

Little Falls Community Schools  
Annual Notification Regarding Lead in Water Testing  
2024-2025

Little Falls Community Schools Lead in Water management plan specifies that all drinking and cooking water tap locations be tested for the presence of lead at a minimum of every five (5) years. The district will start its second five (5) year cycle of testing in October of the 2024-2025 school year. All test results will be available to the public for review at:

Due to new legislation All results will be reviewed, and action is taken on any fixture that is found to have the presence of more than 5 ppb (parts per billion) of lead, as recommended by the Minnesota Department of Health and the Minnesota Department of Education. The previous action level was 20 ppb.

Anyone interested in more information regarding the District Lead in Water Management Plan is encouraged to contact the district office at 320-632-2000.
