicitation of business and professional people or of any other community group for advertisements.
2. Publication shall be printed outside the school. Neither school supplies nor school equipment may be used in the printing of non-school sponsored literature.
3. The manner of distribution in the school shall be in accordance with the following guidelines established by the principal and agreed to by the Board of Education:
 - a. Anyone wishing to distribute literature shall present a copy to the principal one day in advance of its planned distribution.
 - b. Non-school sponsored literature may be distributed only before 8:40 am and after 3:20 pm in areas designated by the principal.
 - c. No charge may be made for the literature; however, donations may be accepted.
4. All persons contributing articles to such publications shall acknowledge authorship of said articles by signing them and shall refrain from libel, obscenity, and irresponsible personal attacks.

VISITORS

Visitors to our schools are welcome; however, certain protocols must be observed. All buildings in the Worthington City School District use a visitor management system to document and screen school visitors.

1. **Upon arriving at school, please report to the office to obtain a visitor's badge.** This will enable us to know who is in the building at all times. Visitors, including parents/guardians, must be approved by the office, and are required to sign in at the visitors' kiosk. The system will require all adult visitors to scan their driver's license or a state issued ID. This helps to not only confirm the visitor's identity but also compares information with a national database regarding sex offender status. Visitor information is not stored by the district. A visitor's identification badge with photo will be dispensed and must be worn while in the building.
2. The approval or disapproval of a visitor's badge will be dealt with on the basis of individual merit.
3. When dropping off items, please bring them to the office and school personnel will happily deliver them to your child to lessen classroom disruptions.
4. Student Visitors Policy—No student visitors except from official exchange programs or prospective students will be permitted. Arrangements for visitors to the building must be made in advance by obtaining permission from an administrator and host's teachers. A note from the host's parent(s) must be brought to the administrator 48 hours before the proposed visit indicating the reason for the visitor.
5. Counselors may request a student visitor for the same day when working with prospective students from out of town.
6. Students from a Worthington high school wishing to visit another campus must have prior permission from their own administrator and an administrator of the campus being visited.
7. Requests for exceptions to the above guidelines must be obtained at least 48 hours in advance from the appropriate office.

WORK PERMITS

A work permit must be obtained by any student who is under eighteen years of age and employed. The State of Ohio requires such a permit. It is necessary for the student to have a different permit for each job. Forms are available on the District website, www.worthington.k12.oh.us, and also in the Counseling Center at WKHS or TWHS. As a final step, it must be processed through the Counseling Center once all parts are completed. Proof of age must be presented; valid documents are driver's license, birth certificate or passport.

VIDEO SURVEILLANCE AND ELECTRONIC MONITORING

In order to promote student and staff safety, protect Board of Education property, and deter unauthorized access and destructive acts (e.g., theft and vandalism), the Board of Education authorizes the use of video surveillance and electronic monitoring equipment on school property, and in school buildings and school buses. Information obtained through video surveillance/electronic monitoring may be used to identify intruders and persons breaking the law, Board policy, or the Student Code of Conduct (i.e., it may be used as evidence in disciplinary actions and criminal proceedings).

The monitoring of actions and behavior of individuals who come onto school property is a significant factor in maintaining order and discipline and protecting students, staff, visitors, and school and student property. Video surveillance/electronic monitoring systems serve to complement other means being employed in the District to promote and foster a safe and secure teaching and learning environment for students and staff. The Board recognizes that the use of a video surveillance/electronic monitoring system does not replace the need for the ongoing vigilance of the school staff assigned by the building principal to monitor and supervise the school building. Rather, the video surveillance/electronic monitoring system serves as an appropriate and useful tool with which to augment or support the in-person supervision provided by staff. The building principal is responsible for verifying that due diligence is observed in maintaining general campus security.

The Superintendent is responsible for determining where to install and operate fixed-location video surveillance /electronic monitoring equipment in the District. The determination of where and when to use video surveillance /electronic monitoring equipment will be made in a nondiscriminatory manner. Video surveillance/electronic monitoring equipment may be placed in common areas in school buildings (e.g., school hallways, entryways, the front office where students, employees and visitors are permitted to freely come and go, gymnasiums, cafeterias, libraries), the school parking lots and other outside areas, and in school buses. Except in extraordinary circumstances and with the written authorization of the Superintendent, video surveillance/electronic monitoring equipment shall not be used in areas where persons have a reasonable expectation of privacy (e.g., restrooms, locker rooms, changing areas,

private offices (unless there is express consent given by the office occupant), or conference/meeting rooms), or in individual classrooms during instructional times. Security staff and administrators are authorized to carry and use portable video cameras when responding to incidents.

Any person who takes action to block, move, or alter the location and/or viewing angle of a video camera shall be subject to disciplinary action.

Legible and visible signs shall be placed at the main entrance to buildings and in the areas where video surveillance/electronic monitoring equipment is in use to notify people that their actions/behavior are being monitored/recorded. Additionally, the Superintendent is directed to annually notify parents and students via school newsletters and the Student Handbook, and staff via the Staff Handbook, of the use of video surveillance/electronic monitoring systems in their schools.

Any information obtained from video surveillance/electronic monitoring systems may only be used to support the orderly operation of the School District's schools and facilities, and for law enforcement purposes, and not for any other purposes. As such, recordings obtained through the use of video surveillance/electronic monitoring equipment may be used as evidence in any disciplinary proceedings, administrative proceeding or criminal proceeding, subject to Board policy and regulations. Further, such recordings may become a part of a student's education record or staff member's personnel file.

Ordinarily video surveillance/electronic monitoring equipment will not be used to make an audio recording of conversation occurring on school grounds or property.

The Board will not use video surveillance/electronic monitoring equipment to obtain information for the purpose of routine staff appraisal/evaluation or monitoring.

Recordings of students will be treated as confidential. Consequently, because the Board is bound by Ohio's Student Records Statute and the Family Educational Rights and Privacy Act (FERPA), copies of video recordings containing personal identifiable information about students shall not be released except to school officials with legitimate educational interests. Parents or guardians of minor students, and students who are eighteen (18) years of age or older, who are charged with disciplinary violations may view relevant portions of any video recording related to the charge, upon written request to the building principal, provided that viewing the recording does not violate State and/or Federal law (i.e., the privacy rights of any other students whose images appear on the recording). Likewise, school personnel may view relevant portions of any video relating to any disciplinary charge against them, upon written request to the building principal, provided that viewing the recording does not violate State and/or Federal law (i.e., the privacy rights of any students whose images appear on the recordings). Otherwise, such confidential recordings shall only be released through subpoena or court order.

The Board shall maintain video surveillance/electronic monitoring recordings for a limited period. Any request to view a recording under this policy must be made within fourteen (14) calendar days of the event/incident. Unless a formal complaint is being investigated, recordings shall be destroyed after thirty (30) days. If, however, action is taken by the Board/administration, as a result of a formal complaint or incident, recordings shall be kept for a minimum of one (1) year from the date of the action taken.

This policy does not address or cover instances where school officials record a specific event (e.g., a play, music performance, athletic contest, graduation, or Board meeting), or an isolated instance where a classroom is videotaped for educational or research purposes. Authorized videotaping for educational, instructional and/or research purposes is permitted and is not addressed by this policy.

The Superintendent is directed to develop administrative guidelines to address the use of video surveillance/electronic monitoring equipment in school buildings, school buses and on property owned and/or operated by the Board.

Video surveillance is to be implemented in accordance with this policy and the related guidelines. The Board will not accept or tolerate the improper use of video surveillance/electronic monitoring equipment and will take appropriate action in any cases of wrongful use of this policy.

The Worthington Schools supports the use of vape detectors in the student restrooms for the purpose of discouraging the use of electronic devices. These detectors do not video or audio record; they detect chemicals and monitor frequency noise levels. School board policy prohibits smoking/vaping in school buildings and on school grounds at all times by all persons; this includes vaping with electronic cigarettes and vapor pens. Worthington Schools district policy also prohibits the possession of any tobacco or nicotine products. If a student is in the vicinity of a vape detector that notifies administration of an occurrence of possible vaping, administrators may need to search the student. Students who act as lookouts for smokers, are knowingly present, or in possession of a device may be subject to discipline. Any student in violation of the laws concerning tobacco products and/or smoking, including but not limited to e-cigarettes and vapor pens will be subject to discipline as determined by administration. Students struggling with nicotine related substance abuse and looking for help will be supported in their efforts to live substance free.

EMERGENCY PROCEDURES

FIRE EVACUATION PROCEDURES

When the fire alarm sounds, all persons are to leave the building as prescribed by the drill regulations which follow:

1. Leave all books and materials on desks.
2. Form lines and proceed quietly from the room as quickly as possible.
3. Follow the assigned route quietly -- in an orderly fashion.
4. In the event the assigned exit route is blocked, students, under verbal direction of the teacher, should proceed to the next closest exit. Quiet is necessary in this eventuality.
5. The teacher leaves the room last after seeing that all windows and doors are closed.
6. The teacher remains with the class, maintains order, and checks the class roll, and reports absences to the designated person. (No student is permitted to leave the group without explicit instructions from the faculty member in charge.)
7. All work areas, break rooms, restrooms, locker rooms and offices must be cleared.
8. The last person out each exit assumes the responsibility for closing the outside doors; similarly, the first person out should fasten the doors to remain open until all people are out.
9. All persons would move at least thirty yards from the building, keeping roadways and parking areas clear for emergency vehicles.
10. Once students are outside, they must check in with the classroom teacher or area supervisor.
11. When the "all clear" sounds, classes will quietly reenter the building.

TORNADO GUIDELINES

When a Tornado Warning is issued, the tornado alarm will be sounded.

Classroom Preparation (if time permits): All windows should be closed.

Procedure:

1. If possible, take a book to be placed over the neck and head.
2. Follow assigned route to the pre-assigned area in a single line as quickly and quietly as possible.
3. Sit on the floor with back to the wall, in rows two or three deep, if needed.
4. Please be certain that a passageway is provided the length of each hall or at entrances to doorways.
5. **Do not leave the area until authorized to do so.**

STUDENT POLICIES AND GUIDELINES

STUDENT RIGHTS AND RESPONSIBILITIES

Students, like all citizens, have rights guaranteed by the Constitution of the United States including the First Amendment which ensures the freedom of religion, speech, press, assembly and petition and the Fourteenth Amendment which guarantees due process and equal protection. These rights will be provided to students to the extent that they are applicable in the public school setting and as provided in Board policy and regulations.

The rights of an individual are preserved only by the protection and preservation of the rights of others. A student is responsible for the way they exercise such rights. Each exercise of an individual's rights must demonstrate respect for the rights of others. The student must recognize the boundaries of their rights and accept the consequences of their actions.

These statements set forth the rights of students in the public schools of the district and the responsibilities that are inseparable from these rights:

1. Civil rights - including the rights to equal educational opportunity and freedom from discrimination; the responsibility not to discriminate against others.
2. The right to attend free public schools; the responsibility to attend school regularly and to observe school rules essential for permitting others to learn at school.
3. The right to due process of law with respect to suspension and expulsion.
4. The right to free inquiry and expression; responsibility to observe reasonable rules regarding these rights as applied to the public school setting.
5. The right to privacy as applied to the public school setting, which includes privacy in respect to the student's school records as required by state and federal law.

As part of the educational process, students should be made aware of rights and responsibilities and of the legal authority of the Worthington Board of Education to make and delegate authority to its staff to make rules regarding orderly operation of the schools.

A copy of the school discipline code of conduct will be posted in each of the schools and given to each student. This code describes the offenses for which disciplinary action may be taken and for which students may be suspended, expelled, or removed from school. Copies of the code are available, upon request, for any parent in the principal's office. Worthington Schools will reciprocate the rules, codes, policies, and guidelines from any school that our student attends for an academic purpose. (ex: DACC, Columbus State, OSU...etc.)

EQUAL EDUCATION OPPORTUNITY

This district provides an equal educational opportunity for all students. The Worthington School District is committed to having an environment free from all discrimination, including harassment, intimidation, or bullying on the basis of race, color, national origin, sex (including sexual orientation and transgender identity), disability, age, religion, ancestry, or genetic information. The district prohibits harassment, intimidation, or bullying in the school environment, including all academic, extracurricular, and school-sponsored activities. A student who violates this prohibition will be subject to the potential penalties set forth in the Code of Conduct Discipline section of this handbook.

A staff member, any student, or student's parent or legal custodian who believes that a student has been subjected to harassment, intimidation, or bullying on the basis of race, color, national origin, sex (including sexual orientation and transgender identity), disability, age, religion, ancestry, or genetic information may

The district employees responsible for receiving and/or investigating reports of harassment are:
Angela Adrean, Assistant Superintendent - 614-450-6016
Jeffrey Maddox, Assistant Superintendent - 614-450-6029

Emilie Greenwald, Dir Secondary Education - 614-450-6031

For more information about the district's prohibition against bullying, harassment, and discrimination, please see Board Policies 5517, 5517.01, 5517.02, and 5517.03.

Furthermore, Worthington School District complies with federal laws that prohibit discrimination in programs and activities receiving federal assistance. Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color or national origin. The Americans with Disabilities Act (A.D.A.) and Section 504 of the Rehabilitation Act of 1973 prohibits discrimination on the basis of handicap. Title IX of the Education Amendments of 1972 prohibits discrimination on the basis of sex. The Age Discrimination Act of 1975 prohibits discrimination on the basis of age. Worthington Schools also complies with the Family Education Rights and Privacy Act of 1994 and grants parents/guardians the right to examine student's official school records. Inquiries regarding unlawful discrimination may be directed to the building principal or the district compliance officer.

STUDENT DRESS CODE

Safety of students is our first priority. With that in mind it is important that student dress does not conceal a student's identity. The final decision regarding the acceptability of all student dress rests with the school administration.

Our philosophy behind our student dress guidelines is to do no harm, provide students with equitable access to education, and to not reinforce gender stereotypes.

We believe that students should dress comfortably for school in a way that helps them be ready to learn in the school environment. Students need to manage their own personal "distractions" without regulating individual students' clothing/self-expression. Our goal is that dress guidelines do not create unintended barriers to school attendance and that they minimize conflict and inconsistent discipline. Our hope is that our teachers should be able to focus on teaching without the additional burden of dress code enforcement. When needed, disciplinary concerns regarding dress guidelines should be referred to the building administration.

Our Goals:

- A safe learning environment.
- Student choice.
- Ability to express identified gender.
- Religious attire is allowed.
- NO offensive images or language, including profanity, hate speech, and pornography.
- NO images or language depicting or advocating violence or the use of alcohol or drugs.
- All are treated equitably regardless of gender/ gender identification, sexual orientation, race, ethnicity, body type/size, religion, personal style.

For all students at all times certain body parts must be covered. Genitals, buttocks, and nipples must be covered with opaque material. Daily, students must wear:

- Shirt: must cover the majority of the midriff.
- Bottom: pants/sweatpants/shorts/skirt/dress/ leggings.
- Shoes: activity-specific shoe requirements are permitted (for example for sports, recess, gym class).

Students May NOT Wear:

- Violent language or images.
- Images or language depicting drugs or alcohol (or any illegal item or activity).
- Hate speech, profanity, pornography.
- Language or images that create a hostile or intimidating environment based on any protected class.
- Visible underwear. (Please note that inadvertently visible undergarment straps or waistbands are not considered a violation.)
- Sunglasses inside of the building.

- Bathing suits.
- Hats/headwear that conceal the student's identity.

GENERAL RULES OF THE BUILDING

Before and after school: The school building is closed overnight unless there is a supervised, scheduled activity. All students in the building before 8:00 a.m. and after the regular school day must be under the direct supervision of a faculty member, in the Commons, Cafeteria and Main Hall on the first floor. Hallways cannot be blocked in any way that impedes normal traffic. Students who are not involved in a supervised after-school activity must vacate the building and school property by 3:30 pm.

Skateboards, roller blades, scooters, automated moving devices, except those needed for a medical condition: are not permitted in the school buildings at any time. If a student rides one to school, they are asked to check them at the office..

Hall Conduct: Pupils passing through the halls on the way to and from classes are expected to maintain a reasonable degree of quiet. Whistling, loud talking, name-calling, running and pushing are not permitted.

Telephone: A telephone in the Student Services at WKHS or Main Office at TWHS is available for student use. Students will not be called out of classes to the telephone except in case of emergency. Students are not to be excused from classes or study hall to make phone calls. Use of classroom phones will be at teacher's discretion.

Lockers: During student registration in August, students will be given the opportunity to request a locker. Student lockers are the property of the Board of Education and are provided solely as a convenience for student use. They are to be used only for the purpose of storing textbooks, school supplies, clothing and lunches and should not be considered as a private place. All students are responsible for keeping lockers clean and free of writing. The Administration reserves the right for a school official to search a locker at any time.

Cellular Phones and other Portable Communication Devices: Students are allowed to bring cell phones into the school zone during school hours. Students may use cell phones in the commons only during their lunch period, in hallways during class exchanges, before 8:40 a.m. and after 3:20 p.m. Cell phones are not to be used in classrooms (except for instructional activities) or hallways during instructional time. Unauthorized use of your cell phone may result in it being confiscated and held until a parent or guardian visits the school to claim it and disciplinary action may result. Repeated violations may result in escalating consequences.

The phone may also be searched as such action is a direct violation of school policy. (Tampering with the phone such as removing the SIM Card, removing the battery, or making the phone inoperable shall be considered insubordination and will be subject to school disciplinary consequences.) The extent of the confiscation and/or search of the cell phone is dependent upon the circumstances present at that time and within the discretion of school authorities. The school cannot be held responsible for confiscated items. Whether or not the cell phone is returned to the student or parent is also dependent upon the circumstances presented at the time of the violation.

Remember: Cell phones, like all other personal items brought by a student into a school zone, may be subject to search. The outcome of that search may result in school sanction and/or a criminal investigation by the police.

Portable electronics are allowed to be used with discretion. We expect to be able to communicate with students at all times. Use of these devices in a classroom is up to teacher discretion.

No student shall possess or use any type of laser device including laser pointers while on school property or while attending a school-sponsored activity on or off school property. Students in violation of this policy are subject to confiscation of the laser device, suspension or expulsion from school, and possible referral to legal authorities. Anyone who discovers a student in possession of a laser device in violation of this policy shall report the violation to the principal.

Any exceptions that are granted regarding the use of electronic or laser devices as described above may be granted under any limitations or specifications as determined in advance by the Superintendent, principal or assistant principal.

Students are not to bring their own handheld or laptop electronic games during the school day. Frisbees, yo-yo's and other flying devices (drones) are not permitted without the direct supervision of staff. The school day is officially from 8:00 a.m. to 3:20 p.m.

Radios, Musical Instruments, Electronic Devices or other devices producing sound: These devices are prohibited on school grounds between 8:00 a.m. and 3:20 p.m. Radios and audio-playing devices are permitted in common areas if headphones are used, or under the direct supervision of an adult elsewhere in the building. The school is not responsible for lost, stolen or broken audio devices or equipment.

Leaving the building: Students must have permission from a principal or designee to leave the building.

Restricted areas: Students are not permitted in restricted areas unless authorized by school personnel. Restricted areas include but are not necessarily limited to the outdoor areas of the school building. Students found in a restricted area unsupervised may be subject to search.

Open Lunch -- Grades 11 and 12: Juniors and seniors must submit a signed Open Lunch Form in order to be authorized to leave campus for lunch. This form must be on file. While students are out in the community, they are expected to represent Worthington City Schools with class, dignity and decorum. This privilege, if not handled appropriately, may be revoked. Open lunch may also be revoked if school rules are not followed.

Juniors and seniors may leave during an approved option period if they have a signed parent permission form on file.

The Principal reserves the right to close open lunch for any reason.

Closed Lunch – Grades 9 and 10: Underclass students have closed lunch. Outside lunch food may not be brought into the cafeteria for more than an individual student. Students may not have food delivered to the school by any type of restaurant or delivery service. Students may be excused to accompany parents during their lunch period. Parents must sign out their child in the Attendance Office prior to leaving and sign in upon returning.

Student IDs: Students are provided with a student ID which must be accessible for proper identification, library privileges, athletic passes, dances, use of open lunch privilege (juniors and seniors only), and all Options and attendance procedures. All students are required to have a current student ID accessible. Failure to carry a student ID can result in a consequence, including being unable to attend Options.

LATE ARRIVAL/EARLY RELEASE OPTION Juniors and Seniors

Students must have parent approval forms on file. **All listed guidelines must be followed in order to be eligible for this privilege.** Juniors and seniors may be eligible for the following options depending upon their schedule; schedules should not be manipulated (classes added or dropped) to accommodate late arrival or early release.

Late Arrival / Early Release

Late Arrival and Early Release are both privileges. The administration reserves the right to approve / revoke these privileges at any time. Note: Students who have early release must leave the building or be under the direct supervision of a staff member, or will be assigned an Academic Prep period.

When considering Late Arrival/Early Release, parents and students should make the decision together. It is important that both understand the consequences of the decision and not jeopardize a student's ability to compete for college admissions or similar opportunities by reducing their course load or level of academic challenge in order to generate more free time. Most students competing for similar futures will be taking six and seven courses each of their four years of high school and maintaining a consistent academic profile in their course selection.

DANCE GUIDELINES AND EXPECTATIONS

Our goal in the implementation of these guidelines is the creation of a safe and fun environment in which our students can enjoy themselves in an appropriate and legal manner while on our campus. Students that violate the following guidelines will be putting themselves and others at risk and if discovered, will face consequences as outlined below.

1. For an Informal Dance, expectations are that the clothes worn that night will be similar to those worn to school, such as T-shirts and jeans. For a Formal Dance, expectations are that the clothes worn that night will be formal attire – gowns, skirts, sports coats, suits, etc. For all dances, student dress, behavior, and dance styles are to be in accordance with the Student/Parent/Staff Handbook and contribute to the creation of a safe environment. Students arriving in attire that violates the school-day dress code may not be admitted.
2. Students engaging in dangerous, disrespectful, inappropriate, or unsafe behavior will be subject to removal from the dance, suspension, expulsion and/or arrest, depending on the severity of the situation.
3. Students attending a dance at their own home school must present their student ID or be recognized by a staff member to be allowed entry to the dance.
4. Non-Worthington students, or students attending a dance at somewhere other than their home school, are considered “Guests.” Guests must also show a photo ID upon arrival. *All guests for dances must be registered by 3:30 p.m. on the last school day before the dance.* Only one guest per student is allowed. **Guests must be in at least Ninth Grade and under the age of 21.** The guest’s home school may be contacted and we reserve the right to deny admission to guests with a negative disciplinary record. Non-registered guests may be turned away.
5. Ticket prices for dances will vary depending on the length and formality of the event. Formal dances will offer tickets for sale during the week leading up to the dance.
6. Entry to all dances will be through a single door only. All coats, jackets, and purses must be checked and left in the coat check area while students are on the dance floor.
7. If bottled water is available, it must be consumed in a designated area and is not allowed on the dance floor.
8. All DJ’s hired for dances have agreed to only use songs that come from a “clean-edit” list. Generally, requests will not be honored during the dance. An exception to this policy may be allowed if the DJ has prepared a list of pre-screened, clean-edit songs for students to choose from.
9. The dance will be monitored by staff, administrators, parents, and police. The parking lot may also be monitored, but the school will not be responsible for damage to or theft from vehicles. Participants park at their own risk.
10. Once a student leaves the building, there will be no re-admittance to the dance. If a situation arises in which a student must travel to and from a vehicle in the parking lot during the dance, they must be accompanied by a police officer or staff member.
11. Students determined to be in attendance while in violation of the district’s Alcohol, Tobacco, and Other Drug (ATOD) policies will be subject to arrest and removal.
12. Students in violation of the ATOD policies who drove a motor vehicle to the dance will be subject to having that vehicle towed at the owner’s expense to an impound lot.

ASSEMBLY EXPECTATIONS

Assemblies and meetings are held throughout the school year for the benefit of the student body. It is expected that all students and staff will attend any special program or meeting in the auditorium (or any other room of the school). The following expectations will be the standard conduct:

1. Feet should be kept on the floor, not placed on the back of the seat in front of you.
2. Courtesy and respect should be shown at all times to those on the stage. Audience members are expected to sit up, watch, and listen.
3. Applause should be used to show appreciation. Whistling, shouting, and stomping feet are not appropriate.
4. Paper or other objects should never be thrown.
5. No food or drink of any kind is ever to be taken into the auditorium or gymnasium. Help to maintain the seats and floor by disposing of gum in waste containers.
6. Everyone is to remain seated until dismissal of any assembly program unless there is an emergency. It is a sign of respect to those on stage as well as to the rest of the audience not to leave during a program.

CAFETERIA

Breakfast will be served in the cafeteria before school, and lunch will be available during designated lunch periods. All food purchased must remain in the cafeteria/commons unless approved by a staff member. (See Food in the Halls/Classrooms) The following common courtesies are expected of all persons using the cafeteria:

1. Moving ahead of others in the lunch line is unacceptable.
2. Loud or unusual noises and name-calling are not acceptable in the cafeteria.
3. Throwing food, paper or other items is unacceptable.
4. Students are to remove all material from tables before leaving the cafeteria. All disposable items are to be placed in waste cans provided throughout the cafeteria.
5. Students are to treat cafeteria personnel with courtesy and respect.

FOOD IN THE HALLS/CLASSROOMS

All cafeteria food must be eaten in the cafeteria or commons. Food and/or drink in the auditorium and gymnasiums and all classrooms is prohibited. Note: When appropriate, teachers may make special arrangements to have drinks and food in their classroom.

HEALTH SCREENINGS

Vision and hearing screenings will be conducted for students in grades 7, 9, and 11, along with new students and staff referrals.

TEXTBOOKS AND EQUIPMENT (FINES AND FEES)

Students are responsible for maintaining and returning all textbooks and materials issued to them. Students will be assessed a fine for the repair or replacement of any book or equipment that is damaged or lost while under their responsibility. **Student diplomas and transcripts may not be released to any student who fails to clear all academic and athletic fees and all book and library fines, and may not be permitted to participate in co-curricular activities.**

SCHOOL BUSES

Transportation by the district is a privilege. The following regulations apply to student conduct while boarding and riding buses, in loading and unloading areas, and at pick-up and drop-off points:

1. The school bus driver shall be in charge of the bus at all times and shall be responsible for order.
2. Students riding school buses shall:
 - a. arrive at the bus stop before the bus is scheduled to arrive;
 - b. board, leave, and ride the school bus in an orderly and non-disruptive manner;
 - c. sit in their seat from the time of boarding until disembarking;
 - d. refrain from engaging in any conversation or activity (including fighting) which could reasonably interfere with the safety of passengers or with the bus driver's safe operation of the bus;
 - e. refrain from conduct, conversation, or forms of expression which could reasonably be said to offend the ordinary sensibilities of human beings;
 - f. not vandalize or otherwise damage a school bus;
 - g. not eat, drink, or use tobacco while in a school bus;
 - h. not be in possession of or transport animals, dangerous objects, or weapons;
 - i. not throw objects either out of or within the bus and not extend any part of their body out of a window;
 - j. make no noise while a school bus is approaching or crossing a railroad crossing or at any other point of danger as specified by the school bus driver; and
 - k. cross all streets at least ten (10) feet in front of the school bus and shall remain visible to the driver at all times;
 - l. board or leave the bus only at locations to which the students have been assigned unless they have parental and administrative authorization to do otherwise.

