

Response To Student Injury Or Illness

The Liberty School District board recognizes that schools are responsible for providing first aid or emergency treatment in case of illness or injury to a student. To that end, staff designated to provide student health support should be certified in First Aid/CPR/AED. The board encourages all school staff to become certified in first aid. Further medical attention in non-emergency cases is the responsibility of the student's parent/guardian. Schools will notify the parent/guardian of students who suffer injuries, illness, or physical trauma at any school sponsored activity as soon as practicable.

The superintendent will establish procedures to be followed consistent with this policy.
