## INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees  
Willis Independent School District

### Report on the Audit of the Financial Statements

#### *Opinions*

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Willis Independent School District (the "District"), as of and for the year ended August 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditor’s Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District’s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that management’s discussion and analysis, budgetary comparison information, pension information, and other-post employment benefit information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District’s basic financial statements. The combining and individual nonmajor fund financial statements, required Texas Education Agency (TEA) schedules, and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements.

To the Board of Trustees  
Willis Independent School District

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, required TEA schedules, and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the Schedule L-1 but does not include the basic financial statements and our auditor’s report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 10, 2024 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Houston, Texas  
January 10, 2024

## **WILLIS INDEPENDENT SCHOOL DISTRICT**

### **MANAGEMENT'S DISCUSSION AND ANALYSIS**

As management of the Willis Independent School District (the District), we offer readers of the accompanying report this narrative overview and analysis of the financial activities of the District for the fiscal year ended August 31, 2023. In reviewing this report, readers should be mindful that it is often necessary for management to make and use estimates in the preparation of financial statements. Examples of the use of such estimates may be found in amounts reported for depreciation, net taxes receivable, claims payable of the District's self-insured workers' compensation program, and the net pension and OPEB liability.

#### **Financial Highlights**

- Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources at year-end by \$75 million (net position). The District reported positive net position in all categories.
- The District's total net position increased by \$13 million from current operations.
- As of the close of the year, the District's governmental funds had combined ending fund balances of \$239 million, a decrease of \$13 million from the preceding year primarily due to facilities acquisition and construction expenditures exceeding revenues in the capital projects fund.
- At the end of the year, unassigned fund balance of the general fund was \$23 million, or 28 percent of the year's total general fund expenditures.
- The District's total bonded debt decreased by \$6 million (1 percent) during the year.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains required supplementary information and supplementary and other information in addition to the basic financial statements.

**Government-wide Financial Statements.** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector enterprise.

The *Statement of Net Position* (Exhibit A-1) presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as an indicator of how the financial position of the District is changing.

The *Statement of Activities* (Exhibit B-1) presents information showing how the District's net position changed during the most recent fiscal year. Changes in net position are reported upon occurrence of the underlying event giving rise to the change, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some transactions that will not result in cash flows until future fiscal periods (e.g., uncollected taxes and incurred but unpaid workers' compensation benefits).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the District include Instruction, Instructional Resources and Media Services, Curriculum and Instructional Staff Development, Instructional Leadership, School Leadership, Guidance, Counseling, and Evaluation Services, Social Work Services, Health Services, Student Transportation, Food Services, Extracurricular Activities, General Administration, Plant Maintenance and Operations, Security and Monitoring Services, Data Processing Services, Community Services, Interest on Long-term Debt, Issuance Costs and Fees, Facilities Repair and Maintenance, Payments to Juvenile Justice Alternative Education Programs, and Other Intergovernmental Charges. The business-type activities of the District include the Enterprise Funds for Early Bird Child Care.

The government-wide financial statements can be found as noted in the table of contents of this report.

**WILLIS INDEPENDENT SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)**

**Fund Financial Statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, as do other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental Funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of cash resources*, as well as on *balances of cash resources* available at the end of the fiscal year. Such information may be useful in evaluating near-term financing requirements.

Because the focus of governmental funds financial statements is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term effect of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintained several individual governmental funds during the year. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, and capital projects funds, which are considered to be major funds. Data from the other twenty-two governmental funds are combined into a single, aggregated presentation titled *total nonmajor funds*.

The District adopts an annual revenue and appropriations budget for its general fund, debt service fund, and National School Breakfast and Lunch Program special revenue fund. All other governmental funds adopt project length budgets. Subsequent to adoption, amendments approved by the governing body are reflected in a revised budget column. A budgetary comparison schedule has been provided for the general fund, debt service fund, and National School Breakfast and Lunch Program special revenue fund to demonstrate compliance with its budget.

The basic governmental fund financial statements are noted in the table of contents of this report.

**Proprietary Fund.** The District maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The District uses an enterprise fund to account for its Early Bird Child Care program. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the District's various funds and functions. The District uses the internal service funds to account for the District's group health insurance benefits and workers' compensation risk management. Because these internal service funds predominantly benefit governmental operations, their financial activities have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide essentially the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements are provided with the basic financial statements and provide information for the Early Bird Child Care program and the self-funded group health insurance benefits and workers' compensation risk management programs.

The basic proprietary fund financial statements are noted in the table of contents of this report.

**Fiduciary Funds.** Fiduciary funds are used to account for resources held for the benefit of students and student organizations. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs and activities. A statement of fiduciary net position and statement of changes in fiduciary net position are presented for fiduciary funds, as noted in the table of contents of this report.

**WILLIS INDEPENDENT SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)**

**Notes to the Basic Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements are noted in the table of contents of this report.

**Other Information.** In addition to the basic financial statements and accompanying notes, this report presents required supplementary information and supplementary information, including schedules required by the Texas Education Agency. Such information is noted in the table of contents of this report.

**Government-Wide Financial Analysis**

As mentioned earlier, net position may, over time, serve as an indicator of a District's changing financial position. At the close of the District's most recent fiscal year, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$75 million.

**Willis Independent School District's Net Position**

<b>Net Position</b>						
Net Investment in Capital Assets	54,323,012	41,114,545	-	-	54,323,012	41,114,545
Restricted for Grant	2,559,293	2,673,450	-	-	2,559,293	2,673,450
Restricted	6,409,499	11,971,852	-	-	6,409,499	11,971,852
Unrestricted	11,302,275	6,279,984	708,410	688,536	12,010,685	6,968,520
<b>Total Net Position</b>	<b>\$ 74,594,079</b>	<b>\$ 62,039,831</b>	<b>\$ 708,410</b>	<b>\$ 688,536</b>	<b>\$ 75,302,489</b>	<b>\$ 62,728,367</b>

The largest portion of the District's net position (\$54 million) is net investment in capital assets (e.g., land and improvements, buildings and improvements, furniture, vehicles, and equipment, and construction in progress), less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Net position that is restricted for debt service and grants totaled \$9 million.

*Unrestricted* net position of \$9 million may be used to meet the District's ongoing obligations to students and creditors.

**Governmental Activities.** Governmental Activities increased the District's net position by \$12 million and Business-type Activities increased the District's net position by \$20 thousand from current operations. Key elements of this change are as follows:

<b>Net Position - Beginning</b>	<b>62,039,831</b>	<b>50,331,379</b>	<b>688,536</b>	<b>654,384</b>	<b>62,728,367</b>	<b>50,985,763</b>
<b>Net Position - Ending</b>	<b>\$ 74,594,079</b>	<b>\$ 62,039,831</b>	<b>\$ 708,410</b>	<b>\$ 688,536</b>	<b>\$ 75,302,489</b>	<b>\$ 62,728,367</b>

Revenues, aggregating \$130 million, were generated primarily from two sources. Property taxes of \$72 million represent 55 percent of total revenues, while grants and contributions (program and general) totaling \$40 million represent 30 percent of total revenues. The remaining five percent is generated from investment earnings, charges for services, and miscellaneous revenues.

The primary functional expense of the District is instruction (\$55 million), which represents 47 percent of total expenses. The remaining expense categories are individually less than eight percent of total expenses. Interest expense increased by almost \$8 million due to the issuance of new bonds in fiscal year 2022.

The increase in net position of \$12 million was primarily driven from an increase in property tax revenues and operating grants and contributions.

**Business-type Activities.** Business-type activities increased the District's net position by \$20 thousand, primarily due to a the increase in charges for services as more individuals took advantage of the Early Bird Childcare program.