Students who wish to ride the bus home with another student who rides a different bus than the one assigned need to bring in a note from a parent/guardian stating permission for their student to ride a different bus. Whenever possible this note should contain the bus number of the bus they want their student to ride. A phone call verification may be made to the parent of the student requesting to ride a different bus. If this letter is not presented to Student Services at WKHS or Central Office at TWHS in time to successfully get a hold of a parent before the bus arrives, the request may be denied.

The Board of Education has installed video cameras on school buses to monitor student behavior. If a student misbehaves on a bus and the students' actions are recorded, the recording will be submitted to the Principal and may be used as evidence of misbehavior.

A violation of any of the foregoing rules or of any provision of the Student Code of Conduct (5500) shall constitute disorderly conduct and shall subject the student to suspension of bus privileges, emergency removal, or other discipline. Suspension of bus privileges shall be in accordance with board policy 5610.04.

ACADEMIC PREPARATION, ACADEMIC INTERVENTION AND OPTION/PRIVILEGE

Academic Prep (study halls), if used appropriately, provide students with opportunities to successfully complete homework, study for tests, finish projects, etc. Students are encouraged to use their Academic Prep time wisely. *Academic Prep is to be quiet and conducive to these activities.*

Students may choose from the following resource options: Academic Assistants, Library, and Computer Lab. Attendance will be taken during this period. Students who leave Academic Prep and attend one of the resource options must sign in with their student ID and must remain the entire period unless given a pass to return to the Academic Prep classroom. Students may also meet with a supervising staff member for tutoring or other academic help during an Academic Prep period. *Students must have a pass from a teacher in order to leave Academic Prep for tutoring.*

Academic Intervention is available throughout the day. Academic Assistants are available in the areas of Math, English, Social Studies and Science. Students may drop in for support or may be assigned for intervention.

Options/Privilege allows eligible students freedom during unscheduled time so they can learn to manage their time responsibly while continuing to fulfill their academic goals. Students eligible for the Option/Privilege program will have the option of using the commons for study, the library, computer lab, and the counseling center during their unscheduled class time. Students must be in supervised areas. Juniors or seniors may have late arrival and/or early release and may leave for lunch and an adjacent option with written parent permission on file. Juniors and seniors who have failed a course at the end of a nine-week period may be assigned an academic intervention.

The Options/Privilege program is a privilege for students who exhibit good attendance, are in good academic standing, and abide by the Student Handbook rules. Because Options is a privilege, the school requires these standards to be upheld in order to retain the privilege. Early Release and Late Arrival are privileges that may be taken away as part of a loss of options. Assignment to Academic Intervention in place of Options may result when a student is failing a class at the end of any grading period or needs to pass a portion of any State-mandated assessments.

The principal or designee will be the ultimate arbiter of the Options/Senior Privilege program.

ATTENDANCE REGULATIONS

Worthington City Schools Attendance Philosophy

The Worthington City School District believes daily attendance is a foundational piece of a student's academic success. In creating an environment for that academic success, the district works with students and their parents/guardians to encourage consistent ongoing attendance.

House Bill 410 was passed into law by the Ohio General Assembly in December of 2016 and dictates the way school districts monitor student attendance across the state. Schools must keep track of absences by hours (to include partial-day absences) as opposed to days missed.

- **Definitions:**
 - **Habitual Truant** - any student absent **without a legitimate excuse** for absences of
 - 30 or more consecutive hours
 - 42 or more total hours in one school month
 - 72 or more total hours in one school year
 - **Excessive Absence** - any student absent **with or without a legitimate excuse** for absences of
 - 38 or more hours in one school month with or without a legitimate excuse
 - 65 or more hours in one school year with or without a legitimate excuse
- If a student has exceeded one of the attendance thresholds for **Habitual Truancy**, a letter will be sent home with the student and phone calls will be made to contact the student's parent/guardian to set up a meeting. The purpose of this required meeting will be for the parent/guardian, student (when appropriate), and building staff to be a part of an Absence Intervention Team and meet to develop an Absence Intervention Plan. A plan will need to be developed to achieve "satisfactory" improvement in attendance, or truancy charges could be filed to the juvenile court.
- If a student has exceeded one of the attendance thresholds for **Excessive Absences**, a letter will be sent home with the student and phone calls will be made to note the requirement for any additional absences to have a doctor's note to consider them excused.

The Board believes that regular school attendance is an important part of the educational process. Classroom interaction is an important part of the learning process, and the implied value of schooling is diminished when students are removed from school to meet vacation schedules.

The Board recognizes that there are unique occasions in which the education of the student is well-served by being absent from school. Such opportunities should be taken while ensuring that the missed school work will be made up.

Since teachers must devote time to update students who have been absent, prolonged or repeated absences disrupt not only the education of the individual but also the continuity of the process in the entire classroom. The Board urges parents to minimize the time their students are absent from class.

EXCUSED ABSENCES

The statutes of the Ohio Revised Code governing school attendance are specific and leave little option for school authorities to excuse students from school except for:

- Personal illness
- Medical or dental appointment (typically partial day)
- Illness in the family
- Quarantine of the home
- Death in the family
- Religious holidays
- Field Trips
- College Visit
- Service as precinct officer for elections
- Family Emergency

Absences for any other reasons are generally unexcused.

The following guidelines **must** be adhered to by all students enrolled in Worthington schools regardless of age. Parents must excuse the absences of dependent 18-year old students.

RELIGIOUS HOLIDAYS

Worthington Schools is committed to promoting a learning environment that respects and values Diversity, Equity and Inclusion in order to create a culture of acceptance, and that celebrates and empowers differences. For many

students in our schools the observance of religious or cultural traditions is an important part of their personal, family, and community life. These traditions help students understand and preserve their own value systems, cultures, customs and histories.

Worthington Board of Education Policy 5200 provides an excused absence for: “observation or celebration of a bona fide religious holiday.” Guardians should notify the school office that their student will be absent for religious leave. Communicating that leave in advance with your student’s teachers will aid teachers in accommodating your student.

In addition, Worthington recognizes the following holidays are of major significance to religious and cultural groups in our school district:

Good Friday
Easter
Christmas
Eid Al-Adha
Eid Al Fitr
Diwali
Rosh Hashanah
Yom Kippur

School district employees will make best efforts to not schedule the following during these designated holidays:

- Major Exams
- Reviews for Major Exams
- Standardized Tests
- Other critical/major class components (will vary by course)
- Tryouts for teams, plays, etc...
- One-time or major events (homecoming, prom, graduation, senior nights, state of the schools, orientations, concerts, etc.)

In the event of an unavoidable scheduling conflict, teachers will work with students to make reasonable accommodations. Teachers should be sensitive to the scheduling of quizzes longer than ten minutes on these holidays and attempt to avoid assigning or collecting other major assignments on these days. Students will probably be with their families in observance of these holidays and may not have time available to do the required homework by the initial due date. Absence to observe these holidays should be excused with the same make-up privileges offered to a student who has an excused absence for illness.

School district employees will make best efforts to schedule interscholastic athletic games in a manner that minimizes conflict with the designated holidays recognizing that this will not always be possible due to opponent schedules, tournament schedules, etc. Interscholastic practices are allowed, but students observing their religious holiday should be excused from participation without penalty.

School district employees may arrange for students to participate in one-time or major events on a designated holiday if the scheduling of these events is not controlled by our employees (e.g. academic competitions or conferences organized by third parties). Scheduling of such events must be approved by the building principal and Director of Elementary or Secondary Education.

REPORTING ABSENCES

Parents/Guardians are asked to contact the Attendance Office before 9:00 a.m. if their student will be absent. If the parent/guardian does not call in when their student is absent, the school will verify absences by email or phone the day the absence occurs. (This is required by Ohio Missing Child Regulations.) Requests for pre-excused absences should be submitted 24 hours in advance. (See Pre-Excused Absences)

To report an absence for students, contact the 24-hour Attendance Line or Email:

Please provide the following information:

1. student's name
2. grade
3. date
4. reason for absence
5. person calling
6. number where person can be reached

Students do not have to check in at the Attendance office upon their return to school after a full-day absence, as long as the parent/guardian had notified the school of the absence by telephone or email. If notification was not made, the student should bring a note to the Attendance office upon return.

PRE-EXCUSED ABSENCES

A pre-excused absence is defined as an absence for cause or an absence that occurs with the prior full knowledge and consent of the parents. The principal or designee may, at their discretion, accept as valid the reasons for such an absence or reject such reasons.

School is dismissed at 3:20, and students are requested to make all doctor and dentist appointments after school hours.

1. Parents/Guardians should contact the Attendance Office PRIOR to the appointment, preferably the day before.

Or a note from parent turned in to the Attendance Office prior to appointment

2. If it is a same-day appointment, the student is responsible for checking at the attendance office and picking up their yellow pass BEFORE the class they will need to leave. Teachers are not required to release students from a classroom without a yellow pass. Please use yellow pass to leave at designated time. The office does not call you down.
3. Student shows the teacher the yellow pass at the beginning of the period they will be leaving. (Parents/Guardians are not required to sign their student out, as long as the school has been notified ahead of time and the student has picked up the yellow pass.) This is different from some Middle School practice.
4. Students must sign back in at the Attendance Office upon return to school from appointment.

UNEXCUSED ABSENCES

Truancy/unexcused absence is defined as the absence of a student from school or from their assigned area for other than an accepted valid reason, as defined by the Ohio Revised Code or the provisions of this handbook, for all or part of a day when school is in session. Even when the absence occurs with parental knowledge and consent, the principal or designee need not accept as valid the reason given for the absence.

Students who are truant, unexcused from class, suspended, emergency removed, absences by consent of the parent or with the parent's knowledge for a reason that is not acceptable to the school (unexcused but verified absences) or absences that are not followed by appropriate documentation from the parent, doctor, or courts or any absence due to being expelled may not receive academic credit for missed assignments. However, students are strongly encouraged to make up missed assignments so they don't miss the learning. The building principal will have sole discretion to enact provisions to allow students to receive credit based upon extenuating circumstances.

UNEXCUSED BUT VERIFIED ABSENCES

This absence is unexcused by school officials, but is recognized as a request of the parent. The law does not excuse absence from school for such reasons as music or dance lessons; driver's permit tests or exams; oversleeping, car trouble, no ride, traffic; visits to other schools; hair or nail appointments; or work for pay other than those excused by law or any other absence not considered part of a reasonable school program.

CLASS CUTTING

Class cutting is defined as not being in the assigned area per a student's schedule. Class cuts will be treated as an unexcused absence and are a Code of Conduct Violation.

MAKE-UP WORK

Excused Absences: It is the student's responsibility to secure assignments and to complete work on time. All work missed during a period of excused absence may be made up. Upon returning to school, a student shall have a period of school days equal to the number of school days absent in which to make up any class work. Due dates for quizzes, tests, projects and papers must be reasonable and will be mutually agreed upon between teachers and students. Students should access missed work from that day's lesson through Infinite Campus, Schoology or email their teachers.

Unexcused Absences (Truancy/Cutting Class): If a student is truant from class(es), they will not be able to receive credit for any work that is missed. This includes assignments/papers/projects that are due, in-class assignments, quizzes, or tests. The due dates for assignments given during an unexcused absence must be met. Even though credit cannot be earned, all students are encouraged to do the missed work so as not to fall behind. The Principal or designee will have the discretion to enact provisions that allow exceptions on a case-by-case basis.

Unexcused Absences (Suspension from School): Students who are suspended from school will have the opportunity to receive credit for missed assignments, tests, projects or class work. Assignments missed due to out-of-school suspension may be completed for credit. The student is responsible for contacting instructors and making arrangements to receive all assignments. Completed assignments are due upon return to school. If needed, the student will have the same number of days to complete as they were out for the suspension. These assignments may not be assigned a failing grade solely on account of the student's suspension. Due dates for tests, projects and major papers must be reasonable and will be mutually agreed upon between teachers and students. The Principal or designee will have the discretion to enact provisions that allow extensions on a case-by-case basis. Expelled students are not able to make up work after they are withdrawn from school.

EXTENDED ABSENCE PROCEDURES

Family Vacations/Extended Absences: The school strongly discourages vacations or extended absences during the days school is in session. However, if a parent or guardian wishes to take a child out of school for any period of time for reasons other than personal illness, death in the immediate family, religious observances or family emergencies, a parent/guardian must contact the office in advance. An Extended Absence Form must be filled out a minimum of three school days prior to the first day of the proposed absence. If the form is not filled out within three school days of the first day of the proposed absence, it may not be excused.

Students are responsible for tests and quizzes that were given during their absence on the day of their return to class. Students are responsible for informing their teachers of impending absences in a timely manner.

Students are responsible for keeping up with their class work during the extended planned absence.

COLLEGE VISITS

Students occasionally request an excuse from school for the purpose of visiting and evaluating a college or university. *Up to five (5) college visitation days per year* will be allowed for juniors and seniors. Permission for more than this limit can be obtained from your counselor or an administrator.

SKIP DAYS

The Worthington Board of Education, administration and staff do not condone class skip days. Any student participating in a skip day for any length of time will be counted as truant all day and will face the proper disciplinary procedures. **A student may be suspended during semester and final exam schedules.**

TARDINESS AND TARDY POLICY

An important part of the school day is being punctual. Tardiness to class is not acceptable. It is the student's responsibility to be in the classroom when the bell rings. Penalties for tardiness and class cuts are included in the code of conduct.

Students arriving at school after 8:40 a.m. are considered tardy. **From 8:40 to 8:55 a.m. tardy students should go directly to class and minimize the time lost from class.** At 8:55 or after, students should report to the Attendance Office to sign in with their Student ID and receive a pass.

Tardiness to any class is a Level 1 violation, and consequences will be enforced by the classroom teacher in accordance with the Student Code of Conduct. Early Release and Late Arrival are privileges that may be taken away as part of a loss of options.

Excused Tardies:

- Illness*
- Doctor appointments with a doctor's excuse.
*If tardies resulting from illness become excessive, a doctor's excuse may be requested.

Unexcused Personal Tardies:

- Oversleeping (alarm not working, etc...)
- Car trouble, Missed ride/bus
- Any others that cannot be verified.

STUDENT AIDES

A student aide is a Worthington student who is accepted by a staff person to assist with either the performance of office or classroom duties. This student may also be selected given that the student needs additional guidance, mentorship or support from a staff member. Each aide is under the direct supervision of the staff member and will remain in the classroom/office with that staff member. Student Aides may leave the office or classroom to run errands or perform assigned duties but must return immediately to the classroom or office upon completion of these tasks.

SENIOR TAG

Senior tag is not a school-sponsored nor school-sanctioned activity. Please remember that Worthington Schools has a zero tolerance on weapons and look-alike weapons that include squirt guns and other toys used to shoot. Students who have participated in this activity in the past have been injured, and damage has been caused to community property. Worthington Schools cannot be held responsible for issues that arise out of student participation in this non-school related activity. Violations on campus may lead to disciplinary consequences.

DRIVING AND PARKING REGULATIONS

The Board of Education and Administration believe it is a privilege for students to drive to and from school. Therefore it is the responsibility of each student driving to school and parking to comply with the regulations established regarding student parking and driving. Worthington Schools is not liable for damage or responsible for any loss from vehicles parked or operated on district property.

A. Parking of Vehicles Driven by Students

1. A student shall not park a motorized conveyance in any visitor or faculty parking area or in any location on school premises other than in a designated student parking lot between the hours of 7:00 a.m. and 5:00 p.m. on school days unless otherwise notified.
2. Students shall park only in marked spaces within the student parking lot and shall not park in spaces reserved for "Visitors," "Staff" or "Handicapped" parking; in turn lanes; beside curbs painted yellow; or in areas where parking or stopping or standing of vehicles is forbidden by sign.

B. Registration of Vehicles Driven by Students

1. A student who desires to drive and park a motor vehicle on school premises shall make an application for and, if approved, purchase the use of a parking permit from **MyPaymentsPlus** for a fee of \$10.00. Eligibility for parking permits will be decided on a yearly basis by the high school administration. Parking permits remain the property of Worthington Schools and must be surrendered at the school's request. Permits are used subject to adherence to established Driving and Parking Regulations.
2. A lost or stolen parking permit must be reported immediately to the office. Students who lose their permits or have them stolen have five school days in which to recover their lost permit. During the five-day recovery period, students must display their copy of the Lost Parking Permit Reporting Form on their dashboard. If after five school days a student has not recovered the lost permit, a replacement permit must be purchased for \$10 if the student wishes to continue to drive and park on campus.
3. A student must not sell, give, or otherwise transfer a parking permit to another student or person. An updated license number of the student's vehicle must be communicated to the office. NOTE: Any student who has a student parking permit must be in a registered vehicle when entering campus.

4. The student parking permit shall be displayed in the front windshield of the motor vehicle at all times while the vehicle is being driven or parked on campus.

C. General Regulations for Student Driving & Parking:

1. A student shall not violate any law or ordinance regarding the operation of a motor vehicle or any regulation set forth herein while on school premises, under school authority, or at any school-sponsored activity, function, or event.
2. A student shall operate a motor vehicle on school premises safely and at a speed consistent with existing conditions. Students should use head-in parking.
3. A student operating a motor vehicle on school premises shall yield the right-of-way to pedestrians, school buses, and the directions of a staff member.
4. A student who operates a motor vehicle on school premises shall have a valid operator's license and the motor vehicle shall be insured against liability for personal injury and property damage caused by the student driver. The Board of Education shall not be liable for the student driver or for the vehicle and its contents.
5. A motor vehicle parked on school premises in violation of parking and driving regulations shall be subject to being ticketed by the police or being towed away at the owner's expense.
6. A student shall not drive or park a motor vehicle on school premises when their privilege to do so has been suspended or revoked.
7. All students, pedestrians and drivers shall follow the direction of school personnel and abide by school regulations.
8. Any student who has had parking privileges revoked for the remainder of the school year may not purchase a one-day tag or legally park on campus by any other means.
9. The use of tobacco, alcohol or drugs in school parking areas, violation of school parking or driving regulations, or the violation of any law or ordinance when on school premises may result in disciplinary actions such as: the assignment of detentions, suspension, expulsion, or emergency removal.
10. Seniors and juniors may not transport an underclassman during the lunch periods as lunch is closed to ninth and tenth graders. Students eligible to leave campus are not permitted to transport ineligible students off school grounds.

D. Disciplinary Actions for Violation of These Regulations

1. Disciplinary action may result from the violation of any of the regulations set forth herein. The circumstances of a particular offense may result in suspension or revocation of a student's parking permit without refund, or more severe disciplinary action. In general, there are three levels of discipline for parking violations but administrative discretion may be used. Level one may include detentions, loss of driving and parking privileges. Level two may include multiple consequences and/or loss of driving and parking privileges. Level three may include a one to three-day suspension, the student vehicle being ticketed, towed (at vehicle owner's expense) and/or the loss of driving and parking privileges for the remainder of the year.
2. Any student displaying a parking permit which is counterfeited or has been reported as lost or stolen may be subject to suspension (3 to 5 days) from school under the Code of Conduct for Students. Also loss of parking privileges may be applied on a case by case basis.

**LOSS OF DRIVERS LICENSE FOR DROPPING
OUT, VIOLATIONS OF DRUG/ALCOHOL
POLICIES OR HABITUAL ABSENTEEISM**

Consistent with the Board of Education adoption of this aspect of the Ohio School Law, the superintendent is authorized to notify the Registrar of Motor Vehicles and juvenile court judge 1) when a person withdraws (drops out) from school, 2) when the person has excessive absences from school (10 consecutive days or 15 total days) without a legitimate excuse or, 3) when a person is a repeat violator of the school's drug/alcohol policy, is found to be selling or distributing any quantities or possessing any large quantities, or is expelled from school for the use or possession of alcohol or drugs. When notified, the registrar of Motor Vehicles will suspend the temporary instruction permit or operator's license or deny the opportunity to obtain such a permit or license of a person who is the subject of such notice until the person becomes age 18, returns to school or receives a General Educational Development certificate, or the privileges otherwise are restored.

SEARCH AND SEIZURE

The Board of Education recognizes that the privacy of students or their belongings may not be violated by unreasonable search and seizure and directs that no student be searched without reasonable suspicion or in an unreasonable manner.

The Board acknowledges the need for in-school storage of student possessions and shall provide storage places, including desks and lockers, for that purpose. Such spaces remain the property of the Board and, in accordance with law, may be the subject of random search. Where locks are provided for such places, students may lock them against incursion by other students, but in no such places shall students have such an expectation of privacy as to prevent examination by a school official. The Board directs the school principals to conduct a routine inspection at least annually of all such storage places.

School authorities are charged with the responsibility of safeguarding the safety and well-being of the students in their care. In the discharge of that responsibility, school authorities may search the person or property, including vehicles, of a student, with or without the student's consent, whenever they reasonably suspect that the search is required to discover evidence of a violation of law or of school rules. The extent of the search will be governed by the seriousness of the alleged infraction and the student's age.

This authorization to search shall also apply to all situations in which the student is under the jurisdiction of the Board.

Administrators are permitted to conduct a random search of any student's locker and its contents at any time, providing proper notice has been posted in the locker areas of each building.

Search of a student's person or intimate personal belongings shall be conducted by a person of the student's gender, in the presence of another staff member of the same gender, and only in exceptional circumstances when the health or safety of the student or of others is immediately threatened.

Administrators are authorized to arrange for the use of a breath-test instrument for the purpose of determining if a student has consumed an alcoholic beverage. It is not necessary for the test to determine blood-alcohol level, since the Board has established a zero tolerance for alcohol use.

The Board also authorizes the use of canines, trained in detecting the presence of drugs or devices, when the Superintendent has reasonable suspicion that illegal drugs or devices may be present in a school. This means of detection shall be used only to determine the presence of drugs in locker areas and other places on school property where such substances could be concealed. Canine detection must be conducted in collaboration with law enforcement authorities or with organizations certified in canine detection and is not to be used to search individual students unless a warrant has been obtained prior to the search.

Except as provided below, a request for the search of a student or a student's possessions will be directed to the principal who shall seek the freely offered consent of the student to the inspection. Whenever possible, a search will be conducted by the principal in the presence of the student and a staff member other than the principal. A search prompted by the reasonable belief that health and safety are immediately threatened will be conducted with as much speed and dispatch as may be required to protect persons and property.

The principal shall be responsible for the prompt recording in writing of each student search, including the reasons for the search; information received that established the need for the search and the name of informant, if any; the persons present when the search was conducted; any substances or objects found; and the disposition made of them. The principal shall be responsible for the custody, control, and disposition of any illegal or dangerous substance or object taken from a student.

PHYSICAL RESTRAINT

Section 3319.41 of the Ohio Revised Code specifies that: A person employed or engaged as a staff member, teacher, principal or administrator in a school, whether public or private, may, within the scope of their employment, use and apply such amount of force and restraint as is reasonable and necessary to quell a disturbance threatening physical injury to others, to obtain possession of weapons or other dangerous objects upon the person or within the control of the pupil for the purpose of self-defense, or for the protection of persons or property.

INTERROGATION BY POLICE or OUTSIDE AGENCIES

When law enforcement or other authorities arrive at the school and wish to interview a student or investigate an alleged violation of law, they must contact the building administrator indicating the nature of their investigation and their desire to question a student or students.

If the student (or a member of his/her family) is the subject of a child abuse/neglect investigation, or the student is being interviewed regarding alleged child abuse that took place on school property or involves an emergency, the building administrator shall attempt to contact the parent prior to questioning, and s/he will remain in the room during questioning unless compelling reasons for exclusion are provided by the agency.

If an agency investigating child abuse/neglect indicates that the parent is believed to be the perpetrator, the building administrator will not contact either parent prior to the interview. The building administrator will remain in the room during questioning unless compelling reasons for exclusion are provided by the agency.

Before the student(s) is (are) questioned as a witness to or suspect in an alleged violation of law, the building administrator shall attempt to contact the parent prior to questioning and shall remain in the room during the questioning unless compelling reasons for exclusion are provided by the agency.

ANTI-HARASSMENT

General Policy Statement

It is the policy of the Board of Education to maintain an education and work environment that is free from all forms of unlawful harassment, including sexual harassment. This commitment applies to all School District operations, programs, and activities. All students, administrators, teachers, staff, and all other school personnel share responsibility for avoiding, discouraging, and reporting any form of unlawful harassment. This policy applies to unlawful conduct occurring on school property, or at another location if such conduct occurs during an activity sponsored by the Board.

The Board will vigorously enforce its prohibition against discriminatory harassment based on race, color, national origin, sex, sexual orientation, gender identity and gender expression, disability, age (except as authorized by law), religion, ancestry, or genetic information (collectively, "Protected Classes") that are protected by Federal civil rights laws (hereinafter referred to as unlawful harassment), and encourages those within the School District community as well as Third Parties, who feel aggrieved to seek assistance to rectify such problems. The Board will investigate all allegations of unlawful harassment and in those cases where unlawful harassment is substantiated, the Board will take immediate steps to end the harassment, prevent its reoccurrence, and remedy its effects. Individuals who are found to have engaged in unlawful harassment will be subject to appropriate disciplinary action.

Other Violations of the Anti-Harassment Policy

The Board will also take immediate steps to impose disciplinary action on individuals engaging in any of the following prohibited acts:

- A. Retaliating against a person who has made a report or filed a complaint alleging unlawful harassment, or who has participated as a witness in a harassment investigation.
- B. Filing a malicious or knowingly false report or complaint of unlawful harassment.

- C. Disregarding, failing to investigate adequately, or delaying investigation of allegations of unlawful harassment, when responsibility for reporting and/or investigating harassment charges comprises part of one's supervisory duties.

Definitions

Words used in this policy shall have those meanings defined herein; words not defined herein shall be construed according to their plain and ordinary meanings.

