

# Take an eCourse

At the start of school, some districts offer annual compliance training and other learning opportunities in Strive eCourses. An eCourse is an asynchronous learning tool to facilitate information sharing without the constraints of time, place or instructor. You can take an eCourse at your own pace and refer to course information any time you need it.

You can access these courses the same way you sign up for other courses offered by your district.

## Register for an eCourse

- Access **Strive**
- Click on **Available Courses**
- Use the filter at the bottom to select "eCourses" to filter out other types of courses

- When you find the course you need, click **Register**.