**WILLIS INDEPENDENT SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)**

**Financial Analysis of the Government's Funds**

As mentioned earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds.** At the end of the fiscal year, the District's governmental funds had combined ending fund balances of \$239 million, a decrease of \$13 million from the preceding year. Comments as to each major fund's change in fund balance follow.

The general fund is the primary operating fund of the District. At year-end, unassigned fund balance of the general fund was \$23 million, while total fund balance was \$47 million. To evaluate the general fund's liquidity, it may be helpful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 28 percent of total general fund expenditures, while total fund balance represents 58 percent of that same total. The fund balance of the general fund increased (\$280 thousand) during the year, primarily as a result of the increase in property tax revenue.

The debt service fund ended the year with a total fund balance of \$8 million, all of which is restricted for the payment of principal and interest on debt. The debt service fund balance decreased by approximately \$1 million during the year, primarily due to the payment of principal and interest on existing debt.

The capital projects fund has a total fund balance of \$180 million, all of which is restricted for capital expenditures. The net decrease in fund balance during the current year in the capital projects fund was \$12 million. The decrease was due to continued construction projects of \$20 million.

Governmental funds financial statements may be found by referring to the table of contents.

**Proprietary Funds.** The District's proprietary fund financial statements, reflecting enterprise and internal service funds created for its Early Bird Child Care program and self-funded group health insurance benefits and workers' compensation risk management programs, provide information as to profitability of those programs. The change in net position of the internal service fund is eliminated and allocated to the governmental expenses in the government-wide financial statements. The enterprise funds have been addressed in the discussion of the District's business-type activities.

**General Fund Budgetary Highlights**

The District amended the budget several times throughout the year. The final budget expenditures increased by \$2 million primarily due to the increase in facilities acquisition and construction for capital improvements.

There were no significant variations between the final budget and actual results. The District came under budgeted expenditures by \$3 million.

**Capital Assets and Long-term Liabilities**

**Capital Assets.** The District's investment in capital assets for its governmental and business-type activities as of August 31, 2023 as \$261 million (net of accumulated depreciation/amortization). This investment in capital assets includes land and improvements, buildings and improvements, furniture, right-to-use assets, vehicles, and equipment, and construction in progress.

Major capital asset addition activity during the year included the following:

- Furniture and equipment and buildings and improvements totaling \$9 million.
- Construction in progress totaling \$17 million before the reclassification of completed projects of \$58 million.

**WILLIS INDEPENDENT SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)**

**Willis Independent School District's Capital Assets**  
(net of depreciation)

<b>Total</b>	<b>\$ 260,659,106</b>	<b>\$ 243,563,516</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ 260,659,106</b>	<b>\$ 243,563,516</b>

**Commitments.** At the end of the current fiscal year, the District's commitments with construction contractors totaled \$8.3 million. The commitment for construction and equipment of school facilities is being financed by general obligation bonds secured by tax revenues and local funds.

Additional information on the District's capital assets can be found in the notes to the financial statements per the table of contents.

**Long-term Liabilities.** At year-end, the District had the following long-term liabilities:

**Willis Independent School District's Long-Term Liabilities Outstanding**

	Governmental Activities					
	2023	%	2022	%	Change	%
General obligation bonds	\$ 366,280,000	90%	\$ 372,460,000	78%	\$ (6,180,000)	-2%
Lease liability	363,814	0%	502,859	0%	(139,045)	100%
SBITA liability	432,904	0%	-	0%	432,904	100%
Net pension liability	26,420,399	6%	9,616,439	10%	16,803,960	175%
Net OPEB liability	13,274,284	3%	19,548,361	12%	(6,274,077)	-32%
	<b>\$ 406,771,401</b>	<b>100%</b>	<b>\$ 402,127,659</b>	<b>100%</b>	<b>\$ 4,643,742</b>	<b>1%</b>

The District's total long-term liabilities increased by \$4 million due to an increase in the pension liability of \$17 million, which was offset by principal payments, refunded bonds and the reduction of net OPEB liability of \$6 million. The Teacher Retirement System of Texas experienced unfavorable investment earnings, which resulted in a state-wide higher net pension liability. The District's proportionate share of that liability reflects the 175% increase as well.

The District's general obligation debt is backed by the full faith and credit of the District and is further guaranteed by the Texas Permanent School Fund Bond Guarantee Program or by a municipal bond insurance policy. State statutes do not limit the tax rate or amount of local tax support of school districts' bonded indebtedness. However, approval by the Attorney General of the State of Texas is required prior to the sale of bonds.

Additional information on the District's long-term liabilities can be found in the notes to the financial statements per the table of contents.

**WILLIS INDEPENDENT SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)**

**Economic Factors and Next Year's Budget and Rates**

School year (2023-2024) student enrollment is 8,978, a 1.9 percent increase from 8,814 in the preceding year.

- District staff totals 1,156 employees in 2023-24, excluding substitutes and other part-time employees, of which 494 are teachers and 171 are teacher aides and secretaries.
- The District maintains 11 regular education campuses.
- Property values of the District are projected to remain consistent in the 2023-24 year.
- A maintenance and operations tax rate of \$0.6692 and a debt service tax rate of \$0.331, a total rate of \$1.0002, were adopted for 2023-24. Preceding year rates were \$.08546, \$0.30, and \$1.1546, respectively.

**Requests for Information**

This financial report is intended to provide a general overview of the District's finances for those with an interest in this information. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Willis Independent School District business office at 612 North Campbell Street, Willis, Texas, 77378 or at (936)-856-1200.

<u>Data Control Codes</u>		
	Net Change in Fund Balances - Total Governmental Funds	\$ (13,190,406)
	Amounts reported for governmental activities in the statement of activities (B-1) are different because:	
	Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
1	Capital outlay recognized as capital asset additions.	26,960,207
2	Depreciation and amortization expense recognized for capital assets.	(9,965,829)
3	Net effect of other retirements and adjustments to capital assets.	(10,552)
4	Property tax revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	322,886
5	Repayment of long-term debt principal is an expenditure in the governmental fund, but the repayment reduces long-term liabilities in the statement of net position.	
6	Repayment of principal on bonds.	6,180,000
7	Principal payments on lease and SBITA liability.	352,118
	Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:	
8	Increase in interest payable not recognized in the fund statements.	(1,619,247)
9	Amortization of premium/discount.	1,157,975
10	Amortization of deferred charge on refunding.	818,997
11	Changes in net pension liabilities and related deferred outflows and inflows of resources.	(1,300,759)
12	Changes in net OPEB liabilities and related deferred outflows and inflows of resources.	1,888,505
13	Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities (see D-2).	<u>960,353</u>

**Note 1 - Summary of Significant Accounting Policies**

The Willis Independent School District (the "District") is an independent public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven-member Board of Trustees (the "Board") elected by the registered voters of the District and has fiscal accountability over all activities within the jurisdiction of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in the Statement of Auditing Standards of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

The following is a summary of the most significant accounting policies.

**A. Reporting Entity**

The District's Board has responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. All powers and duties not specifically delegated by statute to the Texas Education Agency (TEA) or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgement for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state, and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental reporting entity and there are no component units included within the District's reporting entity.

**B. Government-Wide and Fund Financial Statements**

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the Willis Independent School District nonfiduciary activities with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants, and other intergovernmental revenues. *Business-type activities* include operations that rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Interfund activities between governmental funds and between governmental and proprietary funds appear as due to or due from on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other resources and other uses on the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses, and Changes in Fund Net Position. All interfund transactions between governmental funds and between governmental and internal service funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to or due from on the government-wide Statement of Net Position.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**B. Government-Wide and Fund Financial Statements (continued)**

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues result from providing goods and services in connection with a proprietary fund's principal ongoing operations; they usually come from exchange or exchange-like transactions. All other revenues are nonoperating. Operating expenses can be tied specifically to the production of the goods and services, such as materials and labor and direct overhead. Other expenses are nonoperating.

