

# Minds Under Construction

## Curriculum Night

Wednesday, August 21st, 2024  
Pine Strawberry School

Teachers will provide information about the academic content your child will learn this year. You will gain insights into your child's learning objectives and discover ways in which you can assist in their educational journey.

Each grade level will present twice, allowing families to attend more than one grade level. Please use the schedule below to see when your child's teacher will present. Grab a light refreshment and learn about our special area classes between sessions.