Complainant is the individual who alleges, or is alleged, to have been subjected to unlawful harassment, regardless of whether the person files a formal complaint or is pursuing an informal resolution to the alleged harassment.

Respondent is the individual who has been alleged to have engaged in unlawful harassment, regardless of whether the Reporting Party files a formal complaint or is seeking an informal resolution to the alleged harassment.

School District community means students and Board employees (i.e., administrators, and professional and classified staff), as well as Board members, agents, volunteers, contractors, or other persons subject to the control and supervision of the Board.

Third Parties include, but are not limited to, guests and/or visitors on School District property (e.g., visiting speakers, participants on opposing athletic teams, parents), vendors doing business with, or seeking to do business with, the Board, and other individuals who come in contact with members of the School District community at school-related events/activities (whether on or off District property).

Day(s): Unless expressly stated otherwise, the term “day” or “days” as used in this policy means business day(s) (i.e., a day(s) that the Board office is open for normal operating hours, Monday – Friday, excluding State-recognized holidays).

Bullying

Bullying rises to the level of unlawful harassment when one (1) or more persons systematically and chronically inflict physical hurt or psychological distress on one (1) or more students or employees and that bullying is based upon one (1) or more Protected Classes, that is, characteristics that are protected by Federal civil rights laws. It is defined as any unwanted and repeated written, verbal, or physical behavior, including any threatening, insulting, or dehumanizing gesture, by an adult or student, that is severe or pervasive enough to create an intimidating, hostile, or offensive educational or work environment; cause discomfort or humiliation; or unreasonably interfere with the individual's school or work performance or participation; and may involve:

- A. teasing;
- B. threats;
- C. intimidation;
- D. stalking;
- E. cyberstalking;
- F. cyberbullying;
- G. physical violence;
- H. theft;
- I. sexual, religious, or racial harassment;
- J. public humiliation; or
- K. destruction of property.

Harassment

Harassment means any threatening, insulting, or dehumanizing gesture, use of technology, or written, verbal or physical conduct directed against a student or school employee that:

- A. places a student or school employee in reasonable fear of harm to his/her person or damage to his/her property;
- B. has the effect of substantially interfering with a student's educational performance, opportunities, or benefits, or an employee's work performance; or
- C. has the effect of substantially disrupting the orderly operation of a school.

Sexual Harassment

For purposes of this policy and consistent with Title VII of the Civil Rights Act of 1964, "sexual harassment" is defined as:

Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature, when:

- A. Submission to such conduct is made either implicitly or explicitly a term or condition of an individual's employment, or status in a class, educational program, or activity.
- B. Submission or rejection of such conduct by an individual is used as the basis for employment or educational decisions affecting such individual.
- C. Such conduct has the purpose or effect of interfering with the individual's work or educational performance; of creating an intimidating, hostile, or offensive working, and/or learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity.

Sexual harassment may involve the behavior of a person of any gender against a person of the same or another gender.

Sexual Harassment covered by Policy 2266 - Nondiscrimination on the Basis of Sex Education Programs or Activities is not included in this policy. Allegations of such conduct shall be addressed solely by Policy 2266.

Prohibited acts that constitute sexual harassment under this policy may take a variety of forms. Examples of the kinds of conduct that may constitute sexual harassment include, but are not limited to:

- A. Unwelcome sexual propositions, invitations, solicitations, and flirtations.
- B. Unwanted physical and/or sexual contact.
- C. Threats or insinuations that a person's employment, wages, academic grade, promotion, classroom work or assignments, academic status, participation in athletics or extra-curricular programs, activities, or events, or other conditions of employment or education may be adversely affected by not submitting to sexual advances.
- D. Unwelcome verbal expressions of a sexual nature, including graphic sexual commentaries about a person's body, dress, appearance, or sexual activities; the unwelcome use of sexually degrading language, profanity, jokes or innuendoes; unwelcome suggestive or insulting sounds or whistles; obscene telephone calls.
- E. Sexually suggestive objects, pictures, graffiti, videos, posters, audio recordings or literature, placed in the work or educational environment, that may reasonably embarrass or offend individuals.
- F. Unwelcome and inappropriate touching, patting, pinching, or obscene gestures.
- G. Asking about, or telling about, sexual fantasies, sexual preferences, or sexual activities.
- H. Speculations about a person's sexual activities or sexual history, or remarks about one's own sexual activities or sexual history.
 - Giving unwelcome personal gifts such as lingerie that suggests the desire for a romantic relationship.
 - Leering or staring at someone in a sexual way, such as staring at a person's breasts, buttocks, or groin.
- I. A pattern of conduct, which can be subtle in nature, that has sexual overtones and is intended to create or has the effect of creating discomfort and/or humiliation to another.
- J. Inappropriate boundary invasions by a District employee or other adult member of the School District community into a student's personal space and personal life.

- K. Verbal, nonverbal or physical aggression, intimidation, or hostility based on sex or sex-stereotyping that does not involve conduct of a sexual nature.

Not all behavior with sexual connotations constitutes unlawful sexual harassment. Sex-based or gender-based conduct must be sufficiently severe, pervasive, and persistent such that it adversely affects, limits, or denies an individual's employment or education, or such that it creates a hostile or abusive employment or educational environment, or such that it is intended to, or has the effect of, denying or limiting a student's ability to participate in or benefit from the educational program or activities.

Race/Color Harassment

Prohibited racial harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's race or color and when the conduct has the purpose or effect of interfering with the individual's work or educational performance; of creating an intimidating, hostile, or offensive working, and/or learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a person's race or color, such as racial slurs, nicknames implying stereotypes, epithets, and/or negative references relative to racial customs.

Religious (Creed) Harassment

Prohibited religious harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's religion or creed and when the conduct has the purpose or effect of interfering with the individual's work or educational performance; of creating an intimidating, hostile, or offensive working and/or learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a person's religious tradition, clothing, or surnames, and/or involves religious slurs.

National Origin/Ancestry Harassment

Prohibited national origin/ancestry harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's national origin or ancestry and when the conduct has the purpose or effect of interfering with the individual's work or educational performance; or creating an intimidating, hostile, or offensive working and/or learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a person's national origin or ancestry, such as negative comments regarding customs, manner of speaking, language, surnames, or ethnic slurs.

Disability Harassment

Prohibited disability harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's disability and when the conduct has the purpose or effect of interfering with the individual's work or educational performance; of creating an intimidating, hostile, or offensive working and/or learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a person's disability, such as negative comments about speech patterns, movement, physical impairments or defects/appearances, or the like.

Anti-Harassment Compliance Officers

The following individual(s) shall serve as the District's Anti-Harassment Compliance Officer(s) (hereinafter, "the Compliance Officer(s)").

The names, titles, and contact information of these individuals will be published annually on the School District's web site.

The Compliance Officer(s) are responsible for coordinating the District's efforts to comply with applicable Federal and State laws and regulations, including the District's duty to address in a prompt and equitable manner any inquiries or complaints regarding harassment.

The Compliance Officer(s) will be available during regular school/work hours to discuss concerns related to unlawful harassment, to assist students, other members of the District community, and third parties who seek support or advice when informing another individual about "unwelcome" conduct, or to intercede informally on behalf of the individual in those instances where concerns have not resulted in the filing of a formal complaint and where all parties are in agreement to participate in an informal process.

Compliance Officers shall accept reports of unlawful harassment directly from any member of the School District community or a Third Party or receive reports that are initially filed with an administrator, supervisor, or other District-level official. Upon receipt of a report of alleged harassment, the Compliance Officer(s) will contact the Complainant and begin either an informal or formal complaint process (depending on the request of the Complainant or the nature of the alleged harassment), or the Compliance Officer(s) will designate a specific individual to conduct such a process. The Compliance Officer(s) will provide a copy of this policy to the Complainant and Respondent. In the case of a formal complaint, the Compliance Officer(s) will prepare recommendations for the Superintendent or will oversee the preparation of such recommendations by a designee. All Board employees must report incidents of harassment that are reported to them to the Compliance Officer within two (2) days of learning of the incident.

Any Board employee who directly observes unlawful harassment is obligated, in accordance with this policy, to report such observations to the Compliance Officer(s) within two (2) days. Additionally, any Board employee who observes an act of unlawful harassment is expected to intervene to stop the harassment, unless circumstances make such an intervention dangerous, in which case the staff member should immediately notify other Board employees and/or local law enforcement officials, as necessary, to stop the harassment. Thereafter, the Compliance Officer(s) or designee must contact the Complainant, if age eighteen (18) or older, or Complainant's parents/guardians if the Complainant is under the age eighteen (18), within two (2) days to advise of the Board's intent to investigate the alleged wrongdoing.

Reports and Complaints of Harassing Conduct

Students and all other members of the School District community along with Third Parties are encouraged to promptly report incidents of harassing conduct to a teacher, administrator, supervisor, or other District official so that the Board may address the conduct before it becomes severe, pervasive, or persistent. Any teacher, administrator, supervisor, or other District employee or official who receives such a report shall file it with the Compliance Officer within two (2) days of receiving the report of harassment.

Members of the School District community and Third Parties, which includes students, or third parties who believe they have been unlawfully harassed are entitled to utilize the Board's complaint process that is set forth below. Initiating a complaint, whether formally or informally, will not adversely affect the Complainant's employment or participation in educational or extra-curricular programs. While there are no time limits for initiating complaints of harassment under this policy, individuals should make every effort to file a complaint as soon as possible after the conduct occurs while the facts are known and potential witnesses are available.

If, during an investigation of alleged bullying, aggressive behavior and/or harassment in accordance with Policy 5517.01 - Bullying and Other Forms of Aggressive Behavior, the Principal believes that the reported misconduct may have created a hostile work environment and may have constituted unlawful discriminatory harassment based on a Protected Class, the Principal shall report the act of bullying, aggressive behavior and/or harassment to the Compliance Officers who shall investigate the allegation in accordance with this policy. If the alleged harassment involves Sexual Harassment as defined by Policy 2266, the matter will be handled in accordance with the grievance process and procedures outlined in Policy 2266. While the Compliance Officer investigates the allegation, or the matter is being addressed pursuant to Policy 2266, the Principal shall suspend the Policy 5517.01 investigation to

await the Compliance Officer's written report or the determination of responsibility pursuant to Policy 2266. The Compliance Officer shall keep the Principal informed of the status of the Policy 5517 investigation and provide the Principal with a copy of the resulting written report. Likewise, the Title IX Coordinator will provide the Principal with the determination of responsibility that results from the Policy 2266 grievance process.

Investigation and Complaint Procedure

Except for Sexual Harassment that is covered by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Programs or Activities, any student who believes that they have been subjected to unlawful harassment may seek resolution of the complaint through the procedures described below. The formal complaint process involves an investigation of the Complainant's claims of harassment or retaliation and a process for rendering a decision regarding whether the charges are substantiated.

Due to the sensitivity surrounding complaints of unlawful harassment or retaliation, timelines are flexible for initiating the complaint process; however, individuals should make every effort to file a complaint within thirty (30) days after the conduct occurs while the facts are known and potential witnesses are available. Once the formal complaint process is begun, the investigation will be completed in a timely manner (ordinarily, within fifteen (15) business days of the complaint being received).

The procedures set forth below are not intended to interfere with the rights of a student to pursue a complaint of unlawful harassment or retaliation with the United States Department of Education Office for Civil Rights.

Informal Complaint Procedure

The goal of the informal complaint procedure is promptly to stop inappropriate behavior and to facilitate resolution through an informal means, if possible. The informal complaint procedure is provided as a less formal option for a student who believes s/he has been unlawfully harassed or retaliated against. This informal procedure is not required as a precursor to the filing of a formal complaint. The informal process is only available in those circumstances where the Complainant and the Respondent mutually agree to participate in it.

Students who believe that they have been unlawfully harassed may initiate their complaint through this informal complaint process, but are not required to do so. The informal process is only available in those circumstances where the parties (alleged target of harassment and alleged harasser(s)) agree to participate in the informal process.

The Complainant may proceed immediately to the formal complaint process and individuals who seek resolution through the informal procedure may request that the informal process be terminated at any time to move to the formal complaint process.

All complainants involving a District employee, any other adult member of the School District community, or a Third Party and a student will be formally investigated.

As an initial course of action, if a Complainant feels comfortable and safe in doing so, the individual should tell or otherwise inform the Respondent that the alleged harassing conduct is unwelcome and must stop. The Complainant should address the allegedly harassing conduct as soon after it occurs as possible. The Compliance Officers are available to support and counsel individuals when taking this initial step or to intervene on behalf of the Complainant if requested to do so. A Complainant who is uncomfortable or unwilling to directly approach the Respondent about the alleged inappropriate conduct may file an informal or a formal complaint. In addition, with regard to certain types of unlawful harassment, such as sexual harassment, the Compliance Officer may advise against the use of the informal complaint process.

A Complainant may make an informal complaint, either orally or in writing: 1) to a teacher, other employee, or building administrator in the school the student attends; 2) to the Superintendent or other District-level employee; and/or 3) directly to one of the Compliance Officers.

All informal complaints must be reported to one of the Compliance Officers who will either facilitate an informal resolution as described below, or appoint another individual to facilitate an informal resolution.

The Board's informal complaint procedure is designed to provide students who believe they are being unlawfully harassed with a range of options designed to bring about a resolution of their concerns. Depending upon the nature of the complaint and the wishes of the Complainant, informal resolution may involve, but not be limited to, one or more of the following:

- A. Advising the Complainant about how to communicate the unwelcome nature of the behavior to the Respondent.
- B. Distributing a copy of this anti-harassment policy as a reminder to the individuals in the school building or office where the Respondent works or attends.
- C. If both parties agree, the Compliance Officer may arrange and facilitate a meeting or mediation between the Complainant and the Respondent to work out a mutual resolution.

While there are no set time limits within which an informal complaint must be resolved, the Compliance Officer/designee is directed to attempt to resolve all informal complaints within fifteen (15) business days of receiving the informal complaint. If the Complainant is dissatisfied with the informal complaint process, the Complainant may proceed to file a formal complaint. And, as stated above, either party may request that the informal process be terminated at any time to move to the formal complaint process.

Formal Complaint Procedure

If a complaint is not resolved through the informal complaint process, if one of the parties has requested that the informal complaint process be terminated to move to the formal complaint process, or the Complainant, from the outset, elects to file a formal complaint, or the CO determines the allegations are not appropriate for resolution through the informal process, the formal complaint process shall be implemented.

The Complainant may file a formal complaint, either orally or in writing, with a teacher, principal, or other District employee at the student's school, the Compliance Officer, Superintendent, or another District official who works at another school or at the district level. Due to the sensitivity surrounding complaints of unlawful harassment, timelines are flexible for initiating the complaint process; however, individuals should make every effort to file a formal complaint within thirty (30) days after the conduct occurs while the facts are known and potential witnesses are available. If a Complainant informs a teacher, principal, or other District employee at the student's school, Superintendent, or other District official, either orally or in writing, about any complaint of harassment, that employee must report such information to the Compliance Officer within two (2) business days.

Throughout the course of the process, the Compliance Officer should keep the parties reasonably informed of the status of the investigation and the decision-making process.

All formal complaints must include the following information to the extent known: the identity of the Respondent; a detailed description of the facts upon which the complaint is based (i.e., when, where, and what occurred); a list of potential witnesses; and the resolution sought by the Complainant.

If the Complainant is unwilling or unable to provide a written statement including the information set forth above, the Compliance Officer shall ask for such details in an oral interview. Thereafter, the Compliance Officer will prepare a written summary of the oral interview, and the Complainant will be asked to verify the accuracy of the reported charge by signing the document.

Upon receiving a formal complaint, the Compliance Officer will consider whether any action should be taken in the investigatory phase to protect the Complainant from further harassment or retaliation, including, but not limited to, a change of work assignment or schedule for the Complainant and/or the Respondent. In making such a determination, the Compliance Officer should consult the Complainant to assess whether the individual agrees with the proposed action. If the Complainant is unwilling to consent to the proposed change, the Compliance Officer may still take whatever actions deemed appropriate in consultation with the Superintendent.

Within two (2) business days of receiving the complaint, the Compliance Officer/designee will initiate a formal investigation to determine whether the Complainant has been subjected to offensive conduct/harassment/retaliation. The Principal will not conduct an investigation unless directed to do so by the Compliance Officer.

Simultaneously, the Compliance Officer will inform the Respondent that a formal complaint has been received. The Respondent will be informed about the nature of the allegations and provided with a copy of any relevant policies and/or administrative guidelines, including the Board's Anti-Harassment policy. The Respondent must also be informed of the opportunity to submit a written response to the complaint within five (5) business days.

Although certain cases may require additional time, the Compliance Officer/designee will attempt to complete an investigation into the allegations of harassment/retaliation within fifteen (15) business days of receiving the formal complaint. The investigation will include:

- A. interviews with the Complainant;
- B. interviews with the Respondent;
- C. interviews with any other witnesses who may reasonably be expected to have any information relevant to the allegations;
- D. consideration of any documentation or other information presented by the Complainant, Respondent, or any other witness that is reasonably believed to be relevant to the allegations.

At the conclusion of the investigation, the Compliance Officer or the designee shall prepare and deliver a written report to the Superintendent that summarizes the evidence gathered during the investigation and provides recommendations based on the evidence and the definition of unlawful harassment as provided in Board policy and State and Federal law as to whether the Complainant has been subjected to unlawful harassment. The Compliance Officer's recommendations must be based upon the totality of the circumstances, including the ages and maturity levels of those involved. In determining if discriminatory harassment or retaliation occurred, a preponderance of evidence standard will be used. The Compliance Officer may consult with the Board's legal counsel before finalizing the report to the Superintendent.

Absent extenuating circumstances, within ten (10) school days of receiving the report of the Compliance Officer/designee, the Superintendent must either issue a written decision regarding whether the complaint of harassment has been substantiated or request further investigation. A copy of the Superintendent's final decision will be delivered to both the Complainant and the Respondent.

If the Superintendent requests additional investigation, the Superintendent must specify the additional information that is to be gathered, and such additional investigation must be completed within ten (10) school days. At the conclusion of the additional investigation, the Superintendent shall issue a written decision as described above.

The decision of the Superintendent shall be final.

The Board reserves the right to investigate and resolve a complaint or report of unlawful harassment/retaliation regardless of whether the student alleging the unlawful harassment/retaliation pursues the complaint. The Board also reserves the right to have the formal complaint investigation conducted by an external person in accordance with this policy or in such other manner as deemed appropriate by the Board or its designee.

The parties may be represented, at their own cost, at any of the above-described meetings/hearings.

The right of a person to a prompt and equitable resolution of the complaint shall not be impaired by the person's pursuit of other remedies such as the filing of a complaint with the Office for Civil Rights, the filing of charges with local law enforcement, or the filing of a civil action in court. Use of this internal complaint process is not a prerequisite to the pursuit of other remedies.

Privacy/Confidentiality

The District will employ all reasonable efforts to protect the rights of the Complainant, the Respondent, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to take appropriate action, and to conform with any discovery or disclosure obligations. All records generated under the terms of this policy and related administrative guidelines shall be maintained as confidential to the extent permitted by law. Confidentiality, however, cannot be guaranteed. Additionally, the Respondent must be provided the Complainant's identity.

During the course of a formal investigation, the Compliance Officer/designee will instruct all members of the School District community and third parties who are interviewed about the importance of maintaining confidentiality. Any

individual who is interviewed as part of a harassment investigation is expected not to disclose any information that is learned or provided during the course of the investigation.

Sanctions and Monitoring

The Board shall vigorously enforce its prohibitions against unlawful harassment/retaliation by taking appropriate action reasonably calculated to stop the harassment and prevent further such harassment. While observing the principles of due process, a violation of this policy may result in disciplinary action up to and including the discharge of an employee or the suspension/expulsion of a student. All disciplinary action will be taken in accordance with applicable State law and the terms of the relevant collective bargaining agreement(s). When imposing discipline, the Superintendent shall consider the totality of the circumstances involved in the matter, including the ages and maturity levels of those involved. In those cases where unlawful harassment is not substantiated, the Board may consider whether the alleged conduct nevertheless warrants discipline in accordance with other Board policies, consistent with the terms of the relevant collective bargaining agreement(s).

Where the Board becomes aware that a prior remedial action has been taken against a member of the School District community, all subsequent sanctions imposed by the Board and/or Superintendent shall be reasonably calculated to end such conduct, prevent its reoccurrence, and remedy its effects.

Retaliation

Retaliation against a person who makes a report or files a complaint alleging unlawful harassment/retaliation or participates as a witness in an investigation is prohibited. Neither the Board nor any other person may intimidate, threaten, coerce or interfere with any individual because the person opposed any act or practice made unlawful by any Federal or State civil rights law, or because that individual made a report, formal complaint testified, assisted or participated or refused to participate in any manner in an investigation, proceeding, or hearing under those laws and/or this policy, or because that individual exercised, enjoyed, aided or encouraged any other person in the exercise or enjoyment of any right granted or protected by those laws and/or this policy.

Retaliation against a person from making a report of discrimination, filing a formal complaint, or participating in an investigation or meeting is a serious violation of this policy that can result in imposition of disciplinary sanction/consequences and/or other appropriate remedies.

Formal complaints alleging retaliation may be filed according to the internal complaint process set forth above.

The exercise of rights protected under the First Amendment of the United States Constitution does not constitute retaliation prohibited under this policy.

Allegations Constituting Criminal Conduct: Child Abuse/Sexual Misconduct

State law requires any school teacher or school employee who knows or suspects that a child with a disability under the age of twenty-one (21) or that a child under the age of eighteen (18) has suffered or faces a threat of suffering a physical or mental wound, disability or condition of a nature that reasonably indicates abuse or neglect of a child to immediately report that knowledge or suspicion to the county children's services agency. If, during the course of a harassment investigation, the Compliance Officer or a designee has reason to believe or suspect that the alleged conduct reasonably indicates abuse or neglect of the Complainant, a report of such knowledge must be made in accordance with State law and Board Policy.

State law defines certain contact between a teacher and a student as "sexual battery." If the Compliance Officer or a designee has reason to believe that the Complainant has been the victim of criminal conduct as defined in Ohio's Criminal Code, such knowledge should be immediately reported to local law enforcement.

Any reports made to a county children's services agency or to local law enforcement shall not terminate the Compliance Officer or a designee's obligation and responsibility to continue to investigate a complaint of harassment.

While the Compliance Officer or a designee may work cooperatively with outside agencies to conduct concurrent investigations, in no event shall the harassment investigation be inhibited by the involvement of outside agencies without good cause after consultation with the Superintendent.

Allegations Involving Conduct Unbecoming the Teaching Profession/Suspension

The Superintendent will report to the Ohio Department of Education, on forms provided for that purpose, matters of misconduct on the part of licensed professional staff members convicted of sexual battery, and will, in accordance with Policy 8141, suspend such employee from all duties that concern or involve the care, custody, or control of a child during the pendency of any criminal action for which that person has been arrested, summoned and/or indicted in that regard.

Education and Training

In support of this Anti-Harassment Policy, the Board promotes preventative educational measures to create greater awareness of unlawful discriminatory practices. The Superintendent shall provide appropriate information to all members of the School District community related to the implementation of this policy and shall provide training for District students and staff where appropriate. All training, as well as all information, provided regarding the Board's policy and harassment in general, will be age and content appropriate.

Retention of Investigatory Records and Materials

The Compliance Officer(s) is responsible for overseeing retention of all records that must be maintained pursuant to this policy. All individuals charged with conducting investigations under this policy shall retain all documents, electronically stored information ("ESI"), and electronic media (as defined in Policy 8315) created and/or received as part of an investigation, which may include but not be limited to:

- A. all written reports/allegations/complaints/grievances/statements/responses pertaining to an alleged violation of this policy;
- B. any narratives that memorialize oral reports/allegations/complaints/grievances/statements/responses pertaining to an alleged violation of this policy;
- C. any documentation that memorializes the actions taken by District personnel or individuals contracted or appointed by the Board to fulfill its responsibilities related to the investigation and/or the District's response to the alleged violation of this policy;
- D. written witness statements;
- E. narratives, notes from, or audio, video, or digital recordings of witness interviews/statements;
- F. e-mails, texts, or social media posts that directly relate to or constitute evidence pertaining to an alleged violation of this policy (i.e., not after-the-fact commentary about or media coverage of the incident);
- G. notes or summaries prepared contemporaneously by the investigator in whatever form made (e.g., handwritten, keyed into a computer or tablet, etc.), but not including transitory notes whose content is otherwise memorialized in other documents;
- H. written disciplinary sanctions issued to students or employees and other documentation that memorializes oral disciplinary sanctions issued to students or employees for violations of this policy;
- I. dated written determinations/reports (including summaries of relevant exculpatory and inculpatory evidence) and other documentation that memorializes oral notifications to the parties concerning the outcome of the investigation, including any consequences imposed as a result of a violation of this policy;
- J. documentation of any supportive measures offered and/or provided to the Complainant and/or the Respondent, including no contact orders issued to both parties, the dates the no contact orders were issued, and the dates the parties acknowledged receipt of the no contact orders;
- K. documentation of all actions taken, both individual and systemic, to stop the discrimination or harassment, prevent its recurrence, eliminate any hostile environment, and remedy its discriminatory effects;
- L. copies of the Board policy and/or procedures/guidelines used by the District to conduct the investigation, and any documents used by the District at the time of the alleged violation to communicate the Board's expectations to students and staff with respect to the subject of this policy (e.g., Student Code of Conduct and/or Employee Handbooks);

- M. copies of any documentation that memorializes any formal or informal resolutions to the alleged discrimination or harassment.

The documents, ESI, and electronic media (as defined in Policy 8315) retained may include public records and records exempt from disclosure under Federal (e.g., FERPA, ADA) and/or State law (e.g., R.C. 3319.321) – e.g., student records and confidential medical records.

The documents, ESI, and electronic media (as defined in Policy 8315) created or received as part of an investigation shall be retained in accordance with Policy 8310, Policy 8315, Policy 8320, and Policy 8330 for not less than three (3) years, but longer if required by the District's records retention schedule.

BULLYING AND OTHER FORMS OF AGGRESSIVE BEHAVIOR

The Board of Education is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. The Board encourages the promotion of positive interpersonal relations between members of the school community.

Harassment, intimidation, or bullying toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes aggressive behavior, physical, verbal, and psychological abuse, and violence within a dating relationship. The Board will not tolerate any gestures, comments, threats, or actions which cause or threaten to cause bodily harm or personal degradation. This policy applies to all activities in the District, including activities on school property, on a school bus, or while enroute to or from school, and those occurring off school property if the student or employee is at any school-sponsored, school- approved or school-related activity or function, such as field trips or athletic events where students are under the school's control, in a school vehicle, or where an employee is engaged in school business.

