

CURRICULUM/INSTRUCTION

Alternative Learning Experience Program

Online Learning

The Online Learning program is an alternative program offered by the Snohomish School District for students in grades 7-12. The program is designed to serve students who need to meet graduation requirements outside of a traditional setting and schedule. Students may work from home or school and are required to come at arranged times to complete tests. Students can take credit retrieval courses or ones that accelerate them through their high school program. This program can be part of their school schedule (six-period day) or beyond the school day for an additional cost. (For more information and additional requirements, see Policy 2024 & Procedures 2024P.)

Credits, records and graduation:

1. Students must meet with their school counselor to determine course need. Registration forms will be completed and signed by student, parents, counselor, and principal and forwarded to the online registrar;
2. Students must complete an orientation before a student can begin the course;
3. Students must maintain weekly contact with their teachers;
4. A student learning plan will be developed by a certificated teacher before the student begins the program. The teacher will evaluate student monthly progress toward goals with evidence of learning;
5. Letter grades will be used for each 0.5 credit earned unless in the case of credit retrieval when a P or F will be used;
6. Student contact and academic records will be maintained by the instructors and placed in student files at the end of each semester.
7. All credits apply toward the course of study leading to graduation from Snohomish High School, Glacier Peak High School, or AIM High School;
8. The registrar will transfer all credits earned and approved by the director to the appropriate resident school registrar at the completion of the semester; and
9. Under special circumstances and approved by the appropriate high school principal, students who complete their credits for graduation while taking courses on-line will receive a Snohomish High School, Glacier Peak High School or AIM High School diploma.
