

Four named Students of the Month at Greater Lowell Tech

March 15, 2021 at 10:14 a.m.

TYNGSBORO — Greater Lowell Technical High School has announced its January Students of the Month. Each has displayed the characteristics of the school's core values of REACH — respect, effort, accountability, commitment and honesty — and reflect the school's mission to ensure students' readiness for career, college and citizenship in the 21st century.

Madison Day of Dracut is the Senior of the Month. She is in the Computer Aided Drafting Design program and maintains honor-roll grades in all technical and academic courses, including Honors English, Honors Pre-Calculus and CADD Advanced Theory. She is a member of the Math Club and the National Math League. Outside of school, she has completed coursework in American Sign Language and volunteers with Kids in Disability Sports/Gymnastics. After graduation, she plans to attend UMass Lowell to pursue a degree in Biomedical Engineering.

Madison was nominated for her efforts working with eNable Lowell, a student-run organization at UMass Lowell that creates prosthetics for children. She used the technical skills she learned in the CADD program to design custom pieces that enable children with limb differences to participate in activities like bike-riding, baseball and other athletic activities.

Brandon Cheath of Lowell is the Junior of the Month. He is in the Marketing Education program and has achieved high honors in all of his academic and technical courses. He competes for the indoor track team and plays basketball in a summer league. Outside of school, he has worked with Youthworks, a youth employment program. After graduation, he plans to follow in his brother's footsteps and join the Army. Brandon was nominated for his dedication to online learning. His technical instructor has described him as a student whose effort and quality of work are exemplary and particularly noteworthy during this time of remote instruction.

Nellie Chan of Lowell is the Sophomore of the Month. She is in the Plumbing program and maintains high honors, with a cumulative grade-point average of 4.12. She competes for the basketball, volleyball, soccer and lacrosse teams, and represented Greater Lowell Tech at the annual Massachusetts Interscholastic Athletic Association Wellness Summit. She will compete in the SkillsUSA District Competition in Plumbing. Outside of school, she is involved in sports and volunteers for various events. She hopes to continue her basketball career at the University of Hawaii and major in Business. Nellie was nominated for being an exemplary representative of the school's values and being a role model for classmates.

Laura Lopez Gamba of Lowell is the Freshman of the Month. She entered Greater Lowell Tech from Sullivan Middle School, is a member of the ELE Book Club and has perfect attendance for the school year. She is previewing technical areas and has completed pre-coursework in Cosmetology, Early Childhood Education, Plumbing and Masonry. She is looking forward to her upcoming Health Assisting/Pre-Nursing exploratory, as she hopes to enter that program. After graduation, she plans to enter the military, then continue her education. Julia was nominated for her determination to overcome language obstacles and fully complete assignments. Her teachers describe her positive attitude and approach to challenges as an inspiration to others.