This policy has been developed in consultation with parents, District employees, volunteers, students, and community members as prescribed in R.C. 3313.666 and the State Board of Education's Model Policy.

Harassment, intimidation, or bullying means:

- A. any intentional written, verbal, electronic, or physical act that a student or group of students exhibits toward another particular student(s) more than once and the behavior both causes mental or physical harm to the other student(s) and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student(s); or
- B. violence within a dating relationship.

"Electronic act" means an act committed through the use of a cellular telephone, computer, pager, personal communication device, or other electronic communication device.

Aggressive behavior is defined as inappropriate conduct that is repeated enough, or serious enough, to negatively impact a student's educational, physical, or emotional well being. This type of behavior is a form of intimidation and harassment, although it need not be based on any of the legally protected characteristics, such as sex, race, color, national origin, marital status, or disability. It would include, but not be limited to, such behaviors as stalking, bullying/cyberbullying, intimidating, menacing, coercion, name calling, taunting, making threats, and hazing.

Harassment, intimidation, or bullying also means cyberbullying through electronically transmitted acts (i.e., internet, e-mail, cellular telephone, personal digital assistance (PDA), or wireless hand-held device) that a student(s) or a group of students exhibits toward another particular student(s) more than once and the behavior both causes mental and physical harm to the other student and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student(s).

Any student or student's parent/guardian who believes s/he has been or is the victim of aggressive behavior should immediately report the situation to the Building Principal or assistant principal, or the Superintendent. The student may also report concerns to teachers and other school staff who will be responsible for notifying the appropriate administrator or Board official. Complaints against the Building Principal should be filed with the Superintendent. Complaints against the Superintendent should be filed with the Board President.

Every student is encouraged, and every staff member is required, to report any situation that they believe to be aggressive behavior directed toward a student. Reports may be made to those identified above.

All complaints about aggressive behavior that may violate this policy shall be promptly investigated. The Building Principal or appropriate administrator shall prepare a written report of the investigation upon completion. Such report shall include findings of fact, a determination of whether acts of harassment, intimidation, and/or bullying were verified, and, when prohibited acts are verified, a recommendation for intervention, including disciplinary action shall be included in the report. Where appropriate, written witness statements shall be attached to the report.

If the investigation finds an instance of harassment, intimidation, and/or bullying/cyberbullying by an electronic act or otherwise, has occurred, it will result in prompt and appropriate remedial and/or disciplinary action. This may include suspension or up to expulsion for students, up to discharge for employees, exclusion for parents, guests, volunteers, and contractors, and removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement officials.

If, during an investigation of a reported act of harassment, intimidation and/or bullying/cyberbullying, the Principal or appropriate administrator believes that the reported misconduct may have created a hostile learning environment and may have constituted unlawful discriminatory harassment based on a Protected Class, the Principal will report the act of bullying and/or harassment to one of the Anti-Harassment Compliance Officers so that it may be investigated in accordance with the procedures set forth in Policy 5517 - Anti-Harassment.

Retaliation against any person who reports, is thought to have reported, files a complaint, or otherwise participates in an investigation or inquiry concerning allegations of aggressive behavior is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation should be reported in the same manner as aggressive behavior. Retaliation may result in disciplinary action as indicated above.

Deliberately making false reports about harassment, intimidation, bullying and/or other aggressive behavior for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Deliberately making false reports may result in disciplinary action as indicated above.

If a student or other individual believes there has been aggressive behavior, regardless of whether it fits a particular definition, s/he should report it and allow the administration to determine the appropriate course of action.

The District shall implement intervention strategies (AG 5517.01) to protect a victim or other person from new or additional harassment, intimidation, or bullying and from retaliation following such a report.

This policy shall not be interpreted to infringe upon the First Amendment rights of students (i.e., to prohibit a reasoned and civil exchange of opinions, or debate, that is conducted at appropriate times and places during the school day and is protected by State or Federal law).

The complainant shall be notified of the findings of the investigation, and as appropriate, that remedial action has been taken. If after investigation, acts of bullying against a specific student are verified, the Building Director or appropriate administrator shall notify the custodial parent/guardian of the victim of such finding. In providing such notification care shall be taken to respect the statutory privacy rights of the perpetrator of such harassment, intimidation, and/or bullying.

If after investigation, acts of harassment, intimidation, and/or bullying by a specific student are verified, the Building Director or appropriate administrator shall notify in writing the custodial parent/guardian of the perpetrator of that finding. If disciplinary consequences are imposed against such student, a description of such discipline shall be included in the notification.

Formal Complaints

Students and/or their parents/guardians shall file reports regarding suspected harassment, intimidation, or bullying. Such reports shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. Such reports may be filed with any school staff member or administrator, and they shall be promptly forwarded to the Building Principal for review, investigation, and action.

Informal Complaints

Students, parents/guardians, and school personnel may make informal or anonymous complaints of conduct that they consider to be harassment, intimidation, and/or bullying by verbal report to a teacher, school administrator, or other school personnel. Such complaints shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. A school staff member or administrator who receives an informal or anonymous complaint shall promptly document the complaint in writing, including the information provided. This written report shall be promptly forwarded by the school staff member and/or administrator to the Building Director for review, investigation, and appropriate action.

Individuals who make informal complaints as provided above may request that their name be maintained in confidence by the school staff member(s) and administrator(s) who receive the complaint. Anonymous complaints shall be reviewed and reasonable action shall be taken to address the situation, to the extent such action may be taken that (1) does not disclose the source of the complaint, and (2) is consistent with the due process rights of the student(s) alleged to have committed acts of harassment, intimidation, and/or bullying.

When an individual making an informal complaint has requested anonymity, the investigation of such complaint shall be limited as is appropriate in view of the anonymity of the complaint. Such limitation of investigation may include restricting action to a simple review of the complaint subject to receipt of further information and/or the withdrawal by the complaining student of the condition that his/her report be anonymous.

Privacy/Confidentiality

The School District will respect the privacy of the complainant, the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to take appropriate action, and to conform with any discovery or disclosure obligations. All records generated under this policy and its related administrative guidelines shall be maintained as confidential to the extent permitted by law.

Reporting Requirement

At least semi-annually, the Superintendent shall provide to the President of the Board a written summary of all reported incidents and post the summary on the District web site (if one exists). The list shall be limited to the number of verified acts of harassment, intimidation, and/or bullying, whether in the classroom, on school property, to and from school, or at school-sponsored events.

Allegations of criminal misconduct and suspected child abuse will be reported to the appropriate law enforcement agency and/or to Child Protective Services in accordance with statute. District personnel shall cooperate with investigations by such agencies.

Immunity

A School District employee, student, or volunteer shall be individually immune from liability in a civil action for damages arising from reporting an incident in accordance with this policy and R.C. 3313.666 if that person reports an

incident of harassment, intimidation, and/or bullying promptly, in good faith, and in compliance with the procedures specified in this policy. Such immunity from liability shall not apply to an employee, student, or volunteer determined to have made an intentionally false report about harassment, intimidation, and/or bullying.

Notification

Notice of this policy will be **annually** circulated to and posted in conspicuous locations in all school buildings and departments within the District and discussed with students, as well as incorporated into the teacher, student, and parent/guardian handbooks. At least once each school year a written statement describing the policy and consequences for violations of the policy shall be sent to each student's custodial parent or guardian.

The statement may be sent with regular student report cards or may be delivered electronically.

The policy and an explanation of the seriousness of bullying by electronic means shall be made available to students in the District and to their custodial parents or guardians.

State and Federal rights posters on discrimination and harassment shall also be posted at each building. All new hires will be required to review and sign off on this policy and the related complaint procedures.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of aggressive behavior, including bullying and violence within a dating relationship. The Superintendent or designee shall provide appropriate training to all members of the School District community related to the implementation of this policy and its accompanying administrative guidelines. All training regarding the Board's policy and administrative guidelines about aggressive behavior and bullying in general, will be age and content appropriate.

Annually, the District shall provide all students enrolled in the District with age-appropriate instruction regarding the Board's policy, including a written or verbal discussion of the consequences for violations of the policy.

Students in grades seven (7) through twelve (12) shall receive age-appropriate instruction in dating violence prevention education, including instruction in recognizing dating violence warning signs and characteristics of healthy relationships. Parents, who submit a written request to the Building Director to examine the dating violence prevention instruction materials used in the school, will be afforded an opportunity to review the materials within a reasonable period of time.

The District shall provide training, workshops, and/or courses on this policy for school employees and volunteers who have direct contact with students. Time spent by school staff in these training programs shall apply toward mandated continuing education requirements.

In accordance with Board Policy 8462, the Superintendent shall include a review of this policy on bullying and other forms of harassment in the required training in the prevention of child abuse, violence, and substance abuse and the promotion of positive youth development.

The Superintendent shall develop administrative guidelines to implement this policy. Guidelines shall include reporting and investigative procedures, as needed. The complaint procedure established by the Superintendent shall be followed.

Policy: 5517.01

Adopted: December 18, 2017

HAZING

Hazing activities of any type are inconsistent with and disruptive to the educational process, and prohibited at any time in school facilities, on school property, and/or off school property if the misconduct is connected to or associated with Board-sponsored activities (e.g., extracurricular teams, clubs, or groups) or incidents that have occurred on school property. No administrator, employee, faculty member, teacher, consultant, alumnus, or volunteer of the District shall encourage, permit, authorize, condone, or tolerate any hazing activities. The preceding prohibition includes recklessly permitting the hazing of any person associated with the District. Additionally, no student shall plan, encourage, or engage in any hazing.

Hazing is defined as doing any act or coercing another, including the victim, to do any act of initiation into any class, team, or organization or any act to continue or reinstate membership in or affiliation with any class, team, or organization that causes or creates a substantial risk of causing mental or physical harm to any person, including coercing another to consume alcohol or a drug of abuse. No person shall recklessly participate in the hazing of another. Permission, consent, or assumption of risk by an individual subjected to hazing shall not lessen the prohibitions contained in this policy.

Administrators, employees, faculty members, teachers, volunteers of the District shall be alerted to possible situations, circumstances, or events that might include hazing. If hazing or planned hazing is discovered, the students involved shall be informed by the discoverer of the prohibitions contained in this policy and shall be ordered to end all hazing activities or planned activities immediately. All hazing incidents shall be reported immediately to the Superintendent. Additionally, no administrator, employee, faculty member, teacher, consultant, alumnus, or volunteer of the District who is acting in an official and professional capacity shall recklessly fail to immediately report the knowledge of hazing to a law enforcement agency in the county in which the victim of hazing resides or in which the hazing is occurring or has occurred. Students, administrators, employees, faculty members, and teachers who fail to abide by this policy may be subject to disciplinary action and may be held personally liable for civil and criminal penalties in accordance with law.

The Superintendent shall distribute this policy to all students, Board employees, consultants, and volunteers, and shall incorporate it into building, staff, and student handbooks. It shall also be posted on the District's website. This policy shall be the subject of discussion at employee staff meetings or in-service programs.

Board employees and volunteers shall not intentionally remain ignorant of hazing or potential hazing activities.

Violations of this policy are subject to discipline as outlined in the student handbook.

DETENTIONS

At times it may be necessary to assign students detentions for inappropriate behavior or actions that violate the Code of Conduct.

Detentions may be assigned by any staff member or administrator. Students will be given a 24-hour notice as to the date of the detention. Being tardy to detention or failure to serve a detention may lead to a further consequence. (See Disciplinary Action Chart, Appendix E)

EMERGENCY REMOVAL OF STUDENT

If a student's presence poses a continuing danger to persons or property, or an ongoing threat of disrupting the academic process taking place either in a classroom or elsewhere on school premises, then the Superintendent, Principal or assistant Principal may remove the student from curricular activities or from the school premises. A teacher may remove the student from curricular activities under the teacher's supervision, but not from the premises.

If a teacher makes an emergency removal, the teacher will notify a building administrator of the circumstances surrounding the removal in writing, as soon as practicable. Because such removal is not subject to the normal suspension and expulsion procedures, no prior notice or hearing is required for any removal under this policy.

A due process hearing will be held on the next school day after the removal is ordered. Written notice of the hearing and the reason for the removal and any intended disciplinary action will be given to the student as soon as practical prior to the hearing. If the student is subject to out-of-school suspension, the student will have the opportunity to appear at an informal hearing before the Principal, Assistant Principal, Superintendent or designee and has the right to challenge the reasons for the intended suspension or otherwise explain his/her actions. Within one (1) school day of the decision to suspend, written notification will be given to the parent(s)/guardian(s) or custodian of the student. This notice will include the reasons for the suspension, the right of the student or parent(s)/guardian(s) to appeal to the Board or its designee and the student's right to be represented in all appeal proceedings. If it is probable that the student may be subject to expulsion, the hearing will take place on the next school day after the date of the initial removal and will be held in accordance with the procedures outlined in the Policy 5611 - Due Process Rights. The person who ordered or requested the removal will be present at the hearing.

Students who are removed from school for emergency or safety purposes are automatically removed from all school activities and all co-curricular activities for the same period of time as the emergency removal from school. An emergency removal from a co-curricular activity only, which does not involve a related suspension or expulsion from school, is governed by Board of Education Policy 5610.05 and not by this regulation.

COMMUNITY SERVICE

In lieu of other disciplinary actions, community service may be used. Community service time assigned as part of a disciplinary action will be outside of normal school hours, and may require that students arrange for alternative forms of transportation. This is the responsibility of the student completing the community service time.

ALTERNATIVE LEARNING CENTER (WKHS-ALC)

At times it is necessary to assign students ALC for inappropriate behavior or actions that violate the Code of Conduct. The due process provisions of notice, a hearing, and the right to appeal included in this regulation and in Ohio Revised Code section 3313.66 are not applicable to the assignment of a student to an alternative learning center or any other alternative educational assignment when the student is not removed from school attendance and the student is provided an opportunity to obtain credit for their assignments or school work completed during such time.

ALTERNATIVE LEARNING SITE (TWHS-ALS)

At times it is necessary to assign students ALS for inappropriate behavior or actions that violate the Code of Conduct. The due process provisions of notice, a hearing, and the right to appeal included in this regulation and in Ohio Revised Code section 3313.66 are not applicable to the assignment of a student to an alternative learning site or any other alternative educational assignment when the student is not removed from school attendance and the student is provided an opportunity to obtain credit for their assignments or school work completed during such time.

OUT-OF-SCHOOL SUSPENSION (OSS)

An Out-of-School Suspension is very serious and may lead to a recommendation for expulsion and a court referral. When a student is assigned an Out-of-School Suspension, these rules and regulations are in effect:

1. Student will not attend school or participate in any school-related activities.
2. *Student is not permitted on school property*; a student who violates this guideline is subject to trespassing charges being filed and the police notified.

3. Parents are strongly encouraged to keep the student at home throughout the suspension.
4. Students are responsible for getting their own homework assignments. Students are encouraged to complete their homework during the suspension time in order to remain current.
5. A student who is suspended shall be permitted to complete any classroom assignments missed because of the suspension, and receive at least partial credit for a completed assignment. Grade reductions on account of the student's suspension are permitted; however, no student may receive a failing grade on a completed assignment solely on account of their suspension.

A student may not participate in co-curricular activities on the day they have been suspended. (Weekend days may apply if the suspension dates span the weekend.)

Repeated suspensions may lead to a recommendation for expulsion.

ACTS SUBJECT TO PERMANENT EXCLUSION

- A student shall not participate in any of the acts prohibited in Board policy 5610.01, Permanent Exclusion of Nondisabled Students, and listed below. A student, in addition to suspension, expulsion, and/or emergency removal, may be subject to permanent exclusion from school for the following acts pursuant to R.C. 3313.662 and Board policy. A student may be permanently excluded from attending any Ohio public school if the student is convicted of, or adjudicated a delinquent child, for committing, when 16 years of age or older, one of the following criminal offenses:
- Illegal conveyance or possession of deadly weapons or dangerous ordnance on school premises, in violation of R.C. 2923.122.
- Carrying or being in possession of concealed weapons on school property or at a school activity in violation of R.C. 2923.12.
- Selling or offering to sell or possessing a controlled substance in violation of R.C. 2925.03 (A) (1), (4), (5), (6), (7), (9), or (10) on school property or at a school activity; and, possessing a controlled substance in violation of R.C. 2925.11, other than a violation that would be a minor drug possession offense.
- Committing one of the following on school property or at a school function: aggravated murder in violation of R.C. 2903.01, murder in violation of R.C. 2903.02, voluntary manslaughter in violation of R.C. 2903.03, involuntary manslaughter in violation of R.C. 2903.04, felonious assault in violation of R.C. 2903.11, aggravated assault in violation of R.C. 2903.12, felonious sexual penetration in violation of former R.C. 2907.12, rape in violation of R.C. 2907.02, or gross sexual imposition in violation of R.C. 2907.05; and
- Complicity in any of the above-described violations regardless of whether the act of complicity was committed on school property or at a school activity. Complicity is defined as soliciting or procuring another to commit an offense, conspiring or agreeing with another to commit an offense; or causing an innocent or irresponsible person to commit an offense.
- Any other acts for which a student may be subject to permanent exclusion.

Student Expulsion

The Superintendent or Superintendent's designee may expel a student from school. Except as specified below as related to firearms, knives, and criminal acts, students may be expelled from school for a period not to exceed the greater of eighty (80) school days or the number of school days remaining in the term or semester in which the incident that gives rise to the expulsion takes place. The expulsion may also be extended pursuant to R.C. 3313.66(F) related to permanent exclusion. In the case of students who are expelled for a period of time that exceeds the number of school days remaining in that school year, the Superintendent or Superintendent's designee may apply any remaining part or all of the period of the expulsion to the following school year.

Unless otherwise indicated in the notice of expulsion, students who are expelled from school are automatically expelled from all school activities and all co-curricular activities, as part of the student's expulsion from school, for the same period of time as the expulsion.

A suspension from a co-curricular activity or extracurricular activity only, which does not involve a related suspension or expulsion from school, is governed by Board Policy 5610.05 and not by this regulation.

Expulsion for One Calendar Year

A student who brings a firearm or knife, as defined in Board regulation 5500, section 9, to school or on to property owned or controlled by the Board while school is in session; to school sponsored activities or events whether on or off school premises; on school premises whether or not school is in session; in any vehicle whose use is controlled or organized or arranged by the school; or at any time when the student is subject to the authority of the Board or school personnel shall be expelled from school for one calendar year. Any such expulsion shall extend, as necessary, into the school year following the school year in which the incident occurred. The Superintendent or Superintendent's designee may reduce, on a case-by-case basis, the one year required expulsion period in circumstances subject to the provisions of federal and state law related to the education of disabled students or when the Superintendent or Superintendent's designee, in their sole discretion, determines that the interest of the expelled student is served and the interest of other students, school employees, and other members of the school community are not disproportionately disserved by such a reduction. This provision does not in any way prevent school officials from pursuing the permanent exclusion of a student pursuant to Ohio Revised Code section 3313.662. Any expulsion pursuant to this provision **shall extend, as necessary, into the school year** following the school year in which the incident that gives rise to the expulsion takes place.

A student who possesses a firearm or knife, as defined in Board regulation 5500, section 9, at a school or on any other property owned or controlled by the Board, while school is in session; at school-sponsored activities; on school premises; off school premises at any school-sponsored activity or event; in any vehicle whose use is controlled or organized by the school; or at any time when the student is subject to the authority of the Board or school personnel, may be expelled from school for a period up to one calendar year. Any such expulsion may extend, as necessary, into the school year following the school year in which the incident occurred. The Superintendent or Superintendent's designee may reduce, on a case-by-case basis, the one-year required expulsion period in circumstances subject to the provisions of federal and state law related to the education of disabled students or when the Superintendent or Superintendent's designee, in their sole discretion, determines that the interest of the expelled student is served and the interest of other students, school employees, and other members of the school community are not disproportionately disserved by such a reduction. This provision does not in any way prevent school officials from pursuing the permanent exclusion of a student pursuant to Ohio Revised Code section 3313.662. Any expulsion pursuant to this provision shall extend, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place.

A student who makes a bomb threat with respect to any school building or to any premises at which a school activity is occurring at the time of the threat, may be expelled from school for a period of up to one calendar year. The Superintendent or Superintendent's designee may reduce, on a case-by-case basis the one year expulsion period in circumstances subject to the provisions of federal and state law related to the education of disabled students or when the Superintendent, or Superintendent's designee in their sole discretion, determines that the interest of the expelled student is served and the interest of other students, school employees, and other members of the school community are not disproportionately disserved by such a reduction. This provision does not in any way prevent school officials from pursuing the permanent exclusion of a student pursuant to Ohio Revised Code Section 3313.662. Any expulsion pursuant to this provision shall extend, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place.

A student who commits an act that is a criminal offense when committed by an adult and that results in serious physical harm to persons as defined in Division (a)(5) of section 2901.01 of the Ohio Revised Code or serious physical harm to property as defined in division (a)(6) of section 2901.01 of the Ohio Revised Code while the student is at school, on any property owned or controlled by the Board, or at any interscholastic event, extracurricular event, or any other school property or activity, wherever located, may be expelled from school for a period up to one calendar year. The Superintendent or Superintendent's designee may reduce, on a case-by-case basis the one year expulsion period in circumstances subject to the provisions of federal and state law related to the education of disabled students or when the Superintendent or Superintendent's designee, in their sole discretion, determines that the interest of the

expelled student is served and the interest of other students, school employees, and other members of the school community are not disproportionately disserved by such a reduction. This provision does not in any way prevent school officials from pursuing the permanent exclusion of a student pursuant to Ohio Revised Code Section 3313.662. Any expulsion pursuant to this provision shall extend, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place.

Expulsion may result in the loss of credit for courses being taken at school, at the Delaware Area Career Center, or at any college or university, whether under an Educational Option, College Credit Plus enrollment, or at the student's own expense.

Right of Appeal

Suspension Appeal

In cases of suspension by a building principal, assistant principal, or other building administrator, the right of appeal shall be:

- A student, or their parent, guardian, or custodian may appeal a suspension by the principal, or other school administrator to the Board or its designee, as provided by this policy.
- The Superintendent or Superintendent's designee is designated by the Board to hear the suspension appeal. The request for appeal must be made in writing with the Superintendent's office within fourteen (14) calendar days after the date of the notice to suspend.
- The student and their parent, guardian, or custodian shall have the right to be represented at the appeal hearing and shall be granted a hearing before either the designee or Board, in accordance with this policy, in order to be heard with regard to the suspension.
- The appeal hearing is not a formal judicial proceeding. The student, student's parent, or their representative does not have the right to cross-examine or question school staff, students, or other persons at the hearing. Any cross examination or questioning is at the sole discretion of the appeal hearing officer.
- The Board or designee, whichever is applicable, will have five (5) school days following the hearing to issue a written decision. Either the designee or Board, whichever is applicable, shall make or cause to be made a verbatim record of appeal hearings. The record shall not be reduced to writing except at the request, cost, and arrangement of the party requesting the written record.
- A student shall remain suspended for the duration of the suspension unless and until action modifying the suspension is taken on appeal, except that the Superintendent, principal, or other school administrator shall have the discretion to hold a suspension in abeyance pending appeal. The decision of either the designee or Board, whichever is applicable, may be appealed to the Court of Common Pleas as authorized by Ohio law.

Expulsion Appeal

A student who is eighteen (18) or older or a student's parent(s) or guardian(s) may appeal the expulsion by the Superintendent to the Board or its designee. They may be represented in all such appeal proceedings and will be granted a hearing before the Board or its designee.

A verbatim record will be kept of the hearing which may be held in executive session at the request of the student, parent, or guardian.

The procedure to pursue such appeal will be in accordance with regulations approved by the Superintendent. Notice of appeal must be filed, in writing, within fourteen (14) calendar days after the date of the Superintendent's decision to expel with the Treasurer of the Board or the Superintendent.

While a hearing before the Board may occur in executive session, the Board must act in public.

From a list of attorneys developed by the Superintendent, a designee shall conduct the expulsion appeal hearing. Those on the list shall be requested to serve in rotating alphabetical order. The appeal hearing should generally be held within 15 school days from the date the request for the appeal hearing was received in the Superintendent's office, although the hearing may be scheduled at a later time, as determined by the Superintendent. If for any reason a designee is unable to conduct the hearing within 15 school days from the date the request for an appeal hearing was received in the Superintendent's office and/or on the date designated by the Superintendent, the next available attorney on the list should conduct the hearing. The designee shall determine the facts, make conclusions of law, and recommend to the Board that the expulsion order be affirmed, reversed or modified. Upon consideration of the designee report, the Board, by a majority vote of its full membership, shall affirm, reverse, or modify the expulsion. If no list of designee attorneys has been developed or no attorney on the list is available, the Board may also conduct the hearing.

Conduct of the Hearing

The initial expulsion hearing and any appeal are not formal judicial proceedings. The student, student's parents or their representative do not have the right to cross-examine or question school staff, students or other persons at the hearing. Any cross-examination or questioning is at the sole discretion of the hearing officer or appeal hearing officer. If the student, student's parents or their representative fail to follow hearing procedures established by the Board in policy and regulations, the hearing may be terminated and the hearing officer may proceed with a decision in the matter.

Right of Appeal

In cases of an expulsion, the right of appeal shall be:

- A student or their parent, guardian, or custodian may appeal an expulsion by the superintendent to the Board or its designee, as provided in this policy.
- The student and their parent, guardian or custodian shall have the right to be represented in all appeal proceedings and shall be granted a hearing before either the Board or its designee, whichever is applicable in order to be heard with regard to the expulsion.
- At the request of the student, or their parent, guardian or custodian shall have the right to be represented in all proceedings and shall be granted a hearing before either the Board or its designee, whichever is applicable, in order to be heard with regard to the expulsion.
- Formal action on the appeal may only be taken in a public meeting.
- By the action of the Board, the order of expulsion may be affirmed, or the student may be reinstated or the action otherwise reversed, vacated or modified.
- Either the Board or its designee, whichever is applicable, shall make or cause to be made a verbatim record of the appeal hearing. The record shall not be reduced to writing except at the request, cost, and arrangement of the party requesting the written record.
- A student shall remain expelled for the duration of the expulsion unless or until action modifying same is taken on appeal, except that the Superintendent shall have the discretion to hold an expulsion in abeyance pending appeal.
- The decision of the Board may be appealed to the Court of Common Pleas as authorized under Ohio law.
- The request for appeal must be filed in writing with the Superintendent's office within five school days after the first day of the expulsion.