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities, and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The District reports the following major governmental funds:

- *General Fund* - The District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- *Debt Service Fund* - The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.
- *Capital Projects Fund* - The proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)**

Additionally, the District reports the following fund type:

Governmental Funds:

- *Special Revenue Funds* - The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.

Proprietary Funds:

- *Enterprise Funds* - The District's activities for which outside users are charged a fee roughly equal to the cost of providing the goods or services of those activities are accounted for in an enterprise fund. The District has one enterprise fund.
- *Internal Service Funds* - Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis are accounted for in an internal service fund. The District has two internal service funds: Health Insurance and the Worker's Compensation Funds.

Fiduciary Fund:

- *Custodial Fund* - The District accounts for resources held for others in a custodial fund. This fund uses the economic resources measurement focus and accrual basis. The District's Custodial Fund is the Student Activity Fund.
- *Custodial Fund* - The District accounts for resources held for others in a custodial fund. This fund uses the economic resources measurement focus and accrual basis. The District's Custodial Fund is the Scholarship Fund.

**D. Implementation of New Accounting Standards**

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITA)* was issued in May 2020 and was effective for periods beginning after June 15, 2022. This statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The District has evaluated the effects of this statement and has determined that it does impact the financial statements. As such the District has incorporated such SBITAs into its capital assets and long-term liabilities on both the face of the financial statements and the note disclosures.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**E. Deposits and Investments**

For purposes of the statement of cash flows for proprietary funds, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, investment pools, and short-term investments with original maturities of three months or less from the date of acquisition. For the purpose of the statement of cash flows, the proprietary fund types consider temporary investments, with maturity of three months or less when purchased, to be cash equivalents. For cash management purposes, the District transfers balances to either a money market mutual or an externally pooled investment account. The cash is transferred back to the District as needed.

Investments consist primarily of U.S. government agency securities, commercial paper, and municipal bonds. The District's investments are carried at fair value based on quoted market prices at year end, in accordance with U.S. generally accepted accounting principles. Investments having a maturity of three months or less are reported as cash and cash equivalents. The District categorizes fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; level 3 inputs are significant unobservable inputs. The District's local government investment pools are recorded at amortized costs as permitted by GASB Statement No. 79 *Certain Investment Pools and Pool Participants*.

**F. Receivables and Payables**

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

**G. Inventories and Prepaid Items**

Inventories consisting of supplies and materials are stated at cost (average cost method) and they include consumable custodial, maintenance, transportation, instructional and office supplies. Inventories of governmental funds are recorded as expenditures when the supplies and materials are used or consumed (consumption method) rather than when purchased. Inventories of food commodities inventory are recorded at fair market value supplied by the Texas Department of Agriculture on the date received. Commodity inventory items are recorded as expenditures when distributed to individual campuses and revenue is recognized for an equal amount.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements using the consumption method of accounting.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**H. Capital Assets**

Capital assets, which include land, buildings, furniture equipment, lease assets and subscription-based information technology arrangements (SBITAs) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	20 - 40
Buildings and improvements	20 - 40
Vehicles	10
Office equipment	5 - 25
Computer equipment	5 - 25
Right-to use assets	2-7

**I. Leases**

The District is a lessee for a noncancellable lease of equipment. The District recognizes a lease liability and an intangible right-to-use asset (lease asset) in the government-wide financial statements. The District recognizes lease liabilities with an initial, individual value of \$5,000 or more. At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life. Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease and payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Lease assets are reported with other capital assets and lease liabilities are reported with long-term liabilities on the statement of net position.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**J. Subscription-Based Information Technology Arrangements**

The District is under contracts for SBITA for various financial, food service and educational software. The agreements/contracts are noncancellable and the District recognizes a SBITA liability and an intangible right-to-use SBITA asset in the government-wide financial statements. The District recognizes SBITA liabilities with an initial, individual value of \$5,000 or more.

At the commencement of the SBITA, the District initially measures the SBITA liability at the present value of payments expected to be made during the SBITA term. Subsequently, the SBITA liability is reduced by the principal portion of SBITA payments made. The SBITA asset is initially measured as the initial amount of the SBITA liability, adjusted for payments made at or before the SBITA commencement date, plus certain initial direct costs. Subsequently, the SBITA asset is amortized on a straight-line basis over its useful life. Key estimates and judgments related to SBITA include how the District determines (1) the discount rate it uses to discount the expected SBITA payments to present value, (2) SBITA term, and (3) SBITA payments.

- The District uses the interest rate charged by the SBITA vendor as the discount rate. When the interest rate charged by the SBITA vendor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for SBITAs.
- The SBITA term includes the noncancellable period of the SBITA and payments included in the measurement of the SBITA liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its SBITA and will remeasure the SBITA asset and liability if certain changes occur that are expected to significantly affect the amount of the SBITA liability.

SBITA assets are reported with other capital assets and SBITA liabilities are reported with long-term debt on the statement of net position.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**K. Long-Term Obligations**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable is reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**L. Deferred Outflows/Inflows of Resources**

Deferred outflows and inflows of resources are reported in the statement of financial position as described below:

A *deferred outflow of resources* is a consumption of a government's net assets (a decrease in assets in excess of any related decrease in liabilities or an increase in liabilities in excess of any related increase in assets) by the government that is applicable to a future reporting period. The District has four items that qualify for reporting in this category:

- *Deferred outflows of resources for refunding* - Reported in the government-wide statement of net position, this deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- *Deferred outflows of resources for pension* - Reported in the government-wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results of 1) differences between projected and actual earnings on pension plan investments, 2) changes in actuarial assumptions, 3) differences between expected and actual actuarial experiences, and 4) changes in the District's proportional share of pension liabilities. The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The remaining pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.
- *Deferred outflows of resources for other post-employment benefits (OPEB)* - Reported in the government-wide financial statement of net position, this deferred outflow results from OPEB plan contributions made after the measurement date of the net OPEB liability and the results of 1) differences between projected and actual earnings on plan investments, 2) changes in actuarial assumptions, 3) differences between expected and actual actuarial experiences, and 4) changes in the District's proportional share of net OPEB liabilities. The deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on plan investments will be amortized over a closed five-year period. The remaining OPEB related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with post-employment benefits through the plan.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**L. Deferred Outflows/Inflows of Resources (continued)**

A *deferred inflow of resources* is an acquisition of a government's net position (an increase in assets in excess of any related increase in liabilities or a decrease in liabilities in excess of any related decrease in assets) by the government that is applicable to a future reporting period. The District has three items that qualify for reporting in this category:

- *Deferred inflows of resources for unavailable revenues* - Reported only in the governmental funds balance sheet, unavailable revenues from property taxes arise under the modified accrual basis of accounting. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The District reported property taxes that are unavailable as deferred inflows of resources on the fund financial statements.
- *Deferred gain on refunding* - Reported in the government-wide statement of net position, this deferred gain results from the difference in the carrying value of refunded debt exceeding its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- *Deferred inflows of resources for pension* - Reported in the government-wide financial statement of net position, these deferred inflows result primarily from 1) differences between projected and actual earnings on pension plan investments, 2) changes in actuarial assumptions, 3) differences between expected and actual actuarial experiences, and 4) changes in the District's proportional share of pension liabilities. The deferred inflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The remaining pension related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.
- *Deferred inflows of resources for other post-employment benefits (OPEB)* - Reported in the government-wide financial statement of net position, these deferred inflows result primarily from 1) changes in actuarial assumptions, 2) differences between expected and actual actuarial experiences, and 3) changes in the District's proportional share of net OPEB liabilities. These OPEB related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with post-employment benefits through the plan.

