Semifinalist Candidates Selected

Dear Saint Thomas' Community,

Over the past few weeks, the Search Committee has received applications from 30 outstanding candidates recommended by our consultants at ST Search. After thoroughly reviewing these files and engaging in thoughtful discussions, we identified a strong field of 11 quarterfinalists.

The Committee conducted virtual interviews with these 11 quarterfinalists, asking a series of structured questions aligned with the goals and objectives established for our next Headmaster. Following these interviews and an in-depth review of references provided by our consultants, we selected a group of semifinalists who will be interviewed in person in the coming weeks.

We remain on track to conduct on-campus finalist interviews in September. We are eager to introduce the finalists to our community, showcasing our school and demonstrating how we live our mission.

The Committee is thrilled with the progress of the search process thus far and excited about the depth of talent and experience in our candidate pool. We deeply appreciate the community's support as we approach these final stages and look forward to sharing more updates soon.

Sincerely,

Sam Kegge, Search Committee Chair