Rockbridge Academy

The Superintendent or Superintendent's designee, at their discretion, may elect to assign middle or high school student(s) to Rockbridge Academy as an alternative disciplinary measure to the suspension or expulsion of a student, so long as admission is consistent with the mission, purpose, and rules of the school.

Discipline of Students With Disabilities

The discipline of students with disabilities shall comply with all requirements of State and Federal law.

Other Provisions Related to Students With or Without Disabilities:

1. Nothing herein shall prevent school officials from pursuing any action against any student with or without a disability available under law including, but not limited to, notification of law enforcement or other governmental authorities, filing of criminal charges or civil action, filing for an injunction or other legal action to remove a student from school, or any other action that may be necessary to protect the health, safety or educational environment of the student or others or to protect property.
2. In all cases of normal disciplinary procedures where a student is removed from a curricular or extracurricular activity or from school premises for a period of less than one school day and is not subject to suspension or expulsion, the due process requirements of these procedures do not apply.
3. School officials may notify law enforcement or other governmental authorities of student misconduct or illegal activities at any time. As required by the Federal Gun Free Schools Act, students who bring a firearm to school or on to property owned or controlled by the Board while school is in session; to school-sponsored activities or events whether on or off school premises; on school premises whether or not school is in session; in any vehicle whose use is controlled or organized or arranged by the school; or at any time when the student is subject to the authority of the Board of Education or school personnel shall be reported to criminal justice or juvenile justice authorities.

Violation of Suspension or Expulsion

While under suspension or expulsion, a student shall not have access to or be permitted on school premises or at school activities except with the specific permission of the building principal. If a student is found on school premises or at school activities without the permission of the principal, **they may be referred to law enforcement authorities for appropriate action.**

STUDENT CODE OF CONDUCT

GROUND FORS SUSPENSION, EXPULSION, EMERGENCY REMOVAL OR OTHER DISCIPLINARY ACTION

Appropriate conduct is based on respect and consideration for the rights of others. Students will be expected to conduct themselves in such a way that the rights of others are not violated. Students of the Worthington School District will conform with school regulations and accept directions from authorized school personnel. The Worthington Board of Education will not tolerate violent, disruptive or inappropriate behavior by its students and will vigorously enforce related policies and the Ohio Revised Code.

It is important for students to comply with school rules and directions from authorized personnel, so that the educational process is not interrupted. A student who fails to comply with Student Code of Conduct (policy 5500), established school rules, or with any reasonable request made by school personnel when subject to the authority of the Board of Education will be subject to the approved student discipline regulations. The superintendent or their designee shall develop regulations which establish strategies to address student misbehavior. Strategies shall encompass efforts ranging from prevention to intervention. Violation of the Code of Conduct may result in verbal or written warning or reprimand, referral to school counselor, parental contact or conference, detention, in-school suspension, community service, emergency removal, referral to law enforcement agencies, suspension or expulsion.

At the start of each school year or upon enrollment, students and parent(s)/guardian(s) are notified on how to access the online handbook, which outlines the rules and regulations to which students are subject while school is in session, at school-sponsored activities or events whether on or off school premises, on school premises whether or not school is in session, in any vehicle whose use is controlled, organized, or arranged by the school, or at any time the student is subject to the authority of the Board of Education or school district personnel. In addition, a student may be subject to school disciplinary action, including suspension or expulsion, for harassment, vandalism, physical abuse, or other harmful or disruptive behavior toward school personnel during non-school hours. The information in the handbook will include the types of conduct that will make students subject to suspension, expulsion, removal from school or other forms of disciplinary action. The Board directs the administration to make all students and parent(s)/guardians(s) aware of the Student Code of Conduct, which is designed to encourage positive appropriate behavior, and the fact that any violations of the Student Code of Conduct are subject to the consequences outlined therein. The Student Handbook is also available online via the district website at www.worthington.k12.oh.us.

This code of conduct is in effect while students are under the authority of school personnel or involved in any school activity (including Open Lunch and Field Trips). This includes but is not limited to school buses and property under the control of school authorities, and while at interscholastic competitions, extracurricular events, or other school activities or programs. In addition, this Code of Conduct includes 1) misconduct by a student that occurs off school district property but is connected to activities or incidents that have occurred on school district property; and 2) misconduct by a student that, regardless of where it occurs, is directed at a district official or employee or the property of an official or employee.

The Delaware Area Career Center is an extension of our school program; therefore, students who elect to attend the career center are subject to disciplinary action based upon the Student Code of Conduct of any Worthington High School and/or the Delaware Area Career Center. Consequently, conduct and/or involvement in any activity that may or does result in disciplinary action by one school may be grounds for similar disciplinary action by the other school.

If a student violates this policy or the code of conduct, school personnel, students or parents should report the student to the appropriate administrator. The administration cooperates in any prosecution pursuant to the criminal laws of the state of Ohio and local ordinances. Student attendance at after-school co-curricular events is a privilege. Any pupil may be removed from such events for engaging in disruptive conduct, for violation of the Student Code of Conduct or for conduct posing a danger to persons or property. Any student removed from co-curricular events may be barred from attendance at future events for the remainder of the school year.

It also includes being a passenger in a vehicle in which the student knows, or should reasonably have known, that any *Prohibited Substance* is present. No person shall recklessly participate in the hazing of another. See Disciplinary Action Chart (Appendix E)

A Message to Student Participants and Their Families about Worthington Schools' Co-Curricular Program

Participation in athletics and activities is an exciting time for both students and their families. The purpose of this handbook is twofold: first, to provide you with an understanding of the philosophy upon which our programs are grounded; and, second, to provide you with operational information which will assist you as your student participates in the program.

The mission of the Co-Curricular Department is as follows:

The Worthington Schools' Co-Curricular Program will provide diverse opportunities for personal growth through the development of student participants' unique interests and/or talents.

We value the following:

- Teamwork and cooperation
- Honesty, integrity, ethics, and sportsmanship
- Striving for excellence
- Holistic growth of the individual

Student Participation in the Co-Curricular Program

The Board of Education recognizes that a complete co-curricular program based upon student interest assists in the total education of students. While emphasis is given to intellectual growth, diversified opportunities must be provided for students who wish to participate in the co-curricular program. All such programs must contribute to the goals of general education to justify their existence in the curriculum.

1. Participation in a co-curricular sport/activity is a privilege, not a right.
2. All participants will be subject to the rules and regulations of the respective sport/activity including the Co-Curricular ATOD Policy.
3. Participants will be advised in writing of all regulations by their respective advisors or coaches prior to their participation in order for each student to determine the feasibility of such participation.
4. Violation of rules and regulations may result in loss of privilege to participate or other disciplinary action.

Character and Citizenship

Partners for Community and Character is a group within the Worthington School District which was formed to promote character and community. The group conducted a study to determine which character traits were most important to the citizens of Worthington. The findings were (in order):

Responsibility	Respect	Honesty
Compassion	Integrity	Spirituality
Moral Courage	Self-Discipline	Trustworthiness
Commitment	Hard Work	Tolerance
Cooperation	Courtesy	Service

These characteristics are the building blocks for successful teams and successful athletes. Moreover, these characteristics provide the foundation for successful people. Successful coaches will seize each and every opportunity to emphasize the importance of these characteristics with their teams.

ALCOHOL, TOBACCO AND OTHER DRUG EXPECTATIONS FOR PARTICIPANTS IN THE CO-CURRICULAR PROGRAM

HISTORY, PRINCIPLES AND PHILOSOPHIES

These expectations are designed to help students and parents cope with drug, alcohol and tobacco use and to provide guidelines for each student/family to receive assistance as needed. Accordingly, the expectations and consequences established by the Worthington Schools' coaches and advisors and approved by the Board of Education are based upon the following beliefs:

- Participation in athletics and activities programs is a privilege (supported by the Ohio Revised Code). In the Worthington Schools this privilege is extended to students who are willing to make a commitment to attempt to develop their talents and skills to their ultimate level; **therefore**, the privilege of participation in co-curricular activities and athletics is extended to those who meet the expectation of non-use of alcohol, tobacco and controlled drugs.
- Use of controlled drugs, alcohol, or tobacco by any high school or middle school student inhibits attainment of individual potential; it is illegal; and it jeopardizes the student's health and safety; **therefore**, use of alcohol, tobacco, or drugs (including illegal use of prescription drugs) by students participating in the Co-curricular Program will not be tolerated.
- Use of alcohol, tobacco, or drugs (including illegal use of prescription drugs) by a student creates an environment which compromises their individual health, safety and welfare, as well as the health, safety and welfare of all student participants in that program; **therefore**, use of alcohol, tobacco, or drugs (including illegal use of prescription drugs) by students participating in the Co-curricular Program will not be tolerated.

- Participation of the Co-Curricular Program affords students many growth and learning opportunities centered around the commitment to reach one's own potential while contributing to team and/or organizational success. These are valuable learning opportunities that we want to make available to students; **therefore**, it is our desire to keep students interested and involved in programs and denial of privilege to participate will be a progressive consequence.
- Student participants will be held to a higher standard of accountability and conduct than the student who chooses not to represent a Worthington School because the participant is in a highly visible setting as a leader and performer; **therefore**, use of alcohol, tobacco, or drugs (including illegal use of prescription drugs) will not be tolerated by students who participate in the Co-Curricular Program.
- For a middle school or high school student to perform at their optimum level the student must make a year-round commitment to prepare mentally, physically and academically; **therefore**, the expectations of non-use are in effect 12 months of the year for the duration of a student's middle school and high school career.
- School officials' ignoring a rumor implies consent; therefore, all reports, information, or rumors will be investigated by coaches, advisors and/or administrators.
- The parent(s)/guardian(s) of a student participant have a right to be informed; **therefore**, the parent(s)/guardian(s) of students will be informed of the results of investigations in which it is determined that the student violated the policy.
- The student body has the greatest access to information concerning student use of drugs, alcohol and tobacco; **therefore**, in order to encourage student referrals, denial of privilege to participate will not be a penalty for students who self-refer for assistance and who agree to follow policy and assistance recommendations.
- A violation of these expectations is a betrayal of the trust placed in a co-curricular participant by teammates or fellow organizational members, coaches and advisors, and the school community; **therefore**, violations discovered independently from the self-referral process will carry penalties in regard to competition/contests/performances.
- Education and assistance are necessary in promoting a behavior change among students who have made the choice not to follow the coach's/advisor's expectation of non-use; **therefore**, any denial of privilege to participate will be reduced if the student chooses to enter the student assistance program. (The student assistance program includes an educational component for both students and parents and a drug testing component for students.)
- Participation is better than exclusion; **therefore**, the student may remain a participating member of the group/organization as long as they follow the assistance recommendations and so long as the student has not been suspended, expelled, or removed from school for violations of the Student Code of Conduct.
- The Co-Curricular, Student Services and Guidance Departments and the school nurse are interrelated; **therefore**, these departments must share information in an effort to promote a lifestyle among students that is drug, alcohol and tobacco free.

NOTE: Professional judgment will be used regarding the sharing of confidential information with school staff, however, we believe that when all resources are called upon for assistance more help can be provided to the student. Once a student enters the school-based assistance program, the student will be considered to have self-referred.

NOTE: Consequences by level are not carried from middle school to high school. The first violation of these expectations by a high school student is a level one violation. Additionally, a student who participates in both athletic and activity programs may be subject to consequences in both athletics and activities programs.

The following expectations and consequences are in effect and will be enforced for twelve (12) months of the year during all six years of the co-curricular participant's middle school and high school career. Consequences will be cumulative, and, for activities participants, consequences will be adjusted to meet limited performance schedules as determined by the advisor and activities coordinator.

The Worthington Board of Education Believes:

1. Participation in athletics, activities programs and student leadership activities (“co-curricular programs”) is a privilege extended to those students willing to make a commitment to attempt to develop their talents and skills to the ultimate level.
2. Participation in co-curricular programs affords students’ growth and learning opportunities for personal development and team participation and contribution.
3. Students who participate in co-curricular activities are highly visible school leaders and performers. Accordingly, such students should be held to a higher standard of conduct and behavior than those who do not participate.
4. The Board of Education has made a commitment to providing education to students about the harmful effects of alcohol, tobacco and illegal drugs and to provide information to parents when there is reason to believe that the use of such substances has or may have occurred. The use of alcohol, tobacco or drugs is prohibited by the student discipline code. Any such use by any middle school or high school student participating in co-curricular activities, at any time or place, regardless of whether school is in session, will not be tolerated and may result in the loss of the privilege of participation. These expectations are in effect 12 months of the year for the duration of each student’s middle school and high school.
5. The use of alcohol, tobacco or drugs will result in the loss of some or all of the privilege of participation in co-curricular activities. Students who participate in the student assistance program, as provided in this policy, should receive a lesser consequence in recognition of their participation.

Prohibited Conduct for Pupils Participating in Co-curricular Activities

As used in this policy, “co-curricular activities” include all athletic programs, activities programs and student leadership activities. Student leadership includes appointed or elected leadership positions in athletics, student government or other co-curricular activities. References to the use, possession or sale of “alcohol,” “tobacco,” “electronic vapor devices,” “CBD products,” and “drugs” means the use, possession or sale of such substances as defined in and prohibited by the student discipline code. This policy is applicable to middle school and high school pupils participating in co-curricular activities. The prohibitions and penalties provided in this policy will be imposed in addition to, and not in the place of, penalties for conduct otherwise prohibited by the student conduct code. **Co-Curricular consequences will be imposed after school student conduct code violation penalties are complete.**

Prohibited Conduct

No student participating in co-curricular activities shall use, possess, sell, offer to sell, conceal, transmit, or distribute alcohol, tobacco, electronic vapor device, or any drug or drug paraphernalia prohibited by the student discipline code at any time. This prohibition shall be effective 12 months per year and shall be applicable regardless of the location of the student at the time. Students acting together with students who are known to have possession of prohibited substances may be deemed to also have possession of such prohibited substances unless they remove themselves immediately and report the offense at the earliest possible time.

Consequences

First Violation (Level 1)

Violation of this policy will result in the loss of the privilege of co-curricular participation (including contests, competitions, and performances) for one entire season (or, in the case of non-athletic activities, an equivalent period). Violation during a season will result in the loss of participation for the remainder of the season and for that portion of the next season equal to the time of the season (or school year) when the violation took place. The penalty will be reduced to a loss of participation for the equivalent of 20 percent of the season/contest (or, in the case of non-athletic activities, an equivalent period) for students who promptly enter and successfully complete the Student Assistance Program, as defined in this policy.

Second violation (Level 2)

A second violation of this policy will result in denial of the privilege of co-curricular participation for one calendar year from the date the violation is determined. The penalty will be reduced to a loss of participation for one-half of the season/contest (or, in the case of non-athletic activities, an equivalent period) if the student promptly enters and successfully completes the Student Assistance Program.

Third Violation (Level 3)

A third violation of this policy shall result in denial of all privileges or co-curricular participation for the remainder of the student's school enrollment. The penalty will be reduced to denial of privileges of co-curricular participation for a period of one calendar year from the date the violation is determined if the student promptly enters and successfully completes the Student Assistance Program.

Sale or distribution of Drugs

The sale or distribution of prohibited drugs (including steroids) by a co-curricular participant will result in the denial of all privileges of co-curricular participation, including practices, for a period of one calendar year from the date the violation is determined.

Student Assistance Program

The Student Assistance Program may include one or more of the following components as determined by the school representative(s):

1. A substance abuse assessment or other appropriate assessment as determined by the school representative. Assessment shall be done by an independent agency at the student's or parent's expense.
2. An educational component for students and parents to be determined by the school representative in cooperation with the student and parent.
3. Participation in the Student Assistance Program includes student and parent consent to at least three unannounced drug tests to be provided at time determined by the school representative during the 12 month period following determination of the violation. In appropriate circumstances, the Student Assistance Program may provide for more than three drug tests as agreed between the school representative, the student, and parent(s). All drug testing beyond the first level will be conducted in accordance with school district guidelines and be done at the expense of the student or parent.

Failure to pass any drug test will be considered a violation of the Co-Curricular Alcohol-Tobacco-Drug Policy and will result in consequences being invoked as a subsequent violation.

Any reduction in co-curricular participation is conditioned on satisfactory completion of the education components of the policy by both the student and parent(s) and the drug testing component on the part of the student.

Self-Referral

A student may self-refer to the Student Assistance Program one time during the student's enrollment. There will be no loss of privilege to participate in co-curricular activities based on self-referral provided the student successfully completes the Student Assistance Program. **The intent of permitting self-referral is to show support toward the student athlete who comes to realize they have a drug or alcohol problem. It enables the young person to get help from a trusted coach or other adult who puts the student in touch with the Student Assistance Program.** Self-referral may be denied if based on information that would otherwise come to the attention of the school district. Self-referral will not be permitted for a student who is presently in the Student Assistance Program, including the drug-testing period or has already had a violation. **It is not intended to be used as a way to avoid the regular consequences of an incident that has already occurred. For details see your principal or athletic director.**

Drug Testing

1. Drug testing will be conducted by a laboratory selected by the school.

2. The student and the student's parents must sign a consent form authorizing the drug testing.
3. Drug testing may be requested by the school representative or other appropriate school officials at any time, including times outside the normal school day or school week. Upon such request students will be expected to provide a urine sample at school or at the designated laboratory within a reasonable time as specified by the school official. Failure to do so will be deemed a positive test and will result in a denial of participation privileges. The sample will be divided into multiple specimens, one or more of which will be retained in the event confirmation testing is necessary.
4. Falsifying or tampering with a sample will result in suspension of the assistance program and a denial of participation privileges.
5. The school will pay for all drug tests (other than any tests conducted as part of an assessment at the beginning of the Student Assistance Plan) on the first level. Tests on additional levels will be paid by the student.
6. A copy of the results will be sent to the designated school official and to the student's parent(s).
7. Prior to the testing procedure, the student may voluntarily provide information as to any prescription medication being taken which information will be provided to the testing laboratory.

Due Process

Denial of co-curricular privileges for violations of this policy may be imposed by district administrative personnel, including building athletic directors and those persons charged with the directing of building activities programs. Prior to the determination of any violation of this policy, the district administrator shall advise the student of the conduct considered to be a violation and give the student an opportunity to respond to the charge. A student found to be in violation of this policy may appeal that determination to the building Principal. Any such appeal must be in writing and must be submitted no later than the end of the second school day following the day the violation was determined. The decision of the building principal shall be made in writing and shall be given to the student. The student may appeal the decision of the building Principal to the Superintendent or designee. Any such appeal must be in writing and must be submitted to the Superintendent no later than the end of the second school day following the receipt by the student of the decision of the building Principal. The decision of the Superintendent, or designee, shall be final. During the time any appeal is pending, all penalties provided in this policy shall be enforced.

Miscellaneous

A student denied participation in athletic events for violation of this policy for a period of less than an entire season shall be required to attend practice and events, but will not be permitted to wear school uniforms or participate in any event, competition or recognition ceremony. A student leader denied participation for violation of this policy shall forfeit all awards based on student leadership activities prior to the violation. The penalties for violation of this policy shall be applicable regardless of the school attended. Denial of participation will remain in effect when a student transfers from one school to another. Notwithstanding any other provision of this policy, a student participant in the co-curricular program may observe bona fide religious practices.

Procedural Issues

If the co-curricular participant is in violation of the Co-Curricular Alcohol, Tobacco and Drug Policy and is caught on school property or at a school-related function not on the property of the Worthington City Schools or is otherwise in violation of the Student Code of Conduct (policy 5500) for an offense related to drugs, alcohol, electronic vapor device, or tobacco, the student must first serve their penalty with the school for a violation of the Code of Conduct which can include, but is not limited to, suspension or expulsion, which will result in denial of privilege to participate in

the Co-Curricular Program while the student is expelled, suspended or removed from school. Upon returning, they must also follow the Co-Curricular Policy for first, second, or third violations of the alcohol, drug and tobacco policies.

The policy is intended to supplement and complement all other policies, rules and regulations of the school district regarding student use of drugs, alcohol, electronic vapor devices, and tobacco. Student participation in co-curricular activities is subject to the Student Code of Conduct (policy 5500), including any and all penalties for violation of the Student Code of Conduct.

Failure to follow through with the recommended student assistance program will result in the enforcement of all denial of privilege penalties until the student assistance program is resumed.

Students may choose to enter the Student Assistance Program at any time after a violation.

If a student transfers from one school in the Worthington City Schools to another school within the district, the co-curricular records shall transfer with the student as will any consequences or required assistance programs. If a student transfers into a Worthington School from outside the district and is currently serving a consequence for an ATOD violation, the consequences administered by the original school will remain in effect unless the consequences would be more restrictive than those specified by the Worthington Schools' Co-Curricular Policy.

Banquet: If any co-curricular participant, at the conclusion of the season, is not a team/group member in good standing as a result of not proving substantial effort to complete the required educational assistance programs or proving substantial effort to complete such assistance programming, the student will forfeit the privilege to attend the banquet and to receive all letters and/or awards that would have been awarded at that time.

Senior Recognition Programs: Should a student not complete the Student Assistance Program or prove substantial effort to complete such student assistance programming, the student will not be recognized at the Celebration of Excellence, other school-sponsored recognition or co-curricular achievement, or other public recognition as determined by the Principal.

Definitions

Controlled Substances – Alcohol, illicit drugs, dangerous intoxicants, counterfeit controlled substances, or licit medications without the supervision of a physician.

Violation – A violation will have occurred when there is determination by school district personnel indicating that a student used, purchased, sold, trafficked or possessed alcohol, tobacco or controlled substances on or off school grounds.

Referral for Assistance – Information from the student-participant, their peers, community members, and/or parents that leads the coach/advisor or other school officials to believe a co-curricular participant has violated the co-curricular drug, alcohol and tobacco policy. The co-curricular participant must confirm the validity of this information in order to proceed further, except when the participant's parent(s)/guardian(s) refers to the student or confirms the information.

Season – In athletics, the length of the competitive season is defined by the OHSAA or in the case of non-OHSAA sports by the district. An athletic season is defined by the number of contests in a season. In activities, seasons are defined by schedules printed by the district. A season of denial may include parts of two sports or activities or parts of two seasons of the sport or activity. Example: a 50% denial of privilege could cover the last 25% of the current season and the first 25% of the next season in which the student wishes to participate. If serving part of the percentage of the denial of privilege in a second sport or activity, the student must remain as a participant in good standing for the duration of the second season. All co-curricular rules and expectations must be followed, as well as all expectations for the sport/activity.

Possession – Alcohol, tobacco, electronic vapor devices, controlled substance or drug paraphernalia is physically on or in student-participant's body; or physically within their personal property (i.e., book or gym bag, coat, etc.); or in their home if other students are using or possessing alcohol, tobacco or controlled substances (e.g., hosting a party). Possession will include being present in a car where alcohol or controlled substances are being used or are present.

Students acting together with students who are known to have possession of prohibited substances may be deemed to also have possession of such prohibited substances.

Assessment/Primary Assistance – Building administration, coaches, school counselors, and the certified district drug and alcohol counselor will decide what constitutes an adequate and approved assessment/assistance plan, completion of the assistance plan, and when the co-curricular participant may return to competition/ contests/ performances or participation.

Denial of Participation – Denial of participation refers to the denial of participation in contests and/or performances. The student-participant may not play but must practice, travel and sit with the team/group at events (for various activity programs, this requirement will be defined as applicable by the advisor and the co-curricular coordinator) during any percentage denial of privilege which is less than one season. The student participant will not wear the school uniform at the contest or performance. This restriction is effective immediately following the determination that the policy has been violated.

If the denial of privilege is for one season, the student may sit out the next season of the sport/activity in which the student has last participated. Should the student have participated in both a sport and an activity, the denial of privilege will be served for both.

Student Leadership Issues

1. A student leader is defined as anyone appointed or elected to a leadership position in athletics, student government, or other co-curricular activities.
2. Student leaders accept the responsibilities that accompany leadership positions and are expected to be positive role models at all times. Accordingly, they are subject to a higher level of conduct.
3. Any student leader found to be in violation of the ATOD policy will be subject to the following:
 - a. Immediate termination of all leadership positions, awards relating to these positions, and loss of all school or team/activity awards.
 - b. Denial of the opportunity to hold any additional leadership positions for the period of one (1) calendar year from the time of the infraction. Within the calendar year that the student may not serve in a leadership position, the student may, however, petition to run for a leadership position which will commence the following calendar year.
 - c. If the one (1) calendar year for which a student may not serve in a leadership position expires by the date their potential term of office would begin, that student is eligible to run for election or be considered for appointment to student leadership positions.
4. Referrals for assistance and student leadership:
 - a. Any student leader who refers themselves or verifies information provided in a referral by a third party, but then refuses to follow the co-curricular policy in regard to assistance, will be subject to the consequences listed in 3a and 3b above.
 - b. Referrals for assistance will carry no consequences for team participation, but will deny leadership positions, leadership awards or and leadership recognition for three (3) months from the date of the infraction.
 - c. If the three (3) months for which a student may not serve in a leadership position expires by the date their potential term of office would begin, that student is eligible to run for election or be considered for appointment to student leadership positions.

This also includes a prohibition on smoking or otherwise using tobacco or tobacco products in cars which are on the school campus. Requests will be handled in a confidential manner.

SUPPORT/BOOSTER GROUP GUIDELINES

One of the factors that contribute greatly to the quality of the co-curricular programs within the Worthington School District is the tremendous interest and support given to these activities by the parents of the participants. Support has come in many forms: monetary, time and morale. Unequivocally, this support is greatly appreciated by staff, faculty, and administration.

The Worthington School District has become a multiple high school district. It has become increasingly more important that there is inter-school and intra-school coordination of co-curricular programs. A school program is defined as any activity which relates to activities sponsored by the Worthington Board of Education. Accordingly, the Ohio Revised Code indicates that the Board of Education is obligated to approve every contribution and expenditure made for a school program whether those funds be district funds or monies donated to school programs from outside sources.

From a practical, operational standpoint and from a legal perspective, it is important that there is accountability on the part of support groups as they relate to school programs. In order to achieve this accountability, the following guidelines have been established by the Worthington School District. These guidelines have been approved by the District Co-Curricular Committee, consisting of the two High School Principals, the four Middle School Principals, and the two High School Directors of Athletics. Additionally, these guidelines have been reviewed by the Superintendent of schools and by the district's legal counsel.

SECTION I – DEFINITION OF SUPPORT GROUP

A group will be considered a support group and subject to the support group guidelines when a group of people wish to elect officers, set-up a treasury, and organize to support a school-sponsored co-curricular activity.