**M. Pension**

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities, and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**N. Other Post-Employment Benefits (OPEB)**

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities, and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**O. Fund Balance Classifications**

The fund balance in governmental funds has been classified as follows to describe the nature and relative strength of the spending constraints:

- *Non-spendable fund balance* - Represents amounts that are not in spendable form, such as inventory and prepaids, or are required to be maintained intact.
- *Restricted fund balance* - Represents amounts constrained to specific purposes by their providers, such as grantors, bondholders, and higher levels of government, through constitutional provisions, or by enabling legislation.
- *Committed fund balance* - Represents amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority, i.e., Board of Trustees. To be reported as committed, amounts cannot be used for any other purpose unless the District's Board of Trustees approves the changes by Board Resolution.
- *Assigned fund balance* - Represents amounts the District intends to use for a specific purpose. Intent can be expressed by the District or by an official or body to which the Board of Trustees delegates the authority. The Board of Trustees has retained this authority.
- *Unassigned fund balance* - Represents amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The District establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. A fund balance commitment is further indicated in the budget document as a commitment of the fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District uses the restricted assets first whenever they will have to be returned if they are not used.

**P. Data Control Codes**

The Data Control Codes refer to the account code structure prescribed by TEA in the Financial Accountability System Resource Guide. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a Statewide data base for policy development and funding plans.

**Q. Use of Estimates**

The presentation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**R. Stewardship, Compliance, and Accountability**

**Budgetary Data**

The Board of Trustees adopts an appropriated budget for the General Fund, Debt Service Fund, and the Food Service Fund. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds and then compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1 in the Required Supplementary Information and the Debt Service Fund and the Food Service Fund Budget reports are presented in Exhibits J-3 and J-2, respectively.

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements:

1. Prior to August 20, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
3. Prior to September 1, the budget is formally approved and adopted by the Board.

The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the function level within a fund. The appropriated budgets are prepared by fund and function. Once the budgets have been approved, they can only be amended at the fund and function level by approval of a majority of the members of the Board. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Within each fund-level budget, campus and district leaders are assigned expenditure budgets which they plan and control at the function/object level. All budget appropriations lapse at year end. Increasing or decreasing any one of the functional spending categories, or revenue object accounts and other resources require the approval of the Board. The District made several supplemental budgetary revisions throughout the year, primarily in the general fund.

**Note 2 - Deposits and Investments**

**A. Cash and Cash Equivalents**

**District Policies and Legal and Contractual Provisions Governing Deposits**

Custodial Credit Risk for Deposits State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the district complies with this law, it has no custodial credit risk for deposits. The District's cash deposits at August 31, 2023 of \$8,172,626 were fully collateralized by FDIC insurance held by the District's agent in the name of the district in accordance with Texas Government Code, Chapter 2257, Public Funds Collateral Act and the District's Investment Policy. The carrying amount of the deposits as of August 31, 2023 is reported in the financial statements is \$6,567,582.

**Note 2 - Deposits and Investments (continued)**

**B. Investments**

**District Policies and Legal and Contractual Provisions Governing Investments**

Compliance with the Public Funds Investment Act

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the entity to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies; (2) guaranteed or secured certificates of deposit issued by state and national banks domiciled in Texas; (3) obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality not less than an "A"; (4) No load money market funds with a weighted average maturity of 90 days or less; (5) fully collateralized repurchase agreements; (6) commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies OR one nationally recognized credit agency and is fully secured by an irrevocable letter of credit; (7) secured corporate bonds rated not lower than "AA-" or the equivalent; (8) public funds investment pools; and (9) guaranteed investment contracts for bond proceeds investment only, with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas

Public Funds Investment Act in an amount equal to the bond proceeds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. Willis Independent School District is in substantial compliance with the requirements of the Act and with local policies. Additional policies and contractual provisions governing investments for Willis Independent School District are specified below:

*Credit Risk:* To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments to the top ratings issued by nationally recognized statistical rating organizations (NRSROs). As of August 31, 2023, the District's investments were rated AAAM.

*Custodial Credit Risk for Investments:* To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party the District requires counterparties to register the securities in the name of the district and hand them over to the District or its designated agent. This includes securities in securities lending transactions. All of the securities are in the District's name and held by the District or its agent.

*Concentration of Credit Risk:* To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer. The District does not limit the amount of the portfolio that can be invested in any one investment vehicle. However, the District invests 99% of its funds in local government investment pools.

*Interest Rate Risk:* This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year-end, the District does not have a formal investment policy that limits investment maturities as means of managing exposure to fair value losses arising from increasing interest rates.

**Note 2 - Deposits and Investments (continued)**

**B. Investments (continued)**

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below. In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

As of August 31, 2023, the District's cash and investment balances, the weighted average maturity, and the credit ratings of these investments were as follows:

	<u>Carrying Value</u>	<u>Weighted Average Maturity (Days)</u>	<u>Credit Rating</u>
<b>Governmental Activities</b>			
Cash and deposits	\$ 5,829,644	N/A	N/A
<b>Investment Pools</b>			
Local Government Investment Pools:			
TexPool	435	28	
Texas CLASS	168,027,474	80	AAAm
TexStar	2,181,068	47	AAAm
Lone Star Government Overnight Fund	61,346,637	18	AAAm
US Agency Securities	253,840	606	AA+
US Treasury Securities	1,858,377	294	AA+
<b>Total Investments</b>	<u>233,667,831</u>		
<b>Total Governmental Activities</b>	<u>\$ 239,497,475</u>		
<b>Business-type Activities</b>			
Cash and deposits	\$ 737,938	N/A	N/A
<b>Total Business-type Activities</b>	<u>\$ 737,938</u>		
<b>Fiduciary Funds</b>			
Cash and Deposits	\$ 104,963	N/A	N/A
Investments	2,856		
<b>Total Fiduciary Funds</b>	<u>107,819</u>		
<b>Total</b>	<u>\$ 240,343,232</u>		
<b>Investment Earnings</b>	\$ 11,821,142		

**Note 3 - Receivables and Unearned Revenues**

Receivables as of August 31, 2023, for the District's individual major and non-major funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General Fund</u>	<u>Debt Service Fund</u>	<u>Capital Projects Fund</u>	<u>Nonmajor Governmental Funds</u>	<u>Total</u>
<b>Governmental activities</b>					
Property Taxes	\$ 2,218,664	\$ 735,760	\$ -	\$ -	\$ 2,954,424
Due from other governments	6,710,957	-	-	4,916,501	11,627,458
Other Receivables	-	14,230	-	-	14,230
Gross receivables	<u>8,929,621</u>	<u>749,990</u>	<u>-</u>	<u>4,916,501</u>	<u>14,596,112</u>
Less: Allowance for doubtful accounts	(10,942)	(3,694)	-	-	(14,636)
Net total governmental activities	<u>8,918,679</u>	<u>746,296</u>	<u>-</u>	<u>4,916,501</u>	<u>14,581,476</u>
<b>Net Total Receivables</b>	<u>\$ 8,918,679</u>	<u>\$ 746,296</u>	<u>\$ -</u>	<u>\$ 4,916,501</u>	<u>\$ 14,581,476</u>

Unearned revenue at year end consisted of the following:

	<u>Unearned Revenue</u>
General fund - Season Tickets	\$ 152,146
Special revenue - Grants	9,893
Enterprise fund - Early Bird Program Fees	29,086
<b>Total</b>	<u>\$ 191,125</u>

**Note 4 - Interfund Receivables, Payables, and Transfers**

Interfund balances consist of short-term lending/borrowing arrangements that result primarily from payroll and other regularly occurring charges that are paid by the general fund and then charged back to the appropriate other fund. Additionally, some lending/borrowing may occur between two or more nonmajor governmental funds.

