

52 Greater Lowell Tech students earn medals at SkillsUSA Districts

April 12, 2021 at 2:50 p.m.

TYNGSBORO — Fifty-two students at Greater Lowell Technical High School earned medals at the recent District IV SkillsUSA Conference, and of those 52, 32 will move on to the SkillsUSA State Competition.

Due to the pandemic, students were able to participate in person, at their schools or virtually, based on the COVID-19 related policies of each school.

Students who competed in the district competition took a written SkillsUSA employment skills test as well as a written test regarding their trade. Those who earned gold or silver medals (and, in some circumstances, bronze medals) qualify for the state event, to be held April 29 through May 1 in Marlboro.