SECTION II – CONSTITUTION AND BY-LAWS

1. The voting members of a group shall be limited to: (a) the parents or guardians of students of the school district, (b) residents of the school district, (c) alumni of the Worthington School District, and (4) individuals employed within the district. The coach or advisor to the co-curricular activity shall be an ex-officio member of the group. A group may, but is not required to, establish membership requirements and dues, provided, however, that no student shall be excluded from participation in a co-curricular activity because dues were not paid to, or membership secured in, the group.
2. Each group shall adopt a constitution or set of by-laws to govern its organization, membership, activities, and financial accountability. Such constitution or by-laws, and any amendments to same, shall be submitted to and remain on file with the Athletic Director.
3. School district facilities may be used for group meetings or other activities, and a fee for such use may be charged by the school district in accordance with the policy of the Board of Education. The following are minimum standards for group meetings or other activities:
 - Notice of the date, time and place of each business meeting or activity shall be given to the coach or advisor at least five (5) days prior to the meeting or activity;
 - Minutes of a group business meeting will be prepared and submitted to the Athletic Director;
 - A school district representative (i.e., coach, advisor or administrator) should be present at each group business meeting; and
 - No alcoholic beverages shall be present at group meetings or at any group activities where students are present.

SECTION III – FUND-RAISING AND ACCOUNTABILITY

Before commencing in any fund-raising activities, and in no case less than annually, each group shall prepare and submit to the Athletic Director for its approval a budget which shall identify anticipated sources of revenue of, and uses of funds by, the group. Each group shall prepare and submit to the Athletic Director an annual financial statement which, at a minimum, shall set forth the actual sources of revenue of, and uses of funds by, the group. The following are minimum standards for group fund-raising activities.

- Each group fund-raising activity including promotion or advertising plans, spirit item sales or concession sales shall be approved in advance by the Athletic Director which shall place the activity on a master schedule and endeavor, through coordination with other groups, to avoid conflicting or competing fund-raising activities;
- Funds received by a group fund-raising activity shall be accounted for in accordance with student activity fund regulations of the Ohio Auditor of State which shall be made available to the Treasurer of each group;
- No group fund-raising activity shall involve any form of gambling prohibited by local or state law;
- Door-to-door solicitation by students shall be supervised by responsible non-students; individual solicitors shall be provided with group identification and shall present it upon request; a receipt for the contribution received shall be provided to the contributor without request; and all solicitations shall comply with any applicable local laws or regulations governing door-to-door solicitation;
- Each receipt for a contribution shall contain a printed statement indicating whether and, if so, why it is tax-deductible by the donor under the Internal Revenue Code or regulations of the Internal Revenue Service.
- Where required by the Internal Revenue Code or regulations of the Internal Revenue Service, each group shall prepare and file a tax return, a copy of which shall be filed.
- All communication with the Co-Curricular Committee should be addressed to the Athletic Director.

SECTION IV – USE OF FUNDS

Group funds shall be used only to further the Co-Curricular Program which the group supports, and shall not insure to the benefit of any individual except for the payment of actual services rendered in furtherance of the co-curricular purpose of the group. Except for a modest non-cash gift of appreciation, a coach or advisor shall not receive anything of value, either directly or indirectly, from the group. A group which desires to make a contribution, in any form, to the co-curricular program which it supports or to the school district generally, shall make such desire known to the Board of Education through the Athletic Director. The Board of Education will accept and recognize the contribution.

SECTION V – STUDENT PARTICIPANT RECOGNITION

A major purpose of each support group is to recognize the accomplishments of students who participate in co-curricular activities. To that end, each group is encouraged to appropriately recognize those accomplishments through awards in accordance with expense guidelines established by the committee. In consultation with the school principal, group activities to recognize student participants in co-curricular activities shall be scheduled to encourage and promote intra-school unity and cross-group recognition. Group recognition events shall be planned so as to permit the attendance of a participant student's family and friends without unreasonable expense in doing so. Groups are urged to take advantage of school facilities.

SECTION VI – GROUP INSURANCE

All parent support groups that are officially recognized by the Board of Education are covered under the district's liability insurance policy.

SECTION VII – RELATIONSHIP OF COACHES AND ADVISORS

A coach or advisor shall be responsible to the building principal and the Athletic/Activities Director for the activities of the group and shall, consistent with this regulation and on behalf of the school district, provide support, guidance, and assistance to the group. The designation or employment of a coach or advisor is the exclusive responsibility of the Board of Education and the administrative staff.

SECTION VIII – MIDDLE SCHOOLS

Fundraising activities in middle schools or the school district shall be limited to parent-teacher or similar non-student organizations, using this regulation as a guideline for such activities in consultation with the building principal.

POLICY ON RAFFLES

Raffles will be classified in two ways:

Maintenance Raffles: Raffles having as prizes an item(s) valued at less than \$1,000, projected profits will be less than \$7,500, and the profits from the raffle will be used to subsidize “normal” expenditures of the support group (banquet, awards, coach/advisor gifts, transportation, meals, lodging, minor equipment and supplies, etc.)

Enhancement Raffles: Raffles having as prizes an item(s) valued at more than \$1,000 and profits from the raffle will be used to purchase major equipment or make major facility changes (approved by the district).

General Regulations for Raffles:

1. All raffles and other games of chance must be approved by the high school principal/designee.
2. The raffle must have a stated purpose for which funds are to be used. These must be approved by the school principal/designee.
3. All items to be raffled must be owned by the raffling support group.
4. Tickets may not be purchased or sold by students.
5. Raffles may be conducted at school events under the guidelines established by the principal/designee (who, how, where, when, etc.).
6. Tickets may not be sold through blanket solicitation in neighborhoods or telemarketing firms.
7. An accounting of all raffles must be made to the principal/designee.
8. No support group that has a patron drive may conduct a maintenance raffle.
9. A maximum of one raffle/game of chance per year will be allowed for each support group.

Maintenance Raffles:

Following the above guidelines, maintenance raffles may be conducted by individual support groups.

Enhancement Raffles:

Enhancement raffles may be conducted only by CARDS/WOLVES or other “collective” support groups (PTA, PTO, etc.). These groups may conduct larger raffles but must establish a structure similar to that of the program, concessions or the summer basketball league to afford support groups the opportunity to participate.

[Adopted: August 20, 1996]

CARDS and WOLVES

CARDS (Thomas Worthington High School) and WOLVES (Worthington Kilbourne High School) are made up of the presidents of the individual support groups and serve as an umbrella to all support groups and to the Athletics' Department of each high school. The purposes of these two groups are:

1. To provide a forum for support group presidents to talk about issues that are of an interest to all athletic teams;
2. To provide continuity in the administration concessions, game programs, summer league, etc.;
3. To provide opportunities for support groups to raise funds as participants in concessions, program, summer basketball league, etc.,
4. To provide financial support for projects which may affect all sports (examples: scholar athlete program, weight training equipment and facilities, training room equipment and support, etc.).

The groups meet several times each year. Additional information about CARDS and WOLVES can be obtained from the athletic directors in each building.

FUND RAISING

Any school group wishing to sponsor a money-making project must clear it through the Co-Curricular Office before any merchandise is ordered or any agreement entered into with a company. The following steps must be completed:

1. A representative of the group sponsoring the project will fill out a form with the background information, description of the product, desired dates for sale and the advisor's/coach's signature. The form will be filed in the Co-Curricular Office at least two weeks in advance.

2. The Director of Co-Curricular Programs must approve the project and the sales dates. Every effort will be made to avoid conflicts with dates of sales projects.
3. When the final order for the product is placed, the company should be informed of the exact location to which the product is to be delivered. The sponsoring group should make arrangements for storage of the product before it is delivered. The bill from the company must be made out to the specific group, not the high school. Be sure to clearly inform the company about the name of the group to be billed.
4. All money collected by school-sponsored organizations (excluding parent support groups) must be turned in to the school treasurer in the Co-Curricular Office as soon as collected. Funds need to be deposited before a purchase order can be issued. Holding collected money for one large deposit will delay payment of the purchase order.
5. Students and/or parents are responsible for all merchandise or the cash value of the merchandise distributed to them.
6. **Patron drives are limited to only those already in existence.**

All program advertising, concession sales and gate receipts of any kind will be administered solely by the Worthington Schools.

PROGRAMS/ADVERTISING

All programs distributed or sold at athletic events which contain advertising will be done through the umbrella support group of the respective school. This is a coordinated program effort in which support groups for all sports will have the opportunity to generate funds through the sale of advertising if they so desire. Each athlete in season will have the opportunity to have their picture in the program if the coach desires and the group funds the printing. Rosters with no advertising may be distributed at events if that is the wish of the coach and the group.

SUPPORT GROUP LIABILITY INSURANCE

All parent support groups that are officially recognized by the Board of Education are covered under the district's liability insurance policy.

SUPPORT GROUP GUIDELINES

See the *Worthington City Schools Support Organizations Handbook* for a full description of support group guidelines.

TEAM POSTER GUIDELINES

The purpose of a team poster/picture is to highlight the student-athletes involved; display the season schedule, and possibly provide opportunities for advertisements. The team posters/ pictures also represent Worthington City Schools as they are displayed throughout the community. This being said, the Athletic Department has established the following guidelines for Team Posters and Team Pictures.

1. Student-Athletes must be in team uniform, team warm-up or other appropriate attire. If team uniform exposes chest (examples: boys water polo, boys swimming) then all the student-athletes must be in a team uniform.
2. Please use and highlight school colors and logos.
3. All team posters/pictures that will be on display need to be approved through the athletic department. Please email proofs for approval before printing posters or program pictures.

THE ROLE OF PARENTS IN INTERSCHOLASTIC ATHLETICS

Communicating with Your Children

1. Make sure your children know that win or lose, scared or heroic, you love them, appreciate their efforts, and are not disappointed in them. This will allow them to do their best without fear of failure. Be the person in their life they can look to for constant positive reinforcement.

2. Teach them to enjoy the thrill of competition, to be “out there trying,” to be working to improve their skills and attitudes. Help them develop the feeling for competing, for trying hard, for having fun.
3. Try your best to be completely honest about your child’s athletic ability, competitive attitude, sportsmanship and actual skill level.
4. Don’t compare the skill, courage, or attitude of your child with other members of the team.
5. Be helpful but don’t coach them. It’s tough not to, but it is a lot tougher for the child to be flooded with advice and critical instruction.
6. Don’t compete with the coach. If your child is receiving mixed messages from two different authority figures, they will likely become disenchanted.
7. Get to know the coach(es). Then you can be assured that their philosophy, attitudes, ethics and knowledge are such that you are happy to have your child under their leadership.
8. Always remember that children tend to exaggerate, both when praised and when criticized. Temper your reaction and investigate before overreacting.
9. Make a point of understanding courage and the fact that it is relative. Some of us climb mountains and are afraid to fly. Some of us will fly but turn to jelly if a bee approaches. Everyone is frightened in certain areas. Explain that courage is not the absence of fear, but a means of doing something in spite of fear and discomfort.
10. Try not to relive your athletic life through your child in a way that creates pressure; you lost as well as won. You were frightened, you backed off at times, you were not always heroic. Don’t pressure your child because of your pride. Athletic children need their parents, so you must not withdraw. Remember, there is a thinking, feeling, sensitive, free spirit out there in that uniform who needs a lot of understanding, especially when their world turns bad. If they are comfortable with you win or lose, then they are on their way to maximum achievement and enjoyment.

Communicating with the Coach

Communication You Should Expect From Your Child’s Coach

- Philosophy of the coach
- Expectations the coach has for your child, as well as all players on the squad
- Locations and times of all practices and contests
- Team requirements (fees, special equipment, off-season conditioning)
- Procedure should your child be injured
- Disciplines that result in the denial of your child’s participation.

Communication Coaches Expect From Parents

- Concerns expressed directly to the coach
- Notification of any schedule conflicts well in advance
- Specific concerns in regard to a coach’s philosophy and/or expectations

Appropriate Concerns to Discuss with Coaches

- The treatment of your child, mentally and physically
- Ways to help your child improve
- Concerns about your child’s behavior

Issues Not Appropriate to Discuss with Coaches

- Playing time
- Team strategy
- Play calling
- Other student-athletes

Appropriate Procedure for Discussing Concerns with Coaches

- Call to set up an appointment with the coach (contact the athletic administrator to set up the meeting if unable to reach the coach)
- Do not confront a coach before or after a contest or practice (these can be emotional times for all parties involved and do not promote resolution)

What if the Meeting with the Coach Did Not Provide Satisfactory Resolution?

- Call to set up an appointment with the athletic administrator
- Determine the appropriate next step at this meeting

ATHLETIC PASSES

The Worthington High Schools Athletic Departments will offer for the 2022-2023 school year athletic passes for purchase. The pass will provide the purchaser general admission to all home regular season, high school and middle school athletic events. Costs of these passes can be obtained by calling the Co-Curricular Office at your high school (TWHS – 614-450-6225 and WKHS – 614-450-6425).

ATOD ACKNOWLEDGEMENT

Prior to starting practice, each parent and student is required to have agreed electronically to the ATOD Policy. The purpose of the electronic agreement is to *inform* both the student and their parents as to the expectations placed upon student participants in regard to the use of alcohol, drugs and tobacco, and the consequences if the student should be found in violation of these policies.

ATTENDANCE (CLASS) REGULATIONS

As outlined in the respective student handbooks, any Worthington High School student participating in the Co-Curricular Program must be present in at least one-half of their regularly scheduled classes on the day of a contest or practice in order to be able to participate that day. One-half defined as 50% attendance in class periods that count towards graduation. Exceptional situations can be appealed to the principal or designee. It is the responsibility of the student/parent to notify the coach/advisor of any situation which may limit participating in a contest/performance/practice.

AWARDS

Student participants may receive an award or merchandise as a result of participation in school or non-school competition from any source, provided the value does not exceed \$500.00 per award. (OHSAA Bylaw 5-1-1).

CANCELLATION OF CONTESTS DUE TO EMERGENCY CONDITIONS

If the Worthington Schools are closed due to a weather emergency, decisions on evening extra-curricular contests, performances and meetings will be made by noon by the Assistant Superintendent, or designee.

CONCESSION SALES

Cards and Wolves will have first rights to refuse the opportunity to use athletic concession stands for fundraising. Support groups who will be using concession-like food products for fund-raising or tailgating, are required to first contact *Cards and Wolves* for approval.

ELIGIBILITY

All Students who wish to participate in any co-curricular activity sponsored by the Worthington Board of Education must meet the academic eligibility requirements, by-laws, and general sport regulations adopted by the OHSAA. Specific information can be found at ohsaa.org.

Please check with your principal or athletic administrators if you have any questions on athletic eligibility.

In addition there are local school standards which apply:

The Worthington Board of Education recognizes that extra-curricular activities of the school district such as interscholastic athletic events, plays and musical performances (Worthington Board of Education Policy 2431) represent an extension of the overall school program. All such programs must contribute to the goals of general education to justify their existence in the curriculum.

In order to be granted the privilege to participate in interscholastic extracurricular activities, students must make normal academic progress toward graduation. Accordingly, the Academic Eligibility Policy will reflect the academic standards that a student must attain in order to progress toward graduation.

An interscholastic extra-curricular activity is defined as a school-sponsored student activity not included in the graded course of study, which has a competitive component or a public performance.

To be eligible to participate in an interscholastic extracurricular activity, the Board requires that high school students (grades 9-12) meet all Ohio High School Athletic Association (OHSAA) regulations; **pass a minimum of five one-unit courses** (or the equivalent which count towards graduation) during the preceding nine-week grading period; and **attain a GPA of 1.0 or greater in those five courses**. In addition, high school students **must pass 2.5 units of credit from the previous semester**.

Middle school students (grades 7 and 8) must meet all OHSAA regulations, five (5) courses they attempt during a nine-week period, and attain a GPA of 1.0 or greater in those courses.

Failing grades will not make a student ineligible, provided the above requirements are met. Credits earned in summer school, or other methods approved by the building principal, may be used to make up unearned semester credit. E-school or other opportunities may be used to make up unearned semester credit. Two weeks after the end of the grading period a student may petition the principal or designee to regain eligibility early by entering into a credit recovery contract approved by the building principal. A student who recovers the credit shall be immediately eligible.

Failure to comply with grading period (nine weeks; or, nine weeks and semester) eligibility requirements will result in loss of eligibility for the succeeding nine-week grading period.

Worthington City Schools Eligibility Academic Requirements Summary

The Board of Education recognizes that a complete co-curricular program based upon student interest assists in the total education of students. While emphasis is given to intellectual growth, diversified opportunities must be provided for students who wish to participate in the co-curricular program. All such programs must contribute to the goals of general education to justify their existence in the curriculum.

1. Participation in a co-curricular sport/activity is a privilege, not a right.
2. All participants will be subject to the rules and regulations of the respective sport/activity, the governing body's bylaws and guidelines and the WCS Student/Parent Handbook including the Co-Curricular Alcohol Tobacco and Other Drugs (ATOD) Policy.
3. Participants will be advised in writing of all regulations by their respective advisors or coaches prior to their participation in order for each student to determine the feasibility of such participation.
4. Violation of rules and regulations may result in loss of privilege to participate or other disciplinary action.

Academic Eligibility

To be academically eligible to participate in a co-curricular sport/activity a student must meet four standards.

1. Participants must be enrolled in a minimum of five (5) one-credit courses (or the equivalent) throughout the duration of the sport/activity. *OHSAA Standard*
2. Participants must have received passing grades in a minimum of five (5) one-credit courses (or the equivalent) during the immediately preceding grading period for each grading period throughout the duration of the sport/activity. *OHSAA Standard*
3. Participants must earn a minimum of a 1.0 GPA in the immediately preceding grading period throughout the duration of the sport/activity. *OHSAA Standard*
4. Participants must have earned 2.5 credits the immediately preceding semester (applicable to the first and third grading period). *Worthington Schools Standard*

Notes: No work completed outside of the immediately preceding grading period may be used to satisfy the second and third standard. No work done outside of the school year (i.e. summer school) may be used to satisfy any of the first three standards. A question regarding what measure is considered adequate progress should be directed to the athletic director by the student and/or parent.

Understanding Student Educational Options

A traditional year-long course worth one-credit or a semester-long course worth ½-credit where students and teachers meet daily are the standard courses in which most students are typically enrolled. However, there are many other educational options available to students such as College Credit Plus, Credit Flex, Blended Learning and E-School courses. Additionally, there are outstanding programs available to students such as Linworth, the Career Center and the Worthington Academy. While these options are great for participants, they can cause some confusion as to how they can be "counted" with regard to the first two academic standards that students must meet to be academically eligible to participate in co-curricular activities. Some clarity is provided within this document. Additional questions should be directed to both the student's counselor and to the athletic director.

How to Count Courses

Standard Courses

- A year-long course valued at 1-credit will count as one of the five required courses.
- A semester long course valued at ½-credit will count as one of the five required courses.

Non-standard Courses

- A semester long course valued at ¼-credit will not count as one of the five required courses. It would be one-half of one of the required courses.
- A semester long course valued at 1-credit will count as two of the five required courses.
- A semester long course valued at 1.5-credits will count as three of the five required courses.

Courses Earning College Credit with a High School Instructor

- A year-long course that is valued at 5 university semester credits is valued at 1 high school credit and will count as one of the five required courses.
- A semester-long course that is valued at 5 university semester credits is valued at 1 high school credit and will count as two of the five required courses.
- A semester-long course that is valued at 3 university semester credits is valued at 1 high school credit and will count as two of the five required courses.

Courses Earning College Credit with a College/University Instructor

- These courses are awarded credit using the following table:

College/University Credit Value	High School Credit Value	Number of the 5 Required Courses
1 semester credit	0.333 semester credits	0.666 courses
2 semester credits	.666 semester credits	1.332 courses
3 semester credits	1 semester credit	2 courses
4 semester credits	1 semester credit	2 courses
5 semester credits	1 semester credit	2 courses

Considerations

Blended Learning Courses: Students who are enrolled in a blended learning course should count the course just as they would a traditional style course. They will receive grades from their teacher at the end of each term.

Physical Education and Health Courses: Health is a semester long course valued at ½-credit. This course may be counted as one of the five 1-credit courses. However, the following Wellness for Life courses are semester-long courses that are valued at ¼-credit: Flex and Tone, Personal Wellness, Strength Training, Wellness for Life, and Yoga. They will count as one-half of a 1-credit course. Students who are taking one of the identified Wellness for Life courses need five (5) additional courses to meet the eligibility standards.

E-School Courses: Students may be enrolled in one or more e-school courses during any given grading period. Some students may meet often with an adult to oversee e-school progress while others may be responsible to maintain progress on their own. However progress is monitored, a student must make adequate progress in their e-school course during each grading period. For an e-school course that is valued at ½-credit, the student must complete at least 50% of the course with passing marks during the first 9-weeks of a semester and complete the course with passing marks by the end of the semester. Students who complete an e-school course during the first 9-weeks of the semester must continue to meet standard 1 in the second 9-weeks of the semester. In this scenario, each e-school course will count as one of the five 1-credit courses.

The Worthington Academy: Students enrolled in online courses at the Worthington Academy should treat those courses as described above under E-School Courses. Worthington Academy students and their parents should discuss co-curricular eligibility requirements with the Worthington Academy Principal during the initial intake meeting and with the home school athletic director.

College Credit Plus: Students who take College Credit Plus courses either on our campuses or at a college/university must make adequate progress in the course(s) during each WCS grading period, regardless of when the college/university assigns final grades. In this scenario, adequate progress is defined by the college/university and the courses instructor. Given that student grades at the college/university are afforded protection by the Family

Educational Rights and Privacy Act, the high school does not have access to interim grades for these courses. Therefore, at the end of the WCS first and third grading periods, students will be required to have their instructor complete a [University Grade Report Form](#) for each of their college/university courses and return it to the athletic office. The form requires a student and a parent signature prior to the instructor completing the form. Students who do not return the form by the specified date will be withheld from participation until it is on file with the school.

Credit Flex Courses: Students who take a course through the credit flex option must make adequate progress in the course during each grading period. Students may count the course as one of the five 1-credit courses provided that they are working for one semester on a course valued at ½-credit or for one year on a course valued at 1-credit. A student who is working for one year on a course valued at ½-credit **will not** be able to count the course. Adequate progress is determined by the teacher of record supervising the student's work. The teacher of record will be required to submit in writing that the student is making adequate progress at an acceptable level at the end of each grading period. Without the written submission of progress submitted to the athletic office, the student will be withheld from participation.

Linworth: Most of a student's courses at Linworth are a semester course valued at ½-credit or are a yearlong course valued at 1-credit. Those courses each count as one of the required five courses. There are some courses offered that exceed those credit values. Please refer to the section on [How to Count Courses](#) to determine how to count these courses. Please direct your questions regarding these courses to the Linworth Director and to the athletic director.

Career Center Courses: The semester courses at the career center may be valued at ½-credit, 1-credit or 1.5-credits. Please refer to the section on [How to Count Courses](#) to determine how to count these courses. When the WCS grading period ends prior to the career center grading period students may be withheld from participation until it is determined that they are making adequate progress in their career center courses.

FACILITY USAGE

Scheduling of athletic facilities for games, regular practices and practices during vacations and holidays must be coordinated through the Athletic Director at each building. All other rooms/spaces are scheduled through the Facility Coordinator at TWHS or WKHS. The scheduling of some specialized areas will require additional contacts; e.g., auditorium manager, kitchen – Food Services (614-450-6140). **Facility requests must be completed online and be approved by the building and district personnel. All use of facilities will require custodial support and may require payment of custodial fees. Weekend activities will incur custodial personnel costs.**

Students and parents will be permitted to use facilities only when scheduled and supervised by a staff member.

Often the omission of one or two details prevents any activity from being a success and invites unwarranted criticism of the sponsoring group. The following procedures are necessary for effective planning of club/class activities:

1. Secure approval and establish a date for the event from the Co-Curricular Office before announcing it. The date will be checked against the Master Calendar to ensure proper facilities and equipment.

2. Establish responsibility for the various phases of the event. It is suggested that you have a complete list of the students responsible for the assigned tasks.
3. Establish responsibility for clean-up.

STUDENT HAZING

Hazing activities of any type are inconsistent with and disruptive to the educational process, and prohibited at any time in school facilities, on school property, and/or off school property if the misconduct is connected to or associated with Board-sponsored activities (e.g., extracurricular teams, clubs, or groups) or incidents that have occurred on school property. No administrator, employee, faculty member, teacher, consultant, alumnus, or volunteer of the District shall encourage, permit, authorize, condone, or tolerate any hazing activities. The preceding prohibition includes recklessly permitting the hazing of any person associated with the District. Additionally, no student shall plan, encourage, or engage in any hazing.

Hazing is defined as doing any act or coercing another, including the victim, to do any act of initiation into any class, team, or organization or any act to continue or reinstate membership in or affiliation with any class, team, or organization that causes or creates a substantial risk of causing mental or physical harm to any person, including coercing another to consume alcohol or a drug of abuse. No person shall recklessly participate in the hazing of another. Permission, consent, or assumption of risk by an individual subjected to hazing shall not lessen the prohibitions contained in this policy.

Administrators, employees, faculty members, teachers, volunteers of the District shall be alerted to possible situations, circumstances, or events that might include hazing. If hazing or planned hazing is discovered, the students involved shall be informed by the discoverer of the prohibitions contained in this policy and shall be ordered to end all hazing activities or planned activities immediately. All hazing incidents shall be reported immediately to the Superintendent. Additionally, no administrator, employee, faculty member, teacher, consultant, alumnus, or volunteer of the District who is acting in an official and professional capacity shall recklessly fail to immediately report the knowledge of hazing to a law enforcement agency in the county in which the victim of hazing resides or in which the hazing is occurring or has occurred. Students, administrators, employees, faculty members, and teachers who fail to abide by this policy may be subject to disciplinary action and may be held personally liable for civil and criminal penalties in accordance with law.

The Superintendent shall distribute this policy to all students, Board employees, consultants, and volunteers, and shall incorporate it into building, staff, and student handbooks. It shall also be posted on the District's website. This policy shall be the subject of discussion at employee staff meetings or in-service programs.

Board employees and volunteers shall not intentionally remain ignorant of hazing or potential hazing activities.

Violations of this policy are subject to discipline as outlined in the student handbook.

CO-CURRICULAR STUDENT DISCIPLINE

Participation in co-curricular (extracurricular) activities is a privilege extended to students who meet eligibility requirements for participation in a co-curricular activity. One of the eligibility requirements is compliance with this policy. Other eligibility requirements include, but are not limited to, compliance with the Student Code of Conduct; compliance with all other applicable policies and regulations of the Board; compliance with any additional rules established by the co-curricular activity adviser or coach, including athletic training rules; and compliance with Ohio High School Athletic Association requirements.

