CIS CONTROLS

Infrastructure

Previous meeting

- Phone system servers have been deployed. Software will be updated next week.
- Storage Area Network (SAN) is in and racked. We must migrate data to hardware, most likely over summer.

Update

- SAN is deployed and operational.
- Phone servers are in. Gateways are on hold as we await our Session Initiation Protocol (SIP) trunk to be installed in October. Currently we have Primary Rate Interface (PRI). SIP allows Private Branch Exchange (PBX) to communicate over our network.

Multifactor/2FA rollout

MFA is rolled out to all Faculty and Staff.

Summer Work

- Summer Enrichment. **Completed**
- Refresh PC at HS and MS (Dell OptiPlex 7010). **Update: Desktops are deployed, all but 5 units.**
- Refresh Faculty Chromebooks 7-12, (Lenovo 300E). **Update: We purchased 500e, deploying now.**
- Consolidate Library Automation Destiny. **Destiny is rolled out.**
- Finalize Mobile Device Management migration to Intune. **Devices are migrated to Intune**
- Summer classroom refresh. **Completed.**