Interfund transfers are defined as "flows of assets without equivalent flow of assets in return and without a requirement for repayment."

As of August 31, 2023, the District's interfund balances were as follows:

<u>Governmental Activities</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>	<u>Net</u>
General Fund	\$ 4,320,110	\$ 1,688,719	\$ 2,631,391
Debt Service Fund	98,407	-	98,407
Capital Projects Fund	589,728	-	589,728
Special Revenue Fund	580	4,320,100	(4,319,520)
Internal Service Funds	1,000,000	-	1,000,000
<b>Business-type Activities:</b>			
Enterprise Fund	-	6	(6)
<b>Total</b>	<u>\$ 6,008,825</u>	<u>\$ 6,008,825</u>	<u>\$ -</u>

**Note 4 - Interfund Receivables, Payables, and Transfers (continued)**

Interfund transfer are defined as “flows of assets without equivalent flow of assets in return and without a requirement for repayment.” The following is a summary of the District’s transfers for the fiscal year ended August 31, 2023.

<u>Transfers From</u>	<u>Transfers To Enterprise Fund</u>
General fund	\$ 1,000,000
<b>Total</b>	<b>\$ 1,000,000</b>

During the fiscal year ended August 31, 2023, the District transferred \$1,000,000 from the general fund to the internal service fund to contribute funds for future operations.

**Note 5 - Capital Assets**

Capital asset activity for the governmental activities of the District for the year ended August 31, 2023, are as follows:

	<u>Restated Balance September 1, 2022</u>	<u>Additions</u>	<u>(Transfers, Adjustments, and Retirements)</u>	<u>Balance August 31, 2023</u>
<b>Governmental Activities:</b>				
Capital assets, not being depreciated:				
Land	\$ 12,137,326	\$ 1,875,443	\$ -	\$ 14,012,769
Construction in progress	51,423,589	15,805,208	(58,835,705)	8,393,092
Total Capital assets, not being depreciated	<u>63,560,915</u>	<u>17,680,651</u>	<u>(58,835,705)</u>	<u>22,405,861</u>
Capital assets, being depreciated:				
Buildings & Improvements	246,135,730	6,580,024	58,699,895	311,415,649
Furniture & Equipment	12,343,350	2,453,667	(479,431)	14,317,586
Right-to-Use lease asset	507,104	-	-	507,104
Right-to-Use SBITA asset	645,977	245,865	-	891,842
Total Capital assets, being depreciated	<u>259,632,161</u>	<u>9,279,556</u>	<u>58,220,464</u>	<u>327,132,181</u>
Less accumulated depreciation/amortization for:				
Buildings & Improvements	(71,055,481)	(8,587,016)	132,758	(79,509,739)
Furniture & Equipment	(7,919,650)	(1,012,732)	471,931	(8,460,451)
Right-to-Use lease asset	(8,452)	(8,452)	-	(16,904)

**General Obligation Bonds**

Bonded indebtedness of the District is reflected in the General Long-Term Debt Account Group. Current requirements for principal and interest expenditures are accounted for in the Debt Service Fund. A summary of changes in general long-term debt for the year ended August 31, 2023 is as follows:

Description	Original Issuance Amount	Interest Rate (%)	Balance 9/1/22	Increase	Decrease	Balance 8/31/23	Due in One Year
Unlimited Tax Refunding Bonds, Series 2015	\$ 27,220,000	2.00-5.00%	\$ 13,385,000	\$ -	\$ (2,490,000)	\$ 10,895,000	\$ 2,580,000

2044 - 2048	76,085,000	20,176,781	96,261,781
2049 - 2053	69,260,000	5,616,661	74,876,661
	<u>\$ 366,280,000</u>	<u>\$ 228,480,296</u>	<u>\$ 594,760,296</u>

**Prior Year's Refunding of Long Term Debt**

In prior years, the District defeased certain general obligation debt by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the refunded debt. Accordingly, the trust account assets and the liability for the defeased debt are not included in the District's financial statements. At August 31, 2023, there was \$5,405,000 in outstanding defeased debt.

**Lease Liability**

The District entered into a lease on August 1, 2022 with a present value of \$507,104. The borrowing rate was 3 percent and with a term of 60 months. There are no variable payments.

The principal and interest payments for future fiscal years are as follows:

Year Ending August 31	Principal	Interest	Totals
2024	\$ 98,585	\$ 10,759	\$ 109,344
2025	101,583	7,761	109,344
2026	104,673	4,671	109,344
2027	58,973	1,487	60,460
	<u>\$ 363,814</u>	<u>\$ 24,678</u>	<u>\$ 388,492</u>

**Note 7 - Revenues from Local, Intermediate, and Out-of-State Sources**

During the current year, revenues from local and intermediate sources consisted of the following:

	General Fund	Debt Service Fund	Capital Projects Fund	Nonmajor Governmental Funds	Total Governmental Funds	Nonmajor Enterprise Fund	Total
Property Taxes	\$ 52,928,756	\$ 18,543,293	\$ -	\$ -	\$ 71,472,049	\$ -	\$ 71,472,049
Food Service Activity	-	-	-	1,838,443	1,838,443	-	1,838,443

Local Grants	273,850	-	-	-	273,850	-	273,850
Other	14,164	449,473	-	57,064	520,701	111,915	632,616
<b>Total</b>	<u>\$ 56,858,170</u>	<u>\$ 18,992,766</u>	<u>\$ 8,527,720</u>	<u>\$ 2,958,431</u>	<u>\$ 87,337,087</u>	<u>\$ 111,915</u>	<u>\$ 87,449,002</u>

**Note 8 - Subscription Based Information Technology Arrangements**

The District is under contract for noncancellable SBITAs that convey control of the right-to-use software. The SBITA liabilities outstanding as of August 31, 2023, are as follows:

Subscription Software Type	Start Date	End Date	Interest Rate	Subscription Liability		Subscription Asset		
				Original Amount	Liability as of August 31, 2023	Original Amount	Accumulated Amortization August 31, 2023	Net Amount August 31, 2023
Finance	9/1/2022	7/31/2025	5.00%	\$ 463,075	\$ 320,726	\$ 463,075	\$ (171,651)	\$ 291,424
Educational	9/1/2022	8/30/2023	5.00%	59,985	29,405	59,985	(31,233)	28,752
Food Service	9/1/2022	7/31/2025	5.00%	68,305	45,997	68,305	(23,371)	44,934
Educational	9/1/2022	7/31/2025	5.00%	54,612	36,776	54,612	(18,686)	35,926
Educational	10/3/2022	10/2/2024	5.00%	-	-	245,865	(112,688)	133,177
				<u>\$ 645,977</u>	<u>\$ 432,904</u>	<u>\$ 891,842</u>	<u>\$ (357,629)</u>	<u>\$ 534,213</u>

All amounts paid were previously included in the measurement of the subscription liability and there were no other related outflows of resources for the period such as variable payments or termination penalties. In addition, there were no commitments incurred prior to commencement of any SBITA term and there were no impairment losses related to SBITA assets.

The future principal and interest SBITA payments as of August 31, 2023, were as follows:

Fiscal Year	Principal	Interest	Total
2024	\$ 230,578	\$ 15,902	\$ 246,480
2025	202,326	4,869	207,195
	<u>\$ 432,904</u>	<u>\$ 20,771</u>	<u>\$ 453,675</u>

**Note 9 - Defined Benefit Pension Plan**

**Plan Description**

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

**Pension Plan Fiduciary Net Position**

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at [https://www.trs.texas.gov/Pages/about\\_publications.aspx](https://www.trs.texas.gov/Pages/about_publications.aspx), or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

**Benefits Provided**

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered under a previous rule. There are no automatic postemployment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

**Contributions**

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

**Note 9 - Defined Benefit Pension Plan (continued)**

**Contributions (continued)**

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

	<b>Contribution Rates</b>	
	<b>2023</b>	<b>2022</b>
Member (Employee)	8.00%	8.00%
Non-employer contributing agency (State)	8.00%	7.75%
District	8.00%	7.75%

  

	<b>Current Fiscal Year Contributions</b>
District Contributions	\$ 2,290,167
Employee Contributions	4,460,526
Non-employer Contributing Entity (State)	2,954,842

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate, times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year, reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities, or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, is a surcharge an employer is subject to.

