

Welcome to Kindergarten Music

2022-2023 School Year

Welcome to Kindergarten music! It is my pleasure to share my love of music with our kindergarten students. I look forward to singing, dancing, learning and exploring in music class this year.

Each class will have music class once a week for 40 minutes in the music room. Our music room is stocked with instruments and resources to make sure we have fun singing, dancing and playing. When experienced in early childhood, music sets the stage for future performers while providing a social-emotional outlet all while learning new skills in fun ways. In addition, we use a music program called Quaver Music.

Quaver Music is our online music curriculum we use here in Middle Country. It is a fully online comprehensive music curriculum that is both educational and FUN! Students love the characters and songs that are unique to Quaver. For more information, visit <https://www.quavered.com/music/>

Even though we will be in person this year, there will still be a Music Google Classroom that I will be using as a resource. On this page, you will find songs we are learning in music class, interactive games, announcements, and more!

Your Music Google Classroom code for Unity Drive is:

nygrin4

Please feel free to e-mail me with any questions: kvoigt@mccsd.net

See you soon!

Mrs. Voigt
