

Television Production

Program Overview:	The Television Production Magnet is housed in the same facility as GRS-TV, and is designed to be a hands-on working laboratory for the student. The facility has a fully equipped production studio, and a broadcast quality control room where students work in a real-world studio environment. Students also work with a full range of field equipment, including field cameras, lighting and audio gear.
General Requirements:	- Students must score in the 50% or above on recent Standardized Achievement tests in Reading and Math. - Incoming 9th or 10th grade students only.
Program Objectives & Certifications	- Through coursework and the opportunity to work on industry-standard equipment, students can graduate prepared for college or employment in the broadcast industry. - Certification in Adobe Premiere Pro is available
Sequence of Courses:	9th Grade: - Principles of Arts, A/V Technology and Communication 10th Grade: - Audio/Video Production I 11th Grade: - Audio/Video Production II (2-credits) 12th Grade: - Practicum in Audio/Video Production (2-credits)