- All public schools, charter schools, and regional educational service centers must contribute 1.7 percent of the member's salary beginning in fiscal year 2022, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

**Note 9 - Defined Benefit Pension Plan (continued)**

**Actuarial Assumptions**

The total pension liability in the August 31, 2021 actuarial valuation was determined using the following actuarial assumptions:

<b>Component</b>	<b>Result</b>
Valuation Date	August 31, 2021, rolled forward to August 31, 2022
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Fair Value
Single Discount Rate	7.00%
Long-term Expected Rate	7.00%
Municipal Bond Rate as of August 2020	3.91% - The source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index"
Last year ending August 31 in Projection Period (100 years)	2121
Inflation	2.30%
Salary Increases	2.95% to 8.95% including inflation
Benefit changes during the year	None
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions are used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2021. For a full description of these assumptions please see the actuarial valuation report dated November 12, 2021.

**Discount Rate**

A single discount rate of 7 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7 percent. The projection of flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payment of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

**Note 9 - Defined Benefit Pension Plan (continued)**

**Discount Rate (continued)**

Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2022 are summarized below:

Asset Class <sup>1</sup>	Target Allocation <sup>2</sup>	Long-Term Expected Geometric Real Rate of Return <sup>3</sup>	Expected Contribution to Long-Term Portfolio Returns
<b>Global Equity</b>			
USA	18.00%	4.60%	1.12%
Non-U.S. Developed	13.00%	4.90%	0.90%
Emerging Markets	9.00%	5.40%	0.75%
Private Equity <sup>1</sup>	14.00%	7.70%	1.55%
<b>Stable Value</b>			
Government Bonds	16.00%	1.00%	0.22%
Absolute Return <sup>1</sup>	0.00%	3.70%	0.00%
Stable Value Hedge Funds	5.00%	3.40%	0.18%
<b>Real Return</b>			
Real Estate	15.00%	4.10%	0.94%
Energy, Natural Resources & Infrastructure	6.00%	5.10%	0.37%
Commodities	0.00%	3.60%	0.00%
<b>Risk Parity</b>	8.00%	4.60%	0.43%
<b>Asset Allocation Leverage</b>			
Cash	2.00%	3.00%	0.01%
Asset Allocation Leverage	-6.00%	3.60%	-0.05%
<b>Inflation Expectation</b>	0.00%	0.00%	2.70%
<b>Volatility Drag<sup>4</sup></b>	0.00%	0.00%	-0.91%
<b>Expected Return</b>	100.00%		8.21%

<sup>1</sup> Absolute Return includes Credit Sensitive Investments.

<sup>2</sup> Target allocations are based on the fiscal year 2022 policy model.

<sup>3</sup> Capital Market Assumptions come from Aon Hewitt as of August 31, 2022.

<sup>4</sup> The volatility drag results from the conversion between arithmetic and geometric mean returns.

**Discount Rate Sensitivity Analysis**

The following table presents the Net Pension Liability of the plan using the discount rate of 7 percent, and what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6 percent) or one percentage point higher (8 percent) than the current rate.

	Discount Rate		
	1% Decrease 6.00%	Current 7.00%	1% Increase 8.00%
District's proportional share of the net pension liability	\$ 41,100,123	\$ 26,420,399	\$ 14,521,793

**Note 9 - Defined Benefit Pension Plan (continued)**

**Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions**

On August 31, 2023, the District reported a liability of \$26,420,399 for its proportionate share of the TRS’s net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 26,420,399
State's proportionate share that is associated with the District	33,895,552
<b>Total</b>	<u><u>\$ 60,315,951</u></u>

The net pension liability was measured as of August 31, 2021 and rolled forward to August 31, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer’s proportion of the net pension liability was based on the employer’s contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2021 thru August 31, 2022.

At August 31, 2022, the District’s proportion of the collective net pension liability was 0.0445% which was an increase of 0.0378% from its proportion measured as of August 31, 2021.

All future statutorily required contributions will be made from the General Fund and Special Revenue funds.

*Changes Since the Prior Actuarial Valuation-* The actuarial assumptions and methods have been modified since the determination of the prior year's Net Pension Liability. These new assumptions were adopted in conjunction with an actuarial experience study. The primary assumption change was the lowering of the single discount rate from 7.25% to 7.00%.

For the year ended August 31, 2023, the District recognized pension expense of \$3,590,850. The District also recognized an additional on-behalf revenue and expense of \$3,240,031 representing for support provided by the State.

At August 31, 2023, the District reported its proportionate share of the TRS’s deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 383,094	\$ (576,015)
Changes in assumptions	4,922,980	(1,226,944)
Net difference between projected and actual earnings on pension plan investments	2,610,251	-
Changes in proportion and differences between District contributions and proportionate share of contributions	3,067,531	(840,971)
District contributions subsequent to the measurement date	2,290,167	-
<b>Total</b>	<u><u>\$ 13,274,023</u></u>	<u><u>\$ (2,643,930)</u></u>

**Note 9 - Defined Benefit Pension Plan (continued)**

**Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)**

Deferred outflows of resources resulting from District contributions subsequent to the measurement date in the amount of \$2,290,167 will be recognized as a reduction of the net pension liability in the year ending August 31, 2024. The net amounts of the District’s balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year ended August 31,</b>	<b>Pension Expense Amount</b>
2024	\$ 2,167,416
2025	1,257,295
2026	594,443
2027	3,529,561
2028	791,211
	<u>\$ 8,339,926</u>

**Note 10 - Defined Other Post-Employment Benefit Plans**

**Plan Description**

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS- Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

**OPEB Plan Fiduciary Net Position**

Detail information about the TRS-Care’s fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at [https://www.trs.texas.gov/Pages/about\\_publications.aspx](https://www.trs.texas.gov/Pages/about_publications.aspx) or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

**Note 10 - Defined Other Post-Employment Benefit Plans (continued)**

**Benefits Provided**

TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table.

<b>TRS-Care Monthly for Retirees</b>		
	<b>Medicare</b>	<b>Non-Medicare</b>
Retiree or Surviving Spouse	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree or Surviving Spouse and Children	468	408
Retiree and Family	1,020	999

**Contributions**

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state’s contribution rate which is 1.25 percent of the employee’s salary. Section 1575.203 establishes the active employee’s rate which is .65 percent of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	<b>Contribution Rates</b>	
	<b>2023</b>	<b>2022</b>
Member	0.65%	0.65%
Non-employer contributing agency	1.25%	1.25%
Employers	0.75%	0.75%
Federal/private funding	1.25%	1.25%

  

<b>Current Fiscal Year Contributions</b>	
District Contributions	\$ 483,596
Employee Contributions	362,458
Non-employer Contributing Entity (State)	925,603

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

**Note 10 - Defined Other Post-Employment Benefit Plans (continued)**

**Contributions (continued)**

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$83 million in fiscal year 2022 from the Federal Rescue Plan Act (ARPA) to help defray Covid-19-related health care costs during fiscal year 2022.

**Actuarial Assumptions**

The actuarial valuation was performed as of August 31, 2021. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2022. The actuarial valuation was determined using the following actuarial assumptions:

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. All the demographic assumptions, including rates of retirement, termination, and disability, and most of the economic assumptions, including general inflation and salary increases, used in the OPEB valuation were identical to those used in the respective TRS pension valuation. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2021 TRS pension actuarial valuation that was rolled forward to August 31, 2022: (a) Rates of Mortality, (b) Rates of Retirement, (c) Rates of Termination, (d) Rates of Disability, (e) General Inflation, (f) Wage Inflation, and (g) Expected Payroll Growth.

