

# CURIS FOGGER SPEC SHEET

## Advanced Bluetooth Technology

Remote operation for start/stop, cycle status, add or subtract time, system interruption, chemical level, fog cycle count down and more

## Weight

36 lbs

## Dimensions

19 3/4 x 13 3/4 x 17 1/4

## Reservoir Capacity

1 gallon(2 hour fog time)

## Rotomould Construction

Durable and tough for long lasting use

## Status Bar Light Indicator

Visual representation of equipment status and disinfection cycle

## Fogging Capability

10,000 cuft<sup>3</sup>

## Droplet Size

7 - 10 Microns

## 10 AMP Circuit Breaker

Protects the CURIS from A/C outlet faults

## Electronically Sequenced A/C Outlet

Powers air scrubber, dehumidifier or air mover

## Power Cord Connection

With integrated fuse. Conveniently located for easy access to a/c power

## Reservoir Door

Lift door to expose reservoir for chemical filling

## Integrated Cooling Fan

Maintains internal housing temperature throughout fogging cycle and after

## Chemical Level Indicator

Lighted to display the chemical level in the reservoir

## Atomizing Precision Nozzle

Dispenses chemical in particle sizes from 7-10 microns producing a dry mist of nano-particulate matter

## Digital Interface Display

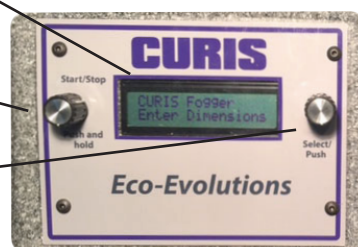

Demonstrates fogger status

## Start / Stop

Starts and interrupts fogging cycle

## Select / Push Knob

Used to accept time and room dimensions

## Easy Grip Handle

## Adjustable Spray Nozzle

Adjustable to desired height for crawl spaces or high ceilings

**TOUCHLESS DISINFECTION MADE EASY**
