

Parents, You Make an Impact

At Sacred Heart Greenwich, our mission is to educate and empower young women to pursue excellence, build Courage and Confidence, and lead lives of purpose and integrity. An involved parent body is a hallmark of the Sacred Heart Greenwich experience. Together in partnership, we can transform the world one girl at a time.

3 Ways You Enable Sacred Heart Greenwich to Make a Difference

- 1 BE ENGAGED**
Parents are involved with the school and with one another in meaningful and innumerable ways. Whether you've been a parent at the school for many years, or this is your very first year, we warmly invite you to share your energy and expertise as a volunteer for the [Fund for Sacred Heart](#), the Parents' Association, the biannual Green & White Gala 2025, or other opportunities. Volunteering is rewarding - you will make an essential impact, connect to your daughter's experiences, and build friendships.
- 2 SUPPORT THE FUND FOR SACRED HEART**
Contributing to the Fund for Sacred Heart each year is the primary way to advance the school's mission and our strategic plan *Pursuing Excellence*. Each contribution provides vital resources that benefit students and educators, during the current school year, enhancing academic innovation plus arts and athletic programs, and enabling faculty enrichment, tuition assistance, and community-building initiatives. The school appreciates gifts of all sizes and strives for 100% parent participation to achieve the 2024-2025 Fund goal.
- 3 GROW THE ENDOWMENT & RESTRICTED GIFTS**
Generations of parents, alumnae, grandparents, and friends have supported our endowment or provided restricted gifts. Through your generosity, you leave your legacy at Sacred Heart Greenwich, ensuring our long-term financial stability and flexibility, and increasing our community's pride by enabling the school to continue to attract and retain exceptional students and faculty and to make programmatic and capital enhancements.

See the school website to learn about getting involved.