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females, with full generational mortality using Scale BB. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale (U-MP).

Additional Actuarial Methods and Assumptions:

<b>Component</b>	<b>Result</b>
Valuation Date	August 31, 2021, rolled forward to August 31, 2022
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	3.91% as of August 31, 2022
Aging Factors	Based on plan specific experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claim costs.
Projected Salary Increases	3.05% to 9.05% including inflation
Healthcare Trend Rates	The initial medical trend rates were 8.25 percent for Medicare retirees and 7.25 percent for non-Medicare retirees. There was an initial prescription drug trend rate of 8.25 percent for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25 percent over a period of 13 years.
Election Rates	Normal Retirement: 62 percent participation rate prior to age 65 and 25 percent participation rate after age 65. Pre-65 retirees: 30% of pre-65 retirees are assumed to discontinue coverage at age 65.
Ad hoc post-employment benefit changes	None

**Note 10 - Defined Other Post-Employment Benefit Plans (continued)**

**Discount Rate**

A single discount rate of 3.91 percent was used to measure the Total OPEB Liability. There was an increase of 1.96 percent in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the nonemployer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was used for the long-term rate of return and was applied to all periods of projected benefit payments to determine the total OPEB liability. The source of the municipal bond rate is the Fidelity “20-year Municipal GO AA Index” as of August 31, 2020 using the fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds

**Discount Rate Sensitivity Analysis**

*Discount Rate* – The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.91%) in measuring the Net OPEB Liability.

	<b>Discount Rate</b>		
	<b>1% Decrease</b>	<b>Current Rate</b>	<b>1% Increase</b>
	<b>2.91%</b>	<b>3.91%</b>	<b>4.91%</b>
District's proportionate share of the Net OPEB Liability	\$ 15,651,433	13,274,284	\$ 11,348,488

**OPEB Liabilities, OPEB Expense, and Deferred Outflows/Inflows of Resources Related to OPEBs**

At August 31, 2023, the District reported a liability of \$13,274,284 for its proportionate share of the TRS’s Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability	\$ 13,274,284
State's proportionate share that is associated with District	16,192,541
<b>Total</b>	<u><u>\$ 29,466,825</u></u>

The Net OPEB Liability was measured as of August 31, 2021 and rolled forward to August 31, 2022 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The District’s proportion of the Net OPEB Liability was based on the District’s contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2021 through August 31, 2022.

At August 31, 2022, the District’s proportion of the collective Net OPEB Liability was 0.0554%, which there was a 0.0047% increase from its proportionate share measured as of August 31, 2021.

All future statutorily required contributions will be made from the General Fund and Special Revenue Fund.

**Note 10 - Defined Other Post-Employment Benefit Plans (continued)**

**OPEB Liabilities, OPEB Expense, and Deferred Outflows/Inflows of Resources Related to OPEBs (continued)**

*Healthcare Cost Trend Rates* – The following schedule shows the impact of the Net OPEB Liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rates assumed.

	<b>Healthcare Cost Trend Rate</b>		
	<u>1% Decrease</u>	<u>Current</u>	<u>1% Increase</u>
District's proportionate share of the Net OPEB Liability	\$ 10,938,070	13,274,284	\$ 16,302,885

Changes Since the Prior Actuarial Valuation - The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability (TOL) since the prior measurement period:

- The discount rate changed from 1.95 percent as of August 31, 2021 to 3.91 percent as of August 31, 2022. This change increased the Total OPEB Liability.

Changes of Benefit Terms Since the Prior Measurement Date - There were no changes in benefit terms since the prior measurement date.

For the year ended August 31, 2023, the District recognized a negative OPEB expense of \$1,404,898. The District also recognized negative on-behalf expense and revenue of \$2,297,852 for support provided by the State.

At August 31, 2023, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 738,003	\$ (11,058,670)
Changes in actuarial assumptions	2,021,936	(9,222,183)
Difference between projected and actual investment earnings	39,541	-
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	2,877,684	(304,017)
Contributions paid to TRS subsequent to the measurement date	483,597	-
<b>Total</b>	<u>\$ 6,160,761</u>	<u>\$ (20,584,870)</u>

The \$483,597 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending August 31, 2024.

The net amounts of the District's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year ended August 31:</u>	<u>OPEB Expense Amount</u>
2024	\$ (2,917,111)
2025	(2,916,968)
2026	(2,354,056)
2027	(1,591,960)
2028	(1,845,811)
Thereafter	(3,281,800)
	<u>\$ (14,907,706)</u>

**Note 10 - Defined Other Post-Employment Benefit Plans (continued)**

**Medicare Part D**

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended August 31, 2023, 2022, and 2021, the subsidy payments received by TRS-Care on-behalf of the District were \$286,973, \$199,268, and \$216,547, respectively. The information for the year ended August 31, 2023 is an estimate provided by the Teacher Retirement System. These payments are recorded as equal revenues and expenditures in the governmental funds financial statements of the District.

**Note 11 - Accumulated Unpaid Vacation and Sick Leave Benefits**

The District does not accrue unpaid sick leave benefits.

**Note 12 - Risk Management**

**Health Insurance Fund**

Beginning September 2022, the only health insurance plan available to District employees was the District sponsored self-funded plan to provide health care benefits to employees and their dependents. The plan was administered by a third party. The District was protected against catastrophic individual or aggregate loss through stop-loss coverage carried through an insurance carrier. Premiums are paid into an internal service fund and are available to pay claims and administrative costs of the program. These interfund premiums are reported as revenues in the internal service fund. Estimates of claims payable and of claims incurred but not reported as of August 31, 2023, are reflected as claims payable of the fund. These estimates were determined based on claims information supplied by the claims administrator. The plan is funded to discharge liabilities as they become due.

The following is a summary of the changes in the claims payable for the health insurance internal service fund for fiscal year 2023:

<u>Fiscal Year</u>	<u>Beginning of Fiscal Year</u>			<u>Balance at Fiscal Year</u>	
	<u>Claims Payable</u>	<u>Claims</u>	<u>Claim Payments</u>	<u>End</u>	
2023	\$ 426,548	\$ 7,427,942	\$ (7,480,819)	\$ 373,671	
2022	426,548	6,647,776	(6,647,776)	426,548	

**Note 12 - Risk Management (continued)**

**Workers' Compensation**

The District maintains a self-insurance plan for workers' compensation benefits for employees (the "Plan"). The District's retention of risk is \$1,000,000 per occurrence with an aggregate stop-loss limit of \$5,000,000. Claims incurred by the employees of the District are handled by a third-party administrator who is responsible for estimating losses to be incurred by the District and ultimately paid to the claimant.

Settled claims have not exceeded the aggregate coverage in any year the Plan has been in effect. Insurance coverage has not been reduced for the year from the prior year. The accrued claims payable includes provisions for reported claims and claims incurred but not yet reported is determined by estimating the amount that will ultimately be paid each claimant and is calculated and provided by the District's third-party administrator. Accrued claims payable have not been discounted to their present value as the District expects such claims to be paid within the following fiscal year. The District believes that any discount of the claims payable would not be material to the overall financial statements.