As used in this policy, the term "co-curricular activity" includes all athletic programs, activities programs and performances and student leadership activities. This policy is applicable to students at all grade levels (K-12) participating in co-curricular activities. The prohibitions and penalties provided in this policy will be imposed in addition to, and not in the place of, penalties for conduct otherwise prohibited by the Student Code of Conduct.

Students who violate the Student Code of Conduct, any policies and regulations of the Board, rules established by the advisor or coach of a co-curricular activity in which the student participates, or Ohio High School Athletic Association requirements are subject to suspension or removal from their privilege of participation in any particular or all co-curricular activities. The principal, assistant principal or other District administrative personnel are authorized to suspend a student from any or all co-curricular activities. The suspension shall be for a maximum of permanent denial of participation in any particular or all co-curricular activities for the remainder of the student's school enrollment. In addition to suspension from participation, an advisor or coach may assign any other penalty other than suspension to a student (e.g., extra practice time, parent conference, limited participation).

Students who violate the co-curricular alcohol, tobacco and drug policy are subject to the specific provisions of policy, including the due process provisions and consequences specified and are not governed by this policy.

Students who are suspended or expelled from school or have been subject to emergency removal from school pursuant to a violation of the Student Code of Conduct are also automatically denied participation in co-curricular activities for an equal period of time. No additional due process beyond that provided by the Board is available to the student and this policy does not apply to the period of time the student is suspended, expelled or otherwise removed from school pursuant to regulation. However, a student may be suspended from a co-curricular activity for a period of time that extends beyond any suspension, expulsion, or emergency removal from school and such additional suspension from any particular or all co-curricular activities is pursuant to this policy. This policy applies only to the suspension of an eligible student from all participation in and attendance at the co-curricular activity, as part of the team or co-curricular group, for a period of time of one day of participation or more. This policy is not applicable in the case of normal disciplinary procedures in which a student is removed from the co-curricular activity for less than one day of participation in the activity. This policy has no applicability whatsoever to the advisor's or coach's day-to-day decisions related to selection of students for a team, competition, or co-curricular activity; the level of participation of a student in a particular competition or activity; or the discipline of a student by an advisor or coach that consists of any penalty other than the complete suspension of a student from participation in and attendance at the co-curricular activity as part of the team or co-curricular group. (e.g. a coach/advisor may determine that a student may attend a practice, competition, or performance as part of a team or student co-curricular group but may determine that the student will not compete in a particular athletic event or participate in a particular performance or activity. This is not considered to be a suspension from a co-curricular activity as defined in this policy since the student is still attending the activity as part of the school team or group and the provisions of this policy do not apply.)

Prior to any suspension from any particular or all co-curricular activities, the principal, assistant principal, or other District administrator shall advise the student of the conduct considered to be a violation of this policy. The student will be given an opportunity to informally meet with the principal, assistant principal, or other District administrative personnel to challenge the reasons for the intended suspension or to otherwise explain their actions.

Any suspension will be determined by the principal, assistant principal or other school administrative personnel who informally meets with the student.

An administrator or a co-curricular advisor, coach, or teacher may remove a student under an emergency removal basis from a co-curricular activity under that advisor's, coach's, or teacher's supervision without the due process provisions of this policy if the student's presence poses a continuing danger to persons or property or an ongoing threat of disrupting a co-curricular activity, school, or any school-related activity held on or off school premises. If a student is removed pursuant to this paragraph on an emergency removal basis, the student shall be provided with an opportunity to informally meet with the principal, assistant principal, or other school District administrative personnel within three (3) school days from the time the initial removal is ordered in order for the student to challenge the reasons for the intended suspension or to otherwise explain their actions.

A student may appeal a suspension from a co-curricular activity. During the time any appeal is pending, all penalties in this policy shall be enforced. The director of co-curricular activities is designated as the co-curricular appeal hearing officer. The appeal must be in writing and must be received by the director of co-curricular activities not later than the

end of the second school day following the date that the student was notified of the suspension from co-curricular activities.

The director of co-curricular activities shall mail or otherwise provide a decision, in writing, to the student regarding the appeal. The decision of the director of co-curricular activities shall be final and is not subject to any further appeal.

The informal meeting with the administrator prior to a suspension and any appeal of a suspension are not formal judicial proceedings. There is no right to cross-examination or question school District personnel or any other person. The rules of evidence and rules of civil procedure do not apply. All procedures and decisions to the informal meeting or any appeal are subject to the sole discretion of the administrator or co-curricular appeal hearing officer, as applicable. [Adoption date: July 22, 2002] LEGAL REF.: ORC 3313.664

NEW CLUB / ACTIVITY PROCEDURE

1. Students should contact the Athletic Director to discuss the procedure for establishing a new club/activity.
2. A faculty advisor for the activity must be named. (The Athletic Director may have a recommendation or the students may contact an interested teacher.) The staff person who is willing to serve as advisor must communicate with the Athletic Director, indicating their willingness.
3. The students should then schedule a meeting of "interested students," with the advisor present, to establish the approximate number of the "interest group." This meeting should be announced to the entire student body.
4. At the organizational meeting the purposes or objectives of the club should be decided and listed. These purposes or objectives must then be presented to the Athletic Director for review by the high school administration.
5. After administrative approval of the purposes has been granted, the students and advisor should structure a constitution or purpose statement for the group. When completed, the constitution/purpose statement must be presented to the Athletic Director for approval.
6. Two copies of the constitution/purpose statement should be sent to the Co-Curricular Office for the club's official file.
7. The advisor may then contact the school treasurer regarding the opening of an activity account. Names of officers should be recorded in the Athletic/Co-Curricular Office.

PROGRAM EXPANSION, NEW TEAMS, OR ADDITIONAL ATHLETIC PROGRAM PERSONNEL

1. Growth will be considered in two categories:
 - a. Programs which are new to the district.
 - b. Expansion of the current program in the forms of additional teams or additional personnel to coach existing teams.
2. Critical factors to be considered with possible program expansion
 - a. Internal interest in the future.
 - b. External interest as measured by interest within the OCC, central Ohio, and Ohio.
 - c. Existing infrastructure of officials or league/organization to support the sport.
 - d. Available facilities to support the program or team.
 - e. Additional funding needs (personnel, transportation, facilities, operating expense, custodial grounds, maintenance, and administration).
3. Once a program becomes affiliated with the district, the program must conform to all policies of the school, the district, the OCC, and the OHSAA.
4. Support for programs may be phased in as determined by the Board of Education. Phases are as follows:
 - Non-Interscholastic Status (school program) – unfunded by the district.
 - Interscholastic Phase I – unfunded (letters awarded and recognition given by school)
 - Interscholastic Phase II – funding coach/advisor stipend (one year minimum)
 - Interscholastic Phase III – funding transportation (one year minimum)
 - Interscholastic Phase IV – funding operating budget (one year minimum)

The Board of Education may elect to introduce a sport into the school program on any of these levels. Once entered into the school program, the Board of Education may elect to advance the sport to the next level after considering the critical factors. The request will be processed as follows:

- a. The sponsor of the proposal

- b. Building principal
- c. Superintendent
- d. Board of Education

NON-WORTHINGTON STUDENTS

Non-Worthington students are not permitted to practice or work-out with teams on a regular basis. There are certain instances, as a courtesy to other schools, when this is appropriate. The participant(s) must be accompanied by their coach/advisor and may practice with our teams/groups or utilize our facilities as approved by the Co-Curricular Office.

PARTICIPATION CONFLICTS (Students)

Many students in Worthington participate in a variety of curricular, co-curricular and extra-curricular activities. Students and parents must understand the expectations of each of the activities in which they are involved and work to avoid conflicts that might compromise their abilities to meet the requirements established by each of these activities. The following guideline should be used to determine a student's participation when a conflict in scheduling arises: A performance (athletic event, contest, play, concert, etc.) has priority over any practice or rehearsal. When two events of equal value conflict, the student may participate in the event of their choice without fear of penalty or consequence. Students are to inform coaches/advisors of conflicts as soon as they become aware of them. Students are responsible for foreseeing and resolving potential conflicts at the beginning of the season.

OUT-OF-STATE TRAVEL

All requests for out-of-state travel must be made to the building director of activities/athletics. District funds will not be used to fund travel to out-of-state destinations. No student participants should be excluded because they are unable to afford the cost of such travel. All OHSAA and school regulations must be followed.

REQUIRED PHYSICAL EXAMINATION

Members of athletic teams and members of some activities' groups must have a current physical examination turned in to the Co-Curricular Office before the student practices or competes. Physicals are only valid for 13 months after the date of the examination.

CONCUSSIONS

H.B 143 requires a youth sports organization to provide to the parent or other guardian of an individual who wishes to practice for or compete in an athletic activity the Department's concussion and head injury information sheet. Each co-curricular participant must have this form signed by the parent/guardian before each sport season to acknowledge receipt of the information sheet before participation.

SALARIES OF COACHES / ADVISORS

Bylaw 6-2-1 of the OHSAA stipulates that the board of education shall be the only authority in determining the salary or any other form of compensation for coaches.

SCHOLAR-ATHLETE AWARDS

WOLVES – Scholar-athlete recognition is given by the umbrella support group of each high school. The award is based upon the GPA for the preceding semester. Any student who is a team member and has a GPA of 3.25 or greater for the preceding semester will be awarded scholar-athlete recognition. For freshmen participating in a fall sport or activity, the award will be based upon the first semester GPA and will be presented early in the second semester.

CARDS – Scholar-athlete recognition is given by the umbrella support group of each high school. The award is based upon quarterly GPA. Fall sports use 1st quarter marks. Winter sports use 2nd quarter marks. Spring sports use 3rd

quarter marks. Any student who is a team member and has a GPA of 3.25 or greater for the corresponding quarter, will be awarded scholar-athlete recognition.

OCC – The OCC will recognize one scholar-athlete per school from each OCC sponsored sport. The recipient must be a senior with a GPA of 3.5 or better.

STUDENT LEADERSHIP

Serving in a student leadership position (whether appointed or elected) for a co-curricular program, team or activity shall be considered a privilege. Student leaders are expected to demonstrate exemplary citizenship. Any student leader who is disciplined for a major infraction of the schools' Student Conduct Code may be removed from their leadership position upon the recommendation of the advisor/coach and approval of the principal.

TEAM AND ORGANIZATIONAL RULES

Coaches/advisors may establish expectations and consequences for student participants dealing with specific issues related to improving the team/organization and improving general student deportment and performance.

INSURANCE COVERAGE

Prior to the beginning of practice, all students are to be offered the opportunity to enroll in a Worthington Schools' endorsed insurance program. This program should be utilized by students who do not have insurance coverage of their own. The Worthington Schools do not carry insurance to cover injuries incurred in co-curricular activities (athletics and activities programs). Each student can obtain an application for insurance from the Co-Curricular Office. If the student decides to enroll, the parent must complete and return the application directly to the insurance company. Enrollment in this program may occur at any time during the year.

All parents and student participants will be required to sign the electronic liability waiver acknowledging the cautions, considerations and responsibilities to increase the safety and enjoyment of interscholastic athletics. (See Ohio High School Athletic Association Handbook regarding catastrophic accident insurance and tournament coverage.)

For those sports not officially sanctioned by the OHSAA, the District purchases a blanket catastrophic insurance coverage through Loomis and Lapann. This is a secondary coverage; primary coverage is always the Student's/parents' primary insurance. The deductible is \$25,000. Basically the policy will pay the claimant costs exceeding \$25,000 that are not covered by the primary insurance. Costs incurred and paid for by the primary insurance count toward the deductible. So for example, if the injury costs \$30,000, and the parent experiences a co-pay of 10% and therefore pays \$3,000 out of pocket, the \$27,000 paid by insurance satisfies the deductible on the catastrophic plan, so the parent may seek reimbursement for the \$3,000 out-of-pocket costs.

Procedures for submitting a claim are as follows:

1. District sends notification on letterhead to Karen Boller, Loomis & Lapann, kboller@loomislapann.com), indicating student name, parent name, date of injury, and brief description. This must be done within 60 days of the event.
2. Karen will contact the parent with information on how to submit a claim should the total costs exceed \$25,000 deductible.

TOURNAMENTS

The Worthington Schools will host league, sectional, district, regional and state tournaments, as well as major invitational events of our own. All of these events must be approved in advance by the Co-Curricular Office. Individual head coaches are responsible for the management of all tournaments except those run by the OCC, the District or the OHSAA. The tournament manager or head coach must coordinate all aspects of the tournament through the Athletic Director. Appropriate entry fees must be charged to opponents to offset total tournament costs. The Co-Curricular Department will provide personnel to successfully operate all school-sponsored tournaments through the Athletic Director. Appropriate entry fees must be charged to opponents to offset total tournament costs. The Co-Curricular Department will provide personnel to successfully operate all school-sponsored tournaments and will work with tournament managers to provide the appropriate support for all district or state tournaments. Appropriate concession support shall be coordinated through the concessions chairperson.

TRANSPORTATION AND TRAVEL GUIDELINES

Bus Guidelines for Athletics/Activities Trips

- Athletic trips are an extension of the school district and students should behave as though their parents are on board with them. **Students must stay in their seats and not move around.** Noise level should not be so loud that the driver cannot hear emergency vehicles, or concentrate on driving the bus during adverse weather and traffic conditions.
- **Students must exit the bus by the front service door.**
- Any equipment necessary for the team must not block the aisle, service door or emergency door.
- Student participants should remove any shoes that have metal spikes or cleats on them.
- **There will be no eating or drinking on the bus at any time.** There is a state regulation governing this rule. This eliminates the possibility of any student choking on food, etc., while en route.

Non-Bus Travel: The building Athletic Dir. must approve all modes of transportation in non-district owned vehicles.

Alternative Transportation for Individual Students: Other than in very unusual circumstances, all students will travel to and from events with the team/group. Should unusual circumstances arise, the principal or designee may permit, with a written request from the parent, in advance, an alternative mode of transportation for individual students. Students may travel only with their own parents.

Overnight Trips: On an overnight trip, the sponsoring group must pay for the bus driver's lodging and meals. Bus drivers cannot be housed with students.

SPORTSMANSHIP

STUDENT CONDUCT POLICY

As a prospective student-athlete, you are expected to seriously accept the responsibility and privilege of representing your school and community while participating in interscholastic athletics. School and athletic department personnel expect you to treat opponents with respect; respect the judgment of contest officials; abide by contest rules; display no behavior that could incite fans or other participants in the contest or which is intended to embarrass, ridicule or demean others under any circumstances including on the basis of race, relation, gender or national origin; cooperate with officials, your coaches and other participants to ensure a fair contest, and live up to the high standard of sporting conduct that has been established by your school.

SOCIAL MEDIA GUIDELINES FOR CO-CURRICULAR PARTICIPANTS

Participating and competing for Worthington is a privilege. Co-Curricular Participants are held in the highest regard and are seen as role models in the community. As leaders you have the responsibility to portray your team/activity, your coaches/advisors, our school, and yourselves in a positive manner at all times. Facebook, Twitter and other social media sites have increased in popularity globally, and are used by the majority of co-curricular participants in one form or another.

Co-Curricular Participants should be aware that third parties--including the media, faculty, future employers and college officials--could easily access your profiles and view all personal information. This includes all pictures, videos, comments and posters. Inappropriate material found by third parties affects the perception of the Co-Curricular Participant and our school. This can also be detrimental to a Co-Curricular Participant's future options (i.e. college, profession). Examples of inappropriate and offensive behaviors concerning participation in online communities may include depictions or presentations of the following:

- Photos, videos, comments or posters showing the personal use of alcohol, drugs and tobacco.
- Photos, videos, and comments that are of a sexual nature. This includes links to websites of a pornographic nature and other inappropriate material.
- Pictures, videos, comments or posters that condone drug-related activity. This includes but is not limited to images that portray the personal use of marijuana and drug paraphernalia.
- Content online that is unsportsmanlike, derogatory, demeaning or threatening toward any other individual or entity (examples: derogatory comments regarding another school; taunting comments aimed at a student-athlete, coach or team at another school and derogatory comments against race and/or gender). No posts should depict or encourage unacceptable, violent or illegal activities (examples: hazing, sexual harassment/assault, gambling, discrimination, fighting, vandalism, academic dishonesty, underage drinking, and illegal drug use).

If you are ever in doubt of the appropriateness of your online public material, consider whether it upholds and positively reflects your own values and ethics as well as those of our school community. Remember, always present a positive image and do not do anything to embarrass yourself, the team, or your family. Failure to adhere to this policy and guidelines may result in consequences that include suspension from your team/activity, and you may be subject to additional penalties imposed by the school.

Signs, Banners, Noisemakers, and Substances Thrown on Playing Floor – Signs, school banners, pennants, shakers, noisemakers such as horns, bells, sirens, drums, etc. are NOT PERMITTED! The use of confetti, tearing up of newspapers, and programs is not permitted. Throwing powders, such as but not limited to rosin or talcum powder, is prohibited. Use may result in a technical foul and charges administered for clean-up.

Spectators Attire – Shirts and appropriate attire must be worn at indoor contests.

STUDENT PARTICIPATION CONDUCT PENALTY

Any student ejected for unsportsmanlike conduct or flagrant foul shall be ineligible for contests for the remainder of that day, as well as for all contests in that sport until two regular season/tournament contests are played at the same level as the ejection. (One contest in football.)

If the ejection occurs in the last contest of the season, the student shall be ineligible for the same period of time as stated above in the next sport in which the student participates. A student under suspension may not sit on the team bench, enter the locker room or be affiliated with the team in any way traveling to, during, or traveling after the contest(s).

A student who is ejected a second time shall be suspended for the remainder of the season in that sport. A student who has been ejected for unsportsmanlike conduct for the second time in the season during the last contest shall be ineligible for a period of time/number of contests subject to the discretion of the Commissioner. The period of ineligibility shall commence during the next sport in which the student participates.

It is the responsibility of the local school authorities to ensure that this regulation is enforced. When an ineligible student is allowed to participate, forfeiture of the contest is mandatory. This regulation shall apply to all regular season and tournament contests and shall in no way limit the discretionary authority of the Commissioner as specified in the OHSAA Tournament Regulations. In accordance with Bylaw 8-3-1, the decisions of contest officials are final.

APPENDIX A: Board of Education and Co-Curricular Alcohol, Tobacco and Drug Policy

PROHIBITION OF SMOKING, USE OF TOBACCO AND ELECTRONIC CIGARETTES

The Board of Education is committed to providing students, staff, and visitors with a tobacco, nicotine, vapor/aerosol, and smoke-free environment. The negative health effects of tobacco use for both users and nonusers, including the effects of secondhand smoke and vapor/aerosol exposure, are well established. Further, providing a non-smoking and tobacco-free environment is consistent with the responsibilities of teachers and staff to be positive role models for our students.

For purposes of this policy, 'use of tobacco' means to chew or maintain any substance containing tobacco, including smokeless tobacco, in the mouth to derive the effects of tobacco, as well as all uses of tobacco, including cigars, cigarettes, pipe tobacco, chewing tobacco, snuff, any other matter or substances that contain tobacco or nicotine (including synthetic nicotine), in addition to papers used to roll cigarettes and/or the smoking of electronic, 'vapor,' or other substitute forms of cigarettes, clove cigarettes, and any other smoking devices for burning tobacco or any other substance.

The term "tobacco" includes any product containing, made of, or derived from tobacco or nicotine (including synthetic nicotine) that is intended for human consumption or is likely to be consumed, whether inhaled, absorbed, or ingested by any other means including, but not limited to, a cigarette, a cigar, pipe tobacco, chewing tobacco, snuff, or snus; any electronic smoking device and any substances that may be aerosolized or vaporized by such device, whether or not the substance contains nicotine; an e-cigarette (including, but not limited to, "JUUL," "NJOY," "BREEZE," "Puff Bar," etc.), e-cigar, e-pipe, vape pen, or e-hookah; but does not include any cessation product approved by the United States Food and Drug Administration for use as a medical treatment to reduce or eliminate nicotine or tobacco dependence.

The Board prohibits the use of tobacco, nicotine, or tobacco substitute products at all times (twenty-four hours a day, seven (7) days a week) within any enclosed facility owned, leased, or contracted for by the Board, and in the areas directly or indirectly under the control of the Board immediately adjacent to locations of ingress or egress to such facilities. This prohibition extends to any Board-owned and/or operated vehicles used to transport students and to all other Board-owned and/or operated vehicles. CO-CURRICULAR ALCOHOL, TOBACCO AND DRUG POLICY

The Worthington Board of Education believes:

1. Participation in athletics, activities programs and student performance activities (“co-curricular programs”) and representing the school in any manner of public performance is a privilege extended to those students willing to make a commitment to attempt to develop their talents and skills to the ultimate level.
2. Participation in co-curricular programs affords students growth and learning opportunities for personal development and team participation and contribution.
3. Students who participate in co-curricular activities are highly visible school leaders and performers. Accordingly, such students should be held to a higher standard of conduct and behavior than those who do not participate.
4. The Board has made a commitment to providing education to students about the harmful effects of alcohol, tobacco and illegal drugs and to providing information to parents when there is reason to believe that the use of such substances has or may have occurred. The use of alcohol, tobacco or drugs is prohibited by the student discipline code. Any such use by any middle school or high school student participating in co-curricular activities, at any time or place, regardless of whether school is in session, will not be tolerated and may result in the loss of privilege of participation. These expectations are in effect 12 months of the year for the duration of each student’s middle school and high school career. The provisions of this policy regarding co-curricular activity participation are in addition to, and do not supersede, any policies and procedures concerning student discipline that may apply.
5. The use of alcohol, tobacco or drugs will result in the loss of some or all of the privilege of participation in co-curricular activities. Students who participate in the student assistance program, as provided in this policy, should receive a lesser consequence in recognition of their participation.

Prohibited Conduct for Pupils Participating in Co-curricular Activities

As used in this policy, “co-curricular activities” include all athletic programs, activities programs and performances, and student leadership activities in grades K–12, in contrast with curricular programs and activities that are credit bearing and receive a grade. Student leadership includes appointed or elected leadership positions in athletics, student government or other co-curricular activities. References to the use, possession or sale of “alcohol,” “tobacco” and “drugs” means the use, possession or sale of such substances as defined in and prohibited by the student discipline code. This policy is applicable to middle school and high school students

participating in co-curricular activities. The prohibitions and penalties provided in this policy will be imposed in addition to and not in the place of, penalties for conduct otherwise prohibited by the student conduct code. Co-curricular consequences will be imposed after school student conduct code violation penalties are completed.

Prohibited Conduct

No student participating in co-curricular activities shall use, possess, sell, offer to sell, conceal, transmit, or distribute alcohol, tobacco or any drug or drug paraphernalia prohibited by the student discipline code at any time. This prohibition shall be effective 12 months per year and shall be applicable regardless of the location of the student at the time. Students acting together with students who are known to have possession of prohibited substances may be deemed to also have possession of such prohibited substances unless they remove themselves immediately and report the offense at the earliest possible time.

CONSEQUENCES

First Violation (Level 1).

Violation of this policy will result in the loss of the privilege of co-curricular participation (including contests, competitions and performances) for one entire season (or, in the case of non-athletic activities, an equivalent period). Violation during a season will result in the loss of participation for the remainder of the season and for that portion of the next season equal to the time of the season (or school year) when the violation took place. The penalty will be reduced to a loss of participation for the equivalent of 20% of the season/contests (or, in the case of non-athletic activities, an equivalent period) for students who promptly enter and successfully complete the student assistance program, as defined in this policy.

Second Violation (Level 2)

A second violation of this policy will result in denial of the privilege of co-curricular participation for one calendar year from the date the violation is determined. The penalty will be reduced to a loss of participation for one-half of the season/contests (or, in the case of non-athletic activities, an equivalent period) if the student promptly enters and successfully completes the student assistance program.

Third Violation (Level 3)

A third violation of this policy shall result in denial of all privileges of co-curricular participation for the remainder of the student's school enrollment. The penalty will be reduced to denial of privileges of co-curricular participation for a period of one calendar year from the date the violation is determined if the student promptly enters and successfully completes the student assistance program.

Sale of Drugs – Selling or Distributing

The sale or distribution of prohibited drugs (including steroids) by a co-curricular participant will result in the denial of all privileges of co-curricular participation, including practices, for a period of one calendar year from the date the violation is determined.

Student Assistance Program

The Student Assistance Program may include one or more of the following components as determined by the school representative(s):

1. A substance abuse assessment or other appropriate assessment as determined by the school representative. Assessment shall be done by an independent agency at the student's or parent's expense.
2. An educational component for students and parents to be determined by the school representative in cooperation with the student and parent.

Participation in the Student Assistance Program includes student and parent consent to at least three unannounced drug tests to be provided at times determined by the school representative during the 12-month period following determination of the violation. In appropriate circumstances, the School Assistance Program may provide for more than three drug tests as agreed between the school representative, the student and parent. All drug testing beyond the first level will be conducted in accordance with District guidelines and be done at the expense of the student or parent.

Failure to pass any drug test will be considered a violation of the co-curricular alcohol, tobacco and drug policy and will result in consequences being invoked as a subsequent violation.

Any reduction in co-curricular participation is conditioned on satisfactory completion of the education components of the policy by both the student and parent(s) and the drug testing component on the part of the student.

Self-Referral

The intent of permitting self-referral is to show support toward the student who comes to realize they have a drug or alcohol problem. It enables the young person to get help from a trusted coach or other adult who puts the student in touch with the Student Assistance Program. A student may self-refer to the student assistance program one time during the student's enrollment. There will be no loss of privilege to participate in co-curricular activities based on self-referral provided the student successfully completes the Student Assistance program. Self-referral may be denied if based on information that would otherwise come to the attention of the District. Self-referral will not be permitted for a student who is presently in the Student Assistance program, including the drug-testing period or has already had a violation. It is not intended to be used as a way to avoid the regular consequences of an incident that has already occurred. For details see your principal.

Drug Testing

A laboratory selected by the school will conduct drug testing. The student and the student's parents must sign a consent form authorizing the drug testing.

Drug testing may be requested by the school representative or other appropriate school official at any time, including times outside the normal school day or school week. Upon such request students will be expected to provide a urine sample at school or at the designated laboratory within a reasonable time as specified by the school official. Failure to do so will be deemed a positive test and will result in a denial of participation privileges. The sample will be divided into multiple specimens, one or more of which will be retained in the event confirmation testing is necessary.

