# Scottsdale Unified SCHOOL DISTRICT

Elevate Education with AI
KEEPING IT REAL

Scottsdale Unified School District (SUSD) recognizes the transformative power of AI. However, its use must be appropriate and ethical. Submitting AI-generated content without proper permission and credit is a violation of SUSD's academic integrity standards.
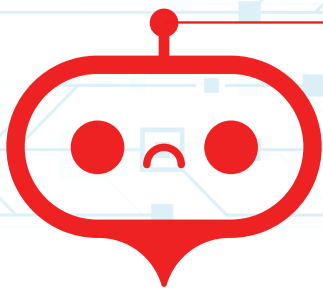

STUDENTS CAN USE generative **AI** when explicitly assigned. Treat it like a tutor to enhance your understanding. If grades are given, they will be based on the quality of your prompts and interactions with the **AI** .

STUDENTS MAY USE generative **AI** to assist in creating content, similar to collaborating with a peer. For example, you can ask how to improve an essay or get an outline for an argument paper.

Requirements:

- Provide a full transcript of your prompts and **AI** responses with your assignment.

- Cite **AI** use as you would any other source.

STUDENTS WILL NOT USE generative **AI** and any use will be viewed as cheating.