Changes in the balances of claims liabilities during the current and past two years are as follows:

Fiscal Year	Beginning of Fiscal Year			Balance at Fiscal Year	
	Claims Payable	Claims	Claim Payments	End	
2023	\$ 258,846	\$ 82,808	\$ (231,698)	\$ 109,956	
2022	151,323	117,385	(9,862)	258,846	

**Note 13 - Committed Fund Balance**

The District's Board of Trustees has committed \$23 million in the General Fund for the following purposes:

Project/Item	Amount
School Buses	\$ 1,000,000
Campus Improvement Projects	5,000,000
Campus Security Improvements	2,000,000
Stadium Enhancements	550,000
Enlarge Parking Lot Transportation	450,000
Emergency Funds for Utility Costs	1,000,000
Future Insurance Claims	3,000,000
Purchase of Future School Site(s)	10,000,000
<b>Total</b>	<b>\$ 23,000,000</b>

The District commits 100% of its campus activities fund balance within the special revenue fund.

**WILLIS INDEPENDENT SCHOOL DISTRICT**  
**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION**

**Note 1 - Budget**

**A. Budgetary Information**

Each school district in Texas is required by law to prepare annually a budget of anticipated revenues and expenditures for the general fund, debt service fund, and the national school breakfast and lunch program special revenue fund. The Texas Education Code requires the budget to be prepared not later than August 20 and adopted by August 31 of each year. The budgets are prepared on a basis of accounting that is used for reporting in accordance with generally accepted accounting principles.

The following procedures are followed in establishing the budgetary data reflected in the fund financial schedules:

1. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
3. Prior to September 1, the budget is formally approved and adopted by the Board.

The appropriated budget is prepared by fund and function. The District's campus/department heads may make transfers of appropriations within a campus or department. Transfers of appropriations between campuses or departments require the approval of the District's management. Increasing any one of the functional spending categories, or revenues object accounts and other resources and uses require the approval of the Board. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the function level within a fund. All annual appropriations lapse at fiscal year end.

**B. Excess of Expenditures Over Appropriations**

For the fiscal year ended August 31, 2023, the District did not exceed appropriations in the functions (the legal level of budgetary control).

**Note 2 - Net Pension Liability and Net OPEB Liability**

The following factors significantly affect trends in the amounts reported for the District's proportionate share of the net pension liability and net OPEB liability:

**Changes in Actuarial Assumptions and Inputs**

Measurement Date	Net Pension Liability		Net OPEB Liability
	Long-term		
	Discount Rate	Expected Rate of Return	Discount Rate
August 31, 2022	7.00%	7.00%	3.91%
2021	7.25%	7.25%	1.95%
2020	7.25%	7.25%	2.33%
2019	7.25%	7.25%	2.63%
2018	6.91%	7.25%	3.69%
2017	8.00%	8.00%	3.42%
2016	8.00%	8.00%	-
2015	8.00%	8.00%	-
2014	8.00%	8.00%	-

**WILLIS INDEPENDENT SCHOOL DISTRICT**  
**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (continued)**

**Note 2 - Net Pension Liability and Net OPEB Liability (continued)**

**Changes of Assumptions - Pension**

Measurement Year 2018: The discount rate changed from 8.0% as of August 31, 2017 to a blended rate of 6.907% as of August 31, 2018. The long-term assumed rate of return changed from 8.0% as of August 31, 2017 to 7.25% as of August 31, 2018. Demographic and economic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2017. The total pension liability as of August 31, 2018 was developed using a roll-forward method from the August 31, 2017 valuation.

Measurement Year 2020: The state and employer contribution rate changed from 6.8% to 7.5%. The 1.5% public education employer contribution applied to just employers whose employees were not covered by OASDI in 2019 and it changed in 2020 to apply to all public schools, charter schools and regional education centers irrespective of participation in OASDI.

Measurement Year 2021: The public education employer contribution rate changed from 1.5% in 2020 to 1.6% in 2021.

Measurement Year 2022: The discount rate changed from 7.25% to 7.00%.

**Changes of Assumptions - OPEB**

Measurement Year 2018: The discount rate changed from 3.42% as of August 31, 2017 to 3.69% as of August 31, 2018, updated the health care trend rate assumption, and revised demographic and economic assumptions based on the TRS experience study.

Measurement Year 2019: The discount rate changed from 3.69% as of August 31, 2018 to 2.63% as of August 31, 2019, lowered the participation rates and updated the health care trend rate assumption.

Measurement Year 2020: The discount rate changed from 2.63% as of August 31, 2019 to 2.33% as of August 31, 2020, lowered the participation rate assumption for employees who retire after the age of 65, and lowered the ultimate health care trend rate assumption to reflect the repeal of the excise (Cadillac) tax on high-cost employer health plans.

Measurement Year 2021: The discount rate changed from 2.33% as of August 31, 2020 to 1.95% as of August 31, 2021.

Measurement Year 2022: The discount rate changed from 1.95% as of August 31, 2021 to 3.91% as of August 31, 2022, lowered the participation rates, and updated the healthcare trend rate assumption.

SF1	Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?	Yes
SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year end?	No
SF3	Did the school district make timely payments to the Teacher Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies?  (If the school district was issued a warrant hold and the warrant hold was not cleared within 30 days from the date the warrant hold was issued, the school district is considered <b>to not have made</b> timely payments.) Payments to the TRS and TWC are considered timely if a warrant hold that was issued in connection to the untimely payment was cleared within 30 days from the date the warrant hold was issued.  Payments to the IRS are considered timely if a penalty or delinquent payment notice was cleared within 30 days from the date the notice was issued.	Yes
SF4	Was the school district issued a warrant hold? Even if the issue surrounding the initial warrant hold was resolved and cleared within 30 days, the school district is considered to have been issued a warrant hold.	No
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds?	No
SF6	Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts, and laws related to local, state, or federal funds?	No
SF7	Did the school district post the required financial information on its website in accordance with Government Code, Local Government Code, Texas Education Code, Texas Administrative Code and other statutes, laws and rules that were in effect at the school district's fiscal year end?	Yes
SF8	Did the school board members discuss the school district's property values at a board meeting within 120 days before the school district adopted its budget?	Yes
SF9	Total accumulated accretion on CABs included in government-wide financial statements at fiscal year-end.	\$ -0-

NOTE: This schedule is to be included as part of the annual financial audit report (AFR) submission on the required due date and published as a part of the school district's AFR. This schedule should be submitted in the data feed file and submitted as an Adobe Acrobat portable document file (pdf).

## **FEDERAL AWARDS SECTION**

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Trustees  
Willis Independent School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Willis Independent School District (the “District”), as of and for the year ended August 31, 2023, and the related notes to the financial statements, which collectively comprise District’s basic financial statements, and have issued our report thereon dated January 10, 2024.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

To the Board of Trustees  
Willis Independent School District

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Houston, Texas  
January 10, 2024

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM;  
REPORT ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE**

To the Board of Trustees  
Willis Independent School District

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Program***

We have audited of Willis Independent School District’s (the “District”) compliance with the types of compliance requirements described in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District’s major federal programs for the year ended August 31, 2023. The District’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District’s complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2023.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor’s Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District’s compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District’s federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

To the Board of Trustees  
Willis Independent School District

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Note 1 - Summary of Significant Accounting Policies**

The District accounts for all awards under federal programs in the General and Special Revenue Funds in accordance with the Texas Education Agency's Financial Accountability System Resource Guide. These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Expenditures reported on the Schedule of Expenditures of Federal Awards are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has not elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned. Generally, unused balances are returned to the grantor at the close of specified project periods.

All federal grants are subject to review by the grantor agencies. Any expenditures identified by the grantor agencies as disallowed could require reimbursement to the grantor agency from the District's general fund.

**Note 2 - Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the District under programs of the federal government for the year ended August 31, 2023. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Uniform Guidance. Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

**Note 3 - Reconciliation of Basic Financial Statements**

The following is a reconciliation of expenditures of federal awards per Exhibit K-1 and expenditures reports on Exhibit C-3:

Total expenditures of federal awards per Exhibit K- 1	\$ 14,585,484
