SUBJECT FIELDS

The Haworth Board of Education directs that the district offer a comprehensive curriculum to provide for the intellectual, social and emotional growth of all pupils, kindergarten through grade 8, giving them the body of skills, understandings, attitudes and knowledge needed for living as responsible and mature adults in a democracy.

The board believes this program should focus first on those subjects included in the Core Curriculum Content Standards and the skills emphasized by the Cross-Content Workplace Readiness Standards, in addition to those courses mandated by statute. The Haworth Board of Education is committed to providing a well-rounded education that has been carefully crafted to articulate all state and local goals.

The Superintendent/Principal shall direct development of and present to the board for adoption a written curriculum for each element of the instructional program for the district to include:

- A. All courses mandated by New Jersey statute or administrative code;
- B. Such other courses as shall implement the board's intent as expressed in this policy.

The total curriculum, when adopted, shall be adapted to suit the applicable requirements of the administrative code and shall provide basic, advanced, enriched, or technical instruction or experience to meet the identified needs of the pupils of the district.

A listing of all courses and programs comprising the instructional program shall be available in the district office.