Falsifying or tampering with a sample will result in suspension of the assistance program and a denial of participation privileges.

The school will pay for all drug tests (other than any tests conducted as part of an assessment at the beginning of the Student Assistance Plan) on the first level. The student will pay tests on additional levels.

A copy of the results will be sent to the designated school official and to the student's parent(s).

Prior to the testing procedure, the student may voluntarily provide information as to any prescription medication being taken which information will be provided to the testing laboratory.

Due Process

District administrative personnel may impose denial of co-curricular privileges for violation of this policy, including building athletic directors and those persons charged with the direction of building activities programs. Prior to the determination of any violation of this policy the District administrator shall advise the student of the conduct considered to be a violation and give the student an opportunity to respond to the charge. A student found to be in violation of this policy may appeal that determination to the building principal or the director of co-curricular activities. Any such appeal must be in writing and must be submitted no later than the end of the second school day following the day the violation was determined. The decision of the building principal shall be made in writing and shall be given to the student. The student may appeal the decision of the building principal or director of co-curricular activities to the Superintendent. Any such appeal must be in writing and must be submitted to the Superintendent not later than the end of the second day following receipt by the student of the decision of the building principal or director of co-curricular activities. The decision of the Superintendent or designee, shall be final. During the time any appeal is pending, all penalties provided in this policy shall be enforced.

Miscellaneous

A student denied participation in athletic events for violation of this policy for a period of less than an entire season shall be required to attend practice and events but will not be permitted to wear school uniforms or participate in any event, competition or recognition ceremony. A student leader, student athlete or student participant in a performance activity who is denied participation for violation of this policy shall forfeit all awards based on student leadership activities prior to the violation. The penalties for violation of this policy shall be applicable regardless of the school attended. Denial of participation will remain in effect when a student transfers from one school to another. Notwithstanding any other provision of this policy, a student participant in the co curricular program may observe bona fide religious practices.

[Adoption date: July 22, 2002]

[Revised date: July 24, 2006]

Procedural Issues

If the co-curricular participant is in violation of the Co-Curricular Alcohol, Tobacco and Drug Policy and is caught on school property or at a school-related function not on the property of the Worthington City Schools or is otherwise in violation of the Student Code of Conduct 10-0603R for an offense related to drugs, alcohol or tobacco, the student must first serve their penalty with the school for a violation of the Code of Conduct which can include, but is not limited to, suspension or expulsion, which will result in denial of privilege to participate in the Co-Curricular Program

while the student is expelled, suspended or removed from school. Upon returning, they must also follow the Co-Curricular Policy for first, second, or third violations of the alcohol, drug and tobacco policies.

The policy is intended to supplement and complement all other policies, rules and regulations of the school district regarding student use of drugs, alcohol and tobacco. Student participation in co-curricular activities is subject to the Student Code of Conduct 10-0603-R, including any and all penalties for violation of the Student Code of Conduct.

Failure to follow through with the recommended student assistance program will result in the enforcement of all denial of privilege penalties until the student assistance program is resumed.

Students may choose to enter the Student Assistance Program at any time after a violation.

If a student transfers from one school in the Worthington City Schools to another school within the district, the co-curricular records shall transfer with the student as will any consequences or required assistance programs. If a student transfers into a Worthington School from outside the district and is currently serving a consequence for an ATOD violation, the consequences administered by the original school will remain in effect unless the consequences would be more restrictive than those specified by the Worthington Schools' Co-Curricular Policy.

Banquet: If any co-curricular participant, at the conclusion of the season, is not a team/group member in good standing as a result of not proving substantial effort to complete the required educational assistance programs or proving substantial effort to complete such assistance programming, the student will forfeit the privilege to attend the banquet and to receive all letters and/or awards that would have been awarded at that time.

Senior Recognition Programs: Should a student not complete the Student Assistance Program or prove substantial effort to complete such student assistance programming, the student will not be recognized at the Celebration of Excellence, other school sponsored recognition or co-curricular achievement, or other public recognition as determined by the Principal.

Definitions

Controlled Substances – Alcohol, illicit drugs, dangerous intoxicants, counterfeit controlled substances, or licit medications without the supervision of a physician.

Violation – A violation will have occurred when there is determination by school district personnel indicating that a student used, purchased, sold, trafficked or possessed alcohol, tobacco or controlled substances on or off school grounds.

Referral for Assistance – Information from the student-participant, their peers, community members, and/or parents that leads the coach/advisor or other school officials to believe a co-curricular participant has violated the co-curricular drug, alcohol and tobacco policy. The co-curricular participant must confirm the validity of this information in order to proceed further, except when the participant's parent(s)/guardian(s) refers to the student or confirms the information.

Season – In athletics, the length of the competitive season is defined by the OHSAA or in the case of non-OHSAA sports by the district. In activities, seasons are defined by schedules printed by the district. A season of denial may include parts of two sports or activities or parts of two seasons of the sport or activity. Example: a 50% denial of privilege could cover the last 25% of the current season and the first 25% of the next season in which the student wishes to participate. If serving part of the percentage of the denial of privilege in a second sport or activity, the student must remain as a participant in good standing for the duration of the second season. All co-curricular rules and expectations must be followed, as well as all expectations for the sport/activity.

Possession – Alcohol, tobacco, controlled substance or drug paraphernalia is physically on or in student-participant's body; or physically within their personal property (i.e., book or gym bag, coat, etc.); or in their home if other students are using or possessing alcohol, tobacco or controlled substances (e.g., hosting a party). Possession will include being present in a car where alcohol or controlled substances are being used or are present. Students acting together with students who are known to have possession of prohibited substances may be deemed to also have possession of such prohibited substances.

Assessment/Primary Assistance – Building administration, coaches, school counselors, and the certified district drug and alcohol counselor will decide what constitutes an adequate and approved assessment/assistance plan, completion of the assistance plan, and when the co-curricular participant may return to competition/contests/performances or participation.

Denial of Participation – The student-participant may not play but must practice, travel and sit with team/group at events (for various activity programs, this requirement will be defined as applicable by the advisor and the co-curricular coordinator) during any percentage denial of privilege which is less than one season. The student participant will not wear the school uniform at the contest or performance. This restriction is effective immediately following the determination that the policy has been violated.

If the denial of privilege is for one season, the student may sit out the next season of the sport/activity in which the student has last participated. Should the student have participated in both a sport and an activity, the denial of privilege will be served for both.

Student Leadership

1. A student leader is defined as anyone appointed or elected to a leadership position in athletics, student government, or other co-curricular activities.
2. Student leaders accept the responsibilities that accompany leadership positions and are expected to be positive role models at all times. Accordingly, they are subject to a higher level of conduct.
3. Any student leader found to be in violation of the ATOD policy will be subject to the following:
 - a. Immediate termination of all leadership positions, awards relating to these positions, and loss of all school or team/activity awards.
 - b. Denial of the opportunity to hold any additional leadership positions for the period of one (1) calendar year from the time of the infraction. Within the calendar year that the student may not serve in a leadership position, the student may, however, petition to run for a leadership position which will commence the following calendar year.
4. Referrals for assistance and student leadership:
 - a. Any student leader who refers themselves or verifies information provided in a referral by a third party, but then refuses to follow the co-curricular policy in regard to assistance, will be subject to the consequences listed in 3a and 3b above.
 - b. Self-referrals for assistance will carry no consequences for team participation, but will impact leadership positions, awards or recognition for one calendar year from the date of the infraction.

APPENDIX B: FAMILY EDUCATION RIGHTS AND PRIVACY ACT (FERPA)

Annual Notification of Rights under FERPA Worthington School District

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day Worthington Schools receives a request for access.

Parents or eligible students who wish to inspect their child's or their education records should submit to the school principal [or appropriate school official] a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask the [School] to amend their child's or their education record should write the school principal [or appropriate school official], clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest must be set forth in the school's or school district's annual notification for FERPA rights. A school official typically includes a person employed by the school or school district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school or school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer. [NOTE: FERPA requires a school or school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request or the disclosure is initiated by the parent or eligible student.]

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Worthington Schools to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Student Privacy Policy Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

See the list below of the disclosures that elementary and secondary schools may make without consent.

FERPA permits the disclosure of PII from students' education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in § 99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, § 99.32 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A school may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student –

- To other school officials, including teachers, within the educational agency or institution whom the school has determined to have legitimate educational interests. This includes contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in § 99.31(a)(1)(i)(B)(1) - (a)(1)(i)(B)(3) are met. (§ 99.31(a)(1))
- To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements of § 99.34. (§ 99.31(a)(2))
- To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as the State educational agency (SEA) in the parent or eligible student's State. Disclosures under this provision may be made, subject to the requirements of § 99.35, in connection with an audit or evaluation of Federal- or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf, if applicable requirements are met. (§§ 99.31(a)(3) and 99.35)
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary for such purposes as to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§ 99.31(a)(4))
- To State and local officials or authorities to whom information is specifically allowed to be reported or disclosed by a State statute that concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records were released, subject to § 99.38. (§ 99.31(a)(5))
- To organizations conducting studies for, or on behalf of, the school, in order to: (a) develop, validate, or administer predictive tests; (b) administer student aid programs; or (c) improve instruction, if applicable requirements are met. (§ 99.31(a)(6))
- To accrediting organizations to carry out their accrediting functions. (§ 99.31(a)(7))
- To parents of an eligible student if the student is a dependent for IRS tax purposes. (§ 99.31(a)(8))
- To comply with a judicial order or lawfully issued subpoena if applicable requirements are met. (§ 99.31(a)(9))
- To appropriate officials in connection with a health or safety emergency, subject to § 99.36. (§ 99.31(a)(10))
- Information the school has designated as "directory information" if applicable requirements under § 99.37 are met. (§ 99.31(a)(11))
- To an agency caseworker or other representative of a State or local child welfare agency or tribal organization who is authorized to access a student's case plan when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of the student in foster care placement. (20 U.S.C. § 1232g(b)(1)(L))
- To the Secretary of Agriculture or authorized representatives of the Food and Nutrition Service for purposes of conducting program monitoring, evaluations, and performance measurements of programs authorized under the Richard B. Russell National School Lunch Act or the Child Nutrition Act of 1966, under certain conditions. (20 U.S.C. § 1232g(b)(1)(K))

APPENDIX D: ELECTRONIC/NETWORK ACCEPTABLE USAGE POLICY

STUDENT TECHNOLOGY ACCEPTABLE USE AND SAFETY

Technology directly affects the ways in which information is accessed, communicated, and transferred in society. Educators are expected to continually adapt their means and methods of instruction and the way they approach student learning to incorporate the latest technologies. The Board of Education provides Information & Technology Resources (as defined in Bylaw 0100) (collectively, 'District Information & Technology Resources') to support the educational and professional needs of its students and staff. With respect to students, District Information & Technology Resources afford them the opportunity to acquire the skills and knowledge to learn effectively and live productively in a digital world. The Board provides students with access to the Internet for educational purposes only and utilizes online educational services/apps to enhance the instruction delivered to its students. The District's computer network and Internet system do not serve as a public access service or a public forum and the Board imposes reasonable restrictions on its use consistent with its stated educational purpose.

The Board regulates the use of District Information & Technology Resources in a manner consistent with applicable local, State, and Federal laws, the District's educational mission, and articulated expectations of student conduct as delineated in the Student Code of Conduct. This policy and its related administrative guidelines and the Student Code of Conduct govern students' use of District Information & Technology Resources and students' personal communication devices when they are connected to District Information & Technology Resources, including online educational services/apps, regardless of whether such use takes place on or off school property (see Policy 5136).

Students are prohibited from using District Information & Technology Resources to engage in illegal conduct (e.g., libel, slander, vandalism, harassment, theft, plagiarism, inappropriate access, etc.) or conduct that violates this Policy and its related administrative guidelines and the Student Code of Conduct (e.g., making personal attacks or injurious comments, invading a person's privacy, etc.). Nothing herein, however, shall infringe on students' First Amendment rights. Because its Information & Technology Resources are not unlimited, the Board may institute restrictions aimed at preserving these resources, such as placing limits on use of bandwidth, storage space, and printers.

Students have no right or expectation to privacy when using District Information & Technology Resources (including, but not limited to, privacy in the content of their personal files, messages/e-mails, and records of their online activity).

While the Board uses various technologies to limit students using its Information & Technology Resources to only use/access online educational services/apps and resources that have been pre-approved for the purpose of instruction, study, and research related to the curriculum, it is impossible to prevent students from accessing and/or coming in contact with online content that has not been pre-approved for use by students of certain ages. It is no longer possible for educators and community members to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted guidelines and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them) when significant portions of students' education take place online or through the use of online educational services/apps.

Pursuant to Federal law, the Board implements technology protection measures that protect against (e.g., filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children's Internet Protection Act (CIPA). At the discretion of the Board or the Superintendent, the technology protection measures may be configured to protect against access to other material considered inappropriate for students to access. The Board also utilizes software and/or hardware to monitor the online activity of students to restrict access to child pornography and other material that is obscene, objectionable, inappropriate, and/or harmful to minors. The technology protection measures may not be disabled at any time that students may be using District Information & Technology Resources if such disabling will cease to protect against access to materials that are prohibited under CIPA. Any student who attempts to disable the technology protection measures will be disciplined.

The Superintendent may temporarily or permanently unblock access to websites or online educational services/apps containing appropriate material if access to such sites has been mistakenly, improperly, or inadvertently blocked by the technology protection measures. The determination of whether material is appropriate or inappropriate shall be based on the content of the material and the intended use of the material, not on the protection actions of the technology protection measures.

Parents are advised that a determined user may be able to gain access to online content and/or services/apps that the Board has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to content that they and/or their parents may find inappropriate, offensive, objectionable, or controversial. Parents of minors are responsible for setting and conveying the standards that their children should follow when using the Internet.

Principals are responsible for providing training so that students under their supervision are knowledgeable about this policy and its accompanying guidelines.

Pursuant to Federal law, students shall receive education about the following:

- A. safety and security while using e-mail, chat rooms, social media, and other forms of direct electronic communications;
- B. the dangers inherent with the online disclosure of personally identifiable information;
- C. the consequences of unauthorized access (e.g., 'hacking', 'harvesting', 'digital piracy', 'data mining', etc.), cyberbullying, and other unlawful or inappropriate activities by students online; and
- D. unauthorized disclosure, use, and dissemination of personally-identifiable information regarding minors.

Staff members shall provide guidance and instruction to their students regarding the appropriate use of District Information & Technology Resources and online safety and security as specified above. Additionally, such training shall include, but not be limited to, education concerning appropriate online behavior including interacting with others on social media, including in chat rooms, and cyberbullying awareness and response. Furthermore, staff members will monitor the online activities of students while they are at school.

Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions or use of specific monitoring tools to review browser history and network, server, and computer logs.

All students who use District Information & Technology Resources (and their parents if they are minors) are required to sign a written agreement to abide by the terms and conditions of this policy and its accompanying guidelines.

Students will be assigned a District-provided school email account that they are required to utilize for all school-related electronic communications, including those to staff members, peers, individuals, and/or organizations outside the District with whom they are communicating for school-related projects and assignments.

Students are responsible for good behavior when using District Information & Technology Resources – i.e., behavior comparable to that expected of students when they are in physical classrooms and school buildings and at school-sponsored events. Because communications on the Internet are often public in nature, general school rules for behavior and communication apply. The Board does not approve any use of its Information & Technology Resources that is not authorized by or conducted strictly in compliance with this policy and its accompanying guidelines.

Students may only use District Information & Technology Resources to access or use social media if it is done for educational purposes in accordance with their teacher's approved plan for such use.

Use of Artificial Intelligence/Natural Language Processing Tools For School Work

Students are required to rely on their own knowledge, skills, and resources when completing school work. In order to ensure the integrity of the educational process and to promote fair and equal opportunities for all students, except as outlined below, the use of Artificial Intelligence (AI) and Natural Language Processing (NLP) tools (collectively, "AI/NLP tools") is strictly prohibited for the completion of school work. The use of AI/NLP tools, without the express

permission/consent of a teacher, undermines the learning and problem-solving skills that are essential to academic success and that the staff is tasked to develop in each student. Students are encouraged to develop their own knowledge, skills, and understanding of course material rather than relying solely on AI/NLP tools and they should ask their teachers when they have questions and/or need assistance. Unauthorized use of AI/NLP tools is considered a form of plagiarism and any student found using these tools without permission or in a prohibited manner will be disciplined in accordance with the Student Code of Conduct.

Notwithstanding the preceding, students can use AI/NLP tools in the school setting if they receive prior permission/consent from their teacher, so long as they use the AI/NLP tools in an ethical and responsible manner. Teachers have the discretion to authorize students to use AI/NLP tools for the following uses:

- A. Research assistance: AI/NLP tools can be used to help students quickly and efficiently search for and find relevant information for their school projects and assignments.
- B. Data Analysis: AI/NLP tools can be used to help students to analyze, understand, and interpret large amounts of data, such as text documents or social media posts. This can be particularly useful for research projects or data analysis assignments – e.g., scientific experiments and marketing research.
- C. Language translation: AI/NLP tools can be used to translate texts or documents into different languages, which can be helpful for students who are learning a new language or for students who are studying texts written in a different language.
- D. Writing assistance: AI/NLP tools can provide grammar and spelling corrections, as well as suggest alternative word choices and sentence structure, to help students improve their writing skills.
- E. Accessibility: AI/NLP tools can be used to help students with disabilities access and understand written materials. For example, text-to-speech software can help students with specific learning disabilities or visual impairments to read texts and AI-powered translation tools can help students with hearing impairments understand spoken language.

As outlined above, under appropriate circumstances, AI/NLP tools can be effectively used as a supplement to and not a replacement for traditional learning methods. Consequently, with prior teacher permission/consent, students can use such resources to help them better understand and analyze information and/or access course materials. If a student has any questions about whether they are permitted to use AI/NLP tools for a specific class assignment, they should ask their teacher.

Users who disregard this policy and its accompanying guidelines may have their use privileges suspended or revoked and disciplinary action taken against them. Users are personally responsible and liable, both civilly and criminally, for uses of District Information & Technology Resources that are not authorized by this policy and its accompanying guidelines.

The Board designates the Superintendent as the administrator(s) responsible for initiating, implementing, and enforcing this policy and its accompanying guidelines as they apply to students' use of District Information & Technology Resources.

Policy: 7540.03

Adopted: December 18, 2017

Last Revised: May 22, 2023

PERSONAL COMMUNICATION DEVICES

For purposes of this policy, "personal communication device" (PCD) includes computers, tablets (e.g., iPad-like devices), electronic readers ("e-readers"; e.g., Kindle-like devices), cell phones, smartphones (e.g., iPhones, Android devices, Windows Mobile devices, etc.), and/or other web-enabled devices of any type.

Students may use PCDs as long as they do not create a distraction, disruption or otherwise interfere with the educational environment, unless restricted by a teacher or administrator.

Students may use PCDs while riding to and from school on a school bus or other Board-provided vehicles or on a school bus or Board-provided vehicle during school-sponsored activities, at the discretion of the bus driver, classroom teacher, or sponsor/advisor/coach. Distracting behavior that creates an unsafe environment will not be tolerated.

Using a PCD to capture, record and/or transmit audio and/or pictures/video of an individual without proper consent is considered an invasion of privacy and is not permitted.

Camera/recording devices may not be activated or utilized at any time in any school situation where a reasonable expectation of personal privacy exists. The Superintendent and Principal are authorized to determine other specific locations and situations where use of a PCD is absolutely prohibited.

Students are expressly prohibited from using covert means to listen-in or make a recording (audio or video) of any meeting or activity at school. This includes placing recording devices, or other devices with one- or two-way audio communication technology (i.e., technology that allows a person off-site to listen to live conversations and sounds taking place in the location where the device is located), within a student's book bag or on the student's person without express written consent of the Superintendent. Any requests to place a recording device or other device with one- or two-way audio communication technology within a student's book bag or on a student's person shall be submitted, in writing, to the Principal. The District representative shall notify the parent(s), in writing, whether such request is denied or granted within five (5) days.

Students may not use a PCD in any way that might reasonably create in the mind of another person an impression of being threatened, humiliated, harassed, embarrassed or intimidated. See Policy 5517.01 – Bullying and Other Forms of Aggressive Behavior. In particular, students are prohibited from using PCDs to: 1) transmit material that is threatening, obscene, disruptive, or sexually explicit or that can be construed as harassment or disparagement of others based upon their race, color, national origin, sex, sexual orientation, gender identity, and gender expression, disability, age, religion, ancestry, or political beliefs; and 2) engage in "sexting" - i.e., sending, receiving, sharing, viewing, or possessing pictures, text messages, e-mails or other materials of a sexual nature in electronic or any other form. Violation of these prohibitions shall result in disciplinary action. Furthermore, such actions will be reported to local law enforcement and child services as required by law.

Students are also prohibited from using a PCD to capture, record, and/or transmit test information or any other information in a manner constituting fraud, theft, cheating, or academic dishonesty. Likewise, students are prohibited from using PCDs to receive such information.

Possession of a PCD by a student may be forfeited by any student who fails to abide by the terms of this policy, or otherwise abuses this privilege.

Violations of this policy may result in disciplinary action and/or confiscation of the PCD. The Principal will also refer the matter to law enforcement or child services if the violation involves an illegal activity (e.g., child pornography, sexting). Discipline will be imposed on an escalating scale ranging from a warning to an expulsion based on the number of previous violations and/or the nature of or circumstances surrounding a particular violation. If the PCD is confiscated, it will be released/returned to the student or parent/guardian, unless the violation involves potentially illegal activity in which case the PCD may be turned-over to law enforcement. A confiscated device will be marked in a removable manner with the student's name and held in a secure location in the building's central office until it is retrieved by the parent/guardian or turned-over to law enforcement. School officials will not search or otherwise tamper with PCDs in District custody unless they reasonably suspect that the search is required to discover evidence of a violation of the law or other school rules. Any search will be conducted in accordance with Policy 5771 – Search and Seizure. If multiple offenses occur, a student may lose his/her privilege to bring a PCD to school for a designated length of time or on a permanent basis.

A person who discovers a student using a PCD, in violation of this policy is required to report the violation to the Principal.

Students are personally and solely responsible for the care and security of their PCDs. The Board assumes no responsibility for theft, loss, or damage to, or misuse or unauthorized use of, PCDs brought onto its property.

APPENDIX D: Definitions

Academic Intervention: A student may be denied the privilege to receive honors or recognition. Students who have no failing grades on their following report card will be removed from Academic Intervention.

Appeal: The right of appeal shall be afforded students and their parent, guardian or custodian in cases of suspension or expulsion in accordance with federal and state laws and policies and regulations adopted by the Board (policy 5611).

Class Cutting: A student's not being in an assigned area such as classroom, study hall, commons or homeroom during any part of the school day.

Community Service: The superintendent may require a student to perform community service in conjunction with or in place of a suspension (including, but not limited to, imposing a community service requirement beyond the end of the school year). Use of this community service option and any related reporting and monitoring of students performing such community service shall be determined by the superintendent, at their discretion.

Discipline of Students with Disabilities: In addition to following the requirements and procedures set forth for all students (policy 5610), the Board of Education shall also abide by State and Federal laws and regulations when disciplining students with disabilities through removal by suspension and/or expulsion.

Due Process: A term generally used to describe a procedure or specific steps and measures to which a person is entitled in order to protect themselves and their rights. Students shall be afforded due process of law both preceding and following suspension or expulsion in accordance with federal and state law and policies and regulations adopted by the Board (policy 5610).

Improper Area: This includes all of the school grounds. Students may not be in an improper area without permission from a staff member.

Permanent Exclusion: In accordance with the law, the Board of Education may seek to permanently exclude a student, sixteen (16) years of age or older, who has been convicted of or adjudicated delinquent for the reason of the following offenses:

- A. carrying a concealed weapon or conveying or possessing a deadly weapon or dangerous ordnance on property owned or controlled by a board of education or at an activity held under the auspices of this Board
- B. possessing, selling, or offering to sell controlled substances on property owned or controlled by a board of education or at an activity under the auspices of this Board

- A. rape, gross sexual imposition or felonious sexual penetration
- B. murder, manslaughter, felonious or aggravated assault
- C. complicity to commit offenses described in paragraphs A and B, regardless of where the complicity occurs

Student Expulsion: The Superintendent of schools may expel a student from school. Except as specified below as related to firearms and knives, students may be expelled from school for a period not to exceed the greater of eighty (80) school days or the number of school days remaining in the term or semester in which the incident that gives rise to

the expulsion takes place. The expulsion may also be extended pursuant to R.C. 3313.66(F) related to permanent exclusion. Students who are expelled for a period of time that exceeds the number of school days remaining in that school year may be expelled for the remaining days at the beginning of the next school year.

Unless otherwise indicated in the Notice of Suspension with recommendation for expulsion, students who are expelled from school are automatically expelled from all school activities and all co-curricular activities, as part of the student's expulsion from school, for the same period of time as the expulsion. A suspension from a co-curricular activity only which does not involve a related suspension or expulsion from school is governed by Board of Education Policy 5610.05 and not by this regulation.

Student Suspension: Suspension shall be the temporary exclusion of a student by the Superintendent, Principal, assistant principal, or any other administrator from the District's instructional program for a period not to exceed ten (10) school days. Suspension shall not extend beyond the current school year if, at the time a suspension is imposed, fewer than ten (10) days remain in the school year.

The Superintendent may instead require a student to participate in a community service program or another alternative consequence for a number of hours equal to the remaining part of the period of the suspension. The student shall be required to begin such community service program or alternative consequence during the first full weekday of summer break.

Unless otherwise indicated in the Notice of Suspension, students who are suspended from school are automatically suspended from all school activities and all co-curricular activities, as part of the student's suspension from school, for the same period of time as the suspension. A suspension from a co-curricular activity only which does not involve a related suspension from school is governed by Board of Education Policy 5610.05 and not by this regulation.

Summer Transition: 8th grade students transitioning to the 9th grade will follow and are subject to the 8th grade handbooks until reading and acknowledging receipt of the high school handbook.

Truancy is defined as the absence of a student for other than an accepted valid reason for all or part of a day when school is in session. Even when the absence occurs with parental knowledge and consent, the principal need not accept as valid the reason given for the absence.

Unexcused Absence is defined as an absence from an assigned area that is not approved by the school administration. Such an absence may be with or without parental knowledge.

Violation of Suspension or Expulsion: While under suspension, or expulsion, a student shall not have access to or be permitted on school premises or at school activities except with the specific permission of the building principal; they may be referred to law enforcement authorities for appropriate action.
