

Dear Parent and Prospective Student Athletic Trainer,

Thank you for your interest in the Sports Medicine Program at Brownsboro High School. The primary responsibility of the athletic training staff is the care, prevention, treatment and rehabilitation of athletic injuries. Involvement with the Crosby High School Sports Medicine program is a great way to gain valuable medical experience and will be helpful on resumes and college applications.

Student Athletic Trainers are expected to be dedicated to the program. These students play a vital role in the success of Brownsboro High School Athletics. Student Athletic Trainers should develop responsibility, self-confidence and a desire to develop their talents in the field of athletic training. The commitment includes academic excellence. Often, the students who excel academically succeed as Student Athletic Trainers. Student grades and citizenship are monitored every three weeks.

The Student Athletic Trainer position is a major time commitment. All students are required to work football as their main sport and one other additional sport. During the sport seasons, much of the work is after school with some team travel involved. There will also be evening responsibilities and occasional Saturdays, but the experience will be very rewarding. Student Athletic Trainers can earn a letter jacket for their commitment and dedication to Brownsboro High School Athletics.

Your son/daughter will be asked to complete the application which will require the signature of both the student and the parent. This will allow us to check on grades, class conduct, and overall attitude. From this information, we will be able to begin the evaluation process. If selected, your son/daughter will be placed on a short probationary period to see if they meet our expectations and make sure that it meets the student's expectations as well. This job will help them to mature and learn responsibility as well as time management skills. They will be exposed to many new people, places, and experiences. It is our hope that this will be a very enjoyable and rewarding time for your son/daughter.

It is required that the student maintain a "C" average to be involved in the student athletic training program. It is important to us that each student athletic trainer is motivated to do well in the classroom.

If you are interested in the Sports Medicine Program at Brownsboro High School, please complete the application and return it to the Athletic Trainer as soon as possible. Thank you for your interest and we look forward to seeing you soon.
