February 20, 2023

Dear Southmoreland Primary Center Family:

During the October 20, 2022 Voting Meeting, the Southmoreland School Board approved a construction project at the Primary Center. The scope of this work includes tearing down the brick on the exterior wall nearest the softball field, reconstructing the brick wall, and some additional roof repairs in that area of the building. Work will begin on this project this week.

We have been working closely with the construction company responsible for this project to minimize any distractions to our learning environment during regular school hours. Work will pause when any students are scheduled to be near the work site, such as during transitions for outdoor recess. The majority of the work that will be completed that will create loud noises will occur after school hours or on the weekends. The entire project is expected to be completed in 2-4 weeks.

It is our goal to get this work completed as soon as possible so that we can continue to provide our students a safe, welcoming, and secure learning environment for years to come.

Sincerely,

Dr. Jason A. Boone
Assistant Superintendent
Southmoreland School District
